HOME OF THE SCITUATE-ETRUSCO ASSOCIATES

Although not a municipal building, one of the most useful and attractive additions to Scituate in 1968 was the Scituate-Etrusco Associates building at 1 Common Street.

Located on land donated by the Scituate Housing Authority, the colonial type structure compliments not only the buildings in Wheeler Park for the Elderly, but also the gracious homes in the neighborhood.

It is the first permanent quarters of the associates, who for 12 years have been providing a free loan service of hospital equipment for home use to residents of Scituate and surrounding towns. In addition to storage space for an inventory of thousands of dollars worth of equipment, it has room for repair workshops and meetings.

SEA is privately sponsored, and financed through donations and occasional fund-raising activities. It does not cost local government a cent. It hopes, through continued help of the public, to continue to provide a needed service for many more years.

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF THE TOWN CLERK

ANNUAL TOWN MEETING

March 18, 1968

A legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs was held at the Scituate High School Gymnasium on Monday, the eighteenth day of March, 1968 at 7:00 o'clock P.M. The meeting was called to order by Moderator John J. Delaney, Jr.

The warrant was read by Town Clerk Pauline F. Guivens.

The check list was used. Checkers were: Amy C. Bates, Catherine E. Kennedy, Geraldine L. Kilduff, Catherine E. Levangie, Barbara E. Salvador, Gladys L. Merrill, Daniel J. Queeney, Sr., Elizabeth Y. Robbins, Irene A. Samaras, Dama B. Sherman, Alice S. Torrey and Jeanette Hollis.

Tellers appointed by the Moderator and sworn by the Town Clerk were: Richard S. Tibbetts, Alexander R. Sutton, Edward P. Horne, Erwin A. Nadeau, Theodore E. Deckel, Ralph F. McCarthy, Edmond J. McLevedge, William F. Brennan, Edward F. McHugh, Jr., Roger J. Gardner, Jr., Samuel A. Archibald, Edward S. Rand, Joseph V. Feeley, John E. Bamber, William M. Wade and Hugh Nawn, Jr.

The invocation was given by Rev. Edward J. Sullivan.

ARTICLE 1.

To hear the report of the Selectmen or other Town Officers and Standing Committees, and act thereon.

VOTED: That the reports contained within the town report be accepted as printed. Unanimous vote.

ARTICLE 2.

To choose all the necessary Town Officers other than those elected by ballot, viz: Surveyor of Lumber, Measurer of Wood and Bark, two or more Field Drivers, one Poundkeeper.

VOTED: That the Town appoint the following Town Officers: Surveyor of Lumber and Measurer of Wood and Bark, Russell L. Fish; Field Drivers, Ernest M. Damon and Alden C. Finnie; Pound Keeper, Charles Zimmerman.

TOWN OF SCITUATE ANNUAL REPORT

RESOLUTION

WHEREAS, Catherine D. Weeks has served faithfully and with distinction on the Scituate School Committee from 1964 to 1968, and

WHEREAS, She during these years has exerted leadership in the progress of education in the Town of Scituate, and

WHEREAS, She gave unstintingly of her time and thought to the benefits of the youth of the Town of Scituate,

THEREFORE BE IT RESOLVED that the Town of Scituate attest to the superior manner in which she fulfilled her responsibilities as a member of the Scituate School Committee, and

BE IT FURTHER RESOLVED that a copy of these resolutions be spread on the official records of the Scituate Town Meeting and a copy be sent to Mr. Weeks for his understanding and patience when school business interefered with family procedures.

ARTICLE 3.

To see if the Town will authorize the Board of Public Welfare to contract at their discretion for the support of the Town's poor, or act thereon.

VOTED: Yes

Unanimous vote.

ARTICLE 4.

To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue for the financial years beginning January 1, 1968, and January 1, 1969, in accordance with provisions of General Laws, Chapter 44, Section 4, and to renew any note or notes as may be given for a period of less than one year, in accordance with the provisions of General Laws, Chapter 44, Section 17, or take any other action relative thereto.

VOTED: That the Town authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue for the financial years beginning January 1, 1968 and January 1, 1969, in accordance with provisions of General Laws, Chapter 44, Section 4, and to renew any note or notes as may be given for a period of less than one year, in accordance with the provisions of General Laws, Chapter 44, Section 17.

TOWN OF SCITUATE ANNUAL REPORT

ARTICLE 5.

Will the Town vote to have all the income from the Water Division of the Public Works Department paid to the Town Treasurer, and estimated receipts used by the Assessors in fixing the tax rate for the current year.

VOTED: Yes

Unanimous vote

ARTICLE 6.

To see if the Town will raise and appropriate the sum of \$103,455 to cover the expenses and disbursements of the Retirement System and Pensions for 1968, or act thereon.

VOTED: To raise and appropriate \$103,455.00.

Unanimous vote

ARTICLE 7.

Will the town vote to amend The By-Laws of the Town of Scituate as follows: to add to Section 3 of the rights and duties of The Advisory Committee the following to acted upon separately:

- a.) This printed report shall show in figures the majority-minority votes on the recommendations of the Committee.
and
- b.) The printed report of this Committee's recommendations shall be restricted to the expressions "Recommended" or not "Recommended", and to the exclusion of all other remarks, estimates, or commentary.

VOTED: To indefinitely postpone

ARTICLE 8.

Will the Town vote to raise and appropriate a sum of money to the Reserve Fund or transfer the whole or any part thereof from any available funds or act thereon.

VOTED: To raise and appropriate \$50,000.00

Unanimous vote

ARTICLE 9.

Will the Town raise and appropriate the sum of \$115.10 for the payment of bills of previous years, said payment to be as follows:

TOWN OF SCITUATE ANNUAL REPORT

1966	Bill of Dr. J. E. Joyce	\$18.00
1966	Clinics of Mass. Gen. Hospital	22.00
1967	Massachusetts Gen. Hospital	40.00
1967	Gold Medal Drug Co.	35.10
		\$115.10

VOTED: To raise and appropriate \$115.10.

Unanimous vote

ARTICLE 10.

Will the Town vote to establish salaries and compensations of all elected Town Officers, or act thereon.

VOTED: Selectmen: Chairman \$1,500.00 and legitimate expenses. Other members \$500.00 each and legitimate expenses.

Board of Public Welfare: Chairman \$325.00 and legitimate expenses. Other members \$220.00 each and legitimate expenses. This sum shall include their charges for all services performed by them and either of them.

Assessors: Chairman \$2,350.00 and legitimate expenses. Other members \$2,100.00 each and legitimate expenses.

Town Treasurer - Collector: \$7,250.00 and legitimate expenses. All demand fees accrue to Town.

Town Clerk: \$2,520.00 and legitimate expenses.

Board of Health: Chairman \$400.00 and legitimate expenses. Other members \$200.00 each and legitimate expenses.

ARTICLE 11.

Will the Town approve the recommendation of the Personnel Board to amend the Classification and Salary Plan as follows to be effective January 1, 1968:

Annual rates in this schedule shall be used in computing the pay for all employees whose pay is based on this schedule. Weekly rates are shown here only for convenience - at the annual rate divided by 52.

VOTED: That the Town amend the Classification and Salary Plan by deleting Schedule IV, Classifications P-1 through P-4 thereof and substitute therefor a new Schedule IV, Classification P-1 through P-4 as printed in the Advisory report.

ARTICLE 23.

To see if the Town will vote to amend the Classification and Salary Plan adding to Schedule IV a Schedule IV as follows:

Employees included in Schedule IV working the hours of 4:00 P.M. to 12:00 A.M. to 8:00 A.M. shall be compensated at a rate of 2% over and above the rate of compensation included in Schedule IV of the Classification and Salary Plan, to be effective as of April 1, 1968.

VOTED: To indefinitely postpone.

TOWN OF SCITUATE ANNUAL REPORT

ARTICLE 24.

Will the town vote to amend the Classification and Salary Plan by adding after Section A of Schedule IV thereof the following section to be effective as of January 1, 1968.

(SECTION B)

All officers of the Scituate Police Department who have earned and received semester hours of credit, or their equivalent in quarter hours of credit, in a Law Enforcement Degree Program at an accredited college or university shall receive additional compensation per year at the following rates regardless of their rank:

20 semester hours	\$ 200 per year
40 semester hours	400 per year
60 semester hours	600 per year
80 semester hours	800 per year
100 semester hours	1000 per year
Bachelor's Degree	1500 per year
Master's or Law Degree	2500 per year

Additional rates of compensation shall only be paid as of January 1st of each year for semester hours of credit or their equivalent in quarter hours of credit earned and received as of December 31st of the preceding year.

VOTED: That Schedule IV of the Classification and Salary Plan previously adopted be designated as Schedule IV Section A and that a new Section B to such Schedule be added as set forth in Article 24 in the Advisory Committee printed report of 1968.

drawings for school housing, and to receive bids to be opened and submitted for approval at the next annual or a future Town Meeting.

VOTED: To indefinitely postpone.

RESOLUTION

WHEREAS, a careful study of projected enrollment and school housing needs have been made by the Scituate School Committee, and

WHEREAS, there is need for a new school,

THEREFORE BE IT RESOLVED that the Board of Selectmen is hereby requested to call a Special Town Meeting on Saturday, June 22, 1968, to see if the Town will consider an article requesting the Town to raise and appropriate, or transfer from available funds, a sum of money to purchase or take by eminent domain for school housing purposes a certain parcel of land.

BE IT FURTHER RESOLVED that another article be considered at that same Town Meeting to see if the Town will raise and appropriate, or transfer from available funds, a sum of money for the procurement of plans, specifications and working drawings for school housing, and to receive bids to be opened and submitted for approval at the next annual of a future Town Meeting.

BE IT FURTHER RESOLVED that another article be considered at the same Town Meeting to see if the Town will vote to raise and appropriate, borrow or transfer from available funds sums of money for the purpose of extending the existing sewer system to the new school site in the Town of Scituate and to determine whether the money shall be provided by taxation, by appropriation of available funds in the treasury and by borrowing.

ARTICLE 34.

To see if the Town will raise and appropriate the sum of \$12,950.00 for Scituate to continue as a member of the South Shore Mosquito Control Project, said sum to include the amount which may be assessed against the Town for Mosquito Control (Chapter 112, Acts of 1931) or act thereon.

VOTED: To raise and appropriate \$12,950.00 Unanimous vote.

TOWN OF SCITUATE ANNUAL REPORT

ARTICLE 35.

To see if the Town will raise and appropriate a sum of money for insect control at Musquashicut Pond.

VOTED: To raise and appropriate \$4,500.00.

ARTICLE 36.

To see if the Town will raise and appropriate the sum of money for the purpose of renewing, replacing or extending a fire alarm system for the Town and determine whether the money shall be provided by taxation, by appropriation from available funds in the treasury, by borrowing under the authority of Chapter 44 of the General Laws, or take any action relating thereto.

VOTED: To raise and appropriate \$9,000.00.

ARTICLE 37.

To see if the Town will raise and appropriate or transfer from available funds the sum of \$25,250.00 to purchase or take by eminent domain for the purpose of a Central Fire Station or other municipal usage a parcel of land containing approximately 4 acres on the northerly side of Beaver Dam Road and the easterly side of Tichnor Place in the A-3 Zone which land is shown on a compiled plan, sheet 45 of the Assessors maps.

VOTED: That a site committee be appointed by the Moderator to study available and alternative sites for a Central Fire Station and report to the Town at the next Special Town Meeting.

Yes 282

No 263

ARTICLE 38.

To see if the Town will raise and appropriate or transfer from available funds the sum of \$267,500.00 for the purpose of (1) obtaining plans and specifications, and (2) for construction of a new Central Fire Station.

VOTED: To indefinitely postpone.

ARTICLE 39.

Will the Town vote to amend its by-laws by adding under the heading "Streets and Sidewalks" the following section:

TOWN OF SCITUATE ANNUAL REPORT

Section 8. - Corner Clearance

Within the area formed by the lines of intersecting ways and a line joining points on such lines twenty feet distant from their point of intersection, or in case of a rounded corner, the point of intersection of their tangents, no structure other than a building, and no foliage shall be maintained between a height of three feet and a height of eight feet above the plane through their curb grades.

VOTED: Approved, Sept. 11, 1968 by Elliot Richardson, Att'y General

ARTICLE 40.

To see if the Town will vote to raise and appropriate the sum of \$4,000.00 to modernize and replace old traffic control devices, said sum to be spent in conjunction with \$12,000.00 from the Commonwealth of Massachusetts under the provisions of Chapter 519 of the Acts of 1967 or take any action relating thereto.

VOTED: To raise and appropriate \$4,000.00.

ARTICLE 41.

Will the Town vote to appropriate the sum of \$200,000.00 for the purpose of extending the sewer mains and laterals in the Town of Scituate and to meet said appropriation, the sum of \$25,000.00 be raised by taxation and that the Treasurer with the approval of the Selectmen be authorized to borrow the sum of \$175,000 under the provisions of Clause 1 Section 7 of Chapter 44 of the General Laws and to issue bonds or notes of the Town therefor payable in accordance with the provisions of said Chapter 44 so that the whole loan shall be paid in not more than 20 years from the date of issue of the first bond or note.

VOTED: Yes 401 No 32

ARTICLE 42.

To see if the Town will vote to raise and appropriate, borrow or transfer from available funds sums of money for the purpose of extending the existing sewer system to the new school site in the Town of Scituate and to determine whether the money shall be provided by taxation, by appropriation of available funds in the treasury and by borrowing.

VOTED: To indefinitely postpone.

TOWN OF SCITUATE ANNUAL REPORT

ARTICLE 43.

To see if the Town will authorize the Selection to enter into an agreement with the Public Access Board of the Department of Natural Resources, Commonwealth of Massachusetts, to permit the Board to construct a boat ramp and related parking facilities which will provide public access to the waters within the Town of Scituate. Such agreement shall include an acceptance and police responsibilities on the part of the Town and a statement that the facilities shall be open to the general public on equal terms.

VOTED: Yes

ARTICLE 44.

To see if the Town will assume liability in the manner provided by Section 29 of Chapter 91 of the General Laws, as most recently amended by Chapter 5, Acts of 1955, for all damages that may be incurred by work to be performed by the Department of Public Works of Massachusetts for the improvement, development, maintenance and protection of tidal and non-tidal rivers and streams, harbors, tidewaters, foreshores and shores along public beaches within the jurisdiction of the Town in accordance with Section 11 of Chapter 91 of the General Laws, and authorize the Selectmen to execute and deliver a bond of indemnity therefor to the Commonwealth.

VOTED: Yes

Unanimous vote.

ARTICLE 45.

To see if the Town will vote that a sum of money be raised and appropriated for the purpose of constructing a reservoir and buildings for water treatment, including original equipment therefor, for the purpose of supplementing the Town's water supply, and determine whether the money be provided by taxation, by appropriation from available funds in the treasury, or by borrowing under authority of Section 8 of Chapter 44 of the General Laws, or take any action in relation thereto.

VOTED: That the Town appropriate the sum of \$725,000.00 for the purpose of constructing a reservoir and buildings for water treatment, including original equipment therefor, for the purpose of supplementing the Town's water supply, and to meet said appropriation the Treasurer, with the approval of the Selectmen, be authorized to borrow said sum of \$725,000.00 under the provisions of Section 8 of Chapter 44 of the General Laws and to issue bonds or notes of the Town payable in accordance with the provisions of said Chapter 44.

Yes 532

No 30

TOWN OF SCITUATE ANNUAL REPORT

ARTICLE 46.

Will the Town vote to raise and appropriate the sum of \$8,100.00 for the purpose of laying a six inch main over the Julian Street Bridge as an emergency supply to the Humarock section, together with all appurtenances, or take any action in relation thereto.

VOTED: To raise and appropriate \$8,100.00.

ARTICLE 47.

Will the Town vote to raise and appropriate the sum of \$4,500.00 under the Betterment Act to lay an eight inch water main from River Street on Old Mouth Road (a private way) and install two hydrants, or take any action in relation thereto.

VOTED: To raise and appropriate \$4,500.00.

ARTICLE 48.

Will the Town vote to raise a sum of money to install a large gravity drain from Oceanside Drive near Eighth Avenue to the beach for the purpose of minimizing road and property damage from periodic flooding, said amount to be spent either separately by the Town or in conjunction with any funds made available by Plymouth County, the Commonwealth of Massachusetts, and the Federal Government, or take any action in relation thereto.

VOTED: To raise and appropriate \$10,000.00.

ARTICLE 49.

Will the Town vote to accept the provisions of Chapter 40, Section 6J, of the General Laws as amended which authorizes municipalities to appropriate monies for the purchase of stormy weather work clothes, including rubber boots and other work clothes for its employees.

VOTED: Yes

ARTICLE 50.

To see if the Town will vote to appropriate \$11,796.03 for the permanent construction of Booth Hill Road from Chief Justice Cushing Way southwesterly to and including the intersection with Thomas Clapp Road, Beaver Dam Road from Cudworth Road easterly to Branch Street, and such other street or streets as may be approved by the Selectmen and the State Department of Public Works and

TOWN OF SCITUATE ANNUAL REPORT

to meet said appropriation the sum of \$11,796.03 be transferred from the proceeds received or to be received from the State under provisions of Chapter 616, Acts of 1967, or take any action in relation thereto.

VOTED: Yes

Unanimous vote.

ARTICLE 51.

To see if the Town will vote to raise and appropriate the sum of \$9,000.00 for Chapter 90 Highway Construction to be spent in conjunction with \$9,000.00 from the County of Plymouth and \$18,000.00 from the Commonwealth of Massachusetts on the Driftway Kent Street project, or take any action in relation thereto.

VOTED: To raise and appropriate \$9,000.00.

ARTICLE 52.

To see if the Town will accept the layout of the Selectmen in accordance with a plan on file at the Town Clerk's office making Pin Oak Drive a Town Way.

VOTED: Yes

Unanimous vote.

ARTICLE 53.

Will the Town vote to instruct the Selectmen to proceed toward the acquisition by purchase or taking by eminent domain all rights of way and land of the New Haven Railroad located in the Town of Scituate, for the purpose of highways, parks, recreation or public buildings, contingent upon permission being obtained for such purchase or taking from the Department of Public Utilities of the Commonwealth of Massachusetts and the United States District Court.

VOTED: That the Town appropriate the sum of \$66,000.00 for the purpose of purchasing all rights of way and the land and buildings of the New York, New Haven & Hartford Railroad, located in the Town of Scituate, such purchases or taking to be for the purposes and subject to the contingencies set forth in Article 53; and to meet said appropriation the Town raise and appropriate the sum of \$22,000.00, and that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow the sum of \$44,000.00 under the provisions of Section 7, Chapter 44 of the General Laws, and to issue notes of the Town therefor payable in accordance with the provisions of said Chapter 44.

Yes 289

No 24

TOWN OF SCITUATE ANNUAL REPORT

ARTICLE 54.

Will the Town vote to raise and appropriate or transfer from available funds the sum of \$11,000.00 to provide a sidewalk on the easterly side of Country Way from its intersection with Curtis Street to Arborway Drive, thence on the westerly side from Arborway Drive to Captain Pierce Road, as shown on a plan prepared by the Town Surveyor.

VOTED: To indefinitely postpone.

ARTICLE 55.

To see if the Town will vote to raise and appropriate or transfer from available funds the sum of \$8,000.00 to provide a sidewalk on the southeasterly side of Cudworth Road, from First Parish Road to Elm Street, as shown on a plan prepared by the Town Surveyor.

VOTED: To raise and appropriate \$8,000.00.

ARTICLE 56.

To see if the Town will raise and appropriate or transfer from available funds the sum of \$9,500.00 to purchase or take by eminent domain and also to place a chain link fence around for the purpose of a playground a parcel of land containing approximately five (5) acres on the easterly side of Chief Justice Cushing Highway, in the A-2 Zone, which land is shown on a compiled plan prepared by the Town Surveyor, sheet 53 of the Assessors maps.

VOTED: To raise and appropriate \$4,500.00.

ARTICLE 58.

Will the Town vote to extend Zone "B" in Greenbush be designating as Zone "B" an area bounded on New Street so called contiguous to the present Zone "B" in said Greenbush, containing about 1.2 acres more or less and bounded and described as follows:

TOWN OF SCITUATE ANNUAL REPORT

Northeasterly by land of Kenneth H. Gauley, 540 feet more or less.
Southeasterly by the New York, New Haven and Hartford Railroad
company 90 feet more or less.
Southwesterly by New Street so called 420 feet more or less and
Westerly by Zone "D" (designated as 10.00 feet elevation line above
mean low water mark) 210 feet more or less.

VOTED: Yes

Unanimous vote.

Approved, September 11, 1968 by
Elliot Richardson, Attorney General

ARTICLE 59.

Will the Town vote to amend the Zoning By-Laws of the Town of Scituate as follows:

1. Change Section 3-2a (6) to read: "Federal, State, County or Town agency administration or utility building or public safety facility."
2. Change Section 3-2a (7) to read: "Federal, State, County or Town recreation or water supply use."
3. Change Section 3-2b (11) to read: "Commercial riding academy on a lot containing three acres or more, provided that any building in which horses are housed and any riding ring is not less than fifty feet from side and rear lines and from the exterior line of any Street."
4. Change Section 3-4a (1) to read: "Any of the uses permitted as of right or permissible on appeal in 'B' (General Business) zones, but not subject to any requirement for enclosure or any limitation on floor area therein specified."
5. Change Section 3-7a to read:
 - "a. Required Approval in Business and Commercial Zones
"in a 'B' and 'C' zone, no business or commercial building shall be constructed or externally enlarged, and no business or commercial use shall be expanded in ground area, or established in an existing building not theretofore used for business or commercial purposes, except in conformity with a site plan bearing an endorsement of approval by the Planning Board. Said site plan shall show, among other things, all existing and proposed buildings, structures, parking spaces, driveway openings, driveways, service areas, and other open uses, all facilities for sewage, refuse and other waste disposal, and for surface water drainage, and all landscape features (such as fences, walls, planting areas and walks) on the lot. Any person desiring approval of a site plan under this paragraph shall submit said plan to the Town Building Commissioner, who shall transmit it to the Planning Board within seven (7) days of said submission, and said

TOWN OF SCITUATE ANNUAL REPORT

Board shall take final action thereon within forty-five (45) days of receipt thereof. No building permit shall be issued until said Board has approved the plan. The Board shall have power to modify or amend its approval of a site plan on application of the person owning or leasing the premises, or upon its own motion in the event of changes in physical conditions sufficient to justify such action within the intent of this paragraph. All of the provisions of this paragraph applicable to approval shall, where apt, be applicable to such modification or amendment. Said approval of site plan shall be effective for a period of eighteen (18) months from the date of such approval unless prior to the expiration of such eighteen (18) month period the petitioner makes substantial efforts to build in accordance with the approved site plan.

"In considering a site plan under this paragraph the Planning Board shall assure, to a degree consistent with a reasonable use of the site for the purpose permitted by the regulations of the district in which located:

"(1) Protection of adjoining premises against seriously detrimental or offensive uses on the site.

"(2) Convenience and safety of vehicular and pedestrian movement within the site and in relation to adjacent ways and land.

"(3) Adequacy of the methods of disposal for sewage, refuse and other wastes resulting from the uses permitted on the site, and the methods of drainage for surface water from its parking spaces and driveways.

"(4) A fee of fifteen dollars (\$15.00) to cover advertising costs shall accompany the application for the site plan approval.

"In exercising its jurisdiction under this paragraph, the Board shall conform to all requirements of procedure applicable to a board of appeals when hearing and deciding requests for special permits under Chapter 40A General Laws, including the requirements thereof for public notice and hearing."

6. Change the last sentence of Section 3-8b to read: "in addition, notice shall be given by certified mail to the Chairman of the Conservation Commission and the Chairman of the Planning Board or their designated representatives."

7. Change Section 10 to read: "No automotive type of trailer or camper, whether mobile or immobile, raised on cement blocks or other wise, shall be occupied for living purposes or business purposes within the town; except that such trailers may be used as field offices by architects, engineers or contractors engaged in the construction of public, commercial or charitable buildings or structures or other public works, and, with the approval of the Zoning Board of Appeals by engineers, architects and contractors engaged in other construction

TOWN OF SCITUATE ANNUAL REPORT

provided, however, that such approval shall not be given for periods in excess of six (6) months' duration."

8. Change the section entitled "ZONING BOARD OF APPEALS" to read:

"A Zoning Board of Appeals shall be established and appointed by the Selectmen in accordance with and subject to the provisions of General Laws, Chapter 40A, as amended. Said Board of Appeals shall have all the powers, privileges and duties as provided by law. An Appeal to the Board of Appeals by any person aggrieved by his inability to obtain a permit from an administrative official under the provisions of said Chapter 40A must be taken in writing within fifteen (15) days after notice has been given said person of his failure to obtain the desired permit."

VOTED: Yes

Unanimous vote.

Approved, September 11, 1968 by
Elliot Richardson, Attorney General

ARTICLE 60.

Will the Town vote to change its official Zoning map approved by the Attorney General July 26, 1936, as amended, in such a way that the following addition will be made:

To extend the existing business zone 125 feet, more or less, westerly along the southerly side of Beaver Dam Road; thence running southerly along the property line of Shapazian for a distance of 103.94; thence easterly by land of Westerhoff for a distance of 115 feet to the present zoning line. Above subject property is now owned and being operated as the the "Merrymount House" (Guest House), located at 7 Beaver Dam road.

VOTED: Yes 154

SPECIAL TOWN MEETING

JUNE 24 and 26, 1968

A legal meeting of the inhabitants of the Town of Scituate qualified to vote Elections and Town Affairs was held at the Scituate High School Gymnasium on Monday, the twenty-fourth day of June, 1968 at 8:00 o'clock P. M. The meeting was called to order by Moderator John J. Delaney, Jr.

The warrant was read by Town Clerk Pauline F. Guivens.

The check list was used. Checkers were: Amy C. Bates, Jeanette Hollis, Catherine E. Kennedy, Geraldine L. Kilduff, Claire E. Brady, Gladys L. Merrill, Daniel J. Queeney, Sr., Dorothy W. Stone, Barbara E. Salvadore, Irene A. Samaras, Dama B. Sherman and Anne J. Torrey.

Tellers appointed by the Moderator and sworn by the Town Clerk were: Edmond J. McLevedge, Richard S. Tibbetts, Joseph V. Feeley, Phillips N. Weeks, Theodore E. Deckel, Edward F. McHugh, David Hall, William E. Brennan, Richard H. LaFleur, Donald H. Whittemore, John E. Bamber, Dana G. Mauch and William M. Wade.

The invocation was given by Rev. Raymond A. Low

TOWN OF SCITUATE ANNUAL REPORT

ARTICLE 1

To see if the Town will raise and appropriate or transfer from available funds a sum of money to purchase or take by eminent domain for the purpose of a school site, school playground area, and conservation or other municipal purposes, two [2] parcels of land bounded and described as follows:

PARCEL 1 - Containing 95.84 acres northeasterly by Country Way and land of Yeats, Hendrickson, Fleming, North Scituate Library Association, Donahue, Olsen, James and Mauch; easterly and southerly by Mann Lot Road and by land of Gilbert, Herzog, Ahearn, Locklin and Rogal and by land of Town of Scituate; northwesterly by Chief Justice Cushing Way, and by land of Merritt, Bailey Baxter and Wall and northerly by land of Miles.

PARCEL 2 - Containing 5.82 acres northeasterly by Chief Justice Cushing Way, southwesterly by land of the Town of Scituate, southerly by land of Smith and westerly by Smith and land of Merritt.

The above parcels of land are shown on a plan by Loring H. Jacobs, dated December 15, 1966, owned by Pittsburgh National Bank, Trustee of the Estate of J. Bailey Ellis and filed at Scituate Town Hall in the Engineering Office of the Department of Public Works.

VOTED: Yes 492 No 247 Not a 2/3 vote.
Reconsideration: Yes 441 No 247 Not a 2/3 vote.

ARTICLE 2.

To see if the Town will raise and appropriate or transfer from available funds a sum of money, to purchase or take by eminent domain for school purposes, a certain parcel of land, located on the southeasterly side of Mann Lot Road, containing approximately 2.75 acres, and shown as Parcel 3 on a plan filed at the Scituate Town Hall, Engineering Office, Department of Public Works.

VOTED: To indefinitely postpone.

ARTICLE 3.

To see if the Town will raise and appropriate or transfer from available funds a sum of money to purchase or take by eminent domain for the purpose of a school site and school playground area, seven [7] parcels of land bounded and described as follows:

PARCEL 1 - owned by C. Philip Shannon and recorded in Book 3402, Page 204, containing approximately 22 acres.

TOWN OF SCITUATE ANNUAL REPORT

PARCEL 2 - owned by Anna and Josephine Lamprey and Nellie and Mary Elizabeth Williams, received under Probate No. 81502 and No. 81503, and containing approximately 5 acres.

PARCEL 3 - owned by George S. and Lucy D. DeCosta and recorded in Book 1964, Page 78, and containing approximately 7 acres.

PARCEL 4 - owned by Suburban Land Comapny, and recorded as two [2] one and one-half acre parcels in Book 3409, Page 149, and one [1] six-acre parcel recorded in Book 1956, Page 11, containing in all approximately 9 acres.

PARCEL 5 - owned by Nathaniel and Lydia H. Tilden and recorded as three separate parcels in Book 2442, Page 361, and containing approximately 11 acres.

PARCEL 6 - owned by Robert H. and Caroline H. Tilden, recorded in Book 2442, Page 365, and containing 3.93 acres.

PARCEL 7 - owned by Samuel J. and Virginia Tilden, recorded in Book 2523, Page 29, and containing 2.44 acres.

The above parcels of land contain in all approximately 60 acres and are shown on a compiled plan filed at the Scituate Town Hall in the Engineering office of the Department of Public Works.

VOTED: To indefinitely postpone

ARTICLE 4.

To see if the Town will raise and appropriate or transfer from available funds a sum of money to purchase or take by eminent domain for the purpose of a school site and school playground area, seven [7] parcels of land bounded and described as follows:

PARCEL B - Owned by Harry W. and Lillian Donald filed under Land Court Certificate of Title No. 12248-9 as shown on L. C. Plan No. 12503A and No. 12503E, containing approximately 11.0 acres.

PARCEL C - Owned by the Roman Catholic Archbishop of Boston filed with Land Court Certificate No. 29299 and shown as Lot C on L. C. Plan No. 12503A, containing approximately 5.0 acres.

PARCEL C4 - Owned by the Roman Catholic Archbishop of Boston filed with Land Court Certificate No. 29299 and shown on L. C. Plan No. 12503B, containing 31,189 square feet.

TOWN OF SCITUATE ANNUAL REPORT

PARCEL 39 - Owned by Joseph C. and Grace M. Murray, filed with Land Court Certificate No. 32687 and shown as Lot 39 on L. C. Plan No. 12503H, containing 12716 square feet.

PARCEL 2 - Owned by C. Phillip Shannon, Trustee of Council Rock Estate Trust, which deed is recorded in Book 3402, Page 202 containing approximately 13.60 acres.

PARCEL 6 - Owned by Paul S. Laughlin, filed with Land Court Certificate No. 37360 and shown as Lots, 3, 4, 5, 6, 7, 8 and 9 on L. C. Plan No. 20157B, containing 7.06 acres.

PARCEL 7 - Owned by Ina B. Wilder, which deed is recorded in Book 3220, Page 216, containing approximately 14.0 acres.

The above parcels of land contain in all approximately 52 acres and are shown on a compiled plan filed at the Scituate Town Hall in the Engineering office of the Department of Public Works.

VOTED: To indefinitely postpone.

ARTICLE 5.

To see if the Town will raise and appropriate, borrow, or transfer from available funds sums of money for the purpose of constructing, originally equipping and furnishing an intermediate school building, and to determine whether the money shall be provided by taxation, by appropriation from available funds in the treasury, and by borrowing.

VOTED: No

Unanimous vote.

ARTICLE 6.

To see if the Town will raise and appropriate or transfer from available funds a sum of money for the procurement of Plans, specifications, and working drawings for intermediate school housing, and to receive bids to be opened and submitted for approval at the next annual or a future Town Meeting.

VOTED: To indefinitely postpone.

ARTICLE 7.

To see if the town will vote to raise and appropriate, borrow or transfer from available funds a sum of money for the purpose of purchasing a site and constructing a pumping station, force main and main interceptor as shown on

TOWN OF SCITUATE ANNUAL REPORT

a plan of the proposed sewerage system for the Town of Scituate by Metcalf and Eddy dated February, 1965, and to meet said appropriation a sum of money be raised by taxation and that the Treasurer, with the approval of the Selectmen, be authorized to borrow a sum of money under the provisions of Clause 1 of Section 7 of Chapter 44 of the General Laws and to issue bonds or notes of the town therefor payable in accordance with the provisions of said Chapter 44 so that the whole loan shall be paid in not more than twenty years from the date of issue of the first bond or note.

VOTED: To indefinitely postpone.

ARTICLE 8.

To see if the town will vote to raise and appropriate, borrow or transfer from available funds a sum of money for the purpose of extending the existing sewer system to the new school site in the Tilden Farm Area in the Town of Scituate and to meet said appropriation a sum of money be raised by taxation and that the Treasurer, with the approval of the Selectmen, be authorized to borrow a sum of money under the provisions of Clause 1 of Section 7 of Chapter 44 of the General Laws and to issue bonds or notes of the town therefor payable in accordance with the provisions of said Chapter 44 so that the whole loan shall be paid in not more than twenty years from the date of issue of the first bond or note.

VOTED: To indefinitely postpone.

A RESOLUTION IN MEMORIAL TO LESTER J. GATES

WHEREAS, The Town of Scituate has lost a beloved citizen and official, Lester J. Gates, and

WHEREAS, Lester J. Gates served his Town for many years as a member of the Planning Board, Advisory Committee, School and Public Building Committee, as member and Chairman of the Board of Selectmen and as Representative of Scituate and other Towns in the Great and General Court of the Commonwealth of Massachusetts, and

WHEREAS, The Town wishes to establish a memorial to Lester J. Gates in recognition of his tireless and selfless efforts, his faithful devotion, his vision, determination and able leadership in advancing and encouraging good will among the citizens and good government in the Town of Scituate, and especially in recognition of his love of the youth of Scituate.

TOWN OF SCITUATE ANNUAL REPORT

NOW BE IT RESOLVED, By the Town at its meeting assembled this twenty-fourth day of June, Nineteen Hundred and Sixty-Eight that the next school to be constructed in the Town shall be designated the Lester J. Gates _____ School, and the Town further directs its present and future boards and committees concerned with the construction and dedication of said school that the name of Lester J. Gates shall be prominently inscribed thereon.

ARTICLE 9.

To see if the Town will raise and appropriate or transfer from available funds a sum of money to purchase or take by eminent domain for the purpose of a Central Fire Station and a playground a parcel of land containing approximately four acres on the northerly side of Beaver Dam Road and the easterly side of Tichnor Place in the A-3 Zone which land is shown on a compiled plan, sheet of 45 of the Assessors maps.

VOTED: To indefinitely postpone.

ARTICLE 10.

To see if the Town will raise and appropriate or transfer from available funds the sum of \$25,250 for the purpose of obtaining plans and specifications for the construction of a Central Fire Station and instruct the School & Public Building Committee to execute the intent of this article.

VOTED: To indefinitely postpone.

TOWN OF SCITUATE ANNUAL REPORT

ANNUAL REPORT OF THE BOARD OF SELECTMEN

This past year, 1968, the board welcomed the newly elected member, John D. O'Brien, to replace J. Russell Harper, who retired from membership. It has been a busy and productive year for us, your Board of Selectmen, with the annual town meeting, two special town meetings, and four elections for town, state, and national officials. Our discussions have ranged from the inevitable dog complaints to much more complex problems arising out of an ever increasing population and tax rate.

Paramount in our thoughts has been the need to control advancing taxes which affect all, especially those on fixed income, while at the same time provide the necessary services such as education, water, public health, and safety. This year may find the town receiving less local aid, that is, the amount furnished by the state to the town, based on assessed valuation. A reduction in this aid could have an effect on this year's tax rate.

It is apparent we need additional non-residential taxable property to balance our tax base, and to this end we have asked the Industrial Development Commission to consider the feasibility of attracting light industry to our community. This must be compared with the feasibility of allowing apartments in certain areas of the town.

A group of citizens under Co-chairmen O'Brien and White made a thorough report to the Corps of Army Engineers to obtain additional dredging and overall planning for Scituate Harbor. To this committee we are indebted for their complete effort.

In addition, the Harbor Development Study Committee is making a study to determine the feasibility of either public or private marinas within the town. We commend their efforts and are looking forward to working with them during 1969.

Again this year our warrant proposes the purchase of land on which to construct a school as well as the purchase of land for a new fire station. In a period of rising property prices, the cost of land will certainly increase if purchases are postponed. Your serious consideration should be given to these articles.

In addition, a new pumper for the Fire Department is being requested. This purchase is necessary to supplement our present equipment, much of which is in need of constant repair.

New shellfish by-laws are being presented which will help to preserve and protect our clam flats and help to insure citizens of areas in which to continue clamming, one of many fringe benefits of the town.

TOWN OF SCITUATE ANNUAL REPORT

This past year our lives were saddened by the loss of several men in Vietnam, and we pray that 1969 will find the successful end to this conflict.

In closing may we express our appreciation for the cooperation extended by all citizens, town boards (appointed and elected), and employees.

TOWN OF SCITUATE ANNUAL REPORT

Department of Public Works
Fifth Annual Report

COMMISSIONERS OF PUBLIC WORKS

Richard Damon, Chairman
John D. O'Brien
Murray Snow
Robert H. Tilden
Thomas F. White

SUPERINTENDENT OF PUBLIC WORKS

John E. Bamber

ASSISTANT SUPERINTENDENT AND TOWN SURVEYOR

John F. Caulfield

DIVISION SUPERVISORS

Public Grounds -	John W. Ford
Highway -	Matthew L. Brown
Water -	Frank T. Whittaker

Supplementing Superintendent Bamber's detailed report of the Public Works Department, we would like to mention a few of the problem areas and what steps are being taken to improve them.

Foreshore Protection ---

Scituate has approximately eleven miles of coast line bordered by rock ledge, shingle mounds, marshland, seawalls, rip rap, glacial cliffs, and sand dunes, all except the ledge sections requiring varying amounts of maintenance. The cost of this is borne by the state, county, and town, with the state designing the structure and supervising construction. Our list of projects becomes longer as state and county funds decrease, and the work can progress only in proportion to the available funds.

North Scituate Beach Restoration Program ---

This project was completed two years ago, and subsequent surveys have indicated a shifting movement of the sand. However, the loss carried by the littoral drift in a southerly direction has not been excessive, and the damage to seawalls and Glades Road has been materially reduced.

TOWN OF SCITUATE ANNUAL REPORT

Musquashiat Pond ---

As in previous years the Pond was chemically treated by the state, and with an additional flashboard and the pump, the water level has been maintained at a higher level, helping to reduce the algae and midge problem.

Vandalism ---

Vandalism continues to cost the taxpayers thousands of unnecessary dollars, with street signs, traffic lights, windows, comfort stations, and catch basin covers the prime targets. We do not know the reason for this desecration but suggest anyone with any information should forward same to the Police Department.

Water ---

In hopes of alleviating the critical water supply situation, the townspeople voted practically unanimously to build a dam, reservoir, and treatment plant. It is planned to have this plant in operation early in 1969.

Capital Equipment and Machinery ---

In our five years of operation, practically all equipment has been replaced with more modern machines together with several labor saving units. Today we have two street sweepers, a seven gang lawn mower, brush chipper, roadside tractor mower, etc. Also two additional snow plows and seven sanders instead of three allow us to sand and salt the outlying streets twice as quickly.

Our Employees ---

During the five years of Public Works, the labor complement has not materially changed despite many additional duties, miles of roads, acres of lawn maintenance, sidewalks, etc., however, during 1969 we are asking for an additional five men. Two additional men will be required to operate the Water Treatment Plant and one man for the meter section. One man will be added to both the Highway and Public Grounds Divisions. Our Superintendent, John Bamber, Assistant Superintendent, John Caulfield, and Supervisors, John Ford, Matt Brown, and Frank Whittaker, have all worked many hours in excess of the regular work week in planning and on emergency work. Our sincere thanks to these men, the foremen, and all employees of the department.

COMMISSIONERS OF PUBLIC WORKS

TO THE COMMISSIONERS OF PUBLIC WORKS

Gentlemen:

As of next April the Department of Public Works will have been in operation for five full years in which period much has been accomplished including new methods, purchases of modern equipment and increased additional functional duties. With a growing population, an ever increasing complex of roads, sidewalks, school grounds, recreational programs, etc., it is evident that this will be a continuing trend.

It is with no little concern the Department views its manpower replacement problems. It is becoming increasingly difficult to recruit competent personnel and even more difficult to retain them. During the past year we had five resignations and have two men out on extended sick leaves.

In keeping with our original practice of trading vehicles after 75,000 miles or five years we are planning to trade in and purchase additional equipment for the following Divisions -

HIGHWAY - replace a 1964 Ranch Wagon, a 1962 Trojan Backhoe, a 1964 one-half ton Pickup and a 1964 Mobil 4-Wheel Sweeper. The Fire Department has requested the 1964 - one-half ton Pickup as a Utility truck. the Cement Mixer must be replaced and we intend to purchase a Compacting Machine for use in patching the roads and trench backfilling.

PUBLIC GROUNDS - replace a 1956 Mist Blower and purchase the following new equipment, a one ton Dump Truck to facilitate rubbish pickups, a Ranch Wagon, two additional Mobile Radios for the trucks and an Aerifier. A trailer is being built at the South Shore Vocational School at a cost of materials only.

WATER DIVISION - replace two three quarter ton Pickups (1963 and 1964) and purchase a trailer for the Backhoe and a Van type vehicle for the proposed meter section.

The water supply problem was again with us in 1968. During the summer and fall it was necessary to operate under a water ban to keep the daily

TOWN OF SCITUATE ANNUAL REPORT

consumption at approximately 1,600,000 gallons per day. The Department is very grateful for the cooperation received from the townspeople. A few violators had to be contended with but the complaints were negligible.

This Department could not operate without the cooperation of the Commissioners and its entire personnel to whom I am deeply appreciative. I wish to thank Mr. J. Russell Harper, former chairman of the Commissioners, for his untiring efforts in behalf of Public Works. A word of thanks is also extended to the Police Department for their able assistance.

In accordance with the provisions of Section 69E of Chapter 41 of the General Laws I herewith submit my fifth annual report of the Department.

John E. Bamber
Superintendent

DEPARTMENT OF PUBLIC WORKS

Superintendent's Report

To the Citizens of Scituate:

The Department of Public Works is pleased to submit the fifth annual report of its operations for your perusal and careful consideration. The Department became operative on April 1, 1964 in accordance with the Town's acceptance of Chapter 41 of the General Laws, Sections 69C to 69F, inclusive.

STATE AID PROJECTS - Chapter 90 - Driftway - Kent Street Project. Phase III was constructed late in the Fall thru the cutoff to a point near Greenfield Lane. Cold weather prohibited placing the top course of bituminous concrete paving which will be complete early in 1969. Funds are still being held in escrow and we hope with additional funds to be raised in 1969 this project can soon be completed.

CHAPTER 616 - Acts of 1967 - The Town received \$11,796.03 from the Commonwealth and acting under Article 50 a bituminous concrete surface was applied to Booth Hill Road from the State Highway southwesterly to Thomas Clapp Road and Beaver Dam Road from Cudworth Road easterly to Branch Street. A similar amount will be made available to be expended in 1969.

CHAPTER 91 - Foreshore Protection - Utilizing funds received from the Commonwealth and the County of Plymouth two sections of seawall destroyed in May of 1967 located at the northerly end of Glades Road were rebuilt along with a section of highway. The contract for repairing the 250 foot damaged

TOWN OF SCITUATE ANNUAL REPORT

section of the Surfside Road seawall has been awarded and work should be completed by late spring or early summer.

Under Article 48 of the 1968 Town meeting a sum of \$10,000. was voted to be spent on a gravity drain from Oceanside Drive near Eighth Avenue to the Beach in conjunction with any State or Federal funds made available. Representative Young filed a bill with the House (No. 3159) and as a result the Waterways Division has made a survey and we are hopeful that corrective measures will follow during 1969. This has long been a problem area and we welcome the State's assistance.

SPECIAL PROJECTS - Additional repairs were made to the Lighthouse and the Cudworth house and next year we will recommend completing the necessary repairs to the Lighthouse including a new roof, two window replacements on the northeast side and work on the companionway and light tower.

Under Article 45 of the 1968 Town Meeting the Commissioners awarded contracts to the lowest bidders for the construction of a reservoir and water treatment plant, both of which are on schedule. It may prove necessary to acquire several small parcels of land abutting the reservoir.

An eight inch water pipe was laid to replace a small main at the southerly end of River Street in Humarock, plus two hydrants, to furnish adequate fire protection. This was done under the betterment act with the Town paying 25% of the cost.

The proposed work on the Julian Street Bridge was postponed in order to allow the Bridge Department of the M. D. P. W. to make a complete study and the cost will now be taken from Chapter 90 Funds in conjunction with the Town of Marshfield.

As in 1965, 1966 and 1967 Musquashicut Pond was treated by State personnel using Town purchased chemicals. This is the fourth year of a planned five year program to help alleviate the algae and midge nuisances. The water in the Pond has been kept at a higher level using the pump and flashboards, although we are somewhat governed by the tides.

Again we must call to your attention that the inconveniences caused by sewer pipe installation is not the responsibility of the Department of Public Works. The prime responsibility for keeping the roads safe and passable is that of the contractor.

TOWN OF SCITUATE ANNUAL REPORT

EQUIPMENT - Our replacement of Mobile equipment as well as other major purchases in 1968 were as follows:

- | | |
|---|--|
| 1 - One ton Rack Body Dump Truck | 1 - One and a half ton Platform Body Truck |
| 1 - Tractor (Roadside Mower and Front End Loader) | 1 - Supervisor's Car |
| 1 - Brush Chipper | 1 - Power Wagon 4 Wheel Drive |
| 1 - Tractor Backhoe | 1 - Three-quarter ton Pickup Truck Powers Body |

Several pieces of small equipment replaced.

PURCHASING PROCEDURES - As in the years 1964 thru 1968 all major items were purchased under competitive bidding procedures. The following items were purchased - all Equipment, Bituminous macadam, Road Asphalts, Sand, Gravel, Loam, Rock Salt, Drainage Pipe, Water Pipe, Water Meters, Traffic Paint, Fertilizer, Lime Gasoline and oils, etc. Minor items were purchased after receiving two quotations.

ENGINEERING DIVISION

During 1968 the Town Surveyor was appointed Assistant Superintendent of Public Works by the Commissioners to act in the absence of the Superintendent, to familiarize himself with the duties of the office and to represent the Department at State and County Hearings, etc.

Pin Oak Drive was laid out, plans made and a description drawn for its acceptance as a public way.

The distance added to the highway complex was 1965 feet, equalling 0.37 of a mile.

Engineering services were rendered to projects including those for Town Meeting, lines and grades for sidewalk construction, drainage, easements, etc. Approximately 3,280 feet of drainage was laid out including 19 catch basins. Many other plans, specifications and cost estimates were made for Planning Board projects.

Principal projects completed during 1968 include -

TOWN OF SCITUATE ANNUAL REPORT

- (1) Plans and descriptions for the Kent Street Marsh acquisition under direction of the Conservation Commission.
- (2) Layout, specifications and construction of the Cudworth Road sidewalk (Planning Board).
- (3) Aerial Survey - Assisted flight engineers in the ground control for accuracy of the finished aerial photographs. The photos are now indexed and ready for use by the several Town Departments requiring them.
- (4) Completed Code System for use on the Assessors Survey Sheets.
- (5) Laid out areas at Egypt and Cole Parkway for plantings in conjunction with the Beautification Committee.
- (6) Laid out Dyke to hold fill in the Bailey's Causeway Parking Area.
- (7) Made plans and wrote descriptions for four easements to the Town of Scituate.
- (8) Engineering services were given to all Town Departments requiring same.

Mr. Caulfield attended practically all of the Planning Board meetings throughout the year. We were sorry to lose the services of Peter McCarthy, assistant engineer to Mr. Caulfield after a brief stay of six months. The Engineering Division is also finding it most difficult to hold personnel.

PUBLIC GROUNDS DIVISION

With near normal rainfall during the spring and summer the return of turf, shrubs and trees to their natural state was very gratifying. Also the lack of high winds and hurricanes was appreciated.

Due to a low water table the tree planting program was still curtailed, however, 20 maples of different types were planted on the roadsides. The division had to remove 74 dead trees and trim 130 of dead and broken limbs. Sixty-four diseased Dutch Elm trees were removed, after verification from the Shade Tree Laboratories at the University of Massachusetts that the Dutch Elm disease was present in the samples submitted. We in Scituate and other towns throughout the State are deeply appreciative of this service rendered by dedicated tree personnel. The brush chipper purchased this year has worked out to expectations and is serving a two-fold purpose -

TOWN OF SCITUATE ANNUAL REPORT

getting rid of brush and twigs without burning and furnishing us with wood chips for the numerous School and Town Hall shrub beds.

No new insect problem presented itself, but the tent caterpillars are slowly making new inroads again. Spraying was done as usual for the elm tree bark and leaf beetles, the birch leaf minor and the willow beetle along with roadside poison ivy, ragweed and insects. Special spraying was performed for charitable groups having outdoor affairs in town, i. e. - Arts Festival, Kiwanis Club, etc. Our long time standby D. D. T. can no longer be used.

As in previous years after the trees have been taken down the statues are left until the equipment is available for changing over to remove same. All trees and branches in or near the Brockton Edison Company wires are removed by and at the Brockton Edison Company's expense. We find them very cooperative under all circumstances even in the predawn hours.

Carl Chessia attended the Turf Conference and Walter Stone attended the Shade Tree Conference both held at the University of Massachusetts and both returned with new ideas and methods for improving their division. The division now has five men with licenses to spray pesticides and three with supervisors licenses.

The mowing complex with each additional school building is becoming greater and this means additional fertilizer, weed killers, cleaning up, etc. Without the seven-gang mower many areas could not be kept down and appear as well as they do.

Rubbish collections are taking considerably more time than ever due to the additional barrels placed and their continued mis-use. The intent of these containers is for travel trash only. Please do not use them for general dumping.

The Lifeguards did their usual fine job and many saves were treated as "just in a days work". One additional guard was added during 1968. The Department received many letters of commendation. The Tennis Program was again a success and each year more and more children take part. The tournament played the final week, for which the winners and runners-up in three divisions received trophies, was extremely popular.

The maintenance of several public buildings included the following. Practically all comfort stations, new front doors on the G. A. R. Hall, etc., layout and new driveway at Cudworth Cemetery, new fence at Junior High Tennis Courts, painting High School Bleachers.

TOWN OF SCITUATE ANNUAL REPORT

In addition work including plantings, etc. was performed in cooperation with the Beautification Committee, weed spraying at the new sewerage plant and operating the flashboards at Musquashicut Pond.

WATER DIVISION REPORT

During the year 1968, 700' of 8" transite water pipe and two hydrants were installed on Old Mouth Road in Humarock under the betterment act. The addition of these two fire hydrants will now bring the homes in this area within the required distance to insure a fair insurance rate.

The meter program has progressed to the extent that 85% of the Town is now metered, and with over 5,000 meters now in service it is time to start planning for a Meter Department. With more and more of our revenue coming from meters, it is a must that we have the necessary facilities to test and make the proper repairs.

We are now installing the remote reading meters which eliminate call-backs and leaving of postal cards to be filled out, and omits one more chance of human error in figuring water bills. Readings from the new meters can also be recorded on tapes and sent to a computer for billing, if sometime in the future it becomes feasible.

Ground was broken in April 1968 for the construction of a dam, reservoir and water treatment plant in the Greenbush area of Scituate, as voted at the annual Town Meeting in March. When completed and in operation, this will add to our present pumping capacity an additional 1,500,000 gallons per day, and eliminate the necessity of a total water ban. If present progress is maintained and no unforeseen delays occur, the treatment plant should be completed and in operation by late spring or early summer.

The Plymouth County Water Superintendents' Association sponsored a Water Works School to meet the growing need for qualified water department personnel, particularly treatment plant operators. Frank Whittaker, supervisor of our Water Division and present President of the Association, had the privilege of serving on the school committee as its secretary. A ten-week course included lectures and field trips to Weymouth and Somerset pumping stations. The lectures covered such fields as chemistry, water bacteriology, valves, controls, types of fittings, storage and distribution, standby power, and chemical feeders.

Among the 40 students who received certificates at the end of a review session at the Lakeville offices of the State Department of Public Health were

TOWN OF SCITUATE ANNUAL REPORT

Frank Whittaker, Supervisor, Walter Allen, foreman, and Hollis Young, pumping station operator of the Water Division. These men are to be congratulated for giving up a night a week for ten weeks so they might acquire a little more knowledge in order to better serve the citizens of Scituate.

The addition of the water treatment plant to our operating budget results in an increase of approximately 20%. In order to absorb this increase it would be necessary to adjust the water rates, and not affect an already top heavy tax rate. Since the present water rates have not been adjusted for a period of over twenty-five years, I would recommend that a study of the rates be made in 1969 and the necessary adjustments be made to raise the revenue needed for this increase of operational cost.

A detailed table of accomplishments follows this report.

WATER MAINS LAID IN SCITUATE 1968

Border Street	6"	250'	\$ 1,257.50
Murphy Lane	6"	410'	2,090.30
Ticknor Place	6"	450'	2,269.70

No. of active services	5916	
No. of meters in use	5028	

PLANT OPERATOR REPORT 1968

Total Water Pumped into Distribution System	518,265,000 gals.
Total KWH used	777,665 KWH
Total Cost of Electric Power	\$15,947.56
Total Cost of Plant Operation	\$24,147.35
Cost per Million Gallons	\$46.59
Average Cost per KWH	.0205
Average Number of Gallons per KWH	666 Gal. per KWH
Precipitation in 1968 - SCITUATE	41.39 inches
Precipitation, normal - SCITUATE	40.61 inches
Maximum pumpage in one day, July 8, 1968	2,211,000 gals.
Maximum pumpage in one week, July 12-18, 1968	13,947,000 gals.
Average Dynamic Head, Greenbush Office	75.5 lbs.
Cost of Treatment with Sodium Fluoride	\$1,806.88
Water Purchased from Marshfield for Humarock Section	35,067,698 gals.
Total Cost of Water Purchased from Marshfield	\$5,740.15

HIGHWAY DIVISION

The Highway Division during 1968 applied a bituminous pavement to that part of Booth Hill Road from Route 3A to Clapp Road. Also, a section of Beaver Dam Road from Cudworth Road to Branch Street utilizing funds allocated to the Town under Chapter 616 of the Act of 1967.

DRAINAGE - Approximately 3,280 feet of drainage was installed to line and grade including 19 catch basins. As previously reported we are pleased that State Aid for the Sixth Avenue to Eighth Avenue area at Oceanside Drive received a favorable report from the Legislature due to the combined efforts of the Selectmen and our legislators. We are deeply grateful to both Senator Weeks and Representative Young for their help. With the Town's \$10,000. supplemented by State Funds it is hoped that the serious flooding problem and property damage may be materially reduced.

TOWN OF SCITUATE ANNUAL REPORT

STREET SWEEPERS - During 1968 all roads in Scituate were swept several times by our two mobile highway sweepers. We find this equipment to have the highest maintenance cost of all our equipment. This is undoubtedly due to the nature of the work it performs.

CATCH BASIN CLEANING - With an ever increasing drainage system including many additional catch basins, the Town is not too far away from being justified in requesting the purchase of an eductor or mechanical catch basin cleaner.

STREET LINE PAINTING - Safety Lines - 690 gallons of white and 340 gallons of yellow reflectorized traffic paint covering about 53 miles were applied to Scituate Highways by outside contractors. We have increased the use of double yellow center markings and the single white outboard line to designate the edges of the pavement. Additional street lights have also been installed to assist in reducing accidents. During 1968 we returned to the use of green paint for crosswalks at the request of the Chamber of Commerce who in turn donated \$100. toward the cost of the paint.

TRAFFIC LIGHTS AND SIGNS - All signs, excepting special purpose signs, are now being made on our sign face applicator at a savings of approximately 33%. Vandalism continues to be very high however. The Department is experiencing considerable trouble in obtaining replacement parts for Traffic Lights necessitating long delays of proper operation. The Town will soon have to replace much of this obsolete equipment.

STREET RESUFACING - About 25 miles of secondary roads received asphalt and sand treatment using approximately 70,300 gallons of asphalt, together with about 1,200 tons of bituminous patching material for shoulder and hole patching. Additional work has been done on clearing brooks, culverts and repairs to guard rails including painting.

BRIDGES - The Julian Street Bridge will be repaired under Chapter 90 and the plan for replacement of Edward Foster Road Bridge in the not too distant future should be made. The superstructure of this concrete bridge is rapidly deteriorating to the point that temporary repairs will be impossible.

Respectfully submitted,

JOHN E. BAMBER
Superintendent

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF THE PERSONNEL BOARD

Board of Selectmen
Scituate, Massachusetts

Gentlemen:

Nineteen hundred and sixty-eight has been a very busy year for the Personnel Board. The regular business of the Board occupied twenty-nine (29) meetings during which step increases, re-classifications, medical examinations, holidays and sick leaves were discussed and acted upon in accordance with the Salary and Classification Plan of the Town.

Bargaining Sessions with the Laborers Union, which represents employees of the Department of Public Works, Fire Fighters Union and the Police Salary Committee have, to the date of this writing, required twelve (12) meetings. Preparations for these sessions have occupied several additional meetings.

Three avenues of weakness still exist:-

First: The lack of communication that still exists among the various Boards of the Town...

Second: The Board has not been able to, successfully, make known to the Town that area which the Board oversees. We do not establish wages. We recommend to the Town what we believe is fair compensation for services received by the Town, based upon what other towns with similar characteristics, such as; geography, population and tax base, are giving workers performing similar services. Once the Town has acted, whether in accordance with the Personnel Board's recommendation or not, it then is the Board's function to oversee the carrying out of the mandate of the Town.

Third: The third area is probably the most sensitive. The MUNICIPAL EMPLOYEE RELATIONS ACT has created a completely new "modus operandi" with which your Personnel Board has had to familiarize itself. Considering the lack of established precedent to so many questions in this area, we look back with just a touch of pride on the fact that we have kept the Town out of the Courts and, with one unfortunate exception, free from any charges. In this one case where a charge was brought, it was subsequently dismissed by the State Labor Relations Commission...

TOWN OF SCITUATE ANNUAL REPORT

We would like, at this time, to acknowledge the many hours of unrecognized work by two (2) Labor Attorneys who volunteered their time and knowledge to the Town without remuneration, acting in the capacity of legal advisors to the Personnel Board. The Town owes a sincere vote of thanks to Messrs. Henry M. Kelliher and Paul J. Kingston. They saved the Town money directly in legal fees and, indirectly by guiding the Personnel Board in its negotiation processes away from the pitfalls commonly encountered in labor management relations. We have, however, provided for legal fees in our annual budget request, in the event attorneys services are required in excess of what might reasonably be expected on a volunteer basis.

Respectfully submitted,

Norman Croan, Chairman

TOWN OF SCITUATE ANNUAL REPORT

SYNOPSIS OF REPORT TO THE PLANNING BOARD BY THE SCITUATE HARBOR DEVELOPMENT STUDY COMMITTEE

On October 29, 1968 the Planning Board appointed an eleven member committee to determine whether or not planning for public or private marinas would be beneficial to the Town of Scituate.

After ten weeks of study of available materials, and personal investigations made by committee members of fourteen privately - and eight publicly-operated marinas in the Cape Cod area at their own expense, the Committee reached the following conclusions:

"It is the opinion of this committee that planning for the further development and administration of marine facilities is necessary and desirable, and to this end a permanent committee should be established by competent authority to determine the needs of persons and parties already engaged in marine operations in the town and the needs of the public who are excluded from the use of the harbor because of the shortage of facilities.

"This committee should be especially empowered to determine what publicly assisted projects or other governmental action in the Town of Scituate may be desirable to meet these needs and determine the nature, location, and estimated costs of the projects, and investigate whatever state and federal support may be available or desirable."

Respectfully submitted,

TIMOTHY J. McGOWAN, Chairman

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF THE
FIRE DEPARTMENT

Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

I submit herewith the annual report of the Fire Department for the year ending December 31, 1968.

Box Alarms:

Fires	57	
False	22	
Mutual Aid	<u>16</u>	
Total Box Alarms		95

Still Alarms:

Accidents	18	
Automobiles	11	
First Aid & Rescue	268	
Grass & Brush	179	
Heating systems	37	
Miscellaneous	551	
Rubbish	<u>27</u>	
Total Still Alarms		1,091

Total Alarms For Year 1,186

During the year, the Department lost five members due to various reasons and causes. On January 31st, Walter S. Foster, for many years stationed at Engine #2, Minot Beach, retired after 25 years service. He was appointed a permanent Fire Fighter on July 10, 1943 but was a regular Callman for several years previous to that. Robert E. Sternfelt, who was appointed a permanent Fire Fighter on May 6, 1954 and resigned on January 27, 1968 and James E. Breen, who was appointed a permanent Fire Fighter on January 29, 1962 and resigned on March 18, 1968, both left for the same reason; to be associated with a family business. The Department was saddened by the deaths of two of its members during the year. On September 1st, Fire Fighter Robert D. Minehan (appointed December 9, 1963) lost his life in an automobile accident. Fire Fighter Francis W. Stanley (appointed July 18, 1946) passed away after a brief illness on October 3, 1968.

TOWN OF SCITUATE ANNUAL REPORT

Four new appointments were made during the year to fill the existing vacancies. On February 19, 1968, Norman P. Duffy and Robert L. Quinlan were appointed as permanent Fire Fighters. Jerome P. Minehan, Jr., a former member, was re-appointed as a premanent Fire Fighter on May 20, 1968 and Charles W. Curran, Jr. was made a permanent Fire Fighter on September 30, 1968.

At the present time Station #2 (Humarock Beach) and Station #3 (Scituate Center) are in good repair. However, the station at Minot Beach (Station #4) needs repairs, some of which are major repairs, and a new station for that area should be considered very soon. Maintenance costs are increasing each year. As was brought to the attention of the residents last year, Station #1 (Scituate Harbor) also needs to be replaced. Efforts were made during the year to accomplish this but they were turned down. Let us hope something can be done to correct these conditions before the situation becomes even more serious.

For the most part the apparatus and equipment of the department is in good condition. The new Rescue Truck was delivered to the Town during August and was place in service by Labor Day. The new Fire Alarm Repair Truck, voted at the annual Town Meeting, is now in service also. A new 1,000 G.P.M. pumping engine will be requested in 1969 to replace one of the 1947 American LaFrance 750 G.P.M. pumping engines. New mobile radios were installed on two trucks and a new base station radio was purchased for the Fire Alarm Office.

May I again thank our neighboring departments and the officials and other departments of the Town for their assistance and cooperation during the past year.

Respectfully submitted,

Charles W. Curran
Chief of Department

TOWN OF SCITUATE ANNUAL REPORT
REPORT OF THE SHELLFISH CONSTABLE

Board of Selectmen
Town Hall,
Scituate, Mass.

Gentlemen:

The revenue received by the town of Scituate from their shellfish program for the year 1968 amounted to \$ 2,358.00.

This amount was \$ 191.00 more than the previous year and an all time record in receipts for this department, and in spite of what you may have heard, Scituate still has a tremendous setting of seed clams in their shellfish areas, and there is a setting of Oysters flourishing in one area of our town.

During the past year your board of Selectmen felt that good administration dictated that the position of Shellfish Constable and Harbor Master should not be held by one person, and voted to appoint a new Shellfish Constable to carry on.

At this time I wish the new Shellfish Constable every success in his appointment, he now has a setting of Oysters to care for, plus an alltime record of receipts to keep at a high level.

Sincerely,

Ralph F. McCarthy
Shellfish Constable

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF THE HARBOR MASTER

Board of Selectmen
Town Hall,
Scituate, Mass.

Gentlemen:

During the year 1968, the town of Scituate received in revenue from Scituate Harbor the amount of \$ 5,438.00 as of December 27, 1968. This is an increase of nearly two thousand dollars over the previous year of 1967.

The town now maintains twenty-three slips which it rents each season, also spaces available for tender tie ups for the local and visiting boatmen. The harbor still lacks amny of the facilities needed to care for the boating public using our harbor. Our present Town Pier is inadequate to meet the demands of the many people using it. At present a study is in progress by the U.S. Army Engineers, also again this year a bill was re-introduced in our state legislature for dredging of the harbor. To date this office has no information as to the progress of either project.

During the past year the Planning Board appointed a Harbor Study Committee to search out the needs of our harbor, and to report their findings with certain recommendations. I feel that this is a huge step in the right direction, for we cannot delay any further if we are to keep pace with the huge surge of boating that New England is enjoying.

In conclusion, I can only add that the way has now been shown how to receive revenue from a harbor, and by careful development the revenue can broaden our tax base to ease the taxpayer. The only thing we have to fear at this point is inactivity.

Sincerely,

Ralph F. McCarthy, Harbor Master

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF PROGRESS FOR 1968

In March of 1968, the Town of Scituate voted to raise the sum of \$200,000 for extending the sewer system. Contract 68-1 was let to the construction firm of Donahue and Flaherty on November 8, 1968 to install the sewers as planned up to the limit of the money appropriated. (Approximately 20% less than the total bid costs of the contract.) The completion of these planned sewer installations will be finished on appropriation by the town of additional funds to complete the contract.

Assessments have been levied on the property owners who now abut the installed sewers. These assessments have been recorded at the Registry of Deeds in Plymouth.

The Operators and Operator Trainee have attended schools at Topsfield and Syracuse University - taking courses on Sewage Treatment, Plant Management and Laboratory Procedures.

172 sewer connections out of a possible 380 have been installed during the past year. Legal action is being brought against property owners who are considered in violation of our Rules and Regulations in order to enforce compliance and connecting to the system.

Respectfully submitted,

BOARD OF SEWER COMMISSIONERS

John P. Desmond, Chairman
Everett L. Crowell
Robert E. Doyle

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF THE TOWN FOREST COMMITTEE

To The Honorable Board Of Selectmen
Town Hall
Scituate, Mass.

Gnetlemen:

This year of 1968 has been a good one for our forests, for we have had sufficient rainfall, no high winds or hurricanes, floods or fires.

Our two forests are located, one on the corner of Mann Lot Road and Chief Justice Cushing Highway and the other, the Pincin Hill Forest, at the junction of Maple and Grove Streets. Each contains 28 acres of woodland, with stands of pine and hardwood trees. They have a few miles of gravel drives for fire protection and for those people who care to walk there. Each forest has a fireplace and rubbish containers that are emptied three times weekly. At the park under the large pine trees at the Pincin Hill forest there are picnic tables and benches and a water fountain from May 1st until freezing weather.

The Girl Scouts had their annual summer camp at the Pincin Hill forest. Some Boy Scout troops had weekend camp there as well as the many people who have cookouts.

All dead limbs have been cut and removed from the trees in the park and picnic areas, underbrush cut and removed and all fire lanes kept clear. We have sprayed for fly and insect control as well as all poison ivy found growing.

These forests are yours to use and enjoy. Please be careful of fires.

Respectfully submitted,

Harriet E. Ladd
Ebba H. Damon
John W. Ford

TOWN OF SCITUATE ANNUAL REPORT
REPORT OF THE DIRECTOR OF ACCOUNTS

To the Board of Selectmen
Mr. Richard Damon, Chairman
Scituate, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Scituate for the period from June 11, 1965 to May 22, 1968, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. William Schwartz, Assistant Chief of Bureau.

Very truly yours,

Arthur H. MacKinnon
Director of Accounts

Mr. Arthur H. MacKinnon
Director of Accounts
Department of Corporations and Taxation
Boston, Massachusetts

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Scituate for the period from June 11, 1965, the date of the previous examination, to May 22, 1968, and submit the following report thereon:

The records of the financial transactions of the town, as shown on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined and checked with the records of the town comptroller and the town treasurer for the period of the audit.

The books and accounts in the office of the town comptroller were examined and checked. The receipts, as recorded, were checked with the records of the departments making payments to the treasurer and with the treasurer's books, while the payments were checked with the treasury warrants approved by the selectmen and with the treasurer's cash book. The appropriations, transfers, and loan authorization were checked with the town clerk's records of town meetings, and the transfers from the reserve fund were checked with the records of the advisory board.

The comptroller's ledgers were analyzed, the necessary adjusting entries resulting from the audit of the several departments were made, and a balance

TOWN OF SCITUATE ANNUAL REPORT

sheet, which is appended to this report, was prepared showing the financial condition of the town on May 22, 1968.

The books and accounts of the town treasurer were examined and checked. The recorded receipts were compared with the records of the several departments collecting money for the town, with other sources from which the town received money, and with the comptroller's books, while the recorded payments were checked with the approved warrants authorizing the disbursement of town funds and with the comptroller's books. The cash balance on May 22, 1968 was proved by actual count of cash in the office, by reconciliation of the bank balances with statements furnished by the banks of deposit, and by inspection and certification of the savings bank books.

The transactions of the trust and investment funds in the custody of the town treasurer and trustees were verified, the savings bank books and securities representing the investment of these funds being examined and listed.

The recorded payments on account of maturing debt and interest were checked with the amounts falling due and with the cancelled securities on file. The amount of debt and interest unpaid was listed and reconciled with the balance as shown by a statement furnished by the bank of deposit.

The records of payroll deductions for Federal and State taxes, the county retirement system, group insurance, and union dues were examined and checked, the payments to the proper agencies being verified.

The records of tax titles and tax possessions held by the town were examined and checked in detail. The taxes and water liens transferred to the tax title account were compared with the town collector's books, the redemptions and sales of tax possessions were checked with the treasurer's recorded receipts, and the tax titles and tax possessions on hand were listed, reconciled with the comptroller's ledger, and checked with the records at the Registry of Deeds.

Attention is called to the provisions of Section 63A, Chapter 44, General Laws, which requires the collection of a pro-forma tax on sales of tax possessions computed from the date of the sale to December 31 of the year in which the sale is made.

The books and accounts of the town collector were examined and checked. The taxes, excise, assessments, special taxes, and water liens outstanding at the time of the previous examination, as well as all subsequent commitments, were audited and proved. The recorded collections were compared with the payments to the treasurer, the recorded abatements were proved with the assessors' records of abatements granted, the transfers to the tax title account were checked with the records of tax titles held by the town, and the outstanding accounts were

TOWN OF SCITUATE ANNUAL REPORT

listed and reconciled with the comptroller's ledger.

The commitments of departmental and water accounts receivable were examined and checked. The recorded collections were proved with the payments to the treasurer, the abatements as recorded were compared with the departmental records of abatements granted, and the outstanding accounts were listed and reconciled with the controlling ledger accounts.

It is again recommended that action be taken to secure prompt settlement of the delinquent tax, motor vehicle excise and special assessments dating back to 1962.

The outstanding tax, excise, assessment, departmental, and water accounts were further verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

The records of guarantee deposits were examined. The refunds were checked and the deposits on hand were listed and reconciled with the town comptroller's ledger.

The financial records of the town clerk were examined and checked. The collections on account of dog and sporting licenses, as well as miscellaneous receipts, were verified and compared with the payments to the State and to the town treasurer.

The surety bonds filed by the town officials who are required by law to furnish them were examined and found to be in proper form.

The records of licenses and permits issued by the selectmen, the building, wire, plumbing, and gas inspectors, as well as by the police and health departments, were checked, and the payments to the treasurer were verified.

The available records of departmental cash collections by the sealer of weights and measures, as well as by the school and all other departments in which money was collected for the town, were examined and checked. The payments to the treasurer were verified and the cash on hand in the several departments was proved.

The records pertaining to shellfish permits issued and fees collected were examined and checked, in which connection it is recommended that the shellfish warden keep a record of fees collected and that such fees be paid to the town treasurer at least monthly.

It was noted that payments had been made by the athletic director out of receipts from athletic activities, in which connection attention is directed to Chapter 41,

TOWN OF SCITUATE ANNUAL REPORT

Section 35, of the General Laws, the provisions of which, in part, are as follows:
" . . . No other person shall pay any bill of any department . . . "

It is recommended that all departmental receipts be paid into the town treasury once a month or oftener, and that all of the various departments keep a detailed cash book record of receipts from the various sources.

The audit of the receipts of the public welfare department relative to reimbursements for aid rendered was extended to August 21, 1968 as the result of irregularities which necessitated a detailed check of this department's financial transactions.

The payments of record by the district court probation officer, in addition to other payments made to the welfare department, were compared with the departmental and town treasurer's records. This comparison showed that an accounting had not been made for checks, payable to the town aggregating \$14,598.40, such checks having been cashed at a local bank.

The final reconciliation of the welfare department's receipts and disbursements shows a discrepancy due from this department in the sum of \$13,180.40 as of May 22, 1968. This discrepancy was increased to \$13,180.40 as of June 30, 1968, at which time the operation of the town welfare department was taken over by the Commonwealth. There were further discrepancies between July 1 and August 21 in the net amount of \$750.00, as shown on an accompanying table.

There are appended to this report, in addition to the balance sheet, tables showing a reconciliation of the treasurer's cash, summaries of the tax, excise, assessment, tax title, tax possession, departmental, and water accounts, together with schedules showing the condition and transactions of the trust and investment funds.

During the progress of the audit cooperation was received from all the town officials, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

WILLAIM SCHWARTZ
Assistant Chief of Bureau

(NOTE: For details see report on file at the office of the Comptroller.)

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF THE DIRECTOR

OF VETERANS' SERVICES AND VETERANS' AGENT

To the Honorable Board of Selectmen and
the Citizens of Scituate

During the year of 1968 we have again experienced an escalation of hospital and medical care costs of our veterans who have been in financial need. Every federal program granting such aid was fully taken advantage of, thereby reducing our direct costs to a minimum.

The services of this department provided the following benefits to our needy veterans:

Social Security Approvals	42
Veterans Administration Pension & Compensation cases approved	31
VA Insurance cases approved	8
VA Hospital admittances	28
Aid & Attendance increases in Pensions by VA	14
New Veterans' Aid applications for assistance by Town and State	52
Nursing Home cases	8
Medicaid applications	39
Vietnam Bonus applications processed	250

This is only a major part of our program. There are other matters involving State Mental Hospitals, guardianships, and other court cases.

I do express my sincere thanks to all the veterans Organizations in Scituate, Church Groups, our Scituate Red Cross Chapter, also our Fire and Police Departments for their splendid assistance during the past year.

To each member of the Board of Selectmen I express my thanks for his understanding and personal assistance in the discharge of my duties.

TOWN OF SCITUATE ANNUAL REPORT

All this adds up to a greater contribution to the financial assistance to our needy veterans.

Respectfully submitted,

KEVIN B. DWYER
Director of Veterans' Services and
Veterans' Agent

REPORT OF CUSTODIAN OF VETERANS' GRAVES

To the Honorable Board of Selectmen
and the Citizens of Scituate

Inspections of all veterans' graves were made in each cemetery during the past year. All veterans' graves are well cared for and the superintendents of each cemetery are worthy of our commendation for such care.

Unfortunately, during the year 1968 there was a repetition of vandalism committed in our cemeteries destroying and defacing monuments and graves of veterans and other citizens buried therein. The selectmen did offer a reward of \$200.00 leading to the arrest and conviction of those persons responsible for such vandalism.

It is discouraging to each citizen of the town when he reads of such wanton display of disrespect to our veterans' graves. It is worthwhile to consider a course of instruction be initiated in the primary schools of Scituate whereby the youth of the town will understand that actions of this type are not consistent with democracy. If we had no veterans' graves, we would have no freedom. These are the men who made sacrifices and these are the men who should always be honored for such sacrifices.

A 12x18 inch American Flag was placed in each bronze marker on every veteran's grave on Memorial Day and Veterans' Day. Installation of flat grave markers were made on each veteran's grave when requested by the surviving relative of the deceased veteran.

The decoration of graves in separate cemetery plots was attended to on Memorial Day.

Respectfully submitted,

KEVIN B. DWYER, Supervisor
Care of Veterans' Graves

TOWN OF SCITUATE ANNUAL REPORT
SOUTH SHORE MOSQUITO CONTROL PROJECT

To the Citizens within the Project's control:

Submitted herewith is the report of the South Shore Mosquito Control Project's activities for the year November 1, 1967 to October 31, 1968.

The Project is a year round cooperative effort embracing the City of Quincy and Towns of Braintree, Cohasset, Duxbury, Hingham, Hull, Marshfield, Norwell, Scituate and Weymouth, covering a total area of 172.21 square miles serving a population in excess of 223,000.

The Project is authorized and acts under provisions of Massachusetts General Laws, Chapter 252, Section 59, mosquito control provisions, and Chapter 112, Acts of 1931, pertaining to ditch maintenance of the salt marshes.

The Project continued to base its program on a three-phase mosquito reduction operation: Mosquito Source Reduction, Mosquito Larval Reduction and Mosquito Adult Reduction, giving priority in this order.

1. Source Reduction - By properly placed and maintained ditches on coastal marshes, tidal and storm waters are allowed to flow off, where otherwise in part would become brackish to breed mosquitoes. Fill from ditch excavating must be graded to insure water pockets are not left to breed.

The Project engages in many fresh water brook and stream clearance works, to eliminate temporary flood pools capable of mosquito breeding. In many cases it becomes necessary to excavate a new ditch through flood areas, to allow extreme rains and spring thaws to inundate this run off ditch, keeping water level at a minimum to reduce, if not eliminate, the mosquito breeding from the area.

Brush clearing is necessary on most fresh water work to enable access of Project's trencher as well as for checking and spraying purposes.

Source reduction in lineal feet for this period:

Reclaimed ditch	50,330
New ditch	4,110
Brook and stream cleaning	23,335
Brush clearing	15,235

TOWN OF SCITUATE ANNUAL REPORT

2. Mosquito Larval Reduction - To prevent mosquito eggs from hatching, the Project in the later winter months when ice cover allows walking upon, pre-hatch dusts many small isolated woodland pools. In mid-spring, usually after spring rains and thaw, helicopter and fixed wing aircraft are used to air spray the larger woodland flooded areas, to reduce the early spring hatch of mosquitoes that would normally emerge in great numbers.

During the summer season it becomes a continual operation of checking and larviciding for there are so many types of wet areas, salt marshes, temporary flood pools, rock pools, quarries, tree holes, roadside pools, storm catchbasins and many other water containers and each of these will breed their own specific specie of mosquito.

Amounts of insecticides used to larvicide with approximate acreages for this period:

Pre-hatch dust - 3400 pounds to approximately 680 acres

Air spray larviciding - 9730 gallons to approximately 9730 acres

Ground larviciding - 4821 gallons to 4821 acres

Storm catchbasins - 2077 gallons to 20,957 basins

3. Mosquito Adult Reduction - Control of adult mosquitoes becomes necessary when large numbers emerge and move into the residential and recreational areas of a community. Many of these mosquitoes are breeding in the many unnatural water receptacles around homes, others migrate from uncontrolled large areas out of this Project's district. With these conditions it becomes necessary to space spray, or thermal fog. These are methods by which mosquitoes are knocked down in flight, or residue spraying where mosquitoes resting upon treated surfaces are eliminated.

Preference of mosquito control methods - This Project would give to first, reduction of the sources for mosquitoes breeding, second, to its larval control. These would give sure and lasting results. However, each year telephone and letter requests for adult spraying of the neighborhoods increase. We must, due to work load, cut back on the former two methods. The Project would like to see more source reduction and larval control. This would also eventually mean a reduction in adult mosquitoes, which in turn would give a better and more lasting control of mosquitoes with the least expenditures of insecticides, time and funds.

The Project mosquito adulicided with both mist blowers and power sprayers:

TOWN OF SCITUATE ANNUAL REPORT

11,990 gallons of insecticides to approximately 11,990 acres.

It theremal fogged, using 303 gallons of insecticide applied to approximately 1800 acres.

This Project has now on order and expecting in the near future, a new Diesel marsh crawler tractor with winch and backhoe attachments. This, making two trench units in operation, which shall at least double the output of trench footage next year.

Also on order is a second catchbasin spray unit, a right-hand drive Jeep Universal with power sprayer. This has been needed for sometime in order to get all breeding catchbasins at the proper time.

The Project's operations for next year shall be based much as it has in the past. However, there are many new chemicals, as well as methods, coming about enabling us to pinpoint our control to the mosquitoes without damaging, contaminating or unbalancing other members of the natural environment. Some we have tried, others we have plans to try.

The Project's Superintendent and most permanent personnel are all members of the Northeastern Mosquito Control Association, an educational organization formed to promote the efficiency of mosquito abatement through research, development or procedure and to interchange information with other mosquito control districts throughout the country. The Project's personnel have in the past several years attended training courses on mosquito control methods, safe use and handling of insecticides. They have all been tested and licensed in this capacity by the Massachusetts Pesticide Board. All journals, bulletins and publications relating to mosquitoes are received and read to be assured of up to date operation. The Project can give assurance to all it has and shall continue to be conducted in an intelligent and efficient manner.

The Project wishes to acknowledge the help received from officials and department of the communities it serves and sincerely hopes that benefits derived by these departments as a result of this cooperation are as great as those derived by the Project.

TOWN OF SCITUATE ANNUAL REPORT

DUXBURY, MARSHFIELD AND SCITUATE GREENHEAD FLY CONTROL

To the Citizens of the Town of Scituate:

Submitted herewith is the report of the Greenhead Fly Control program conducted on the salt marshes in the Town of Scituate for the summer season of 1968 under the direction of the South Shore Mosquito Control Project, authorized under Massachusetts General Laws, Chapter 391, Acts of 1948, Greenhead Fly control.

Aerial application of insecticide was applied to and around the emergent Greenhead Fly sites of the salt marshes by a Piper Apache 18A type aircraft in early morning hours of this past summer season.

In the Town of Scituate between the period of June 14 to August 9, nine separate aerial applications were made. A total of 2940 gallons of insecticide to treat 2940 acres was used at \$.782 per acre for a total cost of \$2299.08.

The Town of Scituate appropriation in 1968 for this work was \$1928.

Research work is continuing to develop a larval method of control of Greenhead Flies with nothing complete as yet.

Until such time as a proven larvicide or oviciding method comes about, it shall be necessary to continue with our present adulticiding program to keep the Greenheads at their minimum population.

TOWN OF SCITUATE ANNUAL REPORT
REPORT OF THE BUILDING COMMISSIONER

Honorable Board of Selectmen
Scituate, Massachusetts

Gentlemen:

I herewith submit the report of the Building Commissioner.

The construction of new homes increased in 1968. The total number of permits issued was about the same as in 1967.

Following is a list of Permits issued for 1968:

New Residences	99	\$2,365,400.00
Additions, Alterations,	110	232,950.00
Repairs	32	104,100.00
Swimming Pools	6	22,000.00
Garages, Commercial and Residential	13	46,200.00
Tool Sheds	8	4,335.00
Foundations	20	18,211.00
Water Treatment Plant	1	250,000.00
Post Office	1	118,000.00
Buildings Razed	9	
Totals	<u>299</u>	<u>\$3,161,196.00</u>

Monies received and deposited with the Town Treasurer - \$6,613.00.

Respectfully submitted,

William B. Stone
Building Inspector

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF TOWN COUNSEL

For the past several years I have stated that the legal business of the Town increases year by year. It has increased very substantially during the past year to a point where it has been necessary to spend several hours per day on Town affairs. In the foreseeable future it may become necessary for a Town Counsel to be retained on a full time basis.

The following is a very brief account of what was done by the Town Counsel during 1968:-

Final decrees in favor of the Zoning Board of Appeals were entered on two zoning cases. A zoning case was tried. Two cases involving special permits granted by the Zoning Board of Appeals were tried. One involving the construction of a Par 3 Golf Course resulted in a decree upholding the granting of the permit. On the other the action of the Board of Appeals was reversed. As the decision in this case leaves the question of the validity of one section of the Zoning By-laws of the Town very much in doubt an appeal is being taken to the Supreme Judicial Court.

A petition for a writ of Certiorari against the Registrars of Voters was successfully defended and the petition dismissed.

Two suits against the Welfare Department were dismissed.

A full recovery was effected of a claim of the Veterans Department.

The defense of a tort case against the Town has been taken over by an insurance company.

Three suits were brought to recover personal property assessments. One was collected in full. The others are pending and it is expected they will be concluded in the near future.

The Town voted at the Town Meeting in March 1968 to purchase or take by eminent domain nine (9) parcels of land on the east side of Kent Street for conservation purposes. A great deal of work was necessitated including negotiations with the owners, examination of the titles and the preparation, execution and recording of deeds. Seven of these properties have been conveyed to the Town. As to the two remaining it developed that the Town had already acquired title to one, and the other involves two estates on which taxes must be paid or tax waivers obtained.

The general contractor on the addition to the Jenkins School became somewhat involved financially. As the result of conferences with the Comptroller, the School and Building Committee, and representatives of the Bonding Company the latter took over the contract.

TOWN OF SCITUATE ANNUAL REPORT

At the March 1968 Town Meeting the Town voted to purchase the real estate owned by the New York, New Haven and Hartford Railroad in Scituate. This also required a great deal of work. The deed from the railroad to the Town was obtained and recorded on December 31st.

Deeds were obtained from Curtlo Realty Trust, covering land on Brook Street and Front Street, and from Ralph Tedeschi covering land in Greenbush purchased for a playground. Several other deeds were prepared and executed.

In addition there has been considerable correspondence and conferences and telephone conferences with the members of the various Boards of the Town. Upon request meetings of these Boards have been attended.

The foregoing is a very brief summary of the legal work during 1968, but obviously space does not permit any detailed resume.

There were many other matters, some of which were perhaps as important as those specifically mentioned, which required the expenditure of a great deal of time and a very considerable amount of legal work.

There are several pending cases in which the Town is involved including the appeal to the Supreme Judicial Court previously mentioned, an appeal from a decision of the Zoning Board of Appeals, a petition in the Superior Court for the assessment of damages for the taking of real estate by eminent domain, a suit by a hospital to recover some \$4,000.00 for the care rendered to two individuals, and two tort cases, one of which involves somewhat serious injuries, and the other will probably be dismissed.

Needless to say opinions and advice were given to various Departments and Boards of the Town. Substantially all of the meetings of the Board of Selectmen were attended.

Respectfully submitted,

Alfred C. Blake
TOWN COUNSEL

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF THE SCITUATE HEALTH SERVICE, INC.

Board of Selectmen
Scituate, Massachusetts

Gentlemen: .

The Scituate Health Service, Inc. is a non-profit, completely independent volunteer organization concerned with the health of our towns citizens.

Our Well Baby Clinic meets monthly at the Town Hall. Under the guidance of our pediatrician, Dr. Lillian MacMackin and the board of health nurses, our babies receive excellent care and our mothers are given good advice. Each month, babies receive physical examinations, immunization innoculations for measles, diptheria, tetanus and Sabin Oral Polio Vaccine.

During January and February, we will be assisting the School Health Department with the T.B. skin testing of students and personnel and with updating health records of all our students.

This spring in cooperation with the Board of Health, we will be conducting the Mobile Chest X-Ray program sponsored by the Plymouth County T.B. Association.

Our two \$300 Nursing Scholarships were awarded to Marcia and Maxine Silk. Both girls are enrolled at Massachusetts General Hospital.

We wish to thank all who have supported our organization by their contributions. Our annual fund drive will be held in the spring.

We look forward to continued and greater service to our community.

Respectfully submitted,

Joan M. Harrison, R.N.

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF THE PLANNING BOARD

FOR THE YEAR 1968

Board of Selectmen
Scituate, Massachusetts

Gentlemen:

The Planning Board, during this past year, has maintained a very full schedule in order to properly perform its duties in the technical area of subdivision control, Form A plans, and site investigation for both a school and a fire station, and still allow for time at our meetings for discussion relative to future planning for the Town of Scituate. This past year the Board has met 47 times at regular weekly meetings. In addition, the members were involved in numerous "field trips", studying sites in preparation for presentation to the citizens of the town.

Three preliminary hearings and one definitive hearing on proposed subdivisions were held during 1968. Also, six site plan hearings were held and twenty-six Form A applications were processed. The new subdivisions represent thirty-three potential house lots.

The Planning Board reviewed the zoning by-laws and presented for approval at the Annual Town Meeting a number of minor changes prior to the reprinting of our zoning by-law and subdivision control regulations booklet.

Mr. Herbert Callahan, newly elected member, was welcomed by the Board at the April 2nd meeting. In July, Mr. John Zampine was appointed to the Board to replace Mr. John O'Brien who was elected to the Board of Selectmen.

A great deal of time was taken up with the problem of site selection, and subsequent special town meeting held primarily for the consideration of school sites and related articles. Although we were unable to convince the voters to purchase what we considered the best site available, we are still charged with the duty of finding and presenting same to the town. In this regard, we have again researched and investigated many possible locations in order to present other choices.

Future planning this year has been partially delayed due to the workload of this Board in its technical duties and site evaluation. However, we did set up a committee to investigate the feasibility of marinas in Scituate, either public or private, and the benefit or detriment such marinas would bring to the citizens of the town. A synopsis of this committee's report is contained in the

TOWN OF SCITUATE ANNUAL REPORT

close of this report. The Planning Board hopes in the coming year to spend more time on future planning. We would like to initiate a Capital Outlay Program, investigate zoning changes (especially with regard to apartments and commercial zones) and generally work in areas which might help to stabilize the tax rate of the Town of Scituate.

Respectfully submitted,

JAMES D. GODDARD, Chairman
Herbert S. Callahan
Gerald E. Dwight
John F. McCarty, Jr.
John Zampine

REPORT OF SEALER OF WEIGHTS & MEASURES

Board of Selectmen,
Scituate, Massachusetts

Gentlemen:

A summary of work performed by me for the year of 1968 is as follows:

Devices tested and sealed	280
Sealing fees collected	\$312.40

Respectfully submitted,

Osborne A. McMorrow,
Sealer of Weights & Measures

TOWN OF SCITUATE ANNUAL REPORT
REPORT OF THE CIVIL DEFENSE AGENCY

Board of Selectmen
Scituate, Massachusetts

Gentlemen:

With the limited funds available for this Agency, it has been able to accomplish the following:

Director attended meetings of Sector 2 B Directors which are held usually every other month.

Completed Scituate CD Progress Program with the aid of Mr. John McAuliffe - Sector 2 B Director. The Town of Scituate is now eligible for matching Federal construction funds for any buildings which would only have to be designated "Emergency".

Made several appointments for Town Departments to go to Taunton Surplus Depot for the purpose of purchasing usable items for the Town at a fraction of their cost.

Participated in both National and Local warning drills - two of which were conducted this year

Scituate CD Radio network has participated in all local radio drills.

Sent literature which was received from Army, Navy and Mass. CD departments to interested parties.

Updated Master Disaster Plan which must be kept up each year.

Respectfully submitted,

John L. Schultz, Director

TOWN OF SCITUATE ANNUAL REPORT

TOWN REPORT 1968

PLYMOUTH COUNTY AID TO AGRICULTURE

(Plymouth County Extension Service)

Board of Selectmen,
Scituate, Mass.

Gentlemen:

We are about to come to the close of the year 1968 with many problems to remember. We had a wet spring and a dry summer with many diseases, bugs, spiders, blight and aphids. The only good point was that the corn borers were not to great a problem.

My only concern is that many of the trees, shrubs and vines were very heavily infested with aphids and spiders which may not be washed away this winter. This should be looked over in the spring and should be sprayed with lindane or dithane.

The farmers that worked very hard and gave their crops proper care were quite successful in the end.

It has been my pleasure to serve you as Town Director. It has given me the opportunity to learn many things from the Extension Service which I am happy to pass on to anyone requesting it.

Sincerely yours,

Alfred Gomes
Plymouth County Aid to Agriculture

TOWN OF SCITUATE ANNUAL REPORT
REPORT OF THE ZONING BOARD OF APPEALS

Board of Selectmen,
Scituate, Massachusetts

Gentlemen:

During the calendar year 1968 the Zoning Board of Appeals held ten (10) public hearings and the following decisions were rendered:

- 11 variances or exceptions were granted (most
with specific restrictions and limitations)
- 7 variances or exceptions were denied
- 4 petitions were withdrawn
- 3 decisions are pending
- 1 petition scheduled for January hearing

Copies of all decisions were filed with the Town Clerk and in all instances before a decision was rendered the Board investigated and viewed the premises under consideration.

Fees totalling \$650.00 were received with applications for public hearing. This money was turned over to the Town Treasurer.

Respectfully submitted,

Paul J. Covell, Chairman
Robert M. Alexander
Herbert G. Taylor

John S. Farley) Alternates
William J. Brady)

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF THE

SOUTH SHORE REGIONAL SCHOOL DISTRICT COMMITTEE

Board of Selectmen,
Scituate, Massachusetts

Gentlemen:

This year the students of our Carpentry Department completed our first home-building project. This large, split-level house had all wiring and electric heating installed by our Electrical department. To provide the practical experience needed, it is our plan to erect one home each year.

This year's graduates were sought after by industry with most students placed long before graduation. In addition, our former graduates having completed their military obligations, are availing themselves of our placement service. In most cases they are being located in their trade within a day after initial request.

This past summer, we conducted our five weeks of summer school from 8:00 a.m. to 12:00 noon in the areas of remedial mathematics and reading.

Ten of our students were employed in a work-study program during the months of July and August. They repainted all building trim and completed the minor repairs needed to restore the plant to its original condition. Since 3/4 of the wages involved are financed by Federal funds, this resulted in considerable savings.

Scheduled to start January 2, 1969 is a new day school course for training combination welders. We will start with 15 students at 9th grade level. This will make ten trade areas that we will be serving.

In October 1968, we opened another Manpower Training program for Radio T.V. repairmen. Twenty trainees drawn from the ranks of the unskilled and underemployed will be given a new trade. This course runs 6 hours per day, 5 days per week and will continue through the summer ending in August.

Our evening school program continues to flourish. We now have eight trade offerings with 129 people enrolled. Our facilities are used by the Old Colony Power Squadron one night per week to conduct a course in piloting for 192 people.

Respectfully submitted,

Frederick E. Ahearn

TOWN OF SCITUATE ANNUAL REPORT
REPORT OF THE CONSERVATION COMMISSION

To the Honorable Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

The acceptance of Article 62, by the 1968 Town Meeting, to purchase approximately 30 acres of the Kent Street marshes for conservation and recreational purposes was a major accomplishment of the Conservation Commission this year. The cooperation of the land owners involved, and agreed prices for purchase made this acquisition a smooth and uncontested procedure. The preservation of this prominent open space area will benefit the Town immeasurably in the future. Further acquisitions will be studied and recommended in order to insure green belt and open space areas within the Town to preserve the natural characteristics of our community.

The offer of a gift of land on First Cliff, located between the Edward Foster Road Bridge and the Young's Boat Yard, was received from Mrs. Katherine Doherty and family, and Mrs. Raymond. Conferences were held with them and the acquisition of this property by gift is near completion, giving further protection to the Harbor area.

The 1968 Town Meeting voted \$1000, to be added to \$750 from the Scituate Land Trust, and \$750 from the fund for the Preservation of Wildlife and Natural Areas, for title search in the South Swamp. The Rockerman, Sawyer and Brewster firm of Boston has completed the search and accounted for approximately 300 acres of swamp land. Deeds are being drawn and the majority of owners have filed letters of intent to give the land to the Town. Conservation Commission members will again contact these owners and obtain signed deeds as gifts wherever possible. A survey of the perimeter of the entire swamp will be necessary next to define the areas of acquisition.

Again this year, three Scituate boys attended the Massachusetts Junior Conservation Camp at Thompson's Pond in Spencer, Massachusetts, sponsored by the Scituate Grange, the Scituate Rod and Gun Club, the Scituate Land Trust and this Commission. It is hoped that more local support will give more boys this rewarding opportunity. The 1968 selectees were:

Christopher Hall, Philip Lussier and Michael Novell.

Considerable citizen concern has been expressed throughout the year about the filling of marsh and wetlands. It has been a concern of the Commission, also.

TOWN OF SCITUATE ANNUAL REPORT

All hearings on petitions to fill have been attended by the Commission members and instances of illegal fill have been reported to the Selectmen and State departments for action. This whole subject will continue to be studied and watched.

Donations for the planting of the Conservation land on the corner of Ann Vinal Road and Hollett Street have been received from the P.M. Club, the Scituate Garden Club and private individuals. Planting on this site to restore it more closely to its original state is planned for the Spring and as much work will be done as the money on hand permits. Boy Scouts working on Conservation Badges will participate.

The resignation of Mr. Henry Stupinski was accepted with regret.

An increasing interest in the protection and preservation of natural areas, coastal and inland, of our town is evident in the number of citizens who either attend the Commission meetings or contact its members or other town officials. This is necessary and desirable if a sensible and adequate conservation plan is to be developed for Scituate. The Commission welcomes and encourages such interest and any suggestions.

The Commission appreciates the fine work of the Town Counsel, Alfred Blake, Esq., in the final negotiations in the acquisition of the Kent Street marshes. It also acknowledges the cooperation of the Scituate Beautification Committee, and all town boards and officials who were contacted in connection with the work of the Commission.

Respectfully submitted,

Scituate Conservation Commission

Helen Sutton, Sec.

TOWN OF SCITUATE ANNUAL REPORT
REPORT OF THE FOREST FIRE DEPARTMENT

Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

I submit herewith the annual report of the Forest Fire Department for the year ending December 31, 1968.

There was a slight decrease in the number of grass and brush fires for the year. Due to increased building in the town, less wooded areas remain in which serious forest fires might occur.

The department continued the practice of burning over areas which are considered to be hazardous.

At present, the Forest Fire trucks and the equipment on them are in good condition. In the near future, the two-way radio on the older truck will need to be replaced.

The department is very pleased with the residents of the Town for their co-operation in obtaining permits for all open air fires.

I wish to thank all Officers, Departments, Officials and Citizens for their continued co-operation.

Respectfully submitted,

Charles W. Curran
Forest Warden

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF THE SCITUATE RECREATION COMMISSION

Board of Selectmen
Town Hall
Scituate, Mass.

Gentlemen:

The Recreation Commission has the responsibility of supervising the activities of a Recreation Director, appointed by the Selectmen, and supervising the disbursement of the salary and expense monies appropriated at Town meeting under the Town Recreation budget.

The Recreation Director's duties involve the supervision and direction of the activities at the teen-age center on Hatherly Road, known as the Tradewinds. His salary is established by the Personnel Board. All expense items are subject to the approval of the Town Comptroller and the State Auditing Department.

The Tradewinds, with approximately 350 members, was open 5 afternoons and 2 evenings a week from January until June 1968. It was closed for the summer on June 7th, 1968, at which time Mr. Leo King, Director, regretfully resigned because of the pressure of other duties.

October 12, 1968, the Tradewinds opened with Mr. Paul C. Leger as Director. The membership seems to be lagging somewhat behind last year.

The Commission periodically reviews the situation at the Tradewinds with Mr. Leger and the Committee for Scituate Teens.

Respectfully,

William H. Holland - Chairman
Mr. William Collins
Mrs. Robert Francis
Mr. Richard Tibbetts
Rev. Herbert Chamberlain
Rev. Raymond Lowe
Mr. Frank D. Tibbetts, Jr.
Mrs. Rosalie Bulu
Mr. W. B. Clark

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF WIRING INSPECTION DEPARTMENT

Board of Selectmen
Scituate, Massachusetts

Gentlemen:

Permits were issued for electrical work for the year 1968 as follows:

Electrical wiring - 469, approved certificates to Brockton Edison Company - 295, to the New Bedford Gas and Edison Light Company (Humarock) - 14. Permits to electricians for electrical work in Humarock - 10.

Fees collected and credited to Town \$2,322.00

Electrical permits issued during 1968 are classified as follows:

New Homes (domestic)	85
New Buildings (commercial)	1
Additional Wiring	84
Services Remodeled	106
Service change from 2 to 3 wire	5
Dryers	166
Electric Ranges	76
Electric Water Heaters	31
Oil Burners	35
Refrigerators	66
Clothes Washers	84
Dish Washers	66
Motors	107 HP
Temporary Services	36
Air Conditioners	5
Gas Burners	66
Electric Heat	27
Disposals	1

Respectfully submitted,

JOHN H. REMICK
Inspector of Wires

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF THE BEAUTIFICATION COMMITTEE

The beautification of Scituate has progressed according to the committee's overall plan for the town. The interest and assistance of many organizations, town officials, businesses and individuals, and the enthusiastic participation of town employees, have put the program into orbit.

At the site of the old Egypt station, about 50 trees and 45 shrubs were planted as a screening for the highway department yard, with private contributions defraying part of the cost. Three areas in Cole Parkway were opened up for planting. Trees, shrubs, and flowers at each end of the parking area were partly paid for by contributions, and some were planted by committee members to save money.

The second annual Shipshape Day conducted by the committee drew over one thousand workers, including Boy Scouts, Campfire Girls, boys from Cushing Hall, and more than six hundred Girl Scouts, who cleaned up the town on May 11th. With thirteen volunteer truckers and several cars hauling the trash, it was a completely volunteer effort except for one town truck. Thirty-eight derelict cars were removed by Paul Young Motors at a charge of \$5 each, which was contributed to the committee. As a follow-up, 22 extra "shipshape" barrels were placed throughout the town.

The Beautification Committee took much of the responsibility for maintenance of its projects.

Working together, the Chamber of Commerce and the Beautification Committee offered all the merchants an opportunity to buy living Christmas trees, and over fifty boxed pyramidal yews decorated the business areas.

The committee has worked with owners of businesses who wished to improve appearances, and with the Conservation Commission, the Harbor Development Committee, the Planning Board, the Selectmen, and the Massachusetts Department of Natural Resources.

As to the future, members of the committee are drawing up plans for improvements in the center of North Scituate. Merchants and others in the area are being consulted.

Landscaping projects approved by the committee are being planned by the PM Club and by the Garden Guild of the Scituate Arts Association. These clubs will finance projects at Egypt Beach parking area and at the intersection of Hollett, Gannett, and Border Streets.

TOWN OF SCITUATE ANNUAL REPORT

The state will include two areas fully prepared for landscaping beside the new boat ramp at Jericho Road, for which the committee has drawn up a planting plan. The committee hopes to pursue this planting in 1969.

Hardy trees have been started along Satuit Brook, and a plan drawn up for further improvement of its banks. If the Conservation Commission is successful in obtaining easements, the plan may be implemented in 1970, at which time Peggotty Beach parking space should be landscaped, also.

In 1968 expenses were:

Egypt screening	\$593.75
Cole Parkway	<u>583.42</u>
Total	\$1177.17

Cash Contributions were:

Garden	\$140.00
Womans Club	25.00
Car towing	190.00
Individuals	<u>240.00</u>
Total	\$595.00

Materials contributed included Shipshape posters, writing paper, use of trucks, loam, display materials, paintings, and aerial photography. All plans were made and drafting done by committee members, at no cost to the town.

Respectfully submitted,

Alice C. Proctor, Chairman

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF THE SCITUATE HOUSING AUTHORITY

Scituate's Housing for the Elderly of low income, a state aided development, is a source of pride and accomplishment to the residents of Scituate, the tenants of both Wheeler and Lincoln Parks and the Scituate Housing Authority.

The two developments, totaling 80 units with a census of well over 100 residents continue to provide convenient, attractive and inexpensive housing to qualified elderly citizens of Scituate.

Though Scituate has been in the forefront of Housing for the Elderly, the list of prospective tenants increases in proportion to available vacancies resulting in lengthy waiting periods for needy applicants.

Scituate is to be commended for its enthusiastic community support of Lincoln and Wheeler Parks, in that nearly every religious, social and philanthropic organization has contributed in time or effort to the well being of Scituate's elderly. It is our hope that this civic contribution to the dignity and comfort of our Senior Citizens will continue in the future.

Merrill Merritt, Executive Director
Abigail J. Silk, Chairman
Sturgis Evans

Donald Smith
Thomas White

REPORT OF SCITUATE LIBRARY COMMITTEE

Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

For those private citizens and librarians who have worked for many years to provide the public with good library service and pertinent materials, 1968 saw a furtherance of their efforts when the Town voted in March to make the Scituate Libraries (Allen and Peirce) a Town agency.

With the thought that the townspeople would like to know the assets of their Library (Peirce and Allen), the following information is given:

TOWN OF SCITUATE ANNUAL REPORT

Combined total of books	44,848
" " " phonorecords	368
" " " magazine subscriptions	97
" " " newspaper subscriptions	8

That the people of Scituate are using their library is borne out by the following statistics:

Books, phonorecords, magazines circulated	174,462
Borrowers registered in 1968	1,562
Materials received through inter-library loan	335
Reference transactions (Reference questions and reader guidance)	7,813

During the year special services were provided through periodic deposits of books to Wheeler Park, Lincoln Park and the MacDougall Nursing Home. Children's services included pre-school picture book programs, Story Hour for 5-7 year olds and a summer reading club for elementary grade children.

At this time, public recognition should be given to Mrs. Beulah Dyer, Librarian of Allen, for assuming the administrative responsibilities for the Library during the nine month period when there was no director. In addition to usual administrative tasks, Mrs. Dyer was called upon to carry out a large portion of the detail work involved in the transfer of the property and assets of the Allen Memorial and Peirce Memorial Libraries to the Town.

In October, Virginia Heffernan joined the Scituate Public Library staff as Director.

Both the library and the Director have had their "shake-down cruise". The Library begins its first full year as a Town agency and the Director looks forward to her first full year in that position.

As we enter the new year it would be well to set forth the philosophy which will determine the acquisition of materials and the types of service which will be available to the public.

As a Town agency, the library cannot remain aloof from community involvements; it must be dedicated to public service. To warrant a single tax dollar, the public library must take a responsible role as a community resource center. The social order is in flux and the public library's materials and services must be relevant to it. The public library must also evaluate its function in relation to the schools as educators respond to a changing society with new aims and methods in education.

TOWN OF SCITUATE ANNUAL REPORT

The Eastern Massachusetts Regional Library System is now in full operation. We intend to make maximum use of services and materials offered by the System to augment our book collection in special areas, to obtain reading lists, films and specific materials for borrowers through inter-library loan.

We look forward to serving you in the coming year and thank you for continued support.

Respectfully submitted,

Virginia Heffernan
Director

REPORT OF THE BOARD OF HEALTH

Public Health Agent	John F. Campbell
Public Health Nurses	Elizabeth A. Welch
	Elaine V. Coughlan
Secretary	Carmen D. Bonney

Appointments made by the Board of Health for 1968:

Inspector of Plumbing	Edward B. McCarthy
	Merrill A. Merritt
Inspector of Animals	Richard E. Cughnasca, DVM
Inspector of Slaughter	Algart P. Jacobson

--	-----

Well Baby Clinics	11
(Total attendance at Well Baby Clinics)	136

Services given at Well Baby Clinics were as follows: Physical Exams; D.P.T., Small Pox, Measles, Polio Vaccines; P.K.U. and Time Testing.

Assistance and clinical supplies furnished for Heaf Tests and Time Tests in the Public Schools and for D. T. immunizations.

Amount of money collected and returned to the Treasurer --- \$9,038.18.

We would like at this time to give a special thanks to all the members of the Scituate Health Service, Inc. and all the doctors and nurses who assisted in clinics held during 1968.

During the past year the Board of Health has experienced cooperation from the Town Department Heads on numerous occasions. Especially noteworthy has been the help of the Comptroller in working out means of reconciling the accounting system employed by the Town and that required in the Home Health Agency. In addition, the past year has seen the beginning of closer coordination between this

TOWN OF SCITUATE ANNUAL REPORT

board and the School Department in the matter of health activities.

TOTAL	<u>5,025.40</u>

AMBULANCE

Number of trips made by ambulance	412
Miles traveled by ambulance on above trips	20,602

During the last year there has been a marked increase in the activities in the area of the use of narcotic drugs in the town. As a result of this your Police Department today, more than ever, must have the support and cooperation of its citizens to do an effective job in law enforcement.

Suspicious are always valuable and if it appears that there is something wrong in your neighborhood call the Police, do not wait until some damage is done.

TOWN OF SCITUATE ANNUAL REPORT

Try to get the description of strangers around your neighbors house and also a description and registration number of suspicious vehicles.

To the Honorable Board of Selectmen and the heads of the various town departments may I extend the thanks of the Police Department for your excellent co-operation.

RESPECTFULLY,

JAMES E. O'CONNOR
CHIEF OF POLICE

TOWN OF SCITUATE ANNUAL REPORT

REPORT OF THE INDUSTRIAL DEVELOPMENT COMMISSION

Board of Selectmen
Scituate, Massachusetts

Gentlemen:

The Industrial Board was originally organized as a study group to look into the prospect of having an industrial area in our town to create employment and help alleviate the ever increasing tax burden that has effected every town due to a tremendous population increase which of necessity requires more schools and greater services.

The Driftway area along with several other areas were looked over carefully and discussed to great length. Jack Conway was our Chairman at this time, and set up a Committee to study 1) Power available in the areas. 2) Soil studies to see what areas would support a project and 3) A study of what area would have nearest proximity to access highways which is extremely important.

After many meetings and much discussion, it was decided that the Driftway area was the most suitable area the town had to offer. Meanwhile this area which had been zoned, had already attracted business to it through efforts of Murray Snow who sits on our Board as a representative of the Board of Selectmen and was also instrumental in establishing this Committee from its inception.

At the present time, there is a large indoor tennis court, Medical Center building and a major bus line which is located not too far away from an auto parts building which services this area.

It is my understanding that a large health center is also being contemplated for this area. Not too far away from these projects is a large boat repair yard with both indoor and outdoor facilities, and a Marina which greatly benefits the boat enthusiast.

Under Jack Conway's leadership, we studied this area intensively and came to the conclusion this area could support a beautiful recreation area, an apartment house complex of a low rise nature with a light Industrial site in the area farthest away from the river, marshes and islands.

About this time, I was elected Chairman of this Committee. I believe that possibly we could obtain a small part of this area possibly seven acres, and develop our own Industrial Project, as the property at that time was not being used.

A committee was formed to contact the principle owner and express our wishes and after much effort on their part, the principle stated he was unwilling

TOWN OF SCITUATE ANNUAL REPORT

to sell any small parcel but would consider only selling on the basis of a complete package sale. In other words he wanted to sell all the property or none at all. However, the principle himself said he might be interested in developing the area and was having a study of this area made by a Boston firm.

Our next meeting concerned us with trying to contact some large firms that might be interested in locating in the area possibly those of a research and development type. Contacts were made but interest at the time was of a minimum.

We then discussed the advisability of printing a promotion type brochure, at this time through the efforts of selectmen Murray Snow. Contact was made with a construction Company who was interested in this property.

Their primary interest was in the Sand & Gravel itself as they had a project in mind for its use in the Boston area. However, the project we had in mind for developing the area was mentioned to them and was met with enthusiasm. We sat down with the owners of the Construction Company, the Board of Selectmen and the heads of the Planning Boards etc., one year ago and my last report to the Board was based on this meeting and is contained on page 133 of last year's Town Report.

We had hoped throughout this year to give a complete set of plans and specifications of this Construction Company's intentions for the area. However, there were some changes in the ownership of the original Corporation. Therefor the large project is still in abeyance.

At the present time there are three projects being contemplated in and around the Tennis Court building and the Auto Parts building.

If these projects become a reality, I believe they should enhance the area and further our efforts in alleviating our present tax situation.

Respectfully yours,

Charles W. Mitchell, Chairman

TOWN OF SCITUATE ANNUAL REPORT

To The Honorable Board of Selectmen

Gentlemen:

Herewith is submitted the annual report of the Comptroller's Department for the year ending December 31, 1968.

TOWN OF SCITUATE ANNUAL REPORT

A MESSAGE FROM THE SCHOOL COMMITTEE

Dear Fellow Citizens:

The student enrollment in the Scituate Public Schools continues to increase. Citizens interested in education continue to press for improvement in our program. The cost of materials and services necessary to implement an adequate educational program continues to rise. The School Committee is constantly faced with one question, "What is the proper level of support for education in Scituate?"

During the past year the School Committee has evaluated the leadership and professional competence of Mr. John Staples, the Superintendent of Schools. Since coming to Scituate, Mr. Staples has demonstrated a high degree of efficiency in the administration of the public schools. He has developed sound educational objectives for Scituate and implemented programs designed to meet those objectives. The School Committee commends Mr. Staples and his staff for the educational improvement that has taken place under their leadership. The professional staff was directed to evaluate existing programs before recommending new ones to make more effective use of the educational dollar.

Evaluation of the High School was carried out by visiting representatives from the New England Association of Secondary Schools. The High School was awarded full accreditation for ten years and the various departments received commendations for their programs. The School Committee was pleased with the results of this evaluation and commends the staff, particularly the principal, Mr. Edward Stewart.

Various programs in the curriculum were also evaluated by the staff for educational effectiveness. Under the direction of the Superintendent, committees studied special education, the teacher aide and elementary French programs. Using the recommendations of these committees we have reorganized our staff in these areas for more efficient and effective use of professional time; we have reduced the number of subjects offered for better use of school space; we have eliminated programs for more effective use of student time.

The School Committee, after comparing educational costs throughout the Commonwealth, is convinced that Scituate is enjoying the benefits of an outstanding school system at a reasonable cost.

The Committee wishes to thank the citizens of Scituate for their support and confidence. We shall make every effort to provide excellence in education through high commitment and a practical approach.

John Y. Brady, Chairman
Andrew J. Berlo

Catherine D. Weeks, Secretary
Wendell G. Sykes

TOWN OF SCITUATE ANNUAL REPORT
REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Scituate:

DEVELOPING INSIGHT

As we gain new insights, we should develop better ways of doing things. Education in Scituate provides the staff, the students and the citizenry with many opportunities for a greater understanding of our commitments and our responsibilities. Our town is on an ambitious and creditable voyage in education. Charting the course for that voyage is a task in which all of us are participating. Your school administration is dedicated to the development of more efficient and more effective educational programs.

If we compare our school system with private business, we find a complex of seven large plants, covering several industries. Besides our main job of providing educational services for 5300 children during the normal school year, we operate a chain of cafeterias serving enough meals daily to compete with cafeterias in the heart of the city; our transportation program is a full-time business which is equal in size to most of the small bus companies in suburban areas; the Adult Evening School requires enough time and personnel to compare with many of the Boston business schools; the Summer Institute requires a staff and administration that is comparable to a normal school year operation in the smaller school districts around; and our custodial and health services alone require more employees than any other business in the community.

Effective and efficient operation of these various parts of the educational system is possible only because of the competent and dedicated service of our management team. Because this team plays such an important part in the planning and administration of the educational system, each member of it has been asked to report on his area of responsibility. The new ideas developed by this team are being put into practice as they are developed and tested.

General Administration

The problems that trouble Scituate today have existed here in the past. Our problems of providing school housing and supporting an adequate educational program are also being faced in almost every suburban community in the country. We can look at town records and know that our forebears faced and surmounted these identical problems in years past.

"I am aware that the town is carrying a heavy debt and that other projects call for large expenditures. The same can be said of the towns around us. In many instances the tax rate is higher than in Scituate. Good schools always serve to attract residents to any town." -- Scituate Town Report, 1890.

TOWN OF SCITUATE ANNUAL REPORT

The experience we have had during the past year with many students in make-shift classrooms shows that immediate action by the town is needed if we are to prevent inefficiency and frustration from weakening our educational program.

Last year the need for additional school housing was clear. Today this need still exists, but with more urgency. As we examine our present housing situation we find that certain groups of students are not getting full benefit from our entire educational program.

Students housed in noisy play areas are not developing sound study habits. Kindergarten children being transported to the far end of town and getting car sick do not develop a creative and interested attitude towards school. Sixth grade children in the High School do not have the same library facilities that are available to others. During the next two years, such makeshift housing will be necessary to keep all children in school for the full day. After that, we expect half-day sessions. We will make every attempt to have this affect as few students as possible.

Your School Committee will request action to start the process for the construction of a new school that will enable Scituate citizens to say, as they have in the past, "We are providing every child with the educational program that is his rightful heritage."

The Administration wishes to commend the Scituate School Committee for giving so much time and effort, and for providing the necessary leadership that will assure Scituate children the opportunity to compete with their peers from other communities in the next century.

Personnel

The Scituate Public School System has grown from 800 pupils to 5300 pupils in a period of less than twenty years. Scituate has practically built an entire school system in a twenty-year period. More than that, the town of Scituate should be proud of the competency and high professional level of its teaching staff.

With increased mobility of teachers and an expanding school system, Scituate has had to compete vigorously in its search for talented teachers. This search is an important and continuing program.

Last year Scituate hired 75 teachers, of which 55 were replacements. These teachers were selected on the basis of their ability, experience and education. Our staff made contacts with over 60 colleges and teacher agencies, conducted on-campus interviews and advertised in selected educational areas. In this way the Scituate Schools maintain the diversity and quality of the staff. This quality is apparent in the high standards for curriculum development and teaching procedure that exist in the Scituate Schools.

TOWN OF SCITUATE ANNUAL REPORT

We would be remiss if we did not recognize the efforts of the secretarial staff in providing the necessary understanding and support that keeps the school system operating at peak efficiency.

The Committee on Teacher Aides has developed guidelines for developing this promising new aspect of educational staffing. This program should provide a partial solution to staffing problems and reduce the budgetary effect of the increase in salaries of the professional staff.

Because the present group of teacher aides has performed well and has proven to be a necessary part of the educational team, we can say without any hesitation that the teacher aide program is successful. The guidelines developed by the Committee on Teacher Aides will be used for the implementation of the program and to develop a training program for new aides.

Respectfully submitted,

Joseph C. Driscoll
Director of Curriculum and Personnel

Business

The operation of our educational plant, if equated to private industry, would be considered a business undertaking of considerable size. The Scituate Schools have a three-million dollar operating budget, a payroll of over 320 employees and capital assests to be maintained totaling approximately twenty-million dollars. The efficient management of such a complex operation requires adequate staff possessing specific talents. The bookkeeping department, the directors of the maintenance program and of the school lunch program are to be commended for their efficiency and for giving freely of their extra time and effort to keep their part of the educational program operating with minimum expenditure.

Lunch Program

The Scituate School Lunch Program has grown from its small beginning to a full-fledged operation serving over 500,000 lunches this past year. This averages out to approximately 3,000 servings per day.

The school bakery prepares all bread and dinner rolls for all schools. In addition, all cakes, pies, brownies and cookies are baked in the various schools.

Cafeteria personnel are required to have a complete physical every year. Kitchens are checked regularly by both the state and local Boards of Health.

TOWN OF SCITUATE ANNUAL REPORT

We are fortunate in having a conscientious staff that can provide a balanced hot lunch to our students with such efficiency.

Maintenance

The custodial work in the seven school buildings is maintained at a very high standard by the dedication and perseverance of the custodial staff. They should be commended for their interest and pride in providing a clean and healthful environment for the children of Scituate.

Custodians and maintenance workers provide many services to various organizations and individuals in the community who have requested the use of school facilities. This service to the community keeps our school buildings and our custodial crew active day and night. To provide these services to the community your School Department finds it necessary to schedule events months in advance. It is rare when our school facilities are idle during the day, evening or weekend. The custodians must be available continuously to serve the various functions of community groups.

Transportation

The transportation phase of our school operation requires the use of twelve school owned busses and nine contract busses. Each bus averages four runs for a total of approximately 84 bus runs per day. This transportation service averages out to 3800 passengers per day. From the figures above it is readily seen that this is a large and important aspect of the educational program. The bus drivers are to be commended for their safety record and their dedication to this important aspect of our community.

Respectfully,

William W. Childress
Business Manager

Guidance

Education, regardless of the numbers of students involved, always evolves into a personal exchange between the system and the individual student. Individuality is a part of our democratic institutions that must be preserved at all costs. Today, education is pressed by many forces in our society that reduce individuals to numbers and treat them as categories or classes. The guidance program has an important role in the solution of this problem.

At the high school level, guidance personnel meet with individual students and help them cope with the problems of growing up. The guidance staff is

TOWN OF SCITUATE ANNUAL REPORT

concerned and committed to provide a satisfying and rewarding educational experience for every student. The Guidance Department provides the advice and direction the student needs to reach his personal goals. This has been accomplished through special programs such as the Work-Study Program now operating in our High School; by cooperation between our High School and the South Shore Vocational School; and, more recently, by the attempt to establish a high school equivalency program in our Adult Evening School.

The college placement program has assisted Scituate High School students to enter one hundred and eighteen degree granting colleges throughout the country. Our final objective is to have each student enjoy and continue a formal educational program in whatever manner or method he deems personally suitable.

The guidance program at the elementary level helps students meet their needs at this stage of their academic career. We have found that most learning problems are transitory and can be helpful; that is, their solution can be challenging and rewarding provided that guidance and assistance is given at the proper time. The staff is grateful to the Quincy Mental Health Center for the assistance which the professional staff has given to both children and their parents.

Under the guideline established by the Committee for Special Programs for Exceptional Children, the guidance counselor at the elementary level is responsible for coordinating all of the pupil personnel services. In this way, any learning problem, no matter how transitory or long range, no matter how simple or complex, can be quickly diagnosed and prescribed for through the coordinated efforts of professional specialists and services that are currently available to the youth of Scituate.

The guidance staff and the professional specialists in reading, speech, dyslexia and home tutoring are commended for their outstanding contributions to the Scituate educational program.

Respectfully,

Samuel J. Tilden
Director of Pupil Personnel Services

Elementary Schools

During the 1968-1969 school year the elementary schools have started several new programs. Among these is the connecting class which is meeting the needs of children who have spent a year in kindergarten, yet are not ready for a formal school program. Through intensive individualized instruction these children are receiving assistance that will enable them to meet the challenge of a formalized school program. It is better to have a child spend a full day in school after

TOWN OF SCITUATE ANNUAL REPORT

kindergarten, receiving the special help he needs, rather than repeat kindergarten and go to school for only half a day.

Another program is designed especially to assist the student who is not fluent in English. Fifteen children, grades one through six, were offered a summer school experience based on a variety of cultural field trips. This program was completely supported by federal funds from Title I of the Elementary and Secondary Education Act.

This year a new reporting system for the elementary schools has been adopted. Based on a study started three years ago by elementary teachers, it helps to promote individualized instruction. This card is intended to improve a teacher's understanding of a child's potential and thereby provide continuous progress.

This year we have implemented an individualized progress program in the sixth grade at the High School using cooperative teaching. This program is based on our experiences in cooperative teaching at the Cushing School. Good teaching requires the cooperative efforts of teachers directed towards improvement of the quality of the educational program. To provide the best educational experience within this framework, the needs and interests of students and the skills of teachers are evenly balanced. In this way, students receive an education based on the personal and professional talents that are considered the strengths of each teacher.

The pre-kindergarten program, supported by Title I, ESEA funds, is now in its fourth year. This year twenty-five children were selected from a total of forty-two applications. This program assists preschool children who, because of some handicap, are not able to take full advantage of the kindergarten program without some initial help. The twenty-five children were chosen on the basis of educational need. Although a final evaluation of this program is not yet complete, many children in our school system have benefited from the pre-kindergarten instruction and are now successfully meeting the requirements of our formal educational program.

Jenkins and Wampatuck School additions opened on January 2, 1969. These facilities add fourteen additional classrooms to our elementary schools. These additions have relieved the crowded conditions that existed in all our elementary schools the last two years. Four of the classrooms were added to the Jenkins School, ten to the Wampatuck School. Because the opening of these additions was a year behind schedule, we regret the conditions under which staff members and students worked while housed in makeshift classrooms throughout the school system. Although it is impossible to determine what has been lost by the students during the past four months, we wish to assure the parents that extra efforts will be made to overcome the effects of this housing problem now that additional room is available.

TOWN OF SCITUATE ANNUAL REPORT

The 1968-69 school year marked the beginning of Scituate's participation in the METCO program. Twenty children from the North Dorchester - Roxbury area are presently enrolled in grades one through four in the Hatherly and Central Schools. We believe that the program is meeting with success. The learning experiences that have occurred have been valuable for the students in Scituate as well as for the students from the Metropolitan area. This program has encouraged staff members and students to grow and has provided a basis for instruction that is current and meaningful. We have found that such programs have beneficial spin-off effects for our entire curriculum.

Many programs are under study and design by special committees appointed by the Superintendent of Schools. Some committee reports have been completed and changes recommended to the Superintendent. Among these is the report of the Committee for Special Programs for Exceptional Children (SPEC). This Committee has recommended that all programs for exceptional children be coordinated by the office of Director of Pupil Personnel Services. It was further recommended that the program of identification, diagnosis and treatment for all children who are exceptional be better coordinated. Through the efforts of the Committee your school system is now able to care for any learning problem referred by parents or teachers. This has been accomplished without adding any new positions. We commend the Committee for their work.

The Tuesday afternoon Improvement of Instruction program is continuing. The program provides for inservice training of teachers and for continued re-evaluation of curriculum areas. Each year one subject area is carefully evaluated. In this way the full curriculum is strengthened and kept in balance, each area getting attention and being held in its proper perspective.

The Scituate Public School System is directing its efforts towards recognizing and meeting individual needs of children. To this end the perceptually handicapped program, the bilingual program, the connecting class, the transitional class, the special educational programs, the identification of gifted students and the pre-kindergarten class, as well as the remedial programs for reading and speech, have been initiated and implemented. To carry out these programs, federal funds have been sought and utilized wherever possible.

Respectfully,

James M. Curtis
William G. Keane
J. Joseph Nicholson
Guido J. Risi
Louis A. Von Kahle

Elementary School Principals

TOWN OF SCITUATE ANNUAL REPORT

Junior High School

The administration and members of the Scituate Junior High School faculty are vitally concerned with the development and refinement of existing curriculum programs. Realizing that the curriculum entails the sum total of all experiences that are provided by our school for the students, we are constantly striving to modernize our courses to fit the specific needs of the individual. Philosophically, we believe that the Scituate Junior High School program should carry the student from the content and techniques that are typical of the elementary school to those which characterize the Senior High School.

With this thought in mind, we are moving in a direction suited to the specific needs of the individual student. For example, in science we are emphasizing the personal involvement of the student as a principal investigator. This is being carried out by structured investigations which allow the student to use laboratory materials, to make observations, to organize data, to interpret results, and to draw reasonable conclusions.

At present an investigation of the "Cleveland Project" is taking place in seventh grade science. Basically, it is a student involvement program in life science. Also, the "Time, Space and Matter" program, a student eighth grade involvement course, has been adopted this year.

In mathematics the emphasis is on new teaching methods. At present we are expanding our program, believing that the student should be familiar with the "whys" as well as the "hows" in mathematics. As a result of this thinking, we are in the process of re-evaluating our present curriculum in mathematics.

In English, linguistics is a new approach to teaching traditional grammar. Utilizing this approach has been extremely rewarding in the seventh and eighth grades. By next year all students will be directly involved in the linguistics program.

Our social studies curriculum is committed to an understanding of the basic principles of our democracy, the ultimate goal being to prepare students for intelligent participation in a free society.

At present the Scituate Junior High School has a total enrollment of 868 students. The housing capacity at the Junior High School has been set at 750 students; however, for the academic year 1969-1970 we anticipate an enrollment of 900 students. It will be difficult to function effectively with such large numbers of students. Some curtailment of program will be necessary. This will be a prelude to further curtailments and, eventually, half-day sessions to accommodate the increased numbers of students. When curtailment occurs, we wish to assure parents that every effort will be made to mitigate their effect in terms of the number of students affected and the duration of the curtailment.

TOWN OF SCITUATE ANNUAL REPORT

There are many shortcomings when students are in a school building for only two years. Each year, half the student body is new to the staff. It therefore becomes difficult to know and serve adequately individual needs of students. An intermediate school, housing students for a three or four year span, will help the staff to meet the educational objectives of our community.

In Scituate, school building has taken place at every level except the intermediate level. The staff at the Junior High School is to be commended for their interest and perseverance in curriculum improvement despite crowded conditions and, in some areas, inadequate facilities.

Respectfully,

J. Joseph Gibbons
Junior High School Principal

High School

On December 6, 1968, Scituate High School was voted full accreditation for another ten year period at the annual meeting of the New England Association of Colleges and Secondary Schools. The evaluation committee was composed of twenty-eight educators from the six New England States. The final report was based on a program of self-evaluation and the committee's evaluation. The entire High School staff is commended for their excellent showing in this evaluation. It is certainly the result of high professional standards and dedicated performance.

The facilities of the High School addition were in full operation for the first time in 1968. The center of these facilities is the multi-media instructional center. Since this is more than just a library, the staff recommended full utilization of the facilities and the School Committee approved using the center in the evening. The hours are from 6:30 - 9:30 P.M., Monday through Thursday. Through such programs, students are encouraged to participate in individual study and research. This type of training and experience is essential to success in college.

New areas of study made available to students are: Marine Biology, Introduction to Physical Science, Individualized Mathematics Program, Fifth-Year French. Areas now being considered for curriculum improvement are: Computer Mathematics, a Humanities Program, expansion of the seminars on Drugs, Sex, Alcohol and Tobacco. More efficient use of student time and classroom facilities is being sought through investigation into modular scheduling and a "house-plan" of organization.

TOWN OF SCITUATE ANNUAL REPORT

Present offerings are meeting the needs of terminal students. However, we are planning to expand the vocational areas of our High School and provide programs for students desiring to enter businesses and trades after high school. Computer programming, advanced stenographic skills and business training are being considered for curriculum improvement.

These many areas of curriculum improvement are aimed at better preparation of students that will encourage each one to go on to further educational levels, that will permit able students to be accepted in institutions of learning that they elect, and for the most able students to gain advanced placement in these institutions. But most important, the staff is working to make education a pleasurable and rewarding experience so that each student will make it a continuous process throughout his adult life. When we stop learning, we stop growing.

Respectfully,

Edward L. Stewart
High School Principal

Summer School

The summer school enrollment was 477; an increase of 43 over last year. This program will become increasingly important as the curriculum moves towards a completely individualized educational program and students are no longer hemmed in by having to "stay with the group." A continuous educational program in operation throughout the calendar year seems to be in the near future. Our outstanding summer school program is a step in this direction.

A special Summer Camping Program for special class students was held, providing successful opportunities for these children to continue their educational program in a relaxed and enjoyable manner. The program helped these students to function together and with other groups of children, as well as to practice and improve manual dexterity through supervised activities. A program was also held for perceptually handicapped children which made extensive use of phonics study and activities geared to develop visual and auditory perception. Control readers and tape recorders, as well as other audio-visual instruments, were used to develop phrasing and other aspects of oral expression.

The Summer School employed eighteen teachers and offered twenty-nine separate courses for students at all grade levels.

The Summer School staff is commended for developing and carrying out programs that reflect the interests and needs of the community.

Respectfully,

George R. Duggan, Director, Summer Institute

TOWN OF SCITUATE ANNUAL REPORT

Adult Evening School

The Scituate Adult Evening School is one of the most successful in the South Shore area. A total of 733 participants enrolled. Classes were held at the Junior and Senior High Schools to accommodate the interests of the community and the numbers of participants. An additional 91 students enrolled the second semester, bringing the total enrollment to 824. A total of 29 separate courses were programmed for the year.

Since Scituate, like every other community, believes that education must be continuous throughout adult life, an expanded adult evening school program is necessary as new interests and demands are displayed by the citizens. In this way the Schools can and will, in fact, become the center of community life as sociologists are predicting for the future.

The staff of the Adult Evening School is commended for their dedication to service for the community.

Efforts are now underway to develop a high school equivalency program; to provide opportunities to upgrade technical and commercial skill and to help citizens new to our country develop the necessary skills for gaining their fair share of "the good life."

Respectfully,

J. Joseph Gibbons
Director, Adult Evening School

Summary

While we are proud of what is happening, the Administration recognizes the rocks and shoals ahead. Examination of the direction of education within the town of Scituate lets us foresee the dangers for which we must now plan.

As education, like all areas of our society, increases in cost, we must look to business for experience and learn to develop more efficient and more economical means of education that will not lessen its quality. We have taken a step in this direction. All administrators are attending workshops in "Systems Planning." An attempt is being made to adopt for our use techniques of planning, innovating and budgeting that have proven to be successful in business. Educators will have to become more business-like in the administration of their programs.

As the year-round school becomes more of a reality, the Summer School must be incorporated into the regular school program. Students who wish should be able to take extra courses during the summer, or even in the Adult Evening School, if this proves to be more advantageous to an individual's personal and economic needs.

TOWN OF SCITUATE ANNUAL REPORT

The greatest concern at present is for adequate school housing. The many fine, productive services currently offered to the community throughout the entire educational spectrum will be curtailed unless the type of support Scituate citizens have given in the past continues.

Half-day sessions and crowded conditions will affect the regular educational program, the guidance program and the special educational programs now performing such necessary and rewarding services to children. Our educational costs will increase and the effectiveness of services will be greatly diminished. Our educational complex must operate at peak efficiency to realize the returns on our investment.

We extend special thanks to the Feasibility Study Committee which has served so well in the past and has recently been called on again to provide a service to the community. Through such dedication to performance of civic responsibilities, this committee has helped Scituate by providing the professional guidance and technical competence necessary to meet and solve the problems inherent in the growth of a community.

The educational system in Scituate extends far longer than the calendar school year; far deeper than the simple 3 R's; far broader than the regular program of kindergarten through high school; farther into the community than the simple student-teacher relationship. The extensive services required to provide adequate educational opportunities to the community represent an undertaking of significant magnitude and a cooperative effort that is neither required nor expected in any other field, whether it be commercial or civil.

Such an undertaking is only possible because interested citizens are giving time, talent and effort to make it work; because individuals are willing to serve in parent-teacher organizations; on unpaid town boards; in supportive parent groups serving the music, sports and special education programs; yes, even the parent who takes a moment to call and offer a constructive criticism or a supportive voice to the educational work of the staff. Because of all this, Scituate is able to maintain an outstanding educational program that is a real source of pride in our community.

Respectfully submitted,

John J. Staples
Superintendent of Schools

TOWN OF SCITUATE ANNUAL REPORT

SCHOOL COMMITTEE MEETINGS ARE OPEN

The Scituate School Committee meets regularly at 7:30 P.M. each month, September through June, on the first and third Mondays unless announced in the press. Meetings are held in the Administration Building, Cudworth Road, Scituate, and are open to the public.

ADMISSION TO THE SCHOOLS

To be admitted to Kindergarten, a child must have reached the age of four years, eight months, on September 1 of the year he is to enter school.

To be admitted to Grade 1, a child must have reached the age of five years, eight months, on September 1 of the year he is to enter school.

Children whose birth certificates are dated later than January 1 will not be enrolled for the current school year.

A vaccination certificate must be presented to the school when a pupil enters for the first time.

NOTE: Effective December 4, 1967, all school children must be immunized against smallpox, diphtheria, tetanus, pertussis, measles and polio, unless exempted for medical or religious reasons.

A birth certificate must be presented for those pupils whose births were recorded outside of Scituate.

REPORT OF THE TOWN CLERK

ANNUAL TOWN MEETING

March 17, 19, 21, 24 and 26, 1969

A legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs was held at the Scituate High School Gymnasium on Monday, the seventeenth day of March, 1969 at 7:00 o'clock P.M. The meeting was called to order by Moderator John J. Delaney, Jr.

The warrant was read by Town Clerk Pauline F. Guivens.

The check list was used. Checkers were: Amy C. Bates, Catherine E. Kennedy, Barbara E. Salvador, Gladys L. Merrill, Daniel J. Queeney, Sr., Elizabeth Y. Robbins, Irene A. Samaras, Dama B. Sherman, Jeanette Hollis, Nan M. Landry, Catherine E. Levangie, Anne J. Torrey, Rita M. Brennan and Claire E. Brady.

Tellers appointed by the Moderator and sworn by the Town Clerk were: Robert E. Doyle, William F. Brennan, Joseph V. Feeley, Richard H. LaFleur, Paul W. Rathbun, Richard S. Tibbets, Edmond J. McLevedge, Phillips N. Weeks, E. Arnold Nadeau, Edward P. Horne, John E. Bamber, Edward S. Rand, John J. Healy, Jr. and Chester F. Wolfe, Jr.

The invocation was given by Rev. Herbert C. Chamberlin.

Article 1

To hear the report of the Selectmen or other Town Officers and Standing Committees, and act thereon.

VOTED: Not to accept the reports of the Selectmen and other Town Officers as printed in the Town Report.

Article 2

To choose all the necessary Town Officers other than those elected by ballot, viz: Surveyor of Lumber, Measurer of Wood and Bark, two or more Field Drivers, one Poundkeeper.

VOTED: That the Town appoint the following Town Officers: Surveyor of Lumber, Measurer of Wood and Bark, Russell L. Fish; Field Drivers, Ernest M. Damon and Alden C. Finnie; Poundkeeper, Charles Zimmerman.

Article 3

To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue for the financial years beginning January 1, 1969, and January 1, 1970, in accordance with provisions of General Laws, Chapter 44, Section 4, and to renew any note or notes as may be given for a period of less than one year, in accordance with the provisions of General Laws, Chapter 44, Section 17, or take any other action relative thereto.

VOTED: Yes

Article 4

Will the Town vote to have all the income from the Water Division of the Public Works Department paid to the Town Treasurer, and estimated receipts used by the Assessors in fixing the tax rate for the current year.

VOTED: Yes

Article 5

To see if the Town will raise and appropriate the sum of \$111,826.00 to cover the expenses and disbursements of the Retirement System and Pensions for 1969, or act thereon.

VOTED: To raise and appropriate \$111,826.00.

Article 6

Will the Town raise and appropriate the sum of \$1,113.82 for the payment of bills of previous years, said payment to be as follows:

Fischer & Porter Company	Sewer Works	\$ 39.00
Satuit Oil Company	Libraries	97.99
Campbell and Hall, Inc.	Libraries	195.44

Dr. Ruth Bailey	Police	\$ 20.00
South Shore Hospital	Police	135.35
Alan S. Bello, M.D.	Police	20.00
Thayer Pharmacy	Police	103.46
Quimsco	Police	15.00
Dr. Flaviu C. A. Romanul	Police	60.00
Drs. Kilfoyle, Dolphin, McConville	Police	25.00
Brockton Hospital	Police	6.80
Carney Hospital	Police	17.50
Francis V. Creedon, M.D.	Police	10.00
John G. Ferrante, M.D.	Police	20.00
Northeastern University	School Dept.	47.30
Mainco School Supply Company	School Dept.	52.98
Hobbs & Warren, Inc.	Assessors	21.55
Dr. E. Higgins	Veterans' Benefits	7.00
State St. Bank & Trust Co.	Veterans' Benefits	123.00
Massachusetts General Hospital	Veterans' Benefits	48.65
Clinics of Mass. General Hospital	Veterans' Benefits	19.20
Scituate Medical Laboratory	Veterans' Benefits	<u>28.60</u>
		\$1,113.82

VOTED: To raise and appropriate \$1,113.82.

Unanimous

Article 7

To see if the Town will vote to raise and appropriate a sum of money to the Reserve Fund or transfer the whole or any part thereof from available funds or act thereon.

VOTED: To raise and appropriate \$40,000.00

Article 8

To see if the Town will vote that the School Committee be authorized from time to time until further action of the Town to designate an attorney as a representative of the committee for the purpose of bargaining with any one or more employee organizations for school employees and to change or terminate any such designation.

VOTED: Yes

Article 9

Will the Town approve the recommendation of the Personnel Board to amend the Classification and Salary Plan effective January 1, 1969 as follows:

SCHEDULE I—CLERICAL—ADMINISTRATIVE EMPLOYEES

Article 24

Will the Town vote to appropriate a sum not to exceed One Thousand Dollars (\$1,000.00), said amount to be used to create, print and distribute a brochure describing the economic opportunities available in the Town of Scituate.

VOTED: Yes \$1,000.00

Article 25

To see if the Town will raise and appropriate, or borrow, a sum of money to purchase or take by eminent domain, for the purpose of a fire station site, a parcel of land containing seven (7) acres, more or less, on the westerly side of Tilden Road as described in deed to Maude E. Killgore in Book 1894, Page 520, and bounded:

Southerly by land of Alden Finnie and James Finnie, seven hundred seventy-five feet (775') more or less; easterly by a brook, three hundred fifty feet (350') more or less; northerly and westerly by land of the Town of Scituate, five hundred thirty-five feet (535') more or less; northerly again, by Beaver Dam Road, fifty-six feet (56') more or less; easterly and northerly by land of Maude E. Killgore, four hundred sixty feet (460'); and easterly again, by Tilden Road, two hundred thirty feet (230'), as shown on a compiled plan on file in the office of the Town Surveyor, or take any other action relative thereto.

VOTED: Yes 146 No 712

Article 26

To see if the Town will raise and appropriate, borrow, or transfer from available funds a sum of money to purchase or take by eminent domain for the purpose of a fire station site, a parcel of land containing two and three quarters ($2\frac{3}{4}$) acres situated on the westerly side of Tilden Road, as shown on Land Court Plan 31061A, and bounded southerly by land of Ketterer and the Town of Scituate, five hundred five feet (505') more or less; westerly by land of the Town of Scituate, two hundred seven feet (207') more or less; northerly by land of Guivens, Allen, Daly, Risi and Ross, five hundred eighty-four feet (584') more or less; and easterly by Tilden Road, two hundred ten feet (210') more or less, as shown on a compiled plan on file in the office of the Town Surveyor, or take any other action relative thereto.

VOTED: To indefinitely postpone.

Article 27

Will the Town raise and appropriate or transfer from available funds a sum of money for the purchase of a 1,000 gallon pumper and equipment and

authorize the Chief, in cooperation with the Selectmen, to purchase same.

VOTED: To raise and appropriate \$28,773.00

Article 28

Will the Town raise and appropriate or transfer from available funds a sum of money for the purchase of an aerial elbow to be installed on the present fire alarm truck.

VOTED: No

Article 29

To see if the Town will raise and appropriate the sum of \$12,950.00 for Scituate to continue as a member of the South Shore Mosquito Control Project, said sum to include the amount which may be assessed against the Town for Mosquito Control (Chapter 112, Acts of 1931) or act thereon.

VOTED: To raise and appropriate \$12,950.00

Article 30

To see if the Town will raise and appropriate a sum of money for insect control at Musquashicut Pond.

VOTED: To raise and appropriate \$4,500.00

Article 31

Will the Town vote to raise and appropriate the sum of \$73,029.00 to cover the Town's share of the expenses of the South Shore Regional School District as certified by the Regional District Treasurer in accordance with G. L., Chapter 71, Section 16.

VOTED: To raise and appropriate \$73,029.00

Article 32

To see if the Town will vote to transfer the proceeds of the Dog Fund from the County to the Libraries of the Town, or act thereon.

VOTED: Yes

Article 33

To see if the Town will raise and appropriate, borrow, or transfer from available funds a sum of money to purchase or take by eminent domain for school site, school playground area, and conservation purposes two (2) parcels of land hereinafter described, not more than 40 acres of said land to be used for school site and school playground purposes, the balance to be used for conservation purposes:

PARCEL 1 — containing 95.84 acres, bounded northeasterly by Country Way and by land of Yeats, Hendrickson, Fleming, North Scituate Library Association, Donahue, Olsen, James and Mauch; easterly and southerly by Mann Lot Road and by land of Gilbert, Herzog, Ahearn, Locklin and Rogal and by land of Town of Scituate; northwesterly by Chief Justice Cushing Way, and by land of Merritt, Bailey, Baxter and Wall; and northerly by land of Miles.

PARCEL 2 — containing 5.82 acres, bounded northeasterly by Chief Justice Cushing Way, southwesterly by land of the Town of Scituate, south-erly by land of Smith, and westerly by land of Smith and land of Merritt.

The above parcels of land are shown on a plan by Loring H. Jacobs, dated December 15, 1966, owned by Pittsburgh National Bank, Trustee of the Estate of J. Bailey Ellis, and filed at the Scituate Town Hall in the Engineering Office of the Department of Public Works, or take any other action relative thereto.

VOTED: Yes	800	No	469	Not a 2/3 vote
------------	-----	----	-----	----------------

Article 34

To see if the Town will raise and appropriate, borrow, or transfer from available funds a sum of money, to purchase or take by eminent domain for school purposes, a certain parcel of land, located on the southeasterly side of Mann Lot Road, containing approximately 2.75 acres, and shown as Parcel 3 on a plan filed at the Scituate Town Hall, Engineering Office, Department of Public Works, or take any other action relative thereto.

VOTED: Conservation purposes	Yes	371	No	210
			Not a 2/3 vote	

Article 35

To see if the Town will raise and appropriate, borrow, or transfer from available funds a sum of money to purchase or take by eminent domain, for the purpose of a school site and school playground area, a parcel of land containing thirty-eight (38) acres more or less, as filed under Land Court Certificate of Title No. 27923 and shown on Land Court Plan 13028A, excluding those parcels conveyed under Land Court Plans 13028B, C, F & G, and bounded:

On the north by Mann Lot Road and Creelman Drive; thence lying southwesterly of Puritan Drive and Pratt Road; lying westerly of Aberdeen Drive; lying northerly of Arborway Drive; lying easterly of Chief Justice Cushing Way; and thence southeasterly by land of Parmenter, Scarsilloni, Cerilli and Lopes to Mann Lot Road and point of beginning, or take any other action relative thereto.

VOTED: Yes	19	No	946
------------	----	----	-----

Article 36

To see if the Town will raise and appropriate or transfer from available funds a sum of money for the procurement of plans, specifications and working drawings for intermediate school housing for 1400 students and to receive bids to be opened and submitted for approval at the next annual or a future Town Meeting.

VOTED: To indefinitely postpone.

Article 37

To see if the Town will raise and appropriate or transfer from available funds a sum of money for the procurement of plans, specifications and working drawings for intermediate school housing for 1200 students and to receive bids to be opened and submitted for approval at the next annual or a future Town Meeting.

VOTED: To indefinitely postpone.

Article 38

To see if the Town will assume liability in the manner provided by Section 29 of Chapter 91 of the General Laws, as most recently amended by Chapter 5, Acts of 1955, for all damages that may be incurred by work to be performed by the Department of Public Works of Massachusetts for the improvement, development, maintenance and protection of tidal and non-tidal rivers and streams, harbors, tidewaters, foreshores and shores along public beaches within the jurisdiction of the Town in accordance with Section 11 of Chapter 91 of the General Laws, and authorize the Selectmen to execute and deliver a bond of indemnity therefor to the Commonwealth.

VOTED: Yes

Unanimous

Article 39

To see if the Town will authorize the Selectmen to enter into an agreement with the Public Access Board of the Department of Natural Resources, Commonwealth of Massachusetts, to permit the Board to construct a boat ramp and related parking facilities which will provide public access to the waters within the Town of Scituate. Such agreement shall include an acceptance and police responsibilities on the part of the Town and a statement that the facilities shall be open to the general public on equal terms.

VOTED: Yes	420	No	260
------------	-----	----	-----

Article 40

To see if the Town will vote to raise and appropriate the sum of \$10,250.00 for Chapter 90 Highway Construction to be spent in conjunction with \$10,250.00 from the County of Plymouth and \$20,500.00 from the Commonwealth of Massachusetts on the Julian Street Bridge and the Driftway-Kent Street project, or take any action in relation thereto.

VOTED: To raise and appropriate \$10,250.00	Yes
---	-----

Article 41

Will the Town vote to raise and appropriate or transfer from available funds a sum of money to purchase or take by eminent domain certain properties

owned by Edward F. Webb, Inc. (about 3.5 acres), John J. Steverman et. al. (about 3.44 acres), and Alice J. Stanley and Alma Morris (now Youngquist) (about 1.50 acres) for the purpose of increasing the area and flood control of the new reservoir presently under construction off Chief Justice Cushing Way, all of said properties being shown on a compiled plan entitled "Plan of Proposed Reservoir, Scituate, Mass.", on file at the Town Clerk's Office and at the Office of the Department of Public Works, or take any action in relation thereto.

VOTED: Yes 573 No 7 To raise and appropriate \$12,634.00

Article 42

To see if the Town will vote to appropriate or transfer from available funds the sum of \$25,000.00 for foreshore protection, said sum to be used in conjunction with any sums already appropriated, or to be appropriated, by the Commonwealth of Massachusetts and the County of Plymouth, or either of them, or take any action in relation thereto.

VOTED: To raise and appropriate \$25,000.00

Article 43

Will the Town vote to appropriate the sum of \$250,000.00 for the purpose of extending the sewer mains and laterals in the Town of Scituate and to meet said appropriation, the sum of \$25,000.00 be raised by taxation and that the Treasurer with the approval of the Selectmen be authorized to borrow the sum of \$225,000.00 under the provisions of Clause 1, Section 7 of Chapter 44 of the General Laws and to issue bonds or notes of the Town therefor payable in accordance with the provisions of said Chapter 44, or take any other action relative thereto.

VOTED: Yes 531 No 142

Article 44

To see if the Town will rescind the vote on Question No. 5 appearing in the Warrant for the Annual Town Meeting of March, 1963 and voted by referendum on the Official Ballot of the March 1963 Town Election, which vote authorized the Selectmen to act as the Board of Public Works, or take any action thereon.

VOTED: That the Moderator appoint a committee of five persons of various backgrounds to be empowered to study the structure of our Town government, and report back to the next Annual Town Meeting, and that the subject matter of the pending motion is referred to said committee for its consideration.

Article 45

To see if the Town will vote to appropriate \$11,796.03 for the permanent construction of Summer Street from the Cohasset Town Line southerly to the Norwell Town Line, a part of Glades Road from Bailey's Causeway northwesterly about 750 feet, and such other street or streets as may be approved by the Selectmen and the State Department of Public Works, and to meet said appropriation the sum of \$11,796.03 be transferred from the proceeds received or to be received from the Commonwealth of Massachusetts under provisions of Chapter 616, Acts of 1967, or take any action in relation thereto.

VOTED: No

Article 46

Will the Town vote to raise and appropriate or transfer from available funds the sum of \$3,500.00 to reconstruct a sidewalk on the northwesterly corner of Brook and Front Streets, as shown on a plan prepared by the Town Surveyor.

VOTED: No

Article 47

Will the Town vote to raise and appropriate or transfer from available funds the sum of \$2,370.00 to provide a sidewalk on the northeasterly side of Tilden Road from its intersection with Christopher Lane to its intersection with Mann Hill Road, as shown on a plan compiled by the Town Surveyor.

VOTED: To raise and appropriate \$2,370.00

Article 48

Will the Town vote to raise and appropriate or transfer from available funds the sum of \$1,250.00 to provide a sidewalk on the southwesterly side of Tilden Road from its intersection with Elaine Court to its intersection with Egypt Beach Road as shown on a plan compiled by the Town Surveyor.

VOTED: To raise and appropriate \$1,250.00

Article 49

To see if the Town will vote to raise and appropriate a sum of money to purchase or take by eminent domain an easement over land of Alma J. Youngquist, Alice J. Stanley and James W. Stanley and land of Richard W. and Judith W. Green for the purpose of constructing a diversion ditch, appurtenances thereto, and maintenance of same, all as shown on a plan entitled "Plan Showing Location of Proposed Diversion Ditch, Scituate, Mass.", drawn by John F. Caulfield, Town Surveyor, and filed with the office of the Town Clerk and in the Engineering Office of the Department of Public Works.

VOTED: To raise and appropriate \$1,000.00

Unanimous

Article 50

Will the Town vote to amend its Building By-laws by striking out its present Building By-laws and adopt the new By-laws as prepared by its Building By-laws Appeal Board to take effect immediately in accordance with their provisions after they have been approved by the Attorney General of the Commonwealth and published or posted as required by law, or take any other action relative thereto.

VOTED: To table Yes 341 No 169

RESOLUTION

Be it resolved that it is the sense of this meeting that if Articles 51-53 are passed that the building inspector pursuant to his authority under Article 1 of the existing Building By-Laws be guided by those regulations of the amended code (Article 50) regulating new apartment only.

VOTED: Yes

Article 51

Will the Town vote to amend Section 1, "Establishment of Zones", paragraph 1-1, "Types of Zones", of its Zoning By-laws and add an Apartment Zone, so that paragraph 1-1 will now read:

"For the purpose of the By-law, the Town of Scituate is hereby divided into seven types of zones, designated as:

- 'A-1' (Residence 40,000 sq. ft.)
- 'A-2' (Residence 20,000 sq. ft.)
- 'A-3' (Residence 10,000 sq. ft.)
- 'B' (General Business)
- 'C' (Commercial)
- 'D' (Saltmarsh and Tideland Conservation District)
- 'E' (Apartment)

and also paragraph 1-2, "Location of Zones" will be amended so that it now reads:

"Zones 'A-1', 'A-2', 'A-3', and existing 'B', 'C', and 'D' zones are located and bounded as shown on a map entitled 'Supplemental Zoning Map' dated May 18, 1953, as amended and revised, signed by the Planning Board and filed in the office of the Town Clerk, which map together with all explanatory matter thereon are hereby incorporated in and made a part of this By-law; additional or revised zones will be shown on said map as any such additions or revisions are voted at any annual or special town meeting."

The E Zone is described as follows: All the land within the area bounded by the Easterly lines of New Driftway from Old Driftway to Kent Street, and the Easterly line of that part of Kent Street lying Northerly of New Driftway to Ridge Hill Road; and a line drawn 650' Easterly of and parallel to said Easterly lines of said Kent Street and New Driftway.

Article 52

Will the Town vote to amend Section 3 of its Zoning By-laws, "Use Regulations", and add Section 3-10, Apartment Zone Uses, as follows:

"a. Permitted Uses:

- (1) All of the uses permissible as of right or permissible on appeal in the A-1, A-2, or A-3 zones subject to the same conditions as therein specified.
- (2) Multi-family apartment house building subject to the following construction and lot size regulations:
 - (a) Conformity to the Town of Scituate Building By-laws;

Article 1 of the Building By-laws; and the Commonwealth of Massachusetts building code.

- (b) Said proposed apartment construction will be subject to the provisions of Section 3—7, "Site Plan Approval".
- (c) There will be a minimum tract area for each proposed apartment complex of at least 120,000 sq. ft.
- (d) There will be a frontage requirement of at least 175' on a street or way.
- (e) Only one and two bedroom units will be permitted. Only one bedroom may be constructed for each 1600 sq. ft. of tract land area and in no case will more than 21 units per 40,000 sq. ft. be permitted.
- (f) No more than 30% of the proposed parcel of land may be covered by the multi-family unit proposed.
- (g) Front, rear and side yard requirements shall be as outlined in Section 5—3 in the A—1 zone.
- (h) Parking of automobiles shall be considered in the 'Site Plan Hearing'; however, there shall be provision for parking space for 1½ cars per living unit.
- (i) Height restrictions shall be as outlined in Section 5, paragraph 5—1 of the Zoning By-law.
- (j) The proposed multi-family unit will be directly connected to the sewerage system."

Article 53

Will the Town vote to amend the Zoning By-laws of the Town of Scituate as follows:

1. Change Section 3—7a to read:

"a. Required Approval in Business, Commercial, and Apartment Zones.

"In a 'B', 'C', and 'E' zone, no business, commercial, or apartment building shall be constructed or externally enlarged, and no business or commercial use shall be expanded in ground area, or established in an existing building not theretofore used for business or commercial purposes except in conformity with a site plan bearing an endorsement of approval by the Planning Board. Said site plan shall show, among other things, all existing and proposed buildings, structures, parking spaces, driveway openings, driveways, service areas, and other open uses, all facilities for sewage, refuse and other waste disposal, and for surface water drainage, and all landscape features (such as

fences, walls, planting areas and walks) on the lot. Any person desiring approval of a site plan under this paragraph shall submit said plan to the Town Building Commissioner, who shall transmit it to the Planning Board within seven (7) days of said submission, and said Board shall take final action thereon within forty-five (45) days of receipt thereof. No building permit shall be issued until said Board has approved the plan. The Board shall have power to modify or amend its approval of a site plan on application of the person owning or leasing the premises, or upon its own motion in the event of changes in physical conditions sufficient to justify such action within the intent of this paragraph. All of the provisions of this paragraph applicable to approval shall, where apt, be applicable to such modification or amendment. Said approval of site plan shall be effective for a period of eighteen (18) months from the date of such approval unless prior to the expiration of such eighteen (18) month period the petitioner makes substantial efforts to build in accordance with the approved site plan.

"In considering a site plan under this paragraph the Planning Board shall assure, to a degree consistent with a reasonable use of the site for the purpose permitted by the regulations of the district in which located.

- "(1) Protection of adjoining premises against seriously detrimental or offensive uses on the site.
- "(2) Convenience and safety of vehicular and pedestrian movement within the site and in relation to adjacent ways and land.
- "(3) Adequacy of the methods of disposal for sewage, refuse and other wastes resulting from the uses permitted on the site, and the other wastes resulting from the uses permitted on the site, and the methods of drainage for surface water from its parking spaces and driveways.
- "(4) A fee of fifteen dollars (\$15.00) to cover advertising costs shall accompany the application for the site plan approval.

In exercising its jurisdiction under this paragraph, the Board shall conform to all requirements of procedure applicable to a board of appeals when hearing and deciding requests for special permits under Chapter 40A of the General Laws, including the requirements thereof for public notice and hearing."

Disapproved, August 5, 1969 — Articles 51, 52, and 53 by Robert H. Quinn, Attorney General

VOTED: Yes	381	No	136
------------	-----	----	-----

Article 54

To see if the Town will raise and appropriate, borrow, or transfer from available funds a sum of money to be deposited to the Conservation Fund and expended for the purchase of the land hereinafter described for conservation purposes:

Parcel 1—Containing 95.84 acres bounded northeasterly by Country Way and by land of Yeats, Hendrickson, Fleming, North Scituate Library Association, Donahue, Olsen, James and Mauch; easterly and southerly by Mann Lot Road and by land of Gilbert, Herzog, Ahearn, Locklin, and Rogal, and by land of Town of Scituate; northwesterly by Chief Justice Cushing Way, and by land of Merritt, Bailey, Baxter and Wall, and northerly by land of Miles.

Parcel 2—Containing 5.82 acres bounded northeasterly by Chief Justice Cushing Way, southwesterly by land of the Town of Scituate, southerly by land of Smith, and westerly by land of Smith and land of Merritt.

The above parcels of land are shown on a plan by Loring H. Jacobs, dated December 15, 1966, owned by Pittsburg National Bank, Trustee of the Estate of J. Bailey Ellis, and filed at the Scituate Town Hall in the Engineering Office of the Department of Public Works, or take any other action relative thereto.

VOTED: To raise and appropriate \$146,000.00

Article 55

Will the Town vote to authorize the Selectmen to appoint a Harbor Development Study Committee and raise and appropriate the sum of \$750 to pay for the clerical expenses and other incidental expenses of such committee.

VOTED: To raise and appropriate \$750.00

Article 56

Will the Town vote to adopt the following By-law:

In the Town of Scituate "No person shall serve on the same elected board or on the same appointed board for more than two (2) consecutive terms with the exception of career employees"? The Boards, which boards consist of more than two (2) persons and referred to above are;

Elected, Selectmen and Commissioners of Public Works, Board of Public Welfare, Assessors, School Committee, Board of Health, Planning Board, Scituate Housing Authority, Sewer Commissioners, Board of Library Trustees and any and all other Boards created by a vote of the Town;

Appointed, Advisory Committee, Personnel Board, School and Public Building Committee, Zoning Board of Appeals, Conservation Commission, Registrars of Voters, Assistant Assessors, Building By-Laws Appeal Board, Town Forest Committee and any and all other appointed Boards created to serve the needs of the Town now and in the future.

VOTED: No

Article 57

Shall the Town approve a petition for the enactment by the general court of a special law providing for the reimbursement of the town of Scituate and certain other towns for loss of taxes on land on which the former United States Naval Ammunition Depot was located, which land is now owned by the commonwealth and held by the department of natural resources for recreational and conservation purposes?

VOTED: Yes

Article 58

Will the Town vote to amend the Town By-law which appears in the Recompilement of the Town By-laws as Section 10 on Page 136 of the Town of Scituate Town Report 1967, by striking out said Section 10 and by inserting in its place the following:

"Section 10—A vote of the Town Meeting may be reconsidered once and only once by a two-thirds vote at the same session of the Town Meeting."

Approved, August 5, 1969 by Robert H. Quinn, Attorney General

VOTED: Yes

Article 59

Will the Town vote to rescind the action taken under Article 54 of the 1963 Town Meeting under which a Council for the Aging was established and to adopt the following By-law:

"There shall be a Council on Aging for the purpose of co-ordinating and carrying out programs designed to meet the problems of the aging in co-ordination with programs of the Commission on Aging established under Section 73 of Chapter 6 of the General Laws. The Council shall consist of seven (7) members who shall be appointed by the Board of Selectmen."

Approved, August 5, 1969 by Robert H. Quinn, Attorney General

VOTED: Yes (voice vote)

Article 60

Will the Town raise and appropriate a sum of money for the expenses of the Council on Aging, such amount to be matched by funds from the Commonwealth of Massachusetts.

VOTED: To raise and appropriate \$500.00

Unanimous

Article 61

Will the Town vote to amend the Town By-law dealing with "unregistered motor vehicles", which appears on page 141 of the Town of Scituate Town Report 1967 Recompile of the By-laws, by striking out the words "unless authorized by the Board of Selectmen", so that the said By-law will then read as follows:—

"Will the Town vote to adopt the following By-law: 'No person shall have more than one unregistered automobile or truck ungaraged on his premises in a residential district at any one time. In no event shall an unregistered, unsightly automobile or truck be stored in the front yard of any resident in a residential district. A violation of this section shall be punishable by a fine of not more than \$20.00.'"

Approved, August 5, 1969 by Robert H. Quinn, Attorney General

VOTED: Yes

Article 62

Will the Town approve the following additions to its By-laws under the heading **Shellfish By-laws**:

1. Under the provisions of the General Law Chapter 130, as amended by Chapter 598 Acts of 1941 and by Chapter 98 of the Acts of 1945, all

persons are prohibited from taking eels, clams, quahogs, sea clams, razor clams, oysters, mussels, scallops and sea worms from the coastal waters of the Town without a permit. This permit shall be issued by the Town Clerk and is to be used only in accordance with the terms, conditions and restrictions as are therein set forth.

2. Permits shall be of two kinds: commercial permits, whereby the holders may sell the shellfish taken under such permits; individual permits, whereby the holders of such permits may not sell the shellfish taken under such permits.
3. No person holding commercial permits need at the same time have a permit for family use for taking shellfish by hand.
4. Commercial permits will not be granted to any person who is not a bonafide resident of Scituate for at least six months prior to the application for the same.
5. A fee of \$25 will be charged for a commercial permit to take eels, sea worms and all kinds of shellfish or any of the same, from the coastal waters or the flats of the Town, by hand or by the use of a scratcher, picker, hand rake or any tined instrument; shovels, hoes and rakes strictly prohibited.
6. A fee of \$1 for an individual permit will be charged a resident of Scituate and any person resident within the Commonwealth, owning real estate within the Town of Scituate.
7. A fee of \$5 for an individual permit will be charged any person resident within the Commonwealth and not owning real estate within the Town of Scituate.
8. Any legal resident of the Town of Scituate 70 years of age or over will be entitled to any and all Town of Scituate Shellfish Permits free of charge.
9. No person shall commercially shellfish unless he has a valid bed certificate from the Division of Marine Fisheries, Boston, Massachusetts.
10. The taking of clams, quahogs, razor clams or shellfish of any kind from the waters and flats within the Town of Scituate by any method other than commonly known as the long rake, scratcher, tongs, or clam hoe is prohibited.
11. There will be no shellfishing on Sundays.
12. No commercial shellfish permit holder shall come ashore with shellfish and return to the waters for the purpose of additional shellfishing without the permission of the shellfish constable.
13. The taking of shellfish for family use shall not exceed one eight quart pail full (including shell) in any one week of any and all kinds of shellfish for each family.

14. No person shall take or have in his possession seed shellfish or soft shell clams less than two inches in the longest diameter, to the amount of more than five percent of the weight or volume of any batch. Any so taken shall be returned to the waters or flats from which they were taken.
15. No person shall dig, take or carry away any shellfish between sunset and sunrise by any method whatsoever, from any water, flats or creek of the Town below mean low water mark.
16. No starfish, horseshoe crab, or wrinkles shall be returned to the waters but shall be placed on shore above the high water mark.
17. No shellfishing shall be carried on when the air temperature is below 32 degrees F.
18. The Selectmen may restrict the use of such areas for the taking of any shellfish as they may deem expedient, either absolutely or generally, or for some particular use, or the taking of certain kinds of shellfish only and allowing other kinds to be taken on such restricted areas. And such restriction shall have the same force and effect as any rule or regulation made herein and any violation of which shall be punishable in like manner. No shellfish shall be taken from any area of water of the Town of Scituate unless such areas have been declared open for the taking of each kind of shellfish by the Board of Selectmen and then only to the quantity specified. The Selectmen may also restrict the taking of shellfish to certain days during the week.
19. All persons taking or carrying away or having in possession shellfish of any kind, in boat or container shall exhibit on demand from the Shellfish Constable or police officer, such shellfish for his inspection.
20. The Selectmen or Shellfish Constable may suspend, for cause, any permit granted for such time as they deem proper. Due notice in writing shall be given the permit holder of such suspension. Any person whose permit has been suspended shall return the same to the Office of the Town Clerk, there to remain until the period for which it was suspended has expired.
21. These regulations shall remain in full force and effect until modified, changed or revoked by the then Selectmen of the Town or by action of the Town Meeting.
22. No person shall plant, place or transplant shellfish in or onto any waters or shellfish areas within the Town of Scituate without first obtaining a special permit therefor from the Selectmen.
23. All sections of Chapter 130 of the General Laws which apply to shellfish shall be enforced.

24. Any person who violates any of the provisions of any of the above rules, regulations or laws shall be punished by a fine of not less than twenty dollars, no more than one hundred dollars.

VOTED: To amend the Shellfish By-Laws as printed in Article 62 by changing the fee for an individual permit from \$5.00 to \$10.00 under Section 7; by striking out Section 11, which prohibits shell fishing on Sundays; by adding the words "except sea clams" after the words "The taking of Shellfish" in the first line of Section 13; by adding at the end of the first line of Section 15 the words "except sea clams"; and by striking out Section 17; and that said Shellfish By-Laws as so amended are approved by the Town.

Disapproved, August 18, 1969 by Robert H. Quinn, Attorney General

Article 63

To see if the Town will raise and appropriate the sum of \$100.00 for the County Aid to Agriculture and authorize the Selectmen to appoint a Town Director as provided in Chapter 128 of G.L., as amended by Chapter 319 of the Acts of 1967, or act thereon.

VOTED: Yes

Article 64

To see if the Town will raise and appropriate the sum of \$350.00 for the purpose of providing quarters for Veterans of Foreign Wars Post 3169 in accordance with the provisions of General Laws, Chapter 40 (Ter. Ed.) Section 9 or act thereon.

VOTED: No

Article 65

Will the Town appropriate the sum of \$400.00 for the purpose of stocking ponds and other inland water located within the Town's limits with fish, and of liberating game, as defined in Chapter 40, Section 5, Subsection 41 within said limits and to meet the necessary expenses incidental thereto, including the feeding of game so liberated as provided in Chapter 142 of the Acts of 1938, or act on anything relating thereto.

VOTED: Yes

Article 66

To see if the Town will raise and appropriate the sum of five hundred (\$500.00) for a series of band concerts to be given during the summer season by the Satuit Band, or act thereon.

VOTED: Yes

Article 67

Will the Town vote to transfer to the Excess and Deficiency Account, or to any other appropriation authorized by Law, the unexpended balance remaining in the accounts specified below with respect to sums raised and appropriated in prior years under prior articles:

Article 29—1966 Purchase of Accounting Machine \$3,948.20

VOTED: That the Town transfer the unexpended balance of \$3,948.20 appropriated in 1966 under Article 29 for the "Purchase of Accounting Machine" to reduce the amount required to be raised by taxation under Article 27 of this 1969 Town Meeting warrant.

Article 68

To see what sum of money the Town will vote to transfer from the Excess and Deficiency Account to be used by the Assessors in reducing taxes for the current year.

VOTED: \$50,000.00

Attest: Pauline F. Guivens
Town Clerk

REPORT OF BOARD OF REGISTRARS

Advertised meetings for Registration of Voters and Certification of Names on Nomination Papers were held before the Annual Town Meeting and Election.

Continuous Registration of Voters, Chapter 51, Section 33, General Laws- - In towns having six hundred or more registered voters, any person shall be registered during regular business hours on application, except during such time as registration is not permitted by law.

In the year 1969 there were 227 names added to the voting list by registrations, while 348 names were dropped because of deaths and change of residence.

Registered Voters in the Town of Scituate on December 31, 1969 were:

Republicans	2,203
Democrats	1,829
Unenrolled	<u>3,673</u>
Total registered voters	7,705

Respectfully submitted,

Elinor M. McElroy
Louise B. Sullivan
Paul J. Sullivan
Pauline F. Guivens, Clerk

LIST OF JURORS FOR 1969

**Prepared as Provided for in Chapter 234, Section 4, General Laws,
As Amended (T.E.)**

Abrahamson, George W., 30 Oakhurst Rd., Architect
Ainslee, Velma B., 215 Old Oaken Bucket Rd., Clerk & Buyer
Anderson, James W., 709 Country Way, Heating & Plumbing
Atherton, Melvin A., 112 Hollett St., Sales Rep.
Bailey, Ruth V., 10 Jericho Rd., Housewife
Barnard, Cornelia, 5 Clapp Rd., Housewife
Barron, James J., 20 Chittenden Dr., Salesman
Black, Nancy C., 107 Chief Justice Cushing Way, Housewife
Blair, Frank S. III, 158 Border St., Reg. Sales Mgr.
Boucher, Dorothy A., 40 Damon Rd., Housewife
Bullock, Donald E., 15 Neal Gate St., Pat. Engineer
Burke, Evelyn G., 65 Turner Rd., Housewife
Carberg, John P., 3 Jefferson Lane, Publicity Manager
Carlsen, Douglas I., 176 Hatherly Rd., Supervisor
Carpenter, Harry M., 42 Brockton Ave., Branch Mgr.
Carvell, Donald J., 27 Cedar Hill Lane, Supervisor
Chapman, John H., 24 Booth Hill Rd., Urban Renewal Advisor
Chase, Arthur M., 42 Fairview Ave., Lobster-Fisherman
Collier, Laurretta W., 40 Grove St., Housewife
Condon, Marie C., 3 Seaboard Circle, Secretary
Connolly, John F., 6 Ermine Rd., Quality Control Inspector
Conrad, Walter C., 41 Lawson Rd., Engineer Div. Head
Corcoran, Helen R., 349 Hatherly Rd., Housewife
Corrigan, Edward, 18 Collier Rd., Clerk
Costello, Pauline K., 86 Brook St., Homemaker
Cowhig, John J., 245 Chief Just. Cushing Way, Mechanic
Cuneo, Joseph F., Jr., 2 Cedar Crest Lane, Office Mgr.
Curran, Susan B., 11 Tichnor Court, Unemployed
Curtis, William W., 90 Ann Vinal Rd., Retired
Dalton, Franklin W., 15 Old Farm Rd., Maint. Supv.
Dame, Russell F., 42 Elm St., Projectionist
DaPrato, Roger I., 49 Capt. Peirce Rd., Asst. Ticket Agent
Daniels, John, 33 Lincoln Park, Retired
Deitz, Christian G., Jr., 9 Pinebrook Lane, Vice President Administration
DiNardo, Anthony, 22 Elaine Court, Vice President Personnel

Draper, Thomas F., 34 Circuit Ave., Wool Dealer President
Drew, Arthur W., 1 Ford Place, Retired
Durkin, Bernard M., 3 Aberdeen Dr., Insurance Sales
Dwyer, Bernard, 8 Blanchard Rd., Unemployed
Edwards, John D., 42 Beaver Dam Rd., Wholesale Liquor Sales
Ellis, Donald H., Zero Lightship Ln., Retired
Elmo, Benjamin S., 67 Edith Holmes Dr., Shipbuilding Master Planner
Fairbanks, Benson, 24 Borden Rd., Clerk Planning Dept.
Ferreirra, Albert M., 439 Chief Justice Cushing Way, Carpenter
Finn, Charles J., 5 Bulrush Farm, Realtor
Fishwick, Harold M., 24 Beal Place, A & P Sales Clerk
Fisk, William S., 799 Country Way, Layout Mechanic
Flynn, Philip S., 49 Barker Rd., Horse Trainer
Foley, Robert J., 46 Edgewood Rd., Dist. Rep.
Fryling, Owen W., 64 Booth Hill Rd., Manager, Indust. Engineering
Gauley, Elizabeth C., 11 Grove Street, Housewife
George, Gordon S., 13 Holmes St., Sales & Service
Gill, Richard C., 567 First Parish Rd., General Invest. Mgr.
Goodnow, Catherine S., 22 Cornet Stetson Rd., Portrait Painter
Greim, Robert H., 47 Chittenden Rd., Facilities Supervisor
Harrington, Anna L., 21 Sedgewick Dr., Housewife
Hayes, Joseph H., Sr., 16 Shady Lane, Steamfitter
Haughey, Daniel F., 158 Capt. Peirce Rd., Industrial Cleaner
Hefner, William F., Jr., 8 Clover Lane, Marine Engineer
Hickman, Harold, 6 Bridge Ave., Foreman Service
Hill, Virginia, 30 Acorn St., Housewife
Hogan, Kathryn B., 12 Standish Ave., Secretary
Hubbell, Ann S., 85 Indian Trail, Housewife
Hynes, Michael J., 25 Hilltop Rd., Internal Auditor
Jackson, Herbert B., 55 Oakhurst Rd., Statician Insurance
Jacobssen, Valeria N., 210 Capt. Peirce Rd., Library Assistant
Jewell, John H., 5 Claymore Terrace, Adv. Executive
Johnson, Peter J., Jr., 144 Branch St., District Manager
Jones, Ralston P., 24 Buttonwood Lane, Wool Sales
Kennedy, Frederick A., 10 Oakhurst Rd., Electrical Designer
Kent, Ellsworth H., 70 Brook St., Architect
Kreutler, Joseph P., 25 Arborway Drive, Examiner & Adjuster
Lincoln, Ruth, 203 Gannett Rd., Housewife
Linnehan, Leonard, 40 Hazel Ave., Public Rel.
Litchfield, Nancy H., 133 Maple St., Sales Clerk

Litz, John H., Jr., 138 Ann Vinal Rd., Painter
Loftis, James L., 15 Cedar Crest Rd., Dist. Mgr.
Lonergan, Catherine M., 22 Beal Place, Secretary
Luscombe, Edwin K., 252 Beaver Dam Rd., Insurance Underwriter
MacArthur, Robert C., 305 Country Way, Director of Operations
MacDonald, Thomas F., 15 Bayberry Rd., Senior Traffic Engineer
MacDougall, Dorothy I., 39 Richfield Rd., Justowriter
McPherson, John D., 6 Clapp Rd., Comp. Systems Supervisor
Metcalf, Russell F., 30 Bittersweet Dr., Real Estate Broker
Mitchell, John, 9 Silver St., Design Draftsman
Morgrage, Ruth L., 110 Kent St., Housewife
Morse, Norma E., 27 Hatchet Rock Rd., Housewife

O'Brien, James P., 22 Clover Lane, Toll Layout Assigner
O'Connell, Eugene C., 162 Woodland Dr., Manager
O'Connell, Maurice H., Jr., 3 Chesterton Pk., Dealer Rep.
O'Connell, Richard T., 13 Standish Ave., Installer Repairman
Oliver, John, 34 Beaver Dam Rd., Civil Engineer
Perachi, Joseph F., Jr., 34 Woodland Dr., Dist. Manager
Proctor, Alice C., 34 Curtis Street, Housewife
Rencurrel, Robert B., 101 Indian Trail, Branch Mgr.
Ricci, Louis, 6 Aberdeen Dr., Insurance Sales
Rice, John W., 86 First Parish Rd., Programming Instructor
Russell, Edwin H., 3 Chester Street, Truck Driver
Simms, Eric J., 15 Egypt Beach Rd., Vice President
Slattery, Anne F., 54 Sedgewick Dr., At Home
Snow, Dorothy G., 9 Summer St., Asst. Manager
Stahl, William V., 235 Gannett Rd., Foreman Carpenter
Stearns, Richard M., 28 Eisenhower Ln., Architect
Stenbeck, Charles V., 158 Clapp Rd., Carpenter
Stenbeck, Hilda M., 45 Otis Place, Retired Private School Teacher
Stennes, Martin C., 77 Lighthouse Rd., Retired
Stromvold, Louise L., 11 Eleventh Ave., Housewife
Story, George, 31, Cedar Hill Rd., Bank Vault Manager
Strzlecki, Michael J., 131 Country Way, Carpenter
Sullivan, Mildred G., 10 Ermine St., Housewife
Sullivan, Mildred D., 56 Collier Rd., Retired
Swider, Edward F., 36 Meetinghouse Lane, Traffic Supv., Facilities Planner
Sylvester, Fred L., Jr., 11 Stenbeck Place, Maintenance
Tierney, Richard J., 58 Aberdeen Dr., St. Lamp & Troubleman

Tweedy, James W., 84 Williamsburg Ln., President
Walker, James E., 4 Harbor View Rd., Insurance Supervisor
Wallace, Edwin, Bailey's Island, Mgmt. Consult.

REPORT OF THE SHELLFISH CONSTABLE

Board of Selectmen
Scituate, Mass.

Gentlemen:

I present this report from May first for the year 1969. I am proud to say we have made good progress in our shellfish areas, especially in regular patrols of our flats and the removing of mussels in the areas where the clams are seeding back in great abundance. We have issued more permits this year than ever before and hope we can continue to do so.

Respectfully submitted,

Wilbur H. Hatch
Shellfish Constable

ANNUAL REPORT OF THE BOARD OF SELECTMEN

1969 has been a busy and productive year for your Board of Selectmen. In March we welcomed our newly elected member, Stephen S. J. Hall, to our Board, and we were again joined by Robert H. Tilden who was re-elected to his seventh term. The election results were a reflection on the changing scene in our town. The population is made up of a dynamic mixture of newer residents who commute to the core city and older residents who have lived here for many years. The result of this population mix is an active, aware citizenry which participates fully in our local democratic process.

The changing pattern of our town's population structure and the growth in sheer numbers gives us cause to pause and reflect on our ability as a local government to handle and cope with the many problems that we face. These problems have a direct bearing on the quality of life that we are trying to sustain. Water pollution, air pollution, indiscriminate filling and dredging of our marshes and streams, and, of course, the age old problem of refuse disposal and the newer problems of transportation and housing in an urban area, all are problems that finally have come home to roost. These problems were remote to a town like Scituate as recently as 10 to 15 years ago, but now we are sure that any thinking citizen realizes that we cannot avoid confronting these problems here and now.

It also is important to realize that these problems transcend town and city boundary lines. It is no longer valid to say that those are Boston's problems and not ours. We simply have to face the fact that we have become a part of an urban metropolitan area.

With those few preliminary remarks in mind, most of you no doubt have read about various proposals on regionalizing certain governmental functions. The proponents of these solutions claim that a metropolitan, large scale attack on problems that are super-imposed over our traditional town and city boundaries is not only the most direct way of solving them but also the least costly. It is interesting to note, however, that both major metropolitan government proponents are careful to point out that they would not tamper with local autonomy in most areas that the towns and cities traditionally have jurisdiction over.

The wheels of state government, however, have a way of turning slowly, and we would like to point out that your Board of Selectmen is not sitting back and waiting on the outcome of these legislative proposals.

First of all, we are attempting to coordinate and understand better the workings and goals of all Scituate's boards and committees, both appointed and elected. Too often, it appears to our residents that we seem to be a group of autonomous boards going off in all directions without a general overall goal. In order to try to improve this situation, your selectmen are scheduling general sessions at least on a quarterly basis with every board and committee, elected and appointed. These meetings are designed to inform and coordinate programs that might not be immediately germane to a particular committee, but that are important to everyone of our citizens. Our first general meeting was held in November, and the agenda topics centered around the new change in our fiscal year and also a general explanation of why we want a capital budgeting program and how the implementation of such a program may help us stabilize our tax rate. The meeting was generally successful, and we hope to schedule another before town meeting.

In another area of seeking governmental cooperation, we had a meeting with the Selectmen of Marshfield and their Police and Fire Chiefs. We have long since felt that there are certain areas whereby we should be cooperating with our neighboring towns. In such areas as refuse disposal, water supply, patrol of rivers, waterways by-laws, shellfish patrol, and police and fire protection, we feel that a general understanding could be reached amidst a feeling of cooperation. We plan to expand on this idea and meet with other officials from our neighboring towns in the very near future.

With your help and patience and constructive criticism, we feel confident that we are making progress, and towards that end let us state that our goal is to first serve you, our residents, providing you with good services consistent with a drive towards stabilizing a real estate tax that has already reached the breaking point for many people. We know that we have to provide services for a growing population, but we also know that the appropriation of your tax dollar must be done on a strict priority basis.

In closing we would like to express our gratitude to all of our fine town employees and to all of the elected and appointed officials and boards who have cooperated so fully during 1969. The cooperation and respect among boards have increased immeasurably during the year.

John D. O'Brien, Chairman
Richard Damon
Stephen S. J. Hall
Murray Snow
Robert H. Tilden

ANNUAL REPORT OF THE COMMISSIONERS OF PUBLIC WORKS

It is the intention of the commissioners that the Public Works Department operate at a high degree of efficiency consistent with providing the necessary services that you, the taxpayer, require. We have been in existence as a consolidated department for nearly six years now, and while there is always room for improvement, we feel that the department is progressing well. The reason for much of this progress was the first superintendent of the department, John E. Bamber. Mr. Bamber retired this year after serving the town and the county for more than 40 years. In a tough, demanding job, Mr. Bamber welded together an efficient organization that is flexible enough to meet any day-to-day problem that may arise. One of the measures of this man's success is how he left the department staffed upon his retirement. To succeed Mr. Bamber, we were fortunate enough to have John F. Caulfield who has served the town as town surveyor and assistant superintendent for 5 years. Aside from acquiring a great deal of experience and familiarity with the department while working as assistant superintendent, Mr. Caulfield came to us originally with a great deal of experience as a registered professional surveyor. We have confidence that the department is in good hands.

This year your commissioners sought to spend more time on policy and planning matters rather than on day to day detail which clearly is within the province of the superintendent and his division supervisors. We, therefore, instituted a policy of meeting on the first Monday of every month in order to discuss strictly public works business. These meetings afforded us the opportunity of studying departmental problems, without trying to squeeze these matters into our regular weekly Selectmen's meetings. The meetings have been most productive and are regularly attended by not only the superintendent but by the division supervisors and their respective foremen. We invite any interested citizen to attend these meetings which are held on the first Monday evening of each month.

One other significant point we feel should be mentioned. We have instituted another new policy regarding this matter of storm emergencies. On two occasions during 1969, the February snow storms and the December rains, we became deeply involved in attempting to help individual families in distress. This we want to do without question, because the plight of many families during these storms was of great concern to your board.

We feel, however, that we could be of greater service and operate more efficiently if we had a storm emergency plan of action. We now have approved a plan whereby once the Public Works Commissioners feel that a storm situation is of sufficient severity, we will put into effect a plan whereby the Public Works Department will have emergency crews on duty 24 hours a day. The department supervisors will coordinate not only these crews, but personnel and equipment made specially available by the Police Department, Fire Department, and Coast Guard. All incoming distress calls will be routed through the Department of Public Works number once an emergency is declared by the commissioners.

With regard to the projects and operational detail that we have been involved in, I would refer you to Mr. Caulfield's report on the activities of the various divisions.

We would, however, like to comment on the new water treatment plant and reservoir. We have encountered a number of pesky start-up problems with this project, probably more than our share of the normal problems, even though it was a large, complicated project. We would like to assure you that all times we have protected the taxpayers' dollars, holding back money from the contractors and the engineers when we deemed the work not satisfactory. We have stayed within the dollar amount authorized by the town meeting. We are nearing the completion of the project now, and we can look forward to a water supply that will correct a severe water shortage problem that has plagued the town for many years.

In closing we would like to single out another devoted town employee, John W. Ford, who served the town in many capacities concerned with our public grounds, closing out his career as the first supervisor of the Public Grounds Division. His total dedication is evidenced by the beauty of our tree lined streets and our well cared for parks and school grounds.

We would like to thank all of the members of the department for their cooperation, and we look forward to continued progress for the ultimate benefit of all of our residents.

John D. O'Brien, Chairman
Richard Damon
Stephen S. J. Hall
Murray Snow
Robert H. Tilden

Commissioners of Public Works

To the Commissioners of Public Works —

Gentlemen:

In accordance with the provisions of Chap. 41 Sec. 69E of the General Laws I respectfully submit my first annual report of the Department of Public Works.

Since its advent in April 1964 many changes and additions have taken place in our town. With the increase in growth and population resulting in added responsibilities the cost of operating the Public Works has been relatively minimal. Since 1964 our performance record has increased approximately 80% with a less than 10% increase in labor. There were 45 employees then, compared to our present number of 49 employees. This proves that experience plus modern equipment will solve many municipality problems.

Utilizing our equipment to its fullest potential as well as diversification of our employees I feel certain we will achieve greater accomplishments in the future years. However, due to the ever increasing problem of endeavoring to retain our present experienced personnel and attempting to hire qualified men we are still understaffed by three men, one in each Division. It is our sincere hope to hire these men during the ensuing year.

In keeping with our long range program of modernized equipment, following is a list of our requirements for each Division:

Highway — replace a 1962 Trojan Backhoe, 1966 Street Sweeper, two 1964 three-quarter ton Pickups and a 1964 Dump Truck. Purchase a vacuum type catch basin cleaner. Also, a new base radio station to replace the now 12 year old system.

Public Grounds — replace a 1964 one-half ton Pickup. Purchase a new Dump Truck for rubbish pickup.

Water — replace 1964 Pickup and purchase a small boat with outboard motor for the surface treatment of the reservoir and ponds.

Due to the many small problems confronting us in the complexity of the Water Treatment Plant we have been unable to operate the plant continuously since its completion. However, working with the state and our resident engineers it appears that the plant should be operating on a permanent basis starting in the early part of 1970.

Acknowledgment for the achievements and accomplishments of this Department must certainly be credited greatly to the two gentlemen who retired during 1969. Mr. John W. Ford, Supervisor of the Public Grounds Division retired on May 1st after serving the town in this capacity as well as Tree Warden for over 41 years. Also, Mr. John E. Bamber, Superintendent of the Public Works, retired on October 1st after having served the town for 24 years as Town Engineer and for the past five and one-half years as head of the Public Works. May they enjoy a long and happy retirement.

During the year 1969 the Department was saddened on hearing of the death of Harold Jenkins on November 23rd. He was employed at the Water Division from 1947 to 1968 when he resigned due to illness.

Also, a great loss was felt on the unexpected early retirement in May, due to ill health, of Charles Whittaker who had been an employee of the town since 1945.

The Department feels the loss of all of these men because of their knowledge and untiring efforts in the service of the town.

My sincere and wholehearted appreciation for the complete cooperation and assistance received from the Commissioners, Division Supervisors and the entire personnel of the Department of Public Works.

Respectfully submitted,

John F. Caulfield
Superintendent

Department of Public Works Superintendent's Report

To the citizens of Scituate:

The Department of Public Works, as accepted on April 1, 1964 in accordance with Chapter 41 of the General Laws, Section 69C to 69F inclusive, is pleased to submit the sixth annual report of its operation for your consideration.

State Aid Project — Chapter 90 — Driftway-Kent Street Project — The final top

course of bituminous concrete paving was laid on the cutoff down to Greenfield Lane and the drainage outlet was installed to the creek on Gilson Road. With additional funds to be raised in 1970, along with funds being held in escrow, plans are now being made to complete Kent Street to First Parish Road which will relieve the road condition that presently exists due to the past sewer installation.

Chapter 616 — Acts of 1967 — The Town voted not to accept the \$11,796.03 from the Commonwealth under Article 45 of 1969, which is the Town's share of the yearly Bond Issue, so unfortunately no road resurfacing was done in 1969. However, under Chapter 768 of 1969 another equal amount will be submitted for your approval at this March Town meeting for which we hope you will vote favorably.

Chapter 91 — Foreshore Protection — With the utilization of funds from the State and County a 250 foot section of seawall was replaced at Surfside Road and with the balance of our funds a proposed section of seawall and other repairs along Turner Road are being surveyed and will be awarded in early spring of 1970.

Under Article 48 of the 1969 Town Meeting a sum of \$10,000. was voted for a gravity drain on Oceanside Drive, near Eighth Avenue, to the beach. Through the untiring efforts of Representative Young, the bids for this contract will be opened on January 27, 1970, to be constructed within 90 days. In our Departmental Contractual appropriation for 1970 we hope to correct this drainage problem from Fourth Avenue to Eighth Avenue, with a new gravity system that should ultimately relieve the flooding situation which has existed in this area for many years.

Special Projects — Article 41 — Plans and deeds were recorded for the three parcels of land adjacent to the Reservoir to increase the area for flood control.

Article 47 and 48 of the 1969 Town Meeting — Two sections of sidewalks were constructed on Tilden Road between Mann Hill Road and Christopher Lane and between Elaine Court and Egypt Beach Road and completed just prior to school opening.

Article 49 — Easements were recorded for a diversion ditch and structure on and through land of Youngquist, Stanley and Green off Old Oaken Bucket Road. The work has been completed and ultimately carries detrimental waters

by an open ditch through a manhole system into the outflow of Old Oaken Bucket Pond.

The Julian Street Bridge contract under Chapter 90 was awarded on November 4, 1969 for replacing of timber piers and plates which is near completion. The remaining work to the Bridge and Julian Street will be completed in the early Spring of 1970.

This is our fifth year request for the treatment of Musquashicut Pond for algae and midge nuisance. Town purchased chemicals are applied by State personnel during the summer months. Due to the tides and extreme weather condition in December of 1969 the pond was slightly higher than normal but with proper control of the flashboards by our Public Grounds Division this situation was soon corrected. With the use of the pump and flashboards a high level of the pond is maintained during the summer months, although we are somewhat governed by the tides.

Equipment — Following is a list of new and replaced mobile equipment purchased in 1969:

1 - Station Wagon	3 - Three-quarter ton Pickups
1 - Mist Blower	1 - Wayne Sweeper
1 - Superintendent's Car	1 - Compressor and Truck
1 - Van type vehicle	Chassis

Also purchased were two small trailers, cement mixer, pavement breakers and other small necessary equipment.

Purchasing Procedure — Since the start of Public Works in 1964 all major items including equipment, materials and supplies, were purchased under competitive bidding procedures, such as road asphalts, bituminous macadam, drain and water pipes, gravel, loam, sand, fertilizer, rock salt, water meters, traffic paint, lime, gasoline and oils, etc. Smaller items were purchased mostly from local merchants after receiving two or more quotations.

ENGINEERING DIVISION

With the retirement of Mr. John E. Bamber as Superintendent and the appointment of Mr. John F. Caulfield to this position, a new appointment to the position of Town Surveyor was approved by the Commissioners in October of

1969. Our new Town Surveyor, Mr. George F. Reekie of Grove Street, Norwell, has been in the engineering field for 18 years with a vast experience in surveying and construction engineering, such as subdivision, road work, drainage, bridge and building construction and water and sewerage work. I feel Mr. Reekie will be a great asset to the Town and the Public Works Department.

During 1969 services were rendered to many boards for Town Meeting Articles. Line and grades were established for sidewalks on Tilden Road as well as for 2,100 feet of drainage and 15 catch basins.

Plans and descriptions were made for the three parcels of land acquired at the Reservoir, as well as the diversion ditch easement off Old Oaken Bucket Road.

Numerous complaints were reviewed and solved with the help of all the Divisions in the Public Works.

Assistance was given to many organizations and individuals in the Engineering office with regard to lots, subdivisions, ownerships, plans, sketches and with the use of our aerial photos.

Due to the many projects constantly plaguing this office with the increased growth of the Town, we are in hopes of hiring an assistant to Mr. Reekie in 1970.

Many thanks to the Division Supervisors and the entire personnel of the Public Works Department for their complete cooperation.

PUBLIC GROUNDS DIVISION

The Year 1969 brought many changes in the scope of our work load and also in our personnel. The retirement of Mr. John Ford, one of the best informed treemen in our State will be a great loss to the Town. Of the ten fulltime employees in our Division, six have received new classifications. Mr. Harry McLarey was hired to replace Mr. John Cochran who sought other employment. The temporary employees, who work mainly during the summer months, were increased from six to nine men. Naming one of our former guards as Life-guard Director proved to be a good decision and last year he, as well as all the

Guards, did an excellent job. An evening Basketball project was started last summer under the direction of Mr. Philip Pisano. This provided an opportunity for the older boys in the Town to receive proper basketball instructions, and proved to be a worthwhile endeavor.

As usual maintenance continued on all public buildings assigned to the D.P.W. Because the P.T.A. Thrift Shop moved from the stone building at North Scituate and left it vacant was the cause of vandalism resulting in many broken windows and interior damage. It would be helpful if some civic minded group were to make use of this building. Perhaps the Boy Scouts or Girl Scouts or the Scituate Arts Association might be interested.

The rubbish collections have become an increasing problem due to the misuse and intent of the barrels placed throughout the Town. Their purpose is for the traveling and transit public only and not for general use, so please be considerate.

Carl Chessia, Walter Stone and other personnel have attended numerous conferences on Shade Trees and Turf and have gained many new ideas and methods for improving the Grounds Division.

The insect pest spray program has been hampered somewhat by the new laws regarding different chemicals which limit the use of so called "hard pesticides". We have eliminated the spraying of any DDT and Sodium Arsenate. Most of the spraying on elms and birches was done with Carbaryl (Sevin) which has a low toxicity. A new Mist Blower which was purchased this year has increased the efficiency of our spray program. In addition to spraying trees, we also applied herbicides to the sewage plant drying beds, applied weed killer to baseball infields, running tracks, sidewalks and curbing around town. All public elms that were suspected of having dutch elm disease were sampled during the months of August and September. These samples were forwarded to the University of Massachusetts for culture tests. Of the 28 samples submitted, 26 were returned to us confirming dutch elm disease. About 100 dead or diseased maples were removed. A new nursery was started near the Central School on Branch Street, an area for about 250 to 300 trees. In late summer of 1969 we planted 103 trees - an increase over the past few years - because of near normal rainfall. We had a serious problem with regard to tree planting in 1966, 1967 and 1968 because of below normal rainfall. The Planning Board has been requested to incorporate in their Rules and Regulations a tree planting program to be included by any new developers, upon approval by the D.P.W.

Due to the ample rainfall during 1969 the grass and turf areas had a good growing season. All areas were mowed and trimmed. During the growing period 24 tons of fertilizer was spread. The use of fertilizer containing a herbicide has helped to alleviate the dandelion problem at the Town Hall and Lawson Park.

All athletic fields and school grounds were maintained. It is hoped with the installation of an irrigation system for the football field will help to preserve it for the future. This field is one of the best in the district.

Cemeteries were also maintained as usual and a new roadway will be constructed during 1970 at the Cudworth Cemetery. Additional cemetery plots have been added to the D.P.W. to be maintained during the coming year.

The Tennis Program was quite successful this year with an enrollment of 460 children between the ages of 9 through 14. An increase of 159 over 1968.

The Public Grounds Division would like to thank all Departments for their cooperation and assistance during the past year.

WATER DIVISION REPORT

During 1969 the meter program has progressed to the extent that about 89% of the Town is now metered and with over 5,200 meters now in service a Meter Department has been started with the purchase of a van-type truck for meter readings. This has been in use for most of the year and a Meter Test Bench will be installed shortly.

With the cooperation of the Brockton Edison Company, as well as the other Divisions in the Public Works, during the storms of February 1969 we were able to supply and maintain adequate water pressure in most areas of the Town with the use of our auxiliary power.

The New England Water Works Association are sponsoring a school for Treatment Plant Operators during the coming year. Mr. Walter Allen, Jr., Chief Operator and Mr. Hollis Young, Operator, both certified by the Massachusetts Department of Public Health will be attending to familiarize themselves to the ever increasing changes in chemicals, laboratory tests and methods of operation which are constantly being improved in this field.

There are many problems to be encountered in an operation of this magnitude but with the knowledge gained by the operators through their experiences and advice of the engineers, a high quality of water has been obtained and if no unforeseen delays occur, 1970 should be a very satisfying and productive year.

Due to the ever increasing demand on the billing machine being used by all the departments, we were unable to process our minimum water bills on time. However, new plans are being formulated to correct this situation and we feel certain our bills will be out in time this coming year.

Total Cost of Water Purchased from Marshfield	\$ 7,103.12

HIGHWAY DIVISION

Drainage — Approximately 2,100 feet of drainage was installed to line and grade including 15 new catch basins.

Street Sweepers — During 1969 2 street sweepers were in operation for 8 months and all roads in Scituate were swept several times. These sweepers appear to have the highest maintenance costs of all other equipment. This is, undoubtedly, due to the nature of the work it performs.

Catch Basin Cleaning — With an ever increasing drainage system, including many additional catch basins, the Town is not too far away from being justified in requesting the purchase of an eductor or mechanical catch basin cleaner.

Street Line Painting — The painting of safety lines on roads consumed 725 gallons of white and 375 gallons of yellow reflectorized traffic paint which covered about 60 miles. Also we used 28 gallons of green paint for the crosswalks at Scituate Harbor and North Scituate Village. We used 83 gallons of guard rail paint.

Traffic Lights and Signs — All signs, except special purpose signs, are now being made on our sign face applicator at a savings of approximately 33%. Vandalism on signs continues to be very high, however. The Department is experiencing considerable trouble in obtaining replacement parts for Traffic Lights which results in long delays of operation. It will be necessary for the Town to replace most of this obsolete equipment during 1970.

Street Resurfacing — About 25 miles of secondary roads received asphalt and sand treatment using approximately 69,000 gallons of asphalt, together with about 800 tons of bituminous patching material for shoulder and hole patching. Additional work was done clearing brooks, culverts and repairs to guard rail fences.

Bridges — Serious consideration should be given to a plan for replacement of Edward Foster Road Bridge in the not too distant future. The superstructure of this concrete bridge is rapidly deteriorating to the point that temporary repairs will be impossible.

REPORT OF THE PERSONNEL BOARD

Board of Selectmen

Scituate, Massachusetts

Gentlemen:

During 1969 the Personnel Board held 32 meetings in performing its function as administrators of the Town's Classification and Salary Plan.

Due to the increasing activity in the field of municipal bargaining and contractual arrangements with Town Employee Unions, and after consultation with the Selectmen, a three man Bargaining Committee was appointed in mid-year by the Selectmen to represent the Town in bargaining with the unions. This new committee has greatly reduced the pressure on the Personnel Board by allowing more time to be spent on our regular duties in treating with salary and wage surveys, job review, step rate increases and meeting with Department Heads regarding their needs.

Our Board is at present preparing a new Salary Schedule for Town Hall and Administrative Employees who are now in the "S" Schedule. The effect of the new schedule will be to put a small number of jobs in proper alignment and at the same time to include a cost of living increase for these non-union employees. This schedule will appear as an article in the warrant to be sponsored by the Board at Town Meeting.

After discussions with the Board of Health, Library Trustees and the Comptroller, the Personnel Board is also sponsoring an article to amend the plan by allowing benefits on a "pro-rata" basis for the few regular part-time employees who are employed at least 20 hours per week. This type of arrangement is already in effect in surrounding towns surveyed by the Board.

We wish to express our thanks and appreciation to Mr. Norman Croan, Mr. Alfred Donovan and Mr. Robert Rosemere who gave so much of their time and talents in serving this Board in the past, as well as in previous years, all as former Chairmen.

We wish to express our appreciation to your honorable Board and to Mr. Gerald Leonard, Comptroller, for the generous cooperation shown us during the past year.

Respectfully submitted,

Leonard E. Murphy, Chairman
Carlton Bryant
Theodore Deckel
Chester Wolfe

REPORT OF THE HARBOR DEVELOPMENT COMMITTEE

Board of Selectmen
Town Hall
Scituate, Mass.

Gentlemen:

This Committee has held thirty-four regular meetings, met with the Planning Board, Board of Selectmen several times each, attended meetings and hearings of other Town and State Boards whenever the subject concerned Scituate's Waterways, and held many sub committee meetings through the past year. We held public hearings in Humarock and at the Town Hall during the last week in August to hear the views of the boaters and the general public regarding present problems and the future of Scituate Waterways. We have also met with representatives of the Clubs and the operators of Commercial Boatyards in the town. We again thank all those who took the time to come to us and share their ideas.

We have made several recommendations to the Selectmen in the past year, many of which were implemented, some of which require action at the Town Meeting. We have benefited from the cooperation and help of the Selectmen, Planning Board, Beautification and Conservation Committees, Mr. Bamber and Mr. Caulfield of the DPW, the Harbormaster, Chief Hagert, Officer in Charge of the Scituate Coast Guard Station, and all of the town employee's with whom we have had contact.

Our major goals for this year are in the hands of the Town Meeting.

1. Recommended changes in the Harbor By-Laws, to clarify the authority of the Harbormaster.
2. An article for the replacement of the present approach ramp at Cole Parkway and the addition of finger piers. Our study indicates a need for additional slips, and we believe the most economical way of providing these facilities is to move the floats further off shore, thereby allowing slips on both sides rather than only on the East as at present. Since the present approach ramp is said to be in need of extensive repair at this time it appears that this is the time to replace it with a structure so designed as to lend itself to future use should the area be further expanded in the future.

One of the most heartening things about this expenditure is that the additional

revenue from the new slips will amortize the cost of the construction in three to four years, and from that point on the town will receive income from these slips as it now does from the existing slips installed some years ago.

We close with this word of thanks, to the Citizens of the Town of Scituate for their unanimous approval of Article 55 in the 1969 Town Warrant which empowered your Board to appoint us. To you gentlemen, for the opportunity to serve our town, and for appointing us intact to continue efforts begun under the sponsorship of the Planning Board. And I as Chairman, to the faithful members of this Committee for their dedication, support and efforts.

Respectfully submitted,

Timothy J. McGowan, Chairman
Donald J. McFarlane, Vice Chairman

REPORT OF THE FIRE DEPARTMENT

Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

I herewith submit the annual report of the Fire Department for the year ending December 31, 1969.

Box Alarms:

Fires	41	
False	29	
Mutual Aid	<u>10</u>	
Total Box Alarms		80

Still Alarms:

Accidents	59	
Automobiles	31	
First Aid & Rescue	237	
Grass & Brush	127	
Heating & Electrical	74	
Rubbish	31	
Miscellaneous	<u>362</u>	
Total Still Alarms		<u>921</u>

Total Alarms For Year. . . 1,001

A few changes in personnel were made during the past year. On March 24, 1969, Fire Fighter Donald R. LeClair, Jr. (appointed December 19, 1966) resigned for personal business reasons. Lieutenant Philip A. Littlefield retired on July 31st after more than forty years of faithful service. He was appointed a permanent Fire Fighter on May 15, 1929, promoted to Lieutenant on May 1, 1934 and was serving as Fire Prevention Officer at the time of his retirement.

Three new appointments were made during the year. On April 28, 1969, Richard J. Barry and Joseph E. Fitzsimmons, Jr. were appointed as permanent Fire Fighters to fill the two existing vacancies. Harold E. Whiting, Jr. was appointed a permanent Fire Fighter on September 8, 1969 and also on the same date, Fire Fighter Thomas G. Bell was promoted to the rank of Captain.

Both the Minot Fire Station and the Harbor Fire Station continue to be difficult to repair and to maintain. The costs increase each year and the buildings still need serious attention and consideration for replacement. The other two stations are in good condition and should be for the next several years.

New mobile radios were installed on two trucks again this year. Repairs were made on the Fire Alarm System and new wire was placed in the Minot section of town. The apparatus is in good condition at this time. The water tank was replaced on Engine # 3 during the year and some motor work was done on Engine # 1. A new 1,000 G.P.M. pumping engine is on order and will be added to the present four in the department in the near future.

I wish to thank all Officials and Departments for their cooperation during the year.

Respectfully submitted,

Charles W. Curran

REPORT OF THE HARBOR MASTER

Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

Since this has been my first season as Harbor Master, I cannot compare the summer to any others as far as past activity goes, but I can say it was a busy one. My work day was seven days a week through the middle of September, then it was six.

There are five new floats ready for the coming season which will be used for rental and the general public.

The maintenance cost will be down this year due to the lack of storm damage, and that I will do the repairs and maintenance that used to be contracted out.

The revenue is up over \$2,000 from last year.

In closing I want to thank the various Boards, Departments, and Offices that have helped me during the past season. I especially want the people to know the untiring efforts of the Assistant Harbor Master, Mr. Elmer Pooler. Through his diligence in night patrol, theft and vandalism have been at a minimum. He has also put in many hours of his own time to help me.

Respectfully submitted,

John E. Fenton
Harbor Master

REPORT OF THE SEWER COMMISSIONERS

To the Honorable Board of Selectmen:
Scituate, Mass.

We herewith submit the report of the Sewer Commissioners for the year ending December 31, 1969.

There were twenty six (26) scheduled meetings, including the advertised monthly meetings and ten (10) unadvertised meetings with other Boards of the Town during the year.

We regret that our chairman, John P. Desmond, did not choose to run for re-election. Mr. Desmond gave much of his valuable time during the last eight (8) years to establishing the sewer system for the Town. His knowledge and engineering ability was a great factor in the creation of our Water Pollution Control Plant, which system is second to none in this area. The Town has lost the services of a sincere, dedicated and devoted man.

At the March 1969 town election Robert R. Purcell was elected for a period of three years. He had been a member of the Advisory Board for several years.

At an organization meeting of the Board of Sewer Commissioners, Everett L. Crowell was elected chairman for the ensuing year.

During the year one operator resigned, an operator trainee was promoted to the position of operator and a new operator was hired. Also a permanent secretary and clerk was hired, all of which was subject to the approval of the Personnel Board. We are particularly pleased with the performance of the Treatment plant personnel during the past year, especially the months we were shorthanded. The Chief Operator and Operator Trainee worked long and hard during that period.

Under Contract 68-1, the following streets have been sewered:

Beal Place, Otis Place, Allen Street, Harbor Heights Road, Spaulding Avenue, Damon Road, Jericho Road, Bay Ridge Road, Wellesley Road, Curtis Avenue, Bramble Avenue, Wampatuck Avenue, Brockton Avenue, Brookline Road and Beacon Street.

At the Town Meeting held in March 1969, the Town voted to raise the sum of

\$250,000.00 for extending the sewer system. Contract 69-1 was awarded to the lowest bidder, Donahue & Flaherty, Inc. and covered repairs to the filter beds at the plant as required by the Department of Public Health, Commonwealth of Massachusetts, and the laying of sewer pipes on Old Dock Street, Brockton Ave., Brookline Road, and Beacon Road.

As required, bids for Contract 69-2 were advertised. When the bids were opened, Donahue & Flaherty were found to be the lowest bidders and the contract awarded to them. The streets to be sewered under this contract are:

Harbor View Road, Porter Road, Marion Road, Eleventh Avenue, Tenth Avenue, Oceanside Drive and a portion of Cole Parkway.

An audit by the United States Department of the Interior, Federal Water Pollution Control Administration was conducted and the final payment of \$66,000.00 on our grant of \$660,000.00 was approved and a check in payment of this amount will be mailed to the Town Treasurer.

During the month of December 1969, assessments amounting to \$113,583.00 were recorded in Plymouth Registry of Deeds. To date, this makes 661 assessments which have been recorded. Of this number 344 permits for sewer connections have been granted, 317 have not applied for permits to connect to the system. The Commissioners hope that many who have not connected to the system will do so during the coming year.

We, the Board of Sewer Commissioners, sincerely hope that more residents of the Town of Scituate will visit and inspect their plant to see and learn the many facets of converting waste material into as pure water as will be found anywhere in our country.

Respectfully submitted,

Everett L. Crowell, Chairman
Robert E. Doyle
Robert R. Purcell

REPORT OF DIRECTOR OF ACCOUNTS

To the Board of Selectmen
Mr. Richard Damon, Chairman
Scituate, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Scituate for the period from May 23, 1968 to April 3, 1969, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. William Schwartz, Assistant Chief of Bureau.

Very truly yours,

Arthur H. MacKinnon
Director of Accounts

Mr. Arthur H. MacKinnon
Director of Accounts
Department of Corporations and Taxation
Boston, Massachusetts

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Scituate for the period from May 23, 1968, the date of the previous audit, to April 3, 1969, preparatory to a transfer of the cash, savings deposits, and securities to the newly-elected treasurer, and a recommitment of the tax and departmental accounts to the newly-elected collector, the following report being submitted thereon:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined, checked, and compared with the books of the town comptroller and the town treasurer.

The books and accounts in the office of the town comptroller were examined and checked. An analysis was made of the town comptroller's ledgers, the receipts being checked with the treasurer's books and the payments being com-

pared with the warrants authorizing them and with the treasurer's records of payments. The appropriations and loan authorizations, as listed from the town clerk's records of town meetings, as well as the transfers from the reserve fund authorized by the advisory board, were checked with the town comptroller's ledger. A trial balance was drawn off, and, after the necessary adjustments resulting from the audit were made, a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on April 3, 1969.

The surety bonds filed by the town officials who are required by law to furnish them were examined and found to be in proper form.

The books and accounts of the town treasurer were examined and checked in detail. The receipts, as recorded, were analyzed and compared with the records of the several departments collecting money for the town and with other sources from which money was paid into the town treasury, while the payments were checked with the selectmen's warrants authorizing the treasurer to disburse town funds. The cash balance on April 3, 1969 was proved by reconciliation of the bank balances with statements furnished by the banks in which town funds are deposited and by inspection of the savings bank deposits.

The payments made on account of maturing debt and interest were compared with the amounts falling due and checked with the cancelled securities and coupons on file. The outstanding bonds and coupons were listed and reconciled with the bank balances as shown by a statement furnished by the bank of deposit.

The savings bank books and securities, representing the investment of the trust and investment funds in custody of the town treasurer and trustees, were examined and listed. The income was proved and all transactions were checked in detail.

The records of tax titles and tax possessions held by the town were examined and checked. The taxes, special assessments and water liens transferred to the tax title account were compared with the collector's records, and the reported redemptions and sales of tax possessions were checked with the receipts as recorded on the town treasurer's and the town comptroller's books. The tax titles and tax possessions on hand were listed, reconciled with the comptroller's ledger, and verified by comparison with the records at the Registry of Deeds.

The deductions from employees' salaries and wages for Federal and State taxes, the county retirement system, group insurance, union dues, and school employees' annuities were examined, and the payments to the proper agencies were verified.

The books and accounts of the town collector were examined and checked in detail. The tax, excise, assessment, special tax, departmental, and water accounts outstanding at the time of the previous examination, as well as all subsequent commitment lists, were audited and verified. The cash book additions were proved and the reported payments to the treasurer were compared with the treasurer's recorded receipts. The recorded abatements were checked with the assessors' records of abatements granted, the amounts transferred to the tax title account were proved, and the outstanding accounts were listed and reconciled with the respective accounts in the comptroller's ledger.

Further verification of the outstanding accounts was made by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

The total amounts outstanding on each of the tax, excise, assessment and special tax levies, as well as on the departmental and water accounts, were furnished to the assessors and to the other departments concerned for their use in preparing the recommitment warrants to the new collector, and detailed lists of the outstanding accounts were prepared for the use of the new collector.

It is recommended that the new collector make a determined effort to effect a settlement of the delinquent taxes and excise which date back to 1964.

The records of guarantee deposits were examined. The refunds were checked and the deposits on hand were listed and reconciled with the town comptroller's ledger.

The assessors' records of deferred street assessments were examined and checked. The amounts added to taxes were verified, the payments in advance were checked with the treasurer's recorded receipts, and the apportioned assessments due in future years were listed and reconciled with the town comptroller's ledger controls.

The town clerk's accounts pertaining to dog and sporting licenses issued, as

well as to the collection of miscellaneous fees, were examined and checked. The payments to the treasurer and to the State were verified.

The records of receipts of the board of selectmen, the sealer of weights and measures, and the building, wire, gas, and plumbing inspectors, as well as of the police, health, and school departments, and of all other departments collecting money for the town or committing bills for collection, were examined and checked, the recorded collections being compared with the treasurer's receipts. The cash and memoranda on hand in the several departments, including petty cash advances, was proved.

Appended to this report, in addition to the balance sheet, are tables showing reconciliations of the treasurer's and the collector's cash, summaries of the tax, excise, assessment, tax title, tax possession, departmental, and water accounts, together with schedules showing the condition and transactions of the trust and investment funds.

For the cooperation extended by the several town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

William Schwartz
Assistant Chief of Bureau

(NOTE: For details see report on file at Office of the Comptroller.)

REPORT OF THE DIRECTOR OF VETERANS' SERVICES AND VETERANS' AGENT

To the Honorable Board of Selectmen and
the Citizens of Scituate

In many cases there is a very thin line separating the individual from the incentive to work and the inclination to stay home. Uncontrolled and unabated public assistance already appear to be more than enough burden for our skyrocketing taxes. When any person with a trade or a college degree refuses to work at any related employment, it is time to be forewarned as to this type of case. This breeds contempt from his family and friends and lays a poor foundation for a normal existence.

There is a real danger that the incentive system to work and get ahead could be destroyed if the I.W.W. (I Won't Work) cases multiply with the commendation of our present system being administered by free spenders in the higher echelon categories both at State and Federal levels.

A recent report on welfare and public assistance for New York City reveals an expenditure of one and a half billion dollars for these cases. One out of every eight persons in New York City is on some type of public assistance. This expenditure is over twice the costs of public education in New York City. This is the Spending Road to Failure. Is it gradually being adopted in our Commonwealth?

There are many splendid Federal and State programs that your Veterans' Agent takes advantage of such as Social Security, Veterans Administration Pensions and Compensation, VA Insurance Program, VA Hospital admittances, Aid & Attendance in Pensions by VA, Veterans' Aid under Chapter 115 Massachusetts General Laws where need is established, Unemployment Compensation and Retraining Programs under State Employment Division supervision.

This is our way of assisting worthy veterans and their widows and dependents. I am very proud to report that every returning Scituate boy from Vietnam reveals a high standard of character. Not one has asked for any Veterans' Aid. True, they have been assisted in job placement and GI Educational Benefits. With this understanding, you and I can rest assured that the stability shown by our returning Vietnam veterans will never undermine our program for assistance to worthy veterans.

I am most grateful to our Board of Selectmen for their understanding of these problems and to all Town Departments and organizations in Scituate for their continued help to our needy veterans and their dependents.

Sincerely yours,

Kevin B. Dwyer,
Director & Veterans' Agent
Department of Veterans'
Services
Town of Scituate

REPORT OF SEALER OF WEIGHTS AND MEASURES

Board of Selectmen
Scituate, Massachusetts

Gentlemen:

A summary of work performed by me for the year of 1969 is as follows:

Devices tested and sealed	271
Sealing fees collected	\$281.60

Respectfully submitted,

Osborne A. McMorrow
Sealer of Weights and Measures

REPORT OF CUSTODIAN OF VETERANS' GRAVES

To the Honorable Board of Selectmen
and the Citizens of Scituate

Inspections of all veterans' graves were made periodically in each cemetery during the past year. All veterans' graves are well cared for and the superintendents of each cemetery are worthy of our commendation for the splendid work performed.

A 12x18 inch American Flag was placed in each bronze grave marker on every veterans' grave on Memorial Day and Veterans' Day. Installation of flat grave stones, granite or bronze, were made on each veteran's grave when requested by the surviving relative of the deceased veteran.

The decoration of graves in separate cemetery plots was attended to on Memorial Day. Decorative wreaths were placed on each public square where dedicated to the memory of our veterans.

The sadness of war is reflected in the death of our young men in Vietnam. Their supreme sacrifice should be a reminder that we should pray for the end of this terrible war in Vietnam.

Sincerely yours,

KEVIN B. DWYER, Supervisor
Veterans' Graves Registration
Town of Scituate

REPORT OF TOWN COUNSEL

During the past several years it has been repeatedly stated that the volume of legal business in which the Town is involved is progressively increasing each year.

Space does not permit a detailed itemized account of everything which has been done during the past year. The following is a brief summary.

The appeal to the Supreme Judicial Court on a decree entered in a zoning variance case is still pending.

The tort case for personal injuries involving very serious injuries to the female claimant was settled at a very advantageous figure with the advice and approval of the Board of Selectmen.

An appeal brought to recover damages from the Town for taking of real estate by eminent domain is still pending.

A suit brought by the Massachusetts General Hospital against the Town has been advantageously settled for substantially less than the amount of the claim with the advice and approval of the Board of Selectmen.

An action brought against an individual to recover personal property taxes was tried and a verdict for the Town was obtained for the full amount plus costs. This case has been appealed to the Superior Court.

An appeal from the decision of the Zoning Board of Appeals denying a variance is still pending in the Plymouth Superior Court.

An appeal from the decision of the Board of Selectmen in a dog restraint case is presently pending.

Deeds were obtained from two individuals on real estate owned by them in connection with the taking of land for the new reservoir.

The granting of an easement from one individual has not been obtained as yet with respect to the drainage ditch of the Town Reservoir. Some time ago the Board of Selectmen voted to take this easement by eminent domain but thus far no such action has been taken as the individual involved may agree to granting such an easement. The eminent domain proceedings have therefore been deferred in accordance with the request of the Board of Selectmen.

There is one remaining parcel of land off Kent Street which the Conservation Commission wish to purchase. The title to this has not been cleared as yet as there are two estates involved, but it is anticipated that this may be brought to a conclusion in the near future.

Two tort cases involving personal injuries resulting from falls on public streets are being defended.

Judgment and execution were obtained in a suit brought against a man and his wife seeking to recover payment of personal property taxes.

Eminent domain proceedings were brought against eight individuals and their respective wives and husbands to take real estate in connection with the new Town Reservoir. It is hoped that the individuals involved will ultimately execute a release of all demands to the Town in exchange for which the amount voted by the Town to purchase this real estate will be paid to them.

As a result of an audit made by the Bureau of Accounts a very substantial shortage was discovered in the records of one of the Departments of the Town. The person involved was indicted and pleaded guilty. As a result of the transfer of funds which this person had paid into the Retirement Fund, the amount of this loss was reduced to \$10,442.64. Following lengthy and extended negotiations with the bank involved and with its General Counsel, payment of this balance of \$10,442.64 was obtained.

The foregoing by no means comprises all of the legal work done during 1969 but it may serve to give anyone interested an idea as to the volume of legal matters in which the Town is involved.

As has been the case over the years opinions and advice were given to various Departments and Boards of the Town and upon request meetings of the various Boards of the Town have been attended.

Respectfully submitted,

ALFRED C. BLAKE
Town Counsel

PLYMOUTH COUNTY AID TO AGRICULTURE (Plymouth County Extension Service)

To the Board of Selectmen:

We close the year 1969 with farmers gaining about 20% more profit for some, less for others. The disease problems seem to be increasing instead of decreasing. In order to have a profit we have had to work harder to combat the diseases and insects. I am always willing to help anyone with information and if you feel that the townspeople need more I will be glad to discuss this with you.

Sincerely yours,

ALFRED GOMES, Town Director

SOUTH SHORE MOSQUITO CONTROL PROJECT

To the Citizens within the Project's control:

Submitted herewith is the report of the South Shore Mosquito Control Project's activities for the year November 1, 1968 to October 31, 1969.

The Project is a year round cooperative effort embracing the City of Quincy and Towns of Braintree, Cohasset, Duxbury, Hingham, Hull, Marshfield, Norwell, Scituate and Weymouth, covering a total area of 172.21 square miles serving a population in excess of 223,000.

The Project is authorized and acts under provisions of Massachusetts General Laws, Chapter 252, Section 59, mosquito control provisions, and Chapter 112, Acts of 1931, pertaining to ditch maintenance of the salt marshes.

The Project continued to base its program on three recommended and approved approaches to a community mosquito control:

- A. Mosquito source reduction
- B. Mosquito larval/pupal reduction
- C. Mosquito adult reduction

giving priority in this order.

A. Source Reduction — removing as much unnecessary standing water as possible, a requisite of mosquitoes in completing their breeding cycle. The Properly placed and maintained ditches on the coastal salt marshes, the cleaning of blocked brooks and streams wherever possible, the clearing of brush and growth along swamps and stream edges, the filling in of small wet areas and the leveling of ditch fill so as not to leave water pockets, these, if neglected would cause tidal and storm water to become brackish and stagnant to keep the mosquito population at its highest level.

The Project this year added a second salt marsh machine, an International 500 diesel, wide gauge track clearance, wood cleat grouser mounted, crawler tractor with an International 3112 mounted backhoe and 22,000 lb. Gearmatic hydraulic winch. It is an excellent machine for marsh work, heavier duty, well balanced and more rapid in operating than any of our previous machines.

In source reduction operation the following was accomplished in the Project area for this report period:

62,130 sq. feet brushed
13,940 cu. feet of new ditch dug
381,463 cu. feet of ditch reclaimed
4,075 feet of ditch cleaned

B. Mosquito Larval and Pupal Reduction — Next to the reduction of the water source of mosquito breeding, larval and pupal control is the most productive for the time and money spent, for in some instances one ounce of insecticide can treat up to two acres of mosquito breeding swamp.

In mid-March, after checking many fresh water swamps for larval counts of the early or spring brood mosquitoes, mapping is drawn out to indicate breeding areas. We contract both helicopter and fixed wing aircraft, whose pilots must work from these maps. They aerial spray only the breeding sites indicated on these maps. This operation keeps down what normally would be a large hatch of pesty mosquitoes that would plague us in the months of June and July.

During the summer season we must check many and often breeding sites of other mosquito species: the salt marshes, catchbasins, coastal rockpools, tree holes, etc. Some of these must be sprayed as many as four times in a summer season, depending on the amount of rainfall.

The Project has added a second catchbasin spray unit (a Jeep Universal) for the treating of the many thousands of catchbasins in the Project. This unit enables us to keep up with the three or four mosquito hatches they might produce a season.

The gallons of insecticide, the amount of sites and approximate number of acres treated for mosquito larval and pupal control for this period:

26,706 catchbasins sprayed with 1648.5 gallons of insecticide
10,558 gallons and acres air sprayed
4,032 gallons for larval control

C. Mosquito Adult Reduction — shall always be necessary to some extent or form. In spite of all the pre-emergence control work there remain many small

unnatural water receptacles around the home capable of mosquito breeding. We just could not get to all. There are many construction projects under way that temporarily cause mosquito breeding, and we have many mosquito areas within but not under this Project's control we must contend with.

We kept two mist blowers operating through last season. This applicator dispenses a fine particle insecticide on a high velocity wind stream through the air which acts as a space spray. The larger droplets are deposited upon foliage which act as a residue treatment.

We have done some insecticidal fogging. This gives a longer range of space treatment but little, if any, residual action.

Next year the Project should like to supplement their mist blowing operation with more insecticidal fogging. This Project plans the purchase of a new method fogger, it hopes will work well enough to cut back some on residue spray.

The amounts of insecticide applied for adult mosquito control, with both mist blowers and foggers for this period:

10,229 gallons mist blown
105 gallons fogged to 630 acres

To ease the concern of some citizens within the Project's control in our handling of chemical insecticides, we use none of the persistent or cumulative insecticides: DDT, Dieldrin, Aldren, Endren, Heptochlor, etc.

The insecticides used in this area for mosquito control have been accepted and approved by the Department of Public Health. The Project's personnel are all licensed by the Massachusetts Pesticide Board. We are constantly informed from the University of Massachusetts Extension Service on the latest development in insecticide formulation, their caution, their limits in toxicity and new application methods. We are in attendance at all sponsored training courses of the Communicable Disease Center, U.S.D.H. relating to mosquito control that are held in this area. We believe this is all necessary to give, not only a good mosquito control, but a safe control as well.

There are many man hours spent in this Project where no item of productivity can be shown yet are as necessary hours to the operation as any of the others recorded. The hours spent checking mosquito breeding sites and mapping

these, inquiring into related mosquito complaints, the mixing of insecticides and loading of equipment sprayers, both repair and preventive maintenance of all trucks, tractors, trailers and sprayer equipment and the cleaning and painting of garage spaces. These tasks along with the regular mosquito control operations tend to keep a mosquito control man pretty busy fifty-two weeks a year on a project most people consider "just a summer job."

The Project wishes to acknowledge the help received from officials and departments of the communities it serves and sincerely hopes that benefits derived by these departments as a result of this cooperation are as great as those derived by the Project.

DUXBURY, MARSHFIELD AND SCITUATE GREENHEAD FLY CONTROL

To the Citizens of the Town of Scituate:

Submitted herewith is the report of the Greenhead Fly Control program conducted on the salt marshes in the Town of Scituate for the summer season of 1969 under the direction of the South Shore Mosquito Control Project, authorized under Massachusetts General Law, Chapter 391, Acts of 1948, Greenhead Fly Control.

Aerial application of insecticide was applied to and around the emergent Greenhead Fly sites of the salt marshes by a Piper Apache 18A type aircraft in early morning hours of this past summer season.

In the Town of Scituate between the period of July 2 to August 14, five separate aerial applications were made. A total of 2910 gallons of insecticide to treat 2910 acres was used at \$.726 per acre for a total cost of \$2133.

The Town of Scituate appropriation in 1969 for this work was \$1928.

Research work is continuing to develop a larval method of control of Greenhead Flies with nothing complete as yet. Some trapping has been done, but to date this Fly Trap method would seem to be confined to small marsh areas and give a minimum fly control in spite of large numbers per trap. Until such time as a proven larvicide, oviciding or trapping method comes about, it shall be necessary to continue with our present adulticiding program to keep the Greenhead Flies at their minimum population.

REPORT OF THE BUILDING COMMISSIONER

Honorable Board of Selectmen
Scituate, Massachusetts

Gentlemen:

Three Hundred Nineteen (319) Building Permits were issued during the year 1969. There was a decline of new homes. Additions and repairs increased over the past years.

Permits Issued

82 New Homes		
1 Motor Lodge		
1 Store		
1 Church		
1 Restaurant	Value	\$2,635,860.00
219 Repairs		
Additions		
Porches		
Garages, etc.		539,379.00
14 Swimming Pools		72,550.00
<u>319 Permits Issued</u>	Total Value	<u>\$3,247,789.00</u>

Total Fees turned in to Town of Scituate – \$7,287.00

All buildings have been inspected as required by the Town of Scituate By-Laws.

Public buildings have been inspected for safety and recommendations have been suggested for improvements.

The Building Inspector has attended all zoning hearings. Many violations of the Zoning By-Laws were investigated, most of which were disposed of satisfactorily.

I wish to thank the many departments for their cooperation.

Respectfully submitted,

William B. Stone
Building Inspector
Zoning Enforcement Officer

REPORT OF THE SCITUATE HEALTH SERVICE, INC.

Board of Selectmen
Scituate, Massachusetts

Gentlemen:

During 1969, the Scituate Health Service, Inc. continued in its efforts to assist, wherever possible, in matters concerning the health of the townspeople of Scituate.

The Well Baby Clinic, under the direction of our pediatrician Dr. Lillian MacMackin and in cooperation with the Board of Health nurses, was conducted one day each month at the Town Hall, where physical examinations and immunization inoculations for measles, diphtheria, tetanus and Sabin Oral Polio Vaccine were given.

The mobile chest x-ray program sponsored by the Plymouth County T.B. Association was conducted in May in cooperation with the Board of Health.

In June, \$300 Nursing Scholarships were awarded to Helen Mills and Sheila Mahoney who enrolled at the Brockton and Faulkner Hospital Schools of Nursing respectively, and, in addition, a half scholarship of \$150, available from last year, was awarded to Kathleen Kilcoyne who attended Childrens' Hospital School of Nursing.

Another service that was performed this year was that of providing supplies for the town ambulance by means of a \$300 contribution for this purpose. Also, during December a dozen blankets were purchased by the Health Service for use in the ambulance.

Looking ahead to 1970, joint planning is currently underway with the Board of Health to conduct a Preschool Vision Screening Program for children from ages three to five, under the Massachusetts Society for the Prevention of Blindness, Inc. It is hoped to conduct this clinic during March and April.

It is hoped that in 1970, and the years to follow, we will remain in a position to continue this work and, if possible, find additional ways to serve the health needs of the town.

Respectfully submitted,

Eva A. McKeever, R.N.
President

REPORT OF THE PLANNING BOARD FOR THE YEAR 1969

Board of Selectmen
Scituate, Mass.

Gentlemen:

It is with great pleasure that your Planning Board makes the following annual report to the citizens of Scituate.

The Board during 1969 convened fifty regular meetings and conducted three workshops for the purpose of drafting articles for the 1970 Town Meeting Warrant.

In addition to its regular meetings, Board members were assigned to and worked with other committees and study groups to undertake special assignments in regard to:

1. Updating the building by-laws.
2. Committee for year-round use of school facilities.
3. Capital budgeting committee.
4. Revised sign by-law.
5. Proposed apartment zone.

The Board considered and approved seven new subdivisions (residential—93 houselots); 17 site plan applications (business); and 10 Form A plans (plan not requiring Planning Board approval under the Subdivision Control Law) representing approximately 10 new houselots. The Board assisted the Conservation Commission in its efforts to acquire the Ellis Estate for conservation and other municipal uses; investigated and made recommendations to the School Committee as to the availability of land for future school needs; worked very closely with the Beautification Committee in its efforts to accomplish its task; and met with representatives of the Historical Society and the Human Concerns Commission.

The Board also conferred with personnel of the Attorney General's office in regard to site plan approval regulations; with Representative C. George Young, relative to approved and pending legislation that may affect the Town; and with officials of public utilities, to discuss the feasibility of underground installation of utilities.

Planning Board was instrumental in forming the present Harbor Development Study Committee, and feels this committee will make a tremendous contribution to the orderly and rewarding development of our harbor and waterways.

The Board was very sorry to lose the services of Atty. John McCarty, Jr., in May, when he was compelled to resign because of business demands, but considers itself most fortunate in the appointment of Atty. Allan van Gestel to fill the vacancy thus created.

Also, James Goddard, who very ably chairmanned the Board for one and a half years, was forced to relinquish the chairmanship; because of business pressures. With a great deal of reluctance and regret the Board accepted Mr. Goddard's resignation and elected its present Chairman, Gerald Dwight.

We wish to thank the Superintendent of the Department of Public Works, John Caulfield, and Town Engineer George Reekie for the valuable advice and cooperation they have extended to the Board during the past year.

Following are some of the matters considered by the Board in 1969, with an eye toward the 1970 Annual Town Meeting Warrant:

1. Protection of the C zone, which, by virtue of its size, location, and potential for many types of development, is a tremendous asset to the town.
2. Zoning for apartments, which the Board in the past has favored, and which the Town adopted at the 1969 Town Meeting, although it was rejected by the Attorney General's office. The Planning Board is proposing revisions to existing by-laws to correct the technicalities which caused the Attorney General to reject the apartment zone by-law, since the need for multiple-dwelling units continues to increase.
3. Sewerage and storm drainage problems in residential areas, which continue to increase as housing construction uses up available vacant land and increases water runoff from home sites. To this end the Board is investigating the feasibility of increasing lot sizes in the A-1 and A-2 zones.
4. Revision of site plan approval regulations, to more clearly define the exercise of administrative review by the Board on site plan applications and also to provide for review of site plans in zones other than the business and commercial.

5. Underground installation of utilities in new subdivisions only, at this time, in accordance with the provisions of newly enacted state legislation.
6. Revision of the gravel and earth removal regulations.

The Board's agenda for 1970 includes the following subjects:

1. The desirability of a new master plan or updating of the present master plan, to provide professional expertise and guidance to the Board in planning the future growth and development of the Town.
2. Further revisions of rules and regulations governing subdivisions.
3. Investigation of C. 774, "anti-snob zoning," and housing needs throughout the town in general.
4. Further discussions with representatives of public utilities, builders and others knowledgeable in the field, as to the feasibility of underground installation of utilities throughout the town, on a gradual basis.
5. Reconsideration of the needs of all the town's business zones, with respect to traffic and parking problems, and the feasibility of expansion in area of any or all of the zones.
6. Development of a program with regard to sidewalk construction, with emphasis on safety for pedestrians in congested areas.

Town planning, to be effective, needs the understanding and support of as many persons as possible. Planning cannot be accomplished in a vacuum with only a select few party to the development of a plan or proposal. The Board considers itself very fortunate, and wishes to thank all the citizens, town boards, committees and commissions for the time they have given to the Board, and looks forward to their continued interest and even greater participation during 1970.

Respectfully submitted,

Gerald E. Dwight, Chairman
Herbert S. Callahan
James D. Goddard
Allan van Gestel
John A. Zampine, Jr.

REPORT OF THE ZONING BOARD OF APPEALS

To the Honorable Board of Selectmen
Town Hall
Scituate, Mass.

Gentlemen:

During the calendar year 1969 the Zoning Board of Appeals held ten (10) Public Hearings and the following decisions were rendered:

- 17 variances or exceptions were granted (most with specific restrictions and limitations)
- 3 variances or exceptions were denied
- 2 petitions were withdrawn
- 1 decision is pending

Copies of all decisions of the Zoning Board of Appeals are filed with the Town Clerk, and in all instances before a decision is rendered the Board investigates and views the premises under consideration.

Fees totaling \$525.00 were received with applications for Public Hearing. This money was turned over to the Town Treasurer.

Respectfully submitted,

Paul J. Covell, Chairman
Robert M. Alexander
Herbert G. Taylor

John S. Farley)
William J. Brady) Alternates

REPORT OF THE FOREST FIRE DEPARTMENT

Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

I herewith submit the annual report of the Forest Fire Department for the year ending December 31, 1969.

During the past year this department was not as busy as it had been in some of the previous years. A total of 94 grass and brush fires and 33 dump fires were responded to by the department. Fortunately none of these calls were of a serious nature.

The practice of burning over hazardous locations was continued this year with satisfactory results. Favorable weather conditions controlled the amount of burning that was done. This practice not only improves the appearance of many areas but also reduces the number of responses during busy seasons.

A total of 39 investigations of smoke were made for the State Fire Tower in Norwell. Most of these investigations were found to be non-permit fires. For the most part, the residents of the Town are very cooperative in obtaining permits for all open air fires as is required by law.

The apparatus and equipment is in good condition. Only normal maintenance has been required to keep them in that condition. Some new forestry hose and a portable radio were acquired during the year.

Once again I thank all Officers, Departments, Officials and Residents for their continued cooperation and assistance.

Respectfully submitted,

Charles W. Curran
Forest Warden

REPORT OF THE RECREATION COMMISSION

Board of Selectmen
Scituate, Mass.

Gentlemen:

On March 2, 1969 the Committee for Scituate Teens (C.O.S.T.) voted to close the teenage recreation center, known as the Tradewinds.

The factors, cited by C.O.S.T., leading to this decision were; the lack of interest of the town, of high school age, as evidenced by the low attendance and membership; the inability to secure enough adult chaperones; the inability to secure enough money and manpower to keep the building in proper repair, and the poor financial condition of C.O.S.T.

The March 2 meeting was preceeded by several meetings involving C.O.S.T. members of the Recreation Commission, interested parents and teenage members of the Tradewinds, at which the above factors were discussed in detail.

C.O.S.T. retained their lease on the building for a time because there appeared to be interest in opening it again in the fall of 1969 on a more restricted basis. However nothing materialized so the building was turned back to the owner.

The Tradewinds was opened for 3 years with the town providing a paid director and certain expenses for one and one half years. It was one of the first of its kind in the state. People interested in setting up similar facilities from towns both in and out of state visited, called or wrote for information concerning the Tradewinds organization and by-laws.

At a meeting on June 3, 1969 the Selectmen asked us to survey the present recreational programs and facilities in the town and assess the towns needs for recreation of all ages.

Starting in July the commission held regular meetings at the Town Hall on the second and fourth Wednesdays of every month. These meetings were open to the public.

Sub-committees of commission members have been gathering information on all private and town run recreational programs and all available recreational facilities.

This survey and our recommendations will be submitted to the Selectmen when finalized.

Respectfully submitted,

William H. Holland, Chairman
Mrs. Rosalie Bulu
Mr. Waldo Clark
Mr. William Collins
Mrs. Ella Francis
Mr. Joseph Hayes
Rev. Raymond Lowe
Mr. Bruce Marshman
Mr. Richard Rockett
Mr. Richard Tibbetts

REPORT OF THE CONSERVATION COMMISSION

To the Honorable Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

In January through the efforts of the Conservation Commission, the Selectmen accepted three lots on Kent Street as a gift in trust for conservation purposes from Mr. and Mrs. Philip J. Shakespeare and the Ridge Hill Associates.

At the town meeting in March, Mr. Spinola presented the Conservation Commission article for \$1,500 to purchase the land of Mr. Arthur Palmer on Kent Street to further protect the Kent Street marshes. This article was approved by a large majority vote.

Also at town meeting it was voted to appropriate \$146,000 to the Conservation fund to purchase the 101 acre Ellis estate for conservation purposes.

Considerable effort was devoted to studying and opposing the plan of the American Marine Development Corporation to dredge the North and Herring

Rivers. A history of the North River area was prepared. This history stressed the necessity of preserving the ecology of the area in its natural state and was forwarded to officials of the Department of Natural Resources.

Letters in support of conservation legislation were sent to state and federal representatives. The Conservation Commission also supported the adoption of the proposed restrictive order under the Coastal Wetlands Act.

Considerable time was spent with Mr. Muller of the J. J. Henry Company regarding their proposed gift of the dam in Hunter's Pond. Regretably the title was not in the Henry Company name, and the Conservation Commission did not have the funds to go ahead on this title search.

Mr. Richard Hubbell of Indian Trail generously donated a beautiful six acre tract of woodland off Old Gannett Road. The land has a rough, sloping topography and has been improved with a skating pond and a number of cart paths.

The title search of South Swamp has been completed by the Boston law firm after many months of painstaking work. The Commission will present an article for acquisition of land at the 1970 town meeting.

Three Scituate boys again attended the Massachusetts Junior Conservation Camp at Thompson's Pond in Spencer, Mass., sponsored by the Scituate Grange, the Scituate Rod and Gun Club and this Commission. It is hoped that more local support will enable more boys to participate in this rewarding experience. The 1969 selectees were:

Charles Cronin, Alden Wells and Jeff Barrington.

The Conservation Commission has been made aware of an expressed amount of concern from citizens regarding filling of marshes and wetlands. All hearings on petitions to fill have been attended by Commission members and instances of illegal filling have been reported to the Selectmen and the involved state department for legal action.

As problems continue to increase in our environment, citizen awareness and participation is welcomed and encouraged. Also the Conservation Commission actively seeks donations of land or money either to the town or to the Scituate Land Conservation Trust. Such worthwhile gifts are also tax deductible.

The Conservation Commission wishes to publicly acknowledge our appreciation of the immediate response of Mr. John O'Brien, Chairman of the Selectmen, to a recent violation of the Jones Act in Humerock. We also acknowledge the cooperation of all town boards and officials who were contacted in connection with the work of the Commission during this past year.

Respectfully submitted,

Scituate Conservation Commission

Zilpha R. Parsons, Chairman

Allerton L. Bonney, Jr.

REPORT OF THE TOWN FOREST COMMITTEE

To the Honorable Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

In late February and early March our two Town Forests were badly damaged by extra heavy and severe snow storms. Our Town Forest at Pincin Hill was cleared of downed trees and branches by late spring. The Forest at Chief Justice Cushing Highway still has a few branches and trees to be cleared away.

Each Forest has a stone fireplace. Picnic tables were placed in shaded locations in each forest. Rubbish barrels were put out and emptied three times a week. A new bubbler was installed at the Pincin Hill Forest.

All fire lanes were cleared of fallen branches and new growth. Poison ivy where found was sprayed and destroyed.

We want you to continue to visit your Forests and enjoy the many benefits and pleasures that nature has put there for you.

Please be careful of Fires.

Respectfully submitted,

Harriet E. Ladd

Ebba H. Damon

Carl C. Chessia

Scituate Town Forest Committee

REPORT OF THE SCITUATE COUNCIL ON AGING

Board of Selectmen,
Scituate, Massachusetts

Gentlemen:

Full membership of the Scituate Council On Aging was completed on August 18, 1969. A meeting was held at the Town Hall at which time officers were elected.

Since the above date, the Council has held monthly meetings also meetings with a representative of the Aging Bureau of the Massachusetts Department of Community Affairs and the Superintendent of Schools relative to programs for the Senior Citizens.

An application has been filed with the State for \$500.00 to match funds already appropriated by the Town.

In November, the Council arranged bus transportation for thirty five Senior Citizens to attend a seminar held at Weymouth for Senior Citizens.

The Council voted to send out a questionnaire to all residents of Scituate sixty years of age and over in order to learn how it could be of service to our Senior Citizens.

Several members of the Council spent many hours in the preparation and mailing of the questionnaires which were mailed out in Mid December. The returns have been coming in at a satisfactory rate and from the replies already received there appears to be a need for many programs which the Council hopes to provide in the very near future.

G.A.R. Hall has been obtained to use as a Drop-In or Information Center on Monday, Wednesday and Thursday of each week, and since the mailing of the questionnaires, there has been one or more members of the Council in attendance at the hall on these days to receive calls and provide information.

Respectfully submitted,

Scituate Council On Aging

Gerard Crowley, Chairman
Mrs. Edward Litchfield
Rev. Michael Gruel
Herbert McGuire

REPORT OF WIRING INSPECTION DEPARTMENT

Board of Selectmen
Scituate, Mass.

Gentlemen:

Permits were issued for electrical work for the year 1969 as follows: 458, approved certificates to Brockton Edison Co. and 258, New Bedford Gas & Light Company.

Fees collected and turned over to town treasury \$2,158.00.

Permits issued during 1969 classified as follows:

New Homes	70
New Building (commercial)	1
Additional Wiring	70
Services Remodeled	103
Services changed from 2-3 wire	16
Buildings Rewired	8
Ranges	36
Water Heaters	28
Oil Burners	23

Clothes Dryers	89
Clothes Washers	23
Dish Washers	19
Temporary Services	43
Air Conditioners	11
Gas Burners	21
Electric Heat	19
Swimming Pools	10
Carnivals	1
Flood Light	1
Repair Underground Cable	1

Respectfully submitted,

Earl W. Merritt
Inspector of Wires

REPORT OF THE BEAUTIFICATION COMMITTEE

Board of Selectmen
Scituate, Mass.

Gentlemen:

Due to the generosity of members and townspeople, the Beautification Committee has been able to operate with administrative expenses of just over seven dollars.

A small park designed by the committee was built at North Scituate Station largely by means of gifts. Contractor Kenneth Gauley supplied a bulldozer and operator to clean out the rubble-filled gully where the railroad tracks had been. Allan Wheeler supplied the fill and loam, trucked it and graded it. Many people, seeing the transformation taking place, gave money for shrubs and trees. The Garden Guild and Garden Club contributed. As these gifts came in, the committee purchased plants wherever bargains could be found and transported them in station wagons. A brick walk was built with town funds and a colonial light placed beside it for safety. The Highway Department set fences, opened tree planters in the old platform and set the railroad ties which were given for the steps and border. The Park Department did the planting. Posts were contributed by the Youth Center from their defunct hockey rink. This little park, which cost the town only \$286.30 for bricks, fencing and a sillcock, is in constant use by people crossing from one section of the shopping center to another, by commuters boarding the bus, and by people eating lunch or snacks. It is a special source of pride because of the fine cooperation which brought it into being.

The State cooperated with the committee's request to include areas for landscaping surrounding the new Jericho Road boat ramp. The committee drew up plans for planting these areas, worked closely with the Mass. Department of Public Works in their preparation and supervised and assisted in the work of planting. Representative George Young was helpful in achieving results. Only the cost of plants was borne by the town, with loam, curbing and sea wall supplied by the state. Total cost to the town was \$1,213.70.

The town is greatly indebted to the Boat Club for the maintenance of the new plants and especially to Ann Baird for frequent watering.

Members of the Beautification Committee have attended Planning Board Hearings concerned with new business buildings to ask for good signs, landscaping, and harmonious architecture, and has had great cooperation from the board and from businesses.

Artist Jack Frost contributed plans for improving private business buildings, one of which is being implemented at the Conway block on Front Street.

Again the Committee conducted a successful Shipshape Day, drawing more than 1,000 volunteers who cleaned trash from the waysides on May 17th. Trucks, too, were volunteered. Participating organizations included the Girl Scouts—700 strong, the Boy Scouts, the Campfire Girls, Cushing Hall, and the Jaycees. Paul Young removed about 30 junk cars and turned the proceeds over to the committee.

The committee undertook repairs to the clock and chimes in the Lawson Tower, securing the volunteer services of John Proctor of Scituate and William Kilbourne of Waltham. They spent only \$14.00 of the \$500.00 allotted for this, thus saving the town \$486.00.

The committee filled the planters at the new water department building and recommends the planting of blueberry bushes along the shore of the pond behind the building to restore the natural beauty.

The committee pursued the maintenance of its previous projects at Egypt Station, Cole Parkway, and Jericho Road, as well as its new projects. All projects have been planned for minimum maintenance. Flowers and bulbs were planted by the committee and by Garden Club members. A few shrubs were added at Egypt Station.

Plans for a band stand were drawn at the request of the Selectmen and submitted along with an overall plan for Cole Parkway which the committee drew up after joint meetings with the Harbor Development Commission.

The committee has submitted sign law revisions to the Planning Board at their request.

Organizations from surrounding towns have requested a speaker or information on how Scituate has accomplished these things and the committee has responded accordingly.

Cash Contributions:

Scituate Garden Guild	\$200.00
Scituate Garden Club	150.00
P.M. Club	50.00
Scituate Woman's Club	25.00
Paul Young Motors—car towing	137.00
Fees paid to Mrs. Proctor for speeches	45.00
Individuals	270.00
Total	<u>\$877.00</u>

Contributions also included more than \$1,000.00 worth of labor and materials for the park at North Scituate, over 3,000 hours of labor on Shipshape Day, some Garden Club labor, plans and drawings for all projects, transportation of shrubs, fencing, etc., secretarial work, writing paper, posters, and maintenance work.

Respectfully submitted,

Alice C. Proctor, Chairman
Louise B. Misner, Treasurer
Mary K. Dale, Secretary
Dr. Herbert N. Blanchard
William F. Swiger

REPORT OF SCITUATE LIBRARY COMMITTEE

Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

Expanded programs, new services and extended hours of opening marked the first full year of operation for the Town's newest department -- the Scituate Public Library.

Children's Services

Work with children has been given a new emphasis. Recognizing that the school libraries are an integral part of the educational system, providing supplementary material to meet formal educational needs, the public library is no longer buying material specifically oriented to school assignments. Materials are being purchased to meet the individual child's special interests, and adults working with children.

Approximately 800 books were purchased for a "Summer Read-in," a vacation reading program for elementary school children. Over 15,000 books were circulated to children during this seven weeks program. The picture book collection has also been enlarged to provide books for the more than 100 children enrolled in the two weekly pre-school programs which run for eight weeks in the fall and spring.

Adult Services

Some changes in the adult book selection policy have also been made during the year. In order to give patrons access to a greater variety of books, duplication of titles for Peirce and Allen has been eliminated with the exception of standard works and best sellers. An increasing shortage of shelf space has made it necessary for the library to subscribe to a book rental plan to provide popular materials which have intensive but short lived use.

A plan for subject specialization in each library was started on a limited basis. The purpose of the plan is to place all titles on a given topic in one location so that the patron may see the total holdings available in the Scituate Public Li-

brary. The major collection of fine arts materials is now at Peirce; business and technology books are at Allen.

We are finding that an increasing number of adults are returning to school and are calling on their library for special materials in literature, education and the arts. The library is attempting to meet the needs of this group by purchasing standard works in specialized areas and through the inter-library loan service of the Boston Public Library.

The Scituate Public Library received a \$975 grant from the Massachusetts Bureau of Library Extension to purchase 40 art reproductions. The new service has been enthusiastically received; 248 pictures have been circulated since they were made available in August.

Collections of large print books are now available at both Allen and Peirce libraries. The library can also assist blind or partially sighted individuals who wish to obtain talking book machines and records for home use.

The library continues to thrive, but, as in the past, this very vitality creates new needs. We need additional parking facilities at Peirce, there is a need for an area in which to hold library programs, there is a need to bring together valuable local history materials for greater usefulness and safekeeping.

We would like to take this opportunity to thank the Townspeople for their continued good will and support of the library, and to give special thanks to the Garden Club for providing the libraries with lovely flower arrangements during the summer months, and to Mrs. J. Paul Finnegan for contributing to the success of the pre-school story hour program.

Yours truly,

Virginia Heffernan
Director

REPORT OF THE SCITUATE HOUSING AUTHORITY

To the citizens of Scituate:

The newness of Lincoln and Wheeler Park has worn off and the SCITUATE HOUSING AUTHORITY still receives many compliments from individuals and Town officials throughout the South Shore. We are grateful that these fine developments are a part of our very scenic town — the lighthouse, the Common, Lawson's Tower, etc. The AUTHORITY members are extremely grateful to the people of Scituate for providing its Senior Citizens with good housing and the right to be independent. We are constantly working toward our goal-of giving both mental and physical well-being to these fine people.

There is a great need for additional housing for the elderly and we have a long waiting list. With the rising costs, anyone on a fixed income or retirement pension has been placed in a difficult position. We realize this because of the large increase in applications in the last two years.

The residents of Lincoln and Wheeler Park, along with the AUTHORITY, wish to thank everyone who has given of his time, talents and money to make life in these developments so pleasant. Our thanks, too, to the officials and departments of the town for their continued cooperation.

Merrill A. Merritt, Executive Director
Mrs. Anne W. Merritt, Assistant Director
Sturgis Evans, Chairman
Donald J. Smith, Vice-Chairman
Charles F. Jenkins, Treasurer
Thomas F. White, Assistant Treasurer
Caroline H. Tilden, Assistant Treasurer

Day Care Center Inspections	14
Rodent Control Investigations	8
Premature Infant Cases	4
Sub-Division Reviews	4
Bakery Inspections	8

Bacteriological Examinations

Bathing Water	15
Milk Products	7
Dye Tests for Drainage	11
Swab Tests	24

Mobil Chest X-Ray Visit

The Mobil Chest X-Ray Unit visited the town on May 5, 1969 and took 602 X-rays at a cost to the town of \$301.00.

Reported Communicable Diseases

Dog Bites	108	Mumps	77
Other Animal Bites	3	Meningitis	1
Measles	1	Chicken Pox	4
German Measles	17	Tuberculosis	2
Scarlet Fever	24	Salmonella Carrier	6
Strep Throat	65	Hepatitis-Infectious	6
Venereal Disease	10		

Activities of Plumbing Inspectors

The Plumbing Inspectors inspected all plumbing installed in accordance with permits on file and for which returns have been made to the Town Treasurer. Total permits issued — 336; amount collected — \$2,569.50.

Activities of Animal Inspector

During the first two Saturdays in June of 1969 an Anti-rabies Clinic was held. Number of Dogs innoculated — 521.

During 1969, all dogs involved in biting were quarantined, stray animals were boarded and disposed of properly, and inspections were made of cattle, horses, goats and swine as required by the Statutes.

Activities of Inspector of Slaughter

Inspections have been made of meat sold and all animals slaughtered in Scituate during 1969, in accordance with the laws of this Commonwealth.

Activities of Health Nurses

The Scituate Board of Health Home Health Agency employs one full-time and one part-time nurse. The unduplicated census for 1969 was 196 patients. The number of nursing visits made in 1969 to the residents of Scituate was 2,450 as follows:

Home Health Agency Visits	2,293
Medicare Visits	1,528
Private Visits	335
Welfare Visits	430
Public Health Visits	157
Antepartum	9
Postpartum	75
Tuberculosis follow-up	15
Diabetic follow-up	12
Mental Retardation	11
Hepatitis follow-up	5
Cerebral Palsy	5
Other Health Referrals	25

There were 10 Well-Baby Clinics with 136 babies treated.

The number of tine tests administered at the local food establishments was 165.

A certified Home Health Agency is required to provide skilled nursing care and at least one ancillary service. Until July 1969, this Agency provided Physiotherapy under contract with a Registered Physiotherapist. Since July 1969, the following ancillary services have been provided under contract with Easter Seal Society: Physiotherapy, Occupational Therapy, Speech Therapy, and Medical Social Service. The number of visits include:

Physiotherapy	82
Occupational Therapy	24
Speech Therapy	1
Medical Social Service	3

Regulations under which the Home Health Agency operates require that the Agency carry out a complete review of its operations at least every two years. The Scituate Home Health Agency carried out this review in 1969. In addition,

the Board reviewed its Public Health Nursing activities. Consideration of these reviews has shown over the past two years that as the Home Health Agency activities have increased, less time has been available for the Public Health Nursing activities. Since Public Health activities are the prime responsibility of a Board of Health in the nursing field, it is the opinion of this Board that this imbalance should be corrected. To achieve this, the Board will ask the town to provide funds for an additional nurse to enable the Board to carry out a soundly-based Public Health Nursing program.

During 1969 the full-time and part-time nurses attended a 120-hour, government-sponsored course in Rehabilitation conducted by Boston University personnel at Lemuel Shattuck Hospital. In addition, the nurses attended a five-day training session for Public Health Nurses conducted by the Massachusetts Department of Public Health at Lakeville Hospital. It is felt that these courses enable our staff to provide more effective nursing care to the residents of Scituate. It is this Board's policy to attempt to provide the Town with a complete and effective nursing program.

Services given at Well-Baby Clinics were as follows: Physical Examinations; D.P.T., Smallpox, Measles, and Polio Vaccine; P.K.U., and Tine Testing.

Assistance and clinical supplies were furnished for Heaf Tests and Tine Tests in the Public Schools and for D.T. immunizations.

Amount of money collected and returned to the Treasurer — \$8,436.15.

We would like to give a special thanks to all the members of the Scituate Health Service, Inc. and all the doctors and nurses who assisted in clinics held during 1969.

We would also like to take this opportunity to thank the members of the Home Health Agency Advisory Group of Professional People who have donated many hours to this Agency during the past year. This Advisory Group included: Mrs. Elizabeth Rand, Mrs. Joan Harrison, Mr. Edward Dahlquist, Mrs. Dorothy Jeffery (representative of Easter Seal Society), Dr. Bartley Cilento, Dr. Ralph Froio, Mrs. Anna Kendrigan, Mr. Edward Hickey, Mrs. Anne Merritt, Mrs. Dorothy Stone, Mrs. Elizabeth Welch, Mrs. Elaine Coughlan, Mrs. Carmen Bonney, Mr. Gerald Leonard, Mr. John Campbell, and the Board of Health members.

During the past year the Board of Health has experienced cooperation from the Town Department Heads on numerous occasions. The Board of Health would like to give special thanks to Mr. Gerald Leonard who has attended several meetings, since his appointment, of our Home Health Agency meetings in an effort to assist the Finance Committee of the Agency in setting up policies and procedures that will permit us to carry on, improve, and expedite the many forms that must be completed monthly and annually.

Bicycle permits	98.50
Firearm I. D. Cards.	484.00
Liquor I. D. Cards.	8.00
Photocopy service.	412.00
Machine gun permit	2.00
Firearms Dealer permits	8.00
Total	<u>\$ 8,920.00</u>

AMBULANCE

Number of trips made by ambulance 393
Miles travelled by ambulance on above trips. 18,389

RETIREMENT

On May 11, 1969 Patrolman Charles (Chuck) Zimmerman retired after serving the Town of Scituate faithfully as a police officer for 14 years. The members of the department and I wish Chuck all that is good in life - good health - happiness and many years to enjoy it all.

IN APPRECIATION

For the cooperation extended by the various Town Officials during the past year, I wish, on behalf of the police department and for myself, to express appreciation.

Respectfully submitted,

James E. O'Connor
Chief of Police

REPORT OF THE INDUSTRIAL DEVELOPMENT COMMISSION

Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

The Industrial Development Commission is charged with the development and promotion of the economic and industrial resources of the town through research of assets and development of programs for the purpose of expanding and strengthening the local economy.

At the 1969 Annual Town Meeting a sum of One Thousand Dollars (\$1,000.00) was voted for the purpose of publishing and distributing a brochure describing the economic advantages for the location of commercial business and light industry in the Town of Scituate. Prior to the town meeting there was a strong indication that the Boston Sand & Gravel land in the commercial zone was readily available for development.

During the current year of 1969 we held regularly scheduled meetings including several discussions with representatives of the Boston Sand & Gravel Company and other owners in the "C" Zone. As a result of these meetings we observed the attitude of the B. S. & G. was quite reserved towards the development of their area. The Commission decided it would be more of an advantage to the town to delay the publication of the brochure until we are able to develop a presentation to include the overall economic resources and industrial potential of the town.

The Commission has been in contact with local area businessmen interested in expanding and opening new ventures and has been successful in providing effective liaison to the various parties concerned. Among these included the expansion of the South Shore Publishing in North Scituate, the proposed Conway Office Building and the Clipper Ship Motel in the Harbor area.

The Department of Commerce and Development has been most cooperative in making a substantial amount of research material and planning assistance available. It is our intention to utilize the services of this state agency to a greater degree during the coming year. Our Chairman, William F. Hefner, Jr., attended a four session seminar on the "Economic Advantage & Potential for Development in Southeastern Massachusetts" conducted by the Department of Commerce and Development in conjunction with the Massachusetts

Industrial Development Council. This program provided considerable background and research material which should be valuable in the future.

As a result of the past year, the Commission recommends the Board of Selectmen increase the membership of this Commission to a total of 15 members as allowed by state statute (Chap. 40-Sect. 8A). This would allow a greater flexibility and the ability to offer a greater service to the town in the broad development of all growth elements of the town such as residential, commercial, industrial and municipal.

A proposal is currently pending for the development of a tract of land on the Driftway to include a First National Supermarket, Mars Department Store and McManus Ice Cream Shop. Further action on this proposal is based upon presentation of detailed site plans.

Our future objectives include the following:

- 1—Continue to expand contact with local area businessmen and state development agencies in an effort to encourage the growth of existing operations and to present the town's image to groups interested in locating in our area.
- 2—Publication of a brochure to promote the overall economic resources and industrial potential of the town.
- 3—Serve as a liaison to interested groups in a much needed study and revision of certain areas of the town zoning by-laws. Consideration should be given to the inclusion of apartment zones and possible expansion of the business and commercial zones.
- 4—Contact with neighboring communities with the goal of investigations and resolution of mutual development and planning problems on an area basis.

William F. Hefner, Jr., Chairman
Richard P. Garvey, Secretary
Charles M. Clough
John E. Conway
Charles W. Mitchell, Jr.

CAPITAL OUTLAY COMMITTEE

To administer a multi-million dollar enterprise such as the Town of Scituate without benefit of a Capital Outlay Plan makes little, if any, sense and yet Scituate is not unique among Massachusetts communities in the absence of a true Capital Plan. This year considerable effort has been made and related progress has occurred which makes the implementation of a workable and meaningful Capital Plan well within the realm of possibility. The attitude of the committee has been that legislating a capital outlay program without the accompanying awareness and proper receptivity on the part of the participating departments would only result in invalid input and continuing resistance. Therefore, the committee has adopted the attitude of proceeding slowly, taking ample time to explain in detail the reasons behind the need for a Capital Plan and assuring participants of the long range benefits to both their group and the Town of Scituate. With the capable assistance of Comptroller Gerald Leonard, considerable progress has been made and we feel that Town Meeting 1971 will find Scituate with a meaningful and valuable capital program.

Virtually every Scituate department from the Police and Fire to the Department of Public Works and the School Committee have been contacted and have addressed themselves to producing a five-year plan not only of capital needs but of overhead projections. The program is not without difficult problems, not the least among them is the proper projection of salaries, wages and benefits. Nevertheless, by establishing a two-year time frame for completion, there is time this first year to attempt the budgeting process and to discuss and evaluate the many problems which have arisen. The committee is not only enthused with current progress but extremely optimistic about meeting the 1971 target date in a professional and meaningful manner. We are pleased to submit this progress report and thank the various departments for their cooperative involvement.

CAPITAL OUTLAY COMMITTEE

Stephen S. J. Hall, Board of Selectmen
Harold E. Gerbis, School Committee
John V. Roche, Advisory Board
Herbert S. Callahan, Planning Board
Gerald J. Leonard, Comptroller

REPORT OF THE TOWN COLLECTOR

The following report represents a great "Team Effort" of all the employees in your Collector's Office. Their efforts have resulted in reducing the outstanding taxes on Real Estate, Personal Property and Motor Vehicle Excise by \$415,000.00. This has been a great help in attaining the Town's largest "Free Cash" of \$806,872.00 as of January 1, 1970 which is an increase of \$711,782.00 over the previous year.

It is the hope of your Collector to bring all taxes within a two year cycle by January 1, 1971.

Respectfully submitted,

John W. Carroll
Town Collector

REPORT OF THE TOWN TREASURER

The following report of receipts and payments for the year 1969 includes the investment of \$389,923.22 of "Non-Revenue Cash" and \$198,898.14 of "Revenue-Cash for a total of \$588,821.36. Interest earned on these investments amounted to \$8,164.08 which represents an increase of 350% over the previous year. It is the hope of your Treasurer to double this earned interest during the year 1970.

REPORT OF THE COMPTROLLER

Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

I submit herewith the following report in accordance with the provisions of Chapters 41 and 44 of the Massachusetts General Laws.

This report includes a Reconciliation of the Cash, a detailed list of 1969 Receipts and Expenditures, as well as a report on the Net Funded or Fixed Debt, Appropriation Summary, and a Balance Sheet as of December 31, 1969.

For the cooperation extended by my assistants during the preparation of these reports, I wish to express appreciation.

Respectfully submitted,

Gerald J. Leonard
Comptroller

REPORT OF THE SOUTH SHORE REGIONAL SCHOOL DISTRICT COMMITTEE

Enrollment this year was two hundred and eighty three (283). The class of 1969 numbered forty two (42). All were placed in the trade in which they were trained or entered the armed forces. Those placed in the trade had a median wage of \$2.40 hour. Most of those entering the armed forces did so at advanced rates. Thirty eight (38) percent went on to further education in September. There were ten (10) Scituate graduates, one of which completed a two-year, post-graduate program. Obviously our young people are not taking advantage of this modern vocational educational facility. When at least twenty four (24) percent of the male student enrollment at Scituate High School are in non-college programs, it is evident that some reevaluation should be considered. A conscious effort should be made to acquaint students and parents with the opportunities and achievements of our vocational-technical program.

Two jobs undertaken by the school this year, are of special interest to the town. The carpentry department is building a home in the town. The electrical wiring will be installed by the electrical department. The metal fabrication department has built a trailer for the town capable of hauling heavy equipment.

We expanded our new program for combination welders. This program is opened so that students who show abilities not indicated by standard tests, may be transferred to other more advanced programs. Within two (2) years, we will go into a cooperative work-study phase of the welding program. The more advanced welding students will work one week in industry and one week in school.

We have added a teacher aid in our reading lab to enable the instructor to give more individual instruction.

Our science lab has now been equipped with individual lab benches built by our mill carpentry department.

Our evening school program is expanding in enrollment and scope with nine (9) trade offerings serving one hundred twenty (120) people.

In addition, our facilities are used by the Old Colony Power Squadron serving over two hundred (200) people.

Our school shops continued to serve the various departments of the towns in the region, building such items as drafting benches, trailers, plow blades, etc.

The school was evaluated this year by Dr. Erwin Rowntree, North East Regional Director for HEW, who gave us a very high rating. He also was our graduation speaker.

We are presently continuing a restructuring and updating of all programs to provide for the needs of the students by offering meaningful and practical experiences.

Respectfully submitted,

Frederick E. Ahearn

ANNUAL REPORT
OF THE
School Committee
OF THE
TOWN OF SCITUATE

For the Year Ending December 31

1969

A MESSAGE FROM THE SCHOOL COMMITTEE

Dear Fellow Citizens:

Educational management over the next decade must develop new and better techniques for meeting the many pressures arising out of today's tumultuous social order. School systems today are at a turning point that will prove to be crucial. Moreover, our decisions today will presage the quality of education for years to come. Concurrent demands on the educational community cause problems to abound while satisfactory solutions are almost non-existent. The rights to collective bargaining given municipal employees is the major factor affecting school budgets; at the same time citizen demands for more moderate tax increases are more and more apparent. From many quarters, schools are being asked to hold the line on curriculum development while simultaneous cries are heard to take up the responsibility for drug education, consumer education, learning disabilities, etc. Across the country bond issues are rejected while an increasing population demands adequate school housing. In short, school committees are being confronted with the need to recognize what are legitimate demands for providing a basic education for students facing tomorrow's problems while acknowledging their commitment to fiscal responsibility.

Here in Scituate we have come face to face with this quandary. Beyond the next school year, the sixth grades currently housed in the High School must be removed to make room for over 1500 students. It appears that a distinctly inferior type of education will then be necessary in the form of half-day sessions.

Operating budgets are continuously rising because of increased costs of services and materials. Like private industry, as well as many non-profit institutions, educational administrators will have to seek out more and more efficient ways of meeting the demands being made on the educational community.

We believe, after comparing educational expenditures throughout the Commonwealth, that the Scituate School Committee, the school administration and the entire school staff have met their responsibility in providing quality education at a reasonable cost.

The Committee wishes to commend the school administration for their creative and professional response to the problems posed. We wish to commend

the staff in all departments of the educational system for their dedication to service. We wish to recognize other town governing boards and town employees for their cooperation in providing services and cooperation to the schools.

To the citizens of Scituate we commit ourselves to continued dedication to the task assigned us and ask your help and cooperation in meeting the educational needs of our children.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Scituate:

Taking a Bearing

Professional educators would be less than human if they were not wary of the many brash new offers to solve their problems. And yet, for the purpose of improving the quality of education, we are even now struggling to mobilize for top efficiency all the resources currently available in the school and community. But before this mobilization of resources can be made effective, we must know where we are going. Just as the most knowledgeable navigator must have some point of reference for his calculations, so must anyone who has been given the responsibility of leadership define reference points for determining forward movement. Along with determining direction, an essential aspect of organizational change is the means whereby all facets of the community bend their efforts towards the common goal. The vehicle for this progress must be a free flow of ideas through many channels of communication. Thus, a cooperative endeavor among administrators, staff members and citizens using the vehicle of communication can set about defining our educational objectives. This process is essential to our educational and civic well-being.

For a number of reasons it would seem important for the Scituate School System to take the effort, at this time, to give careful thought to the importance of, and the problems involved with, establishing our objectives and charting a systematic course for reaching our goals. So that the school and community can unify for progress, the immediate task of the administration is clear: a well defined set of objectives that can be understood by all concerned and a planned program for implementing practices consistent with these objectives. Knowing that the success of this or any undertaking rests on the degree to which each individual participates and receives personal satisfaction for having been a necessary and constructive part of the program, the administration seeks and invites ideas for establishing new and better means of communication and cooperation.

Over the past year the administration has been evaluating programs for the purposes of determining effectiveness, role and scope within the school curriculum. As a result of this evaluation, some programs were discontinued, certain administrative positions abolished and many departments firmed up and given new roles and responsibilities. A committee of staff personnel for the Study of Programs for Exceptional Children (SPEC) has provided an outstanding blue-

print for efficient organization and implementation of all programs serving the needs of exceptional children. As a result, greater cooperation is bringing about more effective treatment. Programs aimed at more economic and constructive use of para-professionals have been started. Curriculum development programs have been redesigned and more fully implemented throughout the school system to bring about a more efficient and effective impact on school practices.

Before committing more funds to education; before the School Committee, the administration, the staff and the community choose directions and commit resources to education, we must know our objectives, be able to state our objectives clearly and commit ourselves in a cooperative effort to reaching those objectives.

To this end, the administration has consulted with the professional staff and is now ready to present a set of six objectives for consideration. These objectives are meant to serve as our navigational aid over the next five years. At present the School Committee and administration are preparing these objectives for presentation to the staff and community. They are meant to bring about quality education with fiscal responsibility. The professional staff has considered the following six areas in determining goals:

1. The responsibility of the Scituate Public Schools for serving community needs at all levels of formal education.
2. Staffing and career development in the Scituate Public Schools with special concern for constantly increasing costs for quality personnel.
3. The responsibility of the Scituate Public Schools for the successful fulfillment of each child's social and academic growth.
4. The responsibility of the Scituate Public Schools for providing a continuous and systematic process for keeping all areas of the curriculum current and germane to our society.
5. The responsibility of the Scituate Public Schools for providing the materials and using the professional methods of instruction that make use of the most effective and current technological advances.
6. The responsibility of the Scituate Public Schools for establishing a cost-benefit analysis program that provides a process of evaluation and planning to bring about a maximum of fiscal responsibility.

These objectives and planned programs will be introduced to the public over the remaining months of the school year. We hope the community will be interested and become involved at various "talk-ins" that will be scheduled to consider these commitments.

We wish to commend the entire staff of the Scituate Public Schools for their personal dedication over the past year. Each individual contributed to the success of the educational program.

Respectfully submitted,

John J. Staples
Superintendent of Schools

PERSONNEL

The teaching staff of the Scituate Public Schools has increased to accommodate the growing student body. In 1948 a staff of 50 served 800 students. In 1969 the school population had grown to 5500 students requiring a staff of 275 teachers. The Scituate Public Schools have been able to recruit and retain staff members of proven ability during this entire period. Teachers have been recruited from a broad geographical base as evidenced by the 82 different colleges that our teaching staff represents.

A profile of the teaching staff compares very favorably in terms of experience and preparation. Over 36% of the staff have attained a Masters degree; 47% have graduate credits beyond the Bachelors degree. The median level of experience of teachers is between 5 and 6 years. The median age is 33 years, with 44 years representing the 75th percentile and 25 years the 25th percentile. This distribution is evidence that our staff has constantly added new members while retaining a favorable level of experience.

The Scituate Public Schools have been and are continuing to search for means by which teachers can pursue career goals within our school structure, and preferably within the framework of teaching and curriculum development. The recently inaugurated career teacher program is one answer to this problem. The career teacher position allows teachers an opportunity to pursue personal and professional goals by working on curriculum and in related areas during the time they would normally be on vacation. Thus, the Scituate Public Schools

can receive full benefit from the professional staff in areas that need constant evaluation and improvement. At the same time staff members can benefit financially and put their background and training to more effective use.

Classroom teachers make up the vast majority of instructional personnel at present. However, in the next decade the need for non-certificated personnel will grow. The greatest expansion of personnel in the future will be in the area of para-professionals, which will be reflected in greater services to children and more effective use of professional talent.

Very serious consideration must be given to the increased cost of personnel. This cost will continue to rise in education just as it has and will continue to rise in all private and public sectors of our economy. One of the first questions we must pose is, "Will productivity of the educational staff remain commensurate with the cost?" The answer is, "Yes." The product of the teacher is the education of the child. In an economic sense the value of educating a child increases in line with the average nationwide increase in the economic value of those who eventually move from formal education to gainful employment. People employed today are more productive than they were 20 years ago. This is, of course, a direct result of the level of education attained by the citizenry.

In the decade ahead the schools of Scituate will be faced with educational and economic pressures. These pressures will require innovative thinking in terms of staffing for effective and efficient education. New approaches for serving student and community needs will be an essential part of the administrative responsibility. Already new ideas are being explored and tentative steps taken to meet these pressures and provide for continuous and harmonious progress.

Respectfully submitted,

Joseph C. Driscoll
Assistant Superintendent

SCHOOL BUSINESS

Business

The operation of the business part of the school system with over 380 personnel on the payroll, consisting of school administrators, teachers, clerical staffs,

custodians, cafeteria personnel, maintenance personnel and bus drivers makes for a very diversified and complicated bookkeeping operation.

In addition, all procurement control and processing of bills is performed at the administration office after proper receipt and verification has been accomplished from the seven main schools, with the sixth grade in the High School and the kindergarten in the St. Frances Cabrini Church Center involving nine accounting centers.

The bookkeeping department, the school secretaries and the school lunch managers are commended for their untiring efforts to keep the school business operation successful.

School Lunch Program

During the school year 1968-1969 a total of 589,559 school lunches were served. This represents an average of over 3,000 lunches per day.

The cafeteria personnel do a most outstanding job to provide the well prepared hot lunches to our school children in a severely limited amount of time available for preparation, cooking and serving.

The school bakery prepares bread and dinner rolls for all schools. The school cafeterias prepare cakes, pies, brownies and cookies. In this way, the Scituate Lunch Program makes maximum use of the few government commodities available.

Close cooperation with the Board of Health insures that proper sanitary conditions are maintained in regard to food preparation.

Maintenance

The school buildings have been maintained successfully for another year due to the ingenuity of the Supervisor of Maintenance with the aid of the competent and resourceful head custodians and the small maintenance force.

The buildings have considerable maintenance problems that will involve costly material and professional contracting service to make a smooth operating educational plant. Proper operation of clocks, bell systems, stage lighting; considerable sewerage renovations and modification; adequate repair and up-keep

of interiors and exteriors in all plants make this aspect of school operation an area requiring immediate attention. It is recommended that the Scituate Schools consider employment of full-time maintenance personnel to protect the considerable investment in school plants.

Transportation

The transportation of school children requires 21 large school buses, 12 of which are school owned and 9 contractor owned. These buses transport over 4,000 students twice a day, every school day. This year 2 smaller buses (31 passenger) were purchased by the school for more efficient transportation of kindergarten and special class children who require home to school transportation.

The exceedingly severe winter weather during last January and February tried our dedicated bus operators to the limit. However, regardless of these conditions, they successfully operated the buses each school day and their dedication and efficiency in this difficult period is commended.

Respectfully submitted,

W. W. Childress
School Business Manager

SCITUATE HIGH SCHOOL

One sign of sophistication today is the degree to which high school students are making themselves an impressive segment of our society. As this level of sophistication climbs and demands for effective change become more prevalent, the role of the senior high school must undertake a program of evolutionary, if not revolutionary, change. High school curriculum today must focus on social and academic problems that defy the pigeon-holing technique of departmentalized curriculum areas. Consider such social, political and economic phenomena as the upward mobility of millions of our citizens and the concurrent lowering of aspirations for others; the urban-suburban cross conflicts; the ebb and flow of special interest groups with new alignments and new demands appearing regularly; the beginning and ending of various visions for a new society.

This ferment has been caused by education and also has turned inward to shake education itself. As a result, we in Scituate High School are continually striving

to keep respect for education and its ability to cope with societal demands while shaping future demands. We have accepted this challenge and term it a drive for quality education.

The high school enrollment is still increasing every year. As new students require additional courses and modifications of the existing program, every attempt is being made to provide a variety of course offerings. Some of the modifications brought about to assure continued quality in education are:

English - The department has expanded the humanities program this year to include all students in the senior class. Special instruction in music and art are included in the English IV curriculum by use of outside specialists whenever possible.

Work-Study Program - This program is completing its second full year and has capably filled a real need for a number of high school seniors which previously could not be met by the standard high school curriculum. Hand in hand with this has been the expansion of the shop program into the area of power mechanics.

Science - The department has fully implemented a laboratory approach to freshman physical science. The fruits of this program are being realized in the other science areas. Students, being more capable of laboratory exploration at an earlier age than ever before, are still challenged and motivated through constant upgrading of content and methodology.

Mathematics - The department is making strides in individualizing instruction to a greater extent as well as implementing a unit on programming. Members of the department are studying the use of the computer in classroom instruction.

Social Studies - The department is implementing a second requirement, "Problems of Democracy." This is an attempt to give seniors an opportunity to explore and study the social problems with which they will be living in their adult life.

Industrial Arts - The department is recommending a course in electronics theory.

Course content in all other departments will be continuously revised and

tailored to individualized programs. Therefore, independent study programs, re-defined guidance roles, and implementation of the House Plan for more personalized student/staff relationships will be the primary concern for the next two years.

Respectfully submitted,

Edward L. Stewart
High School Principal

SCITUATE JUNIOR HIGH SCHOOL

In the Scituate Junior High School the administration and members of the faculty are constantly trying to improve the instructional program for the student so that the learning process may be carried on in a more efficient and effective manner. It is our belief that students have the right to be creative, to be different, to think, to explore, and to become involved. Moreover, it is felt that these ideas are compatible with purposefulness and orderliness; in fact, in some cases, the right to be creative, to be different, to think and to explore should supersede regimentation and uniformity. As a result of this thinking, changes are occurring in virtually all areas of curriculum.

In Social Studies the emphasis is placed on the insights into the "human condition" by means of analysis of different early peoples and civilizations. New programs feature intradepartmental teacher exchanges and traditional lecture techniques increasingly replaced by inquiry-involvement learning. Students, therefore, become active agents of the learning process rather than passive observers.

At present, the eighth grade science program is an open-ended student involvement program entitled, "Time, Space and Matter." In Grade Seven plans are being formulated for the adoption of ERCA (Educational Research Council of America) Life Science Material. It, too, is a laboratory oriented student involvement program. Both programs emphasize observation, measurement, inference prediction, hypothesis formation and experimentation.

In English the "linguistic" approach was initiated in Grade Seven last year, and is now being developed in Grade Eight. The linguistic approach recognizes English as a growing, changing language. The student is introduced to the history

and nature of the language. In the study of grammar and usage, he extends his understanding of sentence structure through analysis of basic sentence patterns.

At present, the mathematics department is exploring ways of applying the "systems approach" to teaching as well as evaluating the sequence of what should be taught in the curriculum. Teachers are directly involved in the revision, expansion, and deletion of materials which will ultimately lead each student to a better understanding and application of mathematical concepts. Plans are also being formulated for establishing a laboratory method which will involve visual aides, multi-texts, and team learning.

In reading, plans are being formulated for a developmental reading program. When adopted, the program will provide for systematic instruction in the reading-study skills area for those students who are at grade level or above. Primary emphasis will be placed on the refinement of reading skills so that students will have a better foundation for profitable reading in the content area subjects.

In addition to these curriculum changes, the administrators and department chairmen at the Junior High School are currently discussing ideas and formulating plans for the Five-Year Plan involving development of a "systems approach" to curriculum. This approach is primarily concerned with the compilation of instructional performance objectives - objectives that are clear and measurable. It is hoped that the initial steps in writing these specific objectives will begin as soon as the overall plan is adopted by the Scituate Public Schools.

Currently the Scituate Junior High School has a total enrollment of 876 students. Formerly, the housing capacity at the Junior High School was set at 750; however, for the academic year 1970-71 we anticipate an enrollment figure of approximately 900 students. Considering these figures, it will be extremely difficult to function effectively. In some cases, further curtailment of program will be necessary. Already, typing has been eliminated from the Junior High School curriculum because of the lack of classroom space. When further curtailment does occur, we wish to assure parents that every effort will be made to mitigate its effect in terms of the number of students affected and the duration of the curtailment. School construction has taken place at every level in Scituate except at the intermediate level. The staff at the Junior High School is to be commended for their interest and persev-

erance in curriculum improvement despite overcrowded conditions resulting in inadequate facilities.

Respectfully submitted,

J. Joseph Gibbons
Junior High School Principal

CENTRAL ELEMENTARY SCHOOL

The current school year has shown progress toward a more individualized program of instruction for the children in this school district. The entire staff has done an excellent job in seeing that all the needs of the children have been quickly and adequately met. However, with a projected rise in the student population and lack of facilities for individualized instruction, it appears that many worthwhile programs may have to be curtailed. This is highly regrettable in view of the excellent standards that have been met by students from the district.

Improvements in the physical plant authorized last year have been completed by the close of 1969. Other repairs are still necessary to the building and have been enclosed in the present school budget. It must be remembered that the Central School is the oldest elementary school in the town and that many of the facilities have not been updated since the completion of the building some two decades ago.

However, because of highly dedicated staff members, the program is still of excellent quality and is continuing to improve through curriculum improvement programs.

Respectfully submitted,

William G. Keane
Central Elementary School Principal

CUSHING ELEMENTARY SCHOOL

As the Scituate Schools continue to emphasize and stress the fundamentals of reading, language and mathematics, they also remain sensitive to new innovations. We at Cushing School are most fortunate to be a part of these innovations. Entering our fifth year here at Cushing School, we have expanded from a modified Team Teaching/Team Planning Program to a Continuous Individualized Learning Program. Our quest has been to improve the quality of the educational program through improving instruction and learning.

Basically, our philosophy of education is one which makes possible the adjusting of organizational procedures to meet the needs presented by differing social, mental and physical capacities among children. This program promotes flexible learning and continuous progress based on the following principles:

1. Each child is an individual with his own rate of growth and should be educated as such.
2. For normal growth a feeling of success is essential.
3. Each child should be taught at his individual achievement level regardless of age or length of time that he has been in school.
4. Levels may be changed during the school year rather than at the end; growth is not steady, but comes in spurts and plateaus.
5. A child should not be forced to mark time, nor should he be forced to learn material beyond the range of his ability.

Looking to the 1970's, as our school programs develop and we become increasingly aware of the differences that exist among pupils, we would like to concern ourselves with two educational terms, "education of the whole child" and "individualized instruction". It is our aim, over the next five years, to give meaning to these terms. In doing so it is our purpose to develop the most flexible, workable plan for serving individual needs of each child. However, in order to accommodate individualized instruction, we must be willing to consider changes in commitment, curricula, teacher roles, administrative procedures, physical environment and the variables that relate to pupil learning. With the ever increasing school population, and housing being curtailed, we will attempt to work this program within the physical structure of our present buildings.

During the 1970's we will endeavor to continually examine and appraise our educational programs as well as dedicate ourselves to its improvement. Although new innovations, like first steps, are sometimes difficult, we will meet the challenge before us. Unless we do this the individualized instruction in a continuous progress program will have neither meaning nor reality, but will only become another educational term. Because of the enthusiasm and cooperation of the Cushing School staff, I feel secure that this commitment is being met and will prove to be a source of pride to the community.

Respectfully submitted,

Louis A. Von Kahle
Cushing Elementary School Principal

HATHERLY ELEMENTARY SCHOOL

Kindergarten Center, St. Frances

In late summer it became evident that additional spaces were needed to provide for the education of kindergarten children. The educational center in St. Frances Cabrini Parish on Hood Road was chosen for its availability of modern and flexible learning spaces.

Seven classrooms as well as a large gymnasium-auditorium area provide the staff with ample facilities for carrying on their educational program. Teachers and children from four school districts are grouped and teamed according to their district, so as to allow for the best flow of communications and placement as they progress educationally toward the next school year.

There have been many educational advantages having all the kindergarten children and staff together. It has provided greater opportunity for specialized services to children in the areas of speech therapy, physical education, art and music. It has allowed for a more organized approach toward developing needed programs, especially those which concentrate on the early detection of learning disorders.

The continuation of this housing pattern is recommended until adequate spaces are found in the district schools.

Hatherly Elementary School

At the beginning of the school year the staff at Hatherly Elementary School adopted as its theme for the on-coming school year the development of positive and constructive learning attitudes. It felt that a program based on individual and human concerns for the learner, as well as the material to be learned, was the basis for developing a healthier and more productive program. Using some of the ideas received from a survey taken the previous year, along with small group meetings with interested parents (PATHS), Parents and Teachers of Hatherly School, decided to develop a listing of human resources which would supplement the educational program offerings. It is felt that this attempt is a beginning step toward improving educational attitudes. It brings the parents, children and teachers together.

It is recommended that PATHS resume their meetings and continue on in their cooperative planning for developing methods toward improving educational attitudes.

The staff of the Hatherly School is to be commended for their dedication to improving the educational program and its effect on children.

Respectfully submitted,

Guido J. Risi

Hatherly Elementary School Principal

JENKINS ELEMENTARY SCHOOL

Jenkins School has the unique advantage of housing all grades from kindergarten through grade 6. However, because of increasing enrollments, class sizes are rising here as at the other elementary schools and it is doubtful whether this comfortable accommodation of the school district can continue.

With the completed construction of the new addition, additional facilities have been added to the building. Among them is a stage for our cafetorium which greatly facilitates the dual functions of this area.

The newly landscaped addition to the play area, as well as playground swings and basketball backboards in the gym, have provided for further expansion of the physical education program.

The federally funded pre-kindergarten class is housed in the neighboring Methodist Church. This program provides additional opportunity for handicapped students to benefit from the initial school experience.

The library facilities have been greatly improved and offer excellent opportunity to adapt to changing concepts in school library use.

Learning centers have been established at intermediate levels to provide more opportunity for individualized instruction which is in keeping with the philosophy of the Scituate Public Schools.

Gradual inclusion of new and proven techniques are constantly being made. Ungradedness, team teaching, paired learning, programmed instruction are all methods which are in present operation at specific levels.

The staff at the Jenkins School is to be commended for their contribution to the education of the children of Scituate.

Respectfully submitted,

Joseph F. Nicholson
Jenkins Elementary School Principal

WAMPATUCK ELEMENTARY SCHOOL

The Wampatuck Elementary School has a student population of 599 and a staff of 29 full-time teachers. Additional staff members are a librarian, guidance counselor, and a nurse whom we share with another school. We are experiencing our first full year in our new addition. This has permitted us to have greater flexibility in our programs, particularly at the fourth and fifth grade levels. An important feature of this addition is the new library. Students will benefit from the books and reference materials, but in addition we are developing a learning center to include all materials that will aid the child in the learning process.

The programs are child centered and staff efforts, concerns and desires reflect this attitude. Though we group in grades two to five, the faculty is continually identifying the individual needs of the child and providing for these needs within each group.

All of the classes geared to meet special educational requirements at the elementary level are housed in the Wampatuck School. These classes for students requiring a more controlled environment and a more structured curriculum, receive continuous evaluation by staff members and consultants to be sure we are meeting the needs of these students. The staff also attempts to place these students in regular classes as soon as a successful and pleasurable learning experience can be assured.

The staff at the Wampatuck School has been most professional and deeply concerned with the education of children in their charge. I wish to thank them for making my year a rewarding one and commend them for making the past year a successful one for their students.

Respectfully submitted,

George R. Duggan
Wampatuck Elementary School
Principal

PUPIL PERSONNEL SERVICES

Pupil personnel services in the Scituate schools are designed to help individual pupils regardless of their ability to attain maximum development of their personal and educational character. These services require counselors, nurses, the school doctor, visiting psychologists, social workers, speech and hearing specialists and specialist teachers to help exceptional students to extract the most from a program of quality education.

The high school counselors are concerned with the student's learning and personal difficulties, whether of a temporary or long-range nature as well as educational and vocational plans for the future. Over one hundred colleges and business firms send representatives to the high school to meet and consult with students and counselors regarding possibilities for future plans. More and more attention is being given to students desiring careers in trades and business immediately after graduation. The Work-Study Program is assisting many students in a planned program of exposure to the business and economic environment. Many students are taking advantage of the fine post graduate program at the South Shore Vocational Technical School.

Elementary guidance counselors are responsible for helping students make normal progress in school. For those students who are unable to do this, the counselor is responsible for bringing all personnel and resources available in our community to work with parents and teachers so that each student can be assured a successful school life.

Scituate continues to have an excellent health program with five full-time nurses and a part-time physician. All health tests are done with the approval of the Massachusetts Division of Maternal and Child Health. All clinics recommended by the State Department of Public Health are conducted in cooperation with the Scituate Board of Health. The school doctor and nurses, while meeting the daily needs of students, are most interested in and work towards an adequate preventative health program.

Scituate continues to expand its special education programs for exceptional children. Wherever possible these students remain in a regular classroom with a strong resource teacher giving supportive services. However, in some cases a more tailored and more structured environment is necessary. For those students who need special classes, Scituate provides them when it is economically feasible to do so. Scituate must also provide transportation to classes for the deaf in Duxbury, to the Cerebral Palsy class in Weymouth and to the Sheltered Work Shop of the Massachusetts Rehabilitation Commission in Squantum.

At present Scituate has an outstanding program of special education. As the Town grows, the number of children requiring special services will increase. In the near future the Town must look forward to establishing their own classes for the blind, deaf, cerebral palsy and other exceptional cases. Therefore, consideration of these needs should be given when developing new plans for school housing.

The guidance staff and the professional specialists in speech, health and special education are commended for their fine contributions to the Scituate educational program.

Respectfully submitted,

Samuel J. Tilden
Director of Pupil Personnel

READING DEPARTMENT

The organization of a reading department is an innovative part of the school program. A separate report this year is intended to acquaint citizens with the purposes for this move and what is occurring in this extremely important aspect of the educational curriculum.

For the past five years the reading program in the Scituate Public Schools has been based on a three track system utilizing different materials to meet the needs of different abilities. This practice has been maintained to promote motivation, sustain interest and insure sequential skill building.

Having already built in a diversification of materials in addition to an ever growing use of multi-media materials, it appears sensible and wise to consider fractionation of the reading program into mini-skill units and direct our attention toward an individually prescribed program of instruction.

In order to facilitate such a plan, we must provide the model for guidance of our teachers. The individualized method is currently being followed in several classrooms throughout Scituate and is gaining favor of both teacher and pupils. In the near future the reading committee will investigate the feasibility of wider participation in individualized instruction.

According to the U. S. Commissioner of Education, Dr. James Allen, the established priority in education will be the reduction and elimination of reading deficiencies by 1980. Screening procedures used in kindergarten to identify potential learning difficulties followed by appropriate corrective measures in connecting class and first grade programs represents a major step towards the prevention of reading failures in Scituate. One of our primary goals from this point forward will be the identification of learning style and then programming for those needs. In short, an accurate and early diagnosis with appropriate prescription is the key to reading success in the seventies.

It is recommended that reading instruction be continued through the junior and senior high schools through the establishment of developmental programs at those levels. Reading instruction in the secondary years will provide the opportunity to continue the acquisition and maintenance of skills basic to successful reading for those students who need it.

The seventies will continue to bring to light more pertinent information and

understanding in the area of learning disabilities. However, no one can afford to wait. In Scituate the program is under the direct supervision of the building principal working closely with the reading specialist, the guidance counselor, and the one or more teachers the child contacts during a school day. As with any successful program, this team effort provides the vehicle for a successful school experience for children diagnosed as having a learning disability. In order to implement this program effectively, the reading teacher will have the assistance of several para-professionals who have been highly trained by the Scituate School Department. These para-professionals will enable the school system to present individualized instruction to help students cope with these disabilities.

In our search for excellence, the process of learning is constant. During 1970 our reading specialists, guidance counselors, connecting class teachers, instructional aides and others will be engaged in a Learning Disabilities Practicum conducted by an area college so that we may become more proficient in fulfilling our task.

It is recommended that an in-service program covering practices and programs for individualized instruction be offered for all classroom teachers in the fall of 1970 so that everyone involved in the child's education be equipped to provide the total kind of learning necessary to success in our complex society.

Respectfully submitted,

Mrs. Helen O'Connor
Chairman

ADULT EVENING SCHOOL

The Scituate Adult Evening School continues to be one of the more successful ones in the state, enrolling a total of 902 participants for the year. Classes were held at both the Junior and Senior High Schools to accommodate the interests of the community and the number of participants. A total of 30 separate courses were offered for the year.

During the past year a high school equivalency program has been developed and put into operation. This makes it possible for anyone who has not completed his secondary education to do so through the Adult Evening School by

taking courses for regular credits. A valuable addition to this program has been the appointment of an Adult Education Advisor to assist participants in educational and /or vocational planning.

In an effort to obtain greater utilization of community assets and to better serve community needs, efforts are now under way to expand the Adult Basic Education class for non-English speaking citizens of Scituate; to further expand the high school equivalency program; to survey the community for suggestions on improving the number and variety of course offerings for all citizens of the town.

The staff of the Adult Evening School is to be praised for its dedication and service to the community.

Respectfully submitted,

Jared E. FitzGerald
Adult Evening School Principal

SCITUATE SUMMER INSTITUTE

The enrollment of the Scituate Summer Institute was 536, an increase of 127 students over the previous year. This is significant because it indicates that the Summer Institute is offering courses that the public wants. The following new courses that were primarily responsible for this increase were: Primary Day Camp, Creative Dramatics, Creative Writing and Introductory Algebra. These courses accounted for 98 students. These classes are basically enrichment in nature but they offer the students important educational contributions that they would not otherwise enjoy. One of our prime objectives, of course, is to provide students with the opportunity to take courses not offered during the regular school year.

A Primary Day Camp Program was held. It was quite successful, having an enrollment of some 52 students. It was originally planned for children in kindergarten through the third grade. This age difference caused some minor problems in preparing art and play activities. However, the teachers felt that it would be most beneficial to the children and more helpful in activity planning if separate classes could be formed next summer on the basis of age.

The addition of a nurse to the summer program was very helpful and comforting. She was called on repeatedly and performed services that we would otherwise have been unable to furnish.

The Summer Institute employed 26 instructors and offered 39 separate courses for students at all grade levels.

The staff is to be commended for developing and carrying out, in a professional manner, programs that reflect the interests and needs of the community.

Respectfully submitted,

George R. Duggan
Scituate Summer Institute Principal

SCHOOL COMMITTEE MEETINGS ARE OPEN

The Scituate School Committee meets regularly at 7:30 P.M. each month, September through June, on the first and third Mondays unless announced in the press. Meetings are held at each school building and are open to the public. The schedule of meetings for the school year is available at the office of the Superintendent of Schools.

ADMISSION TO THE SCHOOLS

To be admitted to kindergarten, a child must have reached the age of four years, eight months, on September 1 of the year he is to enter school.

To be admitted to Grade 1, a child must have reached the age of five years, eight months, on September 1 of the year he is to enter school.

Children whose birth certificates are dated later than January 1 will not be enrolled for the current school year.

A vaccination certificate must be presented to the school when a pupil enters for the first time.

NOTE: Effective December 4, 1967, all school children must be immunized

against smallpox, diphtheria, tetanus, pertussis, measles and polio, unless exempted for medical or religious reasons.

A birth certificate must be presented for those pupils whose births were recorded outside of Scituate.

SCITUATE HIGH SCHOOL HONOR ROLL

Year Ending June, 1969

HIGH HONORS

(All A's - Major Subjects)

Grade 12

Harrington, Sharon M.

Ouellette, Maryann

Serafini, Linda M.

Grade 11

Kennedy, Ann E.

Landers, Carole D.

HONORS

(All A's and B's - Major Subjects)

Grade 12

Bailey, Frederic T.

Bell, Patricia A.

Brith, Gael P.

Cook, Deborah D.

Craig, Carol J.

Crimp, Nancy

DiManno, Lee A.

Finnie, Joanne R.

Ford, Ellen E.

Fougere, Susan M.

Franzen, Deborah L.

Gilson, Nancy L.

Hall, Malcolm T.

Hayward, Susan

Hershey, Kathleen

Keefe, Linda M.

Kelley, Kerry

Kilcoyne, Annmarie T.

Koelsch, Elaine B.

Marshall, Barry

Mattern, Christine P.

McCulloch, Michael F.

McKeown, Maureen

Monteiro, Manuel P.

Potter, Ross

Sautter, Richard G.

Silvia, Christine M.

Siney, Karen C.

Smith, Paul D.

Tyrrell, David R.

Webb, L. Jean

Grade 11

Atkinson, Annette

Busser, Barbara

Carr, Elizabeth

Cohen, Bernard

Crowley, Christine C.

Dillon, Bruce A.

Fitzgerald, Kevin J.

Gerow, Peggy

Hamacher, Susan

Jenks, Charles W.

Linnehan, Mary E.

McAdams, Joseph C.

Reid, Carole H.

Smith, Patrick W.

Wessman, Lorraine

Grade 10

Anderson, Mark
Banning, Linda K.
Childress, Robert D.
Danielson, Deborah A.
Fitzgerald, Eileen C.
Hall, Christopher, J.
Harrison, Cathy S.

Hershey, Amy S.
Houghton, Marian F.
Johnson, Stephen J.
Keenan, Sandra L.
Kelley, Hilary E.
Kilduff, Kathy L.
Martino, Elizabeth
Mattern, Grace S.
McQuilkin, Robert J.

Parent, Marie
Rice, Judith
Seacord, Lynne M.
Shakespeare, Daniel J.
Sirois, Robert
Trifone, Ann L.
Uppendahl, Mark S.

Grade 9

Babin, Peter B.
Blanchard, James D.
Bresnahan, David P.
Clark, John M.
Clark, Kathryn L.
Cresswell, Gary
Crowley, Nina E.
Driscoll, Shiela M.
Fahringer, Carol L.

TOWN of
SCITUATE
TOWN REPORT
1970

The cover is a picture of our fellow Selectman, Robert H. Tilden and his father taken in 1946. The Tilden family goes back to the early settlers of Scituate and is so recorded in many of the early writings.

It seems very timely that this photo should depict father and son raking rock-weed and kelp to take back to their farmland on Tilden Road to spread on their crops.

Time evolves and the thought projected by many of those interested in the ecology movement, is that this picture could have been taken today.

Although farmers for many generations, Mr. Tilden managed to leave the farm long enough to graduate from Scituate High School, Dean Academy and Syracuse University.

He became interested in politics and was elected Selectman in 1950. Upon his resignation in February, 1971, it would appear that Mr. Tilden has served more consecutive terms than any other Selectman.

REPORT OF THE TOWN CLERK

ANNUAL TOWN MEETING

March 16, 18, 20 and 23, 1970

A legal meeting of the inhabitants of the Town of Scituate qualified to vote in Elections and Town Affairs was held at the Scituate High School Gymnasium on Monday, the eighteenth day of March, 1970 at 7:00 o'clock P.M. The meeting was called to order by Moderator John J. Delaney, Jr.

The warrant was read by Town Clerk Pauline F. Guivens.

The check list was used. Checkers were: Amy C. Bates, Claire E. Brady, Jeanette Hollis, Catherine E. Kennedy, Gladys L. Merrill, Daniel J. Queeney, Sr., Barbara E. Salvador, Irene A. Samaras, Dama B. Sherman, Dorothy E. Stone, Anne J. Torrey, Dorothea C. Weare, Virginia M. Jones and Elizabeth O'Connor.

Tellers appointed by the Moderator and sworn by the Town Clerk were: William F. Brennan, Gilman B. Wilder, Paul W. Rathbun, Richard H. LaFleur, Robert C. Rosemere, Jr., Phillips N. Weeks, Theodore E. Deckel, Richard S. Tibbetts, Edward P. Horne, E. Arnold Nadeau, Paul J. Kingston, William F. Hefner, Jr. and John F. Caulfield.

The invocation was given by Rev. Michael R. Gruel.

Article 1

To hear the report of the Selectmen or other Town Officers and Standing Committees, and act thereon.

VOTED: That the Town accept the reports of the Selectmen and other Town officers as printed in the Town Report and hear the reports of Standing Committees:

Committee to Study the Year-Round Use of the School Plant and Facilities

Town Government Study Committee

Capital Budgeting Committee

Reports of the above committees were accepted as read.

VOTED: Unanimous

Article 2

To see if the Town will vote to direct the Selectmen to delete the listings of births, deaths and marriages from all future printed Annual Reports.

VOTED: No.

Article 3

To choose all the necessary Town Officers other than those elected by ballot, viz: Surveyor of Lumber, Measurer of Wood and Bark, two or more Field Drivers, one Poundkeeper.

VOTED: That the Town appoint the following Town Officers: Surveyor of Lumber, Measurer of Wood and Bark, Russell L. Fish; Field Drivers, Ernest M. Damon and Alden C. Finnie: Poundkeeper, Charles Zimmerman.

Article 4

To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue for the financial years beginning January 1, 1970, and January 1, 1971, in accordance with provisions of General Laws, Chapter 44, Section 4, and to renew any note or notes as may be given for a period of less than one year, in accordance with the provisions of General Laws, Chapter 44, Section 17, or take any other action relative thereto.

VOTED: Yes Unanimous

Article 5

Will the Town vote to have all the income from the Water Division of the Public Works Department paid by the Town Treasurer, and estimated receipts used by the Assessors in fixing the tax rate for the current year.

VOTED: Yes Unanimous

Article 6

To see if the Town will raise and appropriate the sum of \$127,822, to cover the expenses and disbursements of the Retirement System and Pensions for 1970, or act thereon.

VOTED: Yes Unanimous

Article 7

Will the Town raise and appropriate the sum of \$6,718.90 for the payment of bills of previous years, said payment to be as follows:

1966	The MacMillan Company	School Dept.	\$ 10.38
1967	Walberg and Auge	School Dept.	23.00
	The MacMillan Company	School Dept.	322.32

Article 16

Will the Town approve the recommendation of the Personnel Board to grant to part-time employees who work every week on a regular daily schedule a minimum of 20 hours per week, annual vacations, paid holidays, and sick leave, on the same basis as full time regular employees, but at daily pay rates proportional to their part-time employment, by amending the Classification and Salary Plan as follows:

To Part III, Section 13, General, add:

(1) Employees are categorized as follows:

Regular, full-time	An employee who is hired to fill a full-time position expected to be permanent for more than 1 year.
Regular, part-time	An employee who is hired to fill a position expected to be permanent for more than 1 year, who works less than the established work week, and (a) works on a regular daily schedule, and (b) works a minimum of 20 hours per week and (c) is paid at the same rate established for the same full-time classified position on a pro-rata basis for the time worked.
Irregular, part-time	An employee who is hired to fill a position expected to be permanent for more than 1 year, who works less than the established work week, and (a) works on an irregular schedule, or (b) works less than 20 hours per week.
Temporary, full-time	An employee who is hired to fill a seasonal or temporary position for less than 1 year and who works the full established work week.
Temporary, part-time	An employee who is hired to fill a seasonal or temporary position for less than 1 year and who works less than the established work week.

Personnel Board

Part III, Section 14

Vacations line 3	change "full time" to "regular"
line 11	delete "vacations with pay shall not be granted to temporary employees."

Part III, Section 17

Sick leave line 2	change "full time" to "regular"
line 5	change "full time" to "regular"

VOTED: Yes

Article 20

To see if the Town will raise and appropriate the sum of \$12,950.00 for Scituate to continue as a member of the South Shore Mosquito Control Project, said sum to include the amount which may be assessed against the Town for Mosquito Control (Chapter 112, Acts of 1931) or act thereon.

VOTED: Yes Unanimous

Article 21

To see if the Town will raise and appropriate a sum of money for insect control at Musquashicut Pond.

VOTED: To raise and appropriate \$4,500.00. Unanimous

Article 22

Will the Town vote to raise and appropriate the sum of \$53,057.00 to cover the Town's share of the expenses of the South Shore Regional School District as certified by the Regional District Treasurer in accordance with G.L., Chapter 71, Section 16.

VOTED: To raise and appropriate \$53,057.00. Unanimous

Article 23

To see if the Town will vote to transfer the proceeds of the Dog Fund from the County to the Libraries of the Town, or act thereon.

VOTED: Yes Unanimous

Article 24

To see if the Town will transfer the following described land from the care, custody, management and control of the Conservation Commission to the care, custody, management and control of the School Committee and authorize the use of such land for school site and school playground purposes.

The parcel of land comprising approximately 40 acres and lying immediately east of Chief Justice Cushing Way and generally north of Mann Lot Road, more particularly described as Parcel 1A on a plan entitled "Division of the Ellis Property, December, 1969" at the Scituate Town Hall, Engineering Office, Department of Public Works; being a portion of the premises conveyed to the Town of Scituate by Henry W. Keyes, Trustee under the will of J. Bailey Ellis by deed dated June 12, 1969, recorded with Plymouth County Registry of Deeds, Book 3528, Page 768.

VOTED: Yes 844 No 337

Article 25

To see if the Town will raise and appropriate, borrow, or transfer from available funds a sum of money, to purchase, or take by eminent domain for school purposes, a certain parcel of land, located on the southeasterly side of Mann Lot Road, containing approximately 2.75 acres, and shown as Parcel 3 on a plan filed at the Scituate Town Hall, Engineering Office, Department of Public Works or take any other action relative thereto.

VOTED: That the Town raise and appropriate, or transfer from available funds the sum of \$10,150.00 to purchase, or take by eminent domain for school purposes, a certain parcel of land located on the southeasterly side of Mann Lot Road, containing approximately 2.75 acres, and shown as Parcel 3 on a plan filed at the Scituate Town Hall, Engineering Office, Department of Public Works. Yes 985 No 59

Article 26

To see if the Town will raise and appropriate, borrow or transfer from available funds a sum of money for the procurement of plans, specifications and working drawings for intermediate school housing for approximately 1200 students and to receive bids to be opened and submitted for approval at the next annual or a future Town Meeting.

VOTED: Yes \$210,000.00

Article 27

To see if the Town will raise and appropriate or transfer from available funds the sum of \$3,950 for the purpose of creating a parking area for the Scituate Public Library (Peirce Memorial building) on Town land adjoining the library.

VOTED: Yes

Article 28

To see if the Town will raise and appropriate or transfer from available funds the sum of \$8,362 for the purpose of constructing and equipping a mezzanine within the Peirce Memorial Library to expand its facilities.

VOTED: Yes

Article 29

To see if the Town will assume liability in the manner provided by Section 29 of Chapter 91 of the General Laws, as most recently amended by Chapter 5, Acts of 1955, for all damages that may be incurred by work to be performed by the Department of Public Works of Massachusetts for the improvement, development, maintenance and protection of tidal and non-tidal rivers and streams, harbors, tidewaters, foreshores and shores along public beaches, within the jurisdiction of the Town in accordance with Section 11 of Chapter 91 of the General Laws, and authorize the Selectmen to execute and deliver a bond of indemnity therefor to the Commonwealth.

VOTED: Yes Unanimous

Article 30

To see if the Town will authorize the Selectmen to enter into an agreement with the Public Access Board of the Department of Natural Resources, Commonwealth of Massachusetts, to permit the Board to construct a boat ramp and related parking facilities which will provide public access to the waters within the Town of Scituate. Such agreement shall include an acceptance and police responsibilities on the part of the Town and a statement that the facilities shall be open to the general public on equal terms.

VOTED: Yes

Article 31

To see if the Town will vote to raise and appropriate the sum of \$10,250.00 for Chapter 90 Highway Construction to be spent in conjunction with \$10,250.00 from the County of Plymouth and \$20,500.00 from the Commonwealth of Massachusetts on continuing the construction of the Kent Street project, or take any action in relation thereto.

VOTED: That the Town raise and appropriate the sum of \$10,250.00 to meet the Town's share of the cost of Chapter 90 Highway Construction, and that in addition, \$30,750.00 be transferred from Excess and Deficiency to meet the State's and County's share on continuing the construction of the Kent Street project, including an adjacent sidewalk. The reimbursement from the State and County to be restored, upon their receipt, to Excess and Deficiency.

Article 32

To see if the Town will vote to appropriate or transfer from available funds the sum of \$25,000.00 for foreshore protection, said sum to be used in conjunction with any sums already appropriated, or to be appropriated, by the Commonwealth of Massachusetts and the County of Plymouth, or either of them, or take any action in relation thereto.

VOTED: To raise and appropriate \$25,000.00. Unanimous

Article 33.

To see if the Town will vote to transfer from the proceeds of funds received or to be received from the Commonwealth of Massachusetts under provisions of Chapter 616, Acts of 1967, the sum of \$11,796.03 and Chapter 768, Acts of 1969, the sum of \$11,796.03 for the permanent construction of parts of Maple Street, Grove Street, Mann Lot Road, Booth Hill Road, and Turner Road, and such street or streets as may be approved by the Selectmen and the State Department of Public Works, or take any action in relation thereto.

VOTED: Yes Unanimous

Article 34

Will the Town vote to appropriate the sum of \$300,000.00 for the purpose of extending the sewer mains and laterals in the Town of Scituate to meet said appropriation the sum of \$60,000.00 be transferred from sewer receipts reserved and that the Treasurer with the approval of the Selectmen be authorized to borrow the sum of \$240,000.00 under the provisions of Clause 1, Section 7 of Chapter 44 of the General Laws and to issue bonds or notes of the Town therefor payable in accordance with the provisions of said Clause 1, Section 7 of Chapter 44 of the General Laws so that the whole loan shall be paid in not more than twenty (20) years from the date of issue of the first bond or note.

VOTED: Yes Unanimous

Article 35

Will the Town vote to raise and appropriate, or transfer from available funds, a sum of money to provide a sidewalk on Country Way, from its intersection

with Curtis Street to a point approximately 500 feet north of Hollett Street, as shown on a plan prepared by the Town Surveyor.

VOTED: \$25,000.00 Yes Unanimous

Article 36

Will the Town raise and appropriate a sum of money for the purpose of constructing a permanent access pier on piles, extending 30' eastward from the Cole Parkway, and to provide additional finger floats and underwater moorings to increase present slip capacity.

VOTED: To raise and appropriate \$10,500.00. Yes 270 No 186

Article 37

To see if the Town will vote to raise and appropriate or transfer from available funds a sum of money to construct a baseball field, install playground equipment, and landscape said parcel owned by the Town of Scituate, in the Greenbush area, purchased under Article 56 of the 1968 Annual Town Meeting, or take any other action in relation thereto.

VOTED: \$7,500.00 Yes Unanimous

Article 38

Will the Town vote to amend its Building By-Laws by striking out its present Building By-Laws and adopt the following new By-Laws as prepared by its Building By-Laws Appeal Board and the Building Commissioner, said new by-laws to take effect immediately in accordance with their provisions after they have been approved by the Attorney General of the Commonwealth and published or posted as required by law, or take any other action relative thereto:

VOTED: That the Town amend its present Building By-Laws by striking out its present Building By-Laws and adopting the Building By-Laws as printed on pages 68 to 90 inclusive of the report of the Advisory Committee - 1970 with the following changes:

ARTICLE VII - Section 5

Section 5. Any building of third-class construction now being occupied for a use for which new buildings must be of first-class or second-class construction, as provided hereinbefore, may be altered or repaired for the purpose of continuing such use without the necessity of reconstructing the entire building into one of the required class of construction, but such alteration and repair shall conform to the requirements of this By-Law for first-class or second-class construction so far as reasonable and practicable in the opinion of the Building Commissioner, and in connection with and as a condition of permitting such alteration or repair, he may require such additional and supplementary work in the building as he may deem reasonable and practicable in

order to carry out the purposes of this By-Law. In determining what is reasonable and practicable under this Section, the Building Commissioner shall take into consideration the condition of the building, the nature and extent of the work for which a permit is requested, the use being made and to be made of the premises, the protection against fire and other risks and the costs involved.

ARTICLE VIII - Section 14

Section 14. The fire zone shall have the same boundaries as those of the Harbor and North Scituate business zones as defined in the Zoning By-Laws.

ARTICLE VIII - Section 21 (New)

Section 21. The use of third-class construction to increase the size and height of a single family residence located in the fire zone shall be allowed, provided that the building was constructed prior to the adoption of these By-Laws, there is no change of use, and in the opinion of the Building Commissioner, there is no substantial increase in fire risk.

Approved by the Attorney General Robert H. Quinn - August 28, 1970.

ARTICLE I

TITLE AND SCOPE

Section 1. These By-Laws shall be known as the Town of Scituate Building By-Laws.

Section 2. No person shall erect, raise, move, alter or repair any building except in conformity with the provisions of these By-Laws or without having first obtained a building permit from the Building Commissioner; except as hereinafter provided.

- a. All repairs not affecting the structural integrity of foundations, external walls, bearing partitions, party walls, roofs, floors, chimneys or stairways.
- b. The application of these By-Laws to Farm Buildings and other non-habitable buildings, except garages, permitted under the Zoning By-Laws in residential areas, shall be left to the discretion of the Building Commissioner.
- c. Buildings owned or occupied by the United States or Commonwealth of Massachusetts.
- d. Bridges, Quays, Wharfs.

Section 3. It is not the intent of these by-laws to discourage the introduction of new materials or methods but to

establish guide lines to assure safety and a durable structure. Minor variations may be approved by the Building Commissioner providing they assure that equal or greater strength, degree of fire resistance, safety provisions are inherent, and the materials, scantlings arrangement, provided for herein, are attained. In cases where the Commissioner is in doubt or in the case of major variations, the matter shall be presented to the Building By-Laws Board of Appeals for their decision.

Section 4. All work on construction of any kind not otherwise specifically covered shall be performed in accordance with the best practice of the particular trades involved or in accordance with the accepted standards of the American Institute of Architects.

ARTICLE II ADMINISTRATION

Building Commissioner

Section 1. The Board of Selectmen shall appoint a BUILDING COMMISSIONER who shall be a citizen of the Town of Scituate and qualified by training and experience in the supervision of building operations as a master builder of not less than ten (10) years of experience. His term of office shall be for one (1) year. He may with the approval of the Selectmen, appoint such qualified and experienced assistants as he may deem necessary, their compensation to be paid from the appropriation for the expenses of Building Department in such amounts as the Selectmen shall approve.

Section 2. The word "Commissioner" in this By-Law shall mean the Building Commissioner or his authorized representative. The Commissioner shall have all powers and duties which he would have if he were herein denominated "Inspector of Buildings."

Section 3. The Building Commissioner shall see that the provisions of this Code and except as otherwise provided, those of the statutes of the Commonwealth of Massachusetts, relating to buildings, are strictly observed; and to that end, shall have authority to institute any proceedings for the purpose of enforcing or preventing violations of the provisions thereof or enjoining the maintenance of any structure erected contrary thereto.

Section 4. The Commissioner shall have full power to pass upon questions arising under the provisions of this Code relating to the manner of construction and/or repair of any structure; shall grant, sign and revoke all permits, and give notices required by this Code, and may delegate any of his duties or powers to any person employed under Section 1 of Article II.

Section 5. The Commissioner or any member of his department shall have the right at any reasonable time in the performance of his duties, to enter, examine, and inspect any premise, building, or any other structure within the Town of Scituate, Massachusetts.

Section 6. No oversight or neglect of duty on the part of the Building Commissioner shall legalize the erection, construction, alteration or repair of any building or structure in a manner not in conformity with the provisions of this Code.

Section 7. The Builder in charge of construction or the owner of the premises, shall give notice to the Commissioner whenever any parts are ready for inspection, if those parts are to be covered in the further construction of the building. The Commissioner shall respond promptly and in no case shall he delay more than 36 hours after such notice has been received. It is required that stamps of approval by the several Inspectors be placed on the permit, before the parts are covered.

Section 8. All buildings hereafter erected of a description not specified in this Code, shall be constructed in a manner that shall be satisfactory to the Commissioner.

Board of Appeals

Section 9. A Board of Appeals shall be appointed by the Selectmen consisting of three (3) voters of the Town who shall be qualified by education or experience to pass upon matters which may be brought before them. If possible one member shall be an architect or structural engineer; one a master builder or a person of at least ten years' experience in the construction or supervision of buildings; and one to be an attorney-at-law. They shall be appointed by the Selectmen for terms of one, two and three years, the term of one member expiring each year; appointment after the first year to be for three years. Vacancies shall be filled by the Selectmen for the balance of any unexpired terms. No member shall act in any case in which he may have a personal or financial interest, a substitute being

chosen in such case by the other members of the Board.

Section 10. Any person aggrieved by act or decision of the Commissioner may appeal therefrom within ten (10) days by filing an application for a hearing with the Commissioner, who shall at once set a time and place for the hearing, notify the members of the Board, adjoining property owners, and all other interested parties. The application shall state the cause of appeal.

Section 11. Every decision of the Board of Appeals shall be in writing and state the reasons therefor, and shall be filed in the office of the Commissioner within seven (7) days after the hearing, where it shall be kept publicly posted for thirty days thereafter.

Variances

Section 12. The Board of Appeals may by a majority vote vary the provisions of this By-Law in specific cases which appear to the Board not to have been contemplated by this By-Law or in cases wherein its enforcement would involve practical difficulties or unnecessary hardship and wherein desirable relief may be granted without substantially derogating from the intent and purpose of this By-Law but not otherwise. The decision in such cases shall specify the variations allowed and the reasons therefor.

ARTICLE III

PERMITS AND FEES

Permits

Section 1. Before erecting, altering, moving, razing, adding to, or making any changes in use or type of occupancy of any building or structure, the owner or his agent shall file with the Building Department an application for a permit together with such plans, specifications, and structural details as may be required by the Building Commissioner. No work shall begin until a permit is granted. The application shall state the location, dimensions, estimated costs, nature and extent of the proposed work or changes, purpose for which the building is to be used and such other information as the Commissioner may require. No work shall be done except in accordance with the permit.

Section 2. All permits shall be void if operations there-

under are not commenced within ninety (90) days after the date of the permit or if the operations thereunder are discontinued for a period of more than six months.

Occupancy Permits

Section 3. Upon completion of a new building, additions to existing buildings or conversion of an existing building for which permits have been issued, the Building Commissioner shall be notified and he shall inspect the premises within 36 hours after notification to determine that the work has been accomplished in accordance with these By-Laws. When the premises have been completed to the satisfaction of the Building Commissioner and following receipt of inspection and approval by the Board of Health, Wiring Inspector and Plumbing Inspector, he shall issue an occupancy permit. Changes in occupancy from seasonal to year-round use shall require an occupancy permit.

Building Fees

Section 4. For each permit issued there shall be paid to the Building Commissioner, for the use of the Town, a fee according to the following schedule: The fee shall be \$2.00 for each estimated cost of \$1,000.00 or fraction thereof. The minimum fee shall be \$5.00. Said estimated cost shall be made by the Building Commissioner. For each occupancy permit issued not requiring a building permit a fee of \$5.00 shall be charged.

Penalties

Section 5. If any person violates any of these Building Laws, or any amendment thereof, the Commissioner, upon discovery of such violation shall give notice thereof in writing to such person or to the owner of the premises where such violation occurs, and may order such person or owners to remove any part of a structure erected in violation thereof, or to do such other acts as the Commissioner deems necessary in order to comply with the requirements of these Building Laws and of any permit which may have been issued; if after such notice such person or owner continues such violation, or fails to obey any such lawful order of the Commissioner, the Commissioner may revoke the permit for the work in connection with such violation and it shall thereupon become unlawful for the owner or contractor to proceed with such work. Before a permit, revoked for the reasons before mentioned can be

lawfully reissued, the entire building and building site must be made to conform to the requirements of these Building Laws, and any work or materials applied to the building in violation thereof must be removed.

Section 6. Unless otherwise provided, whoever violates any provisions of this By-Law shall pay a fine of not more than \$50.00, provided that corrective action as provided for in Section 5, above, has not been taken.

ARTICLE IV

DEFINITIONS

Section 1. Definitions shall be as set forth in the Board of Standard Building Code, Department of Public Safety, Commonwealth of Massachusetts, Section 101 except as specifically stated herein.

ARTICLE V

CLASSIFICATION OF CONSTRUCTION

Section 1. For the purposes of this By-Law, there shall be the following classes of construction:

- A. First-Class Construction. A building or structure of first-class construction shall consist of walls of masonry, reinforced concrete or other equally fire resistive material; floors of steel or reinforced concrete beams, filled in with reinforced concrete slabs, or with terra cotta or other masonry arches. Wood or other combustible material may be used only for finish floors, interior finish, handrails for stairs, necessary sleepers bedded in concrete and isolated furrings bedded in mortar. There shall be no air spaces between the top of any floor arch and its floor boarding. All steel and reinforcing shall be protected as required by Articles XII and XIII.
- B. Second-Class Construction. A building or structure of second-class construction shall consist of: all exterior walls and all bearing walls of masonry, reinforced concrete, or other equally fire resistive materials; supporting columns, and any beams supporting masonry, of reinforced concrete or fire proofed structural steel; and interior structural floor and roof elements wholly or partly of steel, iron, or wood which is not protected as required for first-class construction.

- C. Third-Class Construction: A building or structure of third-class construction shall consist of: exterior walls wholly or partly of wood, and floor construction of wood; also a building with wooden framework veneered with brick, stone, terra cotta or concrete, or covered with plaster, stucco or sheet metal, and with floor construction of wood.
- D. Fourth-Class Construction. A building or structure of fourth-class construction shall consist of unprotected metal construction.

ARTICLE VI

AREA LIMITATIONS WITHIN BUILDINGS

Section 1. Except as hereinafter provided, no building shall be constructed or altered in such manner that any area between fire walls shall exceed the following:

Buildings of first-class construction - unlimited;

Buildings of second-class and fourth-class construction - 6,500 square feet; except that if the building is so situated as, in the opinion of the Building Commissioner, to provide adequate space for fire fighting activities on two sides of the building, then said limit shall be 8,000 square feet and if on at least three sides of the building, then said limit shall be 10,000 square feet;

Buildings of third-class construction - 3,500 square feet. This does not pertain to single family residences.

Section 2. If buildings of second-class, third-class, and fourth-class construction have, or when completed will have, adequate approved sprinklers installed, then the foregoing limits shall be increased 100 per cent.

Section 3. No one family dwelling one story in height shall have a floor area of less than seven hundred (700) square feet. No one family dwelling more than one story in height shall have a first floor area of less than five hundred (500) square feet or a second floor area of less than two hundred and fifty (250) square feet. Of the second floor area, at least one hundred and twenty-five (125) square feet shall have a head room of not less than seven (7) feet. In a duplex dwelling, the minimum floor area in each family unit shall be the same as required for a one family dwelling. No two family dwelling shall have a floor area of less than seven hundred (700) square feet per family unit, including interior stairways.

ARTICLE VII

CLASSIFICATION OF CONSTRUCTION REQUIRED
DETERMINED BY OCCUPANCY

NEW CONSTRUCTION

Section 1. First-Class Construction. Every building hereafter constructed or altered, and every extension of or addition to every building now existing or hereafter constructed or altered, to be used as a hotel, apartment building if three stories or more in height, theater, motion picture house, jail, hospital, asylum or institution for the care or treatment of persons, and any other building having more than three stories shall be of first-class construction.

Section 2. Second-Class Construction. Every building hereafter constructed or altered, and every extension of or addition to every building now existing or hereafter constructed or altered, to be used as a public building, store, school, office building, church, club building, motor inn, lodging house, apartment building of 2½ stories or less (including basements or ground floors used for living purposes), factory, mercantile establishment, or service station shall be of not less than second-class construction.

Section 3. Third-Class Construction. All buildings and structures hereafter constructed or altered, and all extensions of or additions to buildings or structures now existing or hereafter constructed or altered, for occupancy and use for purposes other than those specified in Sections 1 and 2 above, may be of third-class construction.

Section 4. Fourth-Class Construction. Industrial type buildings located in the commercial zone and not closer than thirty (30) feet to any lot line may be of fourth-class construction in lieu of second-class as required above.

EXISTING BUILDINGS

Section 5. Any building of third-class construction now being occupied for a use for which new buildings must be of first-class or second-class construction, as provided hereinbefore, may be altered or repaired for the purpose of continuing such use without the necessity of reconstructing the entire building into one of second-class construction, but such alteration and repair shall conform to the requirements of this By-Law for first-class or second-class construction so far as reasonable and

practicable in the opinion of the Building Commissioner, and in connection with and as a condition of permitting such alteration or repair, he may require such additional and supplementary work in the building as he may deem reasonable and practicable in order to carry out the purposes of this By-Law. In determining what is reasonable and practicable under this Section, the Building Commissioner shall take into consideration the condition of the building, the nature and extent of the work for which a permit is requested, the use being made and to be made of the premises, the protection against fire and other risks and the costs involved.

Section 6. No change shall be made in the use of a building of third-class construction which, in the opinion of the Building Commissioner, increases the fire risk, unless such building or the part thereof to be changed in use is reconstructed so as to comply as nearly as is reasonable and practicable in the opinion of the Building Commissioner, with the provisions of this By-Law for new buildings.

ARTICLE VIII

GENERAL RESTRICTIONS AND REQUIREMENTS

Section 1. No building already erected or hereafter to be built shall be extended, altered, razed, moved or built upon in such a manner as to be contrary to the provisions of the Building Code relating to new construction.

Section 2. No wall of any building already constructed shall be increased in height unless the entire building is altered so as to conform to the requirements of the Building Code relative to new buildings.

Section 3. Doors opening immediately toward a flight of stairs shall open to a landing at least equal to the width of the door. All stairs shall be fitted with handrails on at least one side, when forty-two (42) inches or more wide rails shall be fitted on both sides except for stairs within individual family units.

Section 4. No opening shall be made in a wall separating a store from a habitation unless protected by fire-doors, approved by the Building Commissioner.

Section 5. In no case shall a chimney be built out of plumb unless the same be attached to a brick wall or approved by the Building Commissioner.

Section 6. In running pipes, no floor joist, header or

trimmer shall be cut into more than 2 inches in depth or more than 3 feet from its support, without a permit from the Building Commissioner.

Section 7. No closet of any kind shall be constructed under a stairway in any building other than a one family house and then only when approved by the Building Commissioner.

Section 8. No wood lintel shall be used to support masonry over a door, window, or other opening.

Section 9. No reinforcing steel or structural frame-work of any part of any building or structure shall be covered or concealed in any manner whatsoever without first obtaining the approval of the Building Commissioner.

Section 10. No repairs after fires or other casualty shall be made except in a manner satisfactory to the Building Commissioner. All structural parts damaged shall be removed and replaced with new material. Slightly damaged parts not impaired in strength shall be treated as directed by the Building Commissioner.

Section 11. All one (1) or two (2) family or row houses with fire walls separating dwelling units shall have at least two (2) outside doors or entrances served by suitable steps or stairs for each family. Any non-residential building that is to be later converted into a residence must conform to the requirements of residential construction.

Section 12. Every habitable room shall have adequate ventilation approved by the Building Commissioner.

Section 13. Where a roof is adjacent to a wall or other structure that may cause an accumulation of snow, the roof framing and supports shall be increased in strength to sustain the maximum accumulation of wet snow possible as determined by the Building Commissioner.

FIRE ZONE RESTRICTIONS

Section 14. The fire zones shall have the same boundaries as those of the business and commercial zones as defined in the zoning by-laws.

Section 15. Except as otherwise provided in this by-law no building or structure of wood frame construction or of unprotected metal construction shall be erected within the fire zone.

Section 16. No building of wood frame construction or unprotected metal construction shall hereafter be moved from without to within the fire zones or within the fire zones.

ALTERATIONS

Section 17. Within the fire zones no building or structure of wood frame construction or of unprotected metal construction shall be hereafter increased in height.

Section 18. Within the fire zones no building or structure of wood frame construction or of unprotected metal construction shall be hereafter extended on any side; unless the construction of such extension conforms to the requirements of this Code for new construction; and provided that the total area of the building including extension shall not exceed the allowable area for the existing type construction.

Section 19. Within the fire zones no other building or structure shall be hereafter extended on any side by wood frame construction or unprotected metal construction.

Section 20. Nothing in this section shall prohibit other alterations within the fire zones; provided there is no change of occupancy to a class of occupancy otherwise prohibited.

ARTICLE IX

FIRE SAFETY AND PREVENTION

Section 1. All buildings hereafter erected shall be made reasonably fire safe.

Section 2. All stud walls, partitions, furring and spaces between joists where they rest on walls or bearing partitions and similar vertical spaces shall be fire-stopped with incombustible material in a manner to cut off all concealed draft openings and form an effectual horizontal fire barrier between stories and between stories and roof spaces to the full depth of joists, except that in one story or two story wooden buildings for residential occupancy, fire stoppings may be done with wood not less than two (2) inches in thickness and full width of wall or partition and forming an effectual fire barrier between stories and roof spaces. Such fire stopping shall extend the full depth of joists and at least four (4) inches above each floor level. Stair carriages shall be fire stopped at least once in the middle portion of each run.

Section 3. No fire stopping shall be concealed from view until authorized by the Commissioner.

Section 4. Party walls shall be of masonry or other improved incombustible materials. In stores, ceiling framing not of fire-proof materials shall be protected with one hour fire rated materials.

Section 5. Buildings constructed less than four (4) feet above grade on posts or piers, including porches, piazzas, etc., shall have solid outside wall construction carried to the ground. Openings may be inserted not exceeding twelve (12) square feet in area in any one elevation, providing that such openings will be equipped with sash, shutters or doors that will close the openings and can be closed from outside.

Section 6. All gas apparatus for heating and cooking shall be so installed as not to create a fire hazard.

Gas Fitting:

- (a) No person, or persons, shall construct, extend or alter any system of pipes for the conveyance, distribution, or use of gas, or install any gas appliance, unless he is lawfully registered with the Building Commissioner.
- (b) All concealed, painted, or coated gas pipings and fittings shall be tested at the request of and in the presence of the Commissioner, or his agent, in a manner satisfactory to the Commissioner.
- (c) Defective or second hand pipe or fittings shall not be used unless such materials meet the requirements of new pipe and fittings. No sweated joints shall be used on pipe conveying gas inside of buildings. All materials shall be subject to the Commissioner's approval.
- (d) All gas appliances are subject to the approval of the Commissioner.
- (e) Every gas appliance shall be connected to an effective flue or outlet pipe to the outer air. In cases where the flue pipe does not enter a chimney, the flue pipe shall enter a vertical stack terminating with a suitable device installed to prevent a down draft. The flue or pipe, where extending through from floor to floor to roof, located inside of partitions or walls, or extending through wall or partitions, shall have at least one and one-half inch clearance from all combustible materials, or otherwise, as the Commissioner may require. A pitch or rise of at least one-fourth inch to the foot shall be maintained. No vent pipe shall enter the chimney or flue at a lower level than the outlet of the appliance.

- (f) The cross sectional areas of flues, or vents, for gas burning appliances, shall not be less than one square inch per 7,500 hourly B.T.U. input and in no case, shall this section be less than three inches in diameter.

Section 7. Combustible material over or at the sides of heaters and smoke pipes shall be covered with wire lath and plaster or other approved fire resisting materials to such an extent as the Commissioner may require.

Section 8. Stoves, burning solid or liquid fuel, shall be set on approved incombustible materials extending not less than 6 inches beyond stove on all sides. Stoves without at least 6 inch clear air space beneath same shall not be placed within 12 inches of walls or partitions of combustible material unless protected by a shield of approved incombustible material of such area as the Commissioner may require.

Section 9. No hot air, hot water or steam heating furnace shall be located nearer than 18 inches in any direction to combustible materials or construction.

Section 10. Rooms containing furnaces or other heating apparatus having a grate area of more than ten square feet shall be separated from other parts of the building by fire resisting walls, partitions and ceilings having at least a two hour rating. Doorways from such rooms to other rooms within the building shall be fitted with approved self-closing fire doors.

Section 11. Every roof hereafter placed on a building shall be covered with an approved fire resisting roofing. Where it is desired to use wood shingles they shall be vertical grain or edge grain wooden shingles. Shingles shall be in accordance with American Lumber Standards established in simplified Practice Recommendation R-16-29 of the U.S. Department of Commerce. Shingles shall be firmly nailed to roof deck with rust resistive nails.

Section 12. Every new dwelling unit shall have at least one fire and smoke detection unit, of an Underwriters Laboratory approved type, for each story and a minimum of two for each unit. They shall be located as directed by the Building Commissioner.

FIRE ESCAPES

Section 13. In general each habitable building (other than those covered by Article VIII, Section 11) whether a dwelling unit, multiple dwelling unit, commercial building, or other, shall

have two means of egress from each floor. Unless otherwise restricted by the State Code, one egress may be by an exterior stairway or fire escape.

Section 14. Fire escapes for wood framed structures may be of wood, generally of a rigid and sturdy construction. Stringers shall be sized to insure a stair design live load of 100 pounds per square foot minimum: Treads shall be of 1½ inch minimum thickness and 30 inch width with a maximum rise of 45 degrees, risers may be open or closed. Stairs shall be equipped with railings and handrails.

Section 15. Permitted exit stairs of rises greater than 45 degrees shall be of steel construction.

Section 16. Fire escapes for Type I and Type II Construction shall be of reinforced concrete or steel constructed in conformance with the current specifications of the Department of Public Safety Building Code Commonwealth of Massachusetts.

ARTICLE X FOUNDATIONS

Section 1. Foundations. No building shall hereafter be built within the town without continuous foundation walls on all sides. All footings or foundations shall extend to solid soil and no foundation shall be constructed until the bearing soil is inspected and approved by the Building Commissioner.

Section 2. If the Commissioner is in doubt as to the safe sustaining power of the soil upon which a building is to be erected, he may order borings made or he may order tests of the sustaining power of the soil upon which a building is to be erected, either or both at the expense of the owner of the proposed buildings. Tests and borings shall be made under the supervision of the Commissioner. Reports of all borings shall be filed with the Department. The Commissioner may establish allowable maximum loads for various types of soil and shall establish such as a result of all tests or borings.

Section 3. Wherever the safe sustaining power of the soil upon which a building is to be erected does not conform to the requirement of the by-law, the Commissioner shall require the proper foundations of a type sufficient to support the proposed building and satisfactory to him.

Section 4. All loam and subsoil under dwellings must be

removed, and at least twenty inches (20'') of space must be left between the remaining earth and the underside of the first floor timbers. Under all buildings with continuous foundations, there must be at least two (2) screened openings for cross draft ventilation and not less than two hundred and forty (240) square inches per opening.

Section 5. With the exception of footings, no concrete foundations shall be constructed without the use of forms on both sides except where concrete blocks are used.

Section 6. Foundation and underpinning walls for one and two story dwellings shall be at least eight inches (8'') thick, if of concrete, concrete blocks or brick when not over seven feet (7') below finished grade. When stone masonry is used the thickness shall be twenty inches (20'') up to finished grade and not less than twelve inches (12'') from finished grade to the sill.

Section 7. All cement block walls, and poured concrete walls less than ten inches (10'') thick, piers, posts, or structural columns shall rest upon footings not less than eight inches (8'') thick. Foundation wall footings must be eight inches (8'') wider than said foundation wall and in case of piers, posts and columns, all footings must be not less than twenty inches (20'') square. Poured walls of ten inch (10'') thickness or greater may be constructed without footings subject to approval of the Building Commissioner, except that foundations for residential garages, breezeways, or porches may be of eight inch (8'') poured concrete without footings. The Commissioner must be notified when footings are complete, and they must be approved by him before the work is continued.

Section 8. Where concrete blocks, bricks or stone masonry are used, all joints must be filled and jointed outside as well as inside. Mortar for all masonry shall be no poorer than one part Portland cement, one-quarter ($\frac{1}{4}$) part lime putty, and three parts sand. Footings and poured concrete walls, the concrete mix shall be not poorer than one part Portland Cement, three (3) parts sand, and five (5) parts coarse aggregate not exceeding one and one-half inches ($1\frac{1}{2}$ ''). All material shall meet the Commissioner's approval, be thoroughly mixed and properly placed and tamped.

Section 9. Posts, piers or lally columns supporting buildings shall be spaced as required under Article XIV, Section 5. Lally columns, or red cedar posts not less than six inches (6'') in diameter at the small end, may be used for interior supports.

Voids in masonry of all piers and bearing points for girder shall be filled at least sixteen inches (16'') below the bearing surface.

ARTICLE XI

MASONRY CONSTRUCTION

Section 1. The proposed use of any masonry construction exceeding the height and load bearing limitations as hereinafter referenced shall be designed in accordance with current generally accepted good engineering practice, and the plans shall be certified by the stamp of a professional Structural Engineer or Architect registered in Massachusetts certifying to the adequacy of the complete structural design. The Commissioner may require the filing of calculations and details in reference to all or or any part of the design.

Section 2. The use of various types of masonry for all types of structures including single family residences, multi-family apartment buildings, commercial, industrial and institutional buildings shall be governed by the Masonry Section 112 and the appendix - Fire Resistive Rating Tables, Building Code, Department of Public Safety, Commonwealth of Massachusetts.

Section 3. Masonry bearing walls may not be less than eight inch (8'') thickness, with an eight inch (8'') wall limited to twenty foot (20') maximum height and supporting no more than a roof and one floor. Masonry bearing walls composed of facing and backing wythes of similar or dissimilar materials shall be bonded by header courses projecting three and one-half inches (3½'') minimum into both wythes; minimum one (1) brick course per seven (7) brick courses or per two (2) concrete block courses; or with one (1) full length header in every two hundred (200) square inches of wall surface. Face masonry anchored by metal ties shall not be included in the wall thickness to determine masonry wall limitations.

Section 4. Masonry Veneers.

- A. Veneer on masonry base: face veneer shall be tied into the masonry base by either a header every three hundred (300) square inches of walls surface; or by substantial corrosion-resistant metal wall ties spaced not farther apart than sixteen inches (16'') vertically and twenty-four inches (24'') horizontally. Headers shall project at least three and one-half inches (3½'') into the base.

- B. Veneer on wood or steel frame structures: face veneer shall be anchored by corrosion-resistant metal wall ties spaced not farther apart than sixteen inches (16") vertically and twenty-four inches (24") horizontally. Each tie shall be embedded in a mortar joint in the veneer and be securely fastened to the structure.

ARTICLE XII

REINFORCED CONCRETE CONSTRUCTION

Section 1. Reinforced concrete construction shall be designed in accordance with current generally accepted good engineering practice, and the plans shall be certified by a stamp of the Designer who shall be a professional Structural Engineer or Architect registered in Massachusetts; certifying to the adequacy of the complete structural design. The Commissioner may require the filing of calculations and details in reference to all or any part of the design.

Section 2. Reinforced concrete work shall conform to the "Specifications for Structural Concrete for Buildings of the American Concrete Institute." Materials shall conform to the current specifications of the American Society for Testing Materials as follows:

Portland Cement: Standard Specifications for Portland Cement (ASTM designation C150).

Aggregates Standard Specifications for concrete aggregates (ASTM designation C33).

Reinforcing Bar: Standard Specifications for billet-steel Bar for Concrete Reinforcement (ASTM designation A15) or equal.

Welded wire fabric or cold drawn wire: Standard Specifications for Cold-Drawn Steel wire for Concrete Reinforcement (ASTM designation A82 or Standard Specification for Welded Steel Wire Fabric for Concrete Reinforcement — ASTM designation A182).

Water: used in mixing concrete shall be clean, and free from deleterious amounts of acids, alkali, or organic materials.

The determination of the proportions of cement, aggregate, and water to attain the required strengths shall be made in accordance with the American Concrete Institute Specification.

ARTICLE XIII

STRUCTURAL STEEL CONSTRUCTION

Section 1. Structural steel construction shall be designed in accordance with current generally accepted good engineering practice, and the plans shall be certified by the stamp of the designer who shall be a professional structural Engineer or Architect registered in Massachusetts; certifying to the adequacy of the complete structural design. The Commissioner may require the filing of calculations and details in reference to all or any part of the design.

Section 2. All materials, fabrication, and erection shall comply with the requirements of the current edition of "The Code of Standard Practice for Steel Buildings and Bridges", and of "The Specifications for the Design, Fabrication and Erection of Structural Steel for Buildings" of the American Institute of Steel Construction. Welding shall comply with the requirements of the current edition of the "Standard Code for Arc and Gas Welding in Building Construction" of the American Welding Society. Steel joists shall be in accordance with the Standard Specifications of the Steel Joist Institute. All materials shall conform to the current specifications of the American Society for Testing Materials.

ARTICLE XIV

WOOD CONSTRUCTION

Materials

Section 1. All lumber sizes given herein are nominal dimension.

Section 2. All material shall be of such quality for the purpose for which they are to be used as to insure in the judgment of the Building Commissioner, ample safety and security to life and limb and the neighboring property. The Building Commissioner shall have the power to reject all materials which in his opinion are unsuitable and may require tests to be made by the architect, builder or owner to determine the strength of the structural materials before or after they are incorporated in a building and may require certified copies of results of tests made elsewhere from the architect, builder or owner or other interested persons. Owners shall furnish expert advice and tests at their own expense.

Section 3. Second hand structional material shall not be used without the approval of the Building Commissioner, any approved material shall be of good sound material of sufficient strength for the purpose intended, and free from imperfections whereby the strength may be impaired.

Residences

Section 4. SILLS: shall not be less than 4"x6" and must be on edge unless resting upon a continuous foundation. Box sills may be used when approved by the Building Commissioner, and the bottom members must not be less than 2"x8".

Section 5. GIRDERS: shall not be less than 6"x8" where they carry floor timbers twelve feet (12') or longer; 6"x6" where floor timbers are eight feet (8') up to twelve feet (12'); and 4"x6" on edge where floor timbers are less than eight feet (8') and shall be supported eight feet (8') on centers for one story, seven feet (7') for one and one half and two stories, and shall be joined only over a support. Eastern pine shall not be used for girders.

Section 6. FLOOR JOISTS: Spans of more than eight feet (8') shall be bridged once, of more than twelve feet (12') twice. Ends of joists shall not be notched more than one-fourth of their depth, except with the approval of the Commissioner. Joists under partitions running parallel to them shall be doubled in frame construction every opening exceeding three feet (3') in width, in a bearing partition shall be trussed. Stair stringers must be at least two inches (2") thick, shall be placed not over eighteen inches (18") on centers. All floors shall be double boarded. All joist headers more than two and one-half feet (2½') long shall be doubled and spiked together, or be at least four inches (4") in thickness. All joists supporting headers shall be doubled and spiked or be at least four inches in thickness.

LUMBER SIZE		MAXIMUM CLEAR SPAN (FLOOR JOISTS) Merchantable No. 1 Lumber						
Nominal	Actual	Spacing Center to Center	Douglas Fir Coast Region & Inland Emp.		West Coast Hemlock		Eastern Hemlock- Spruce	
		Inches	ft	in.	ft.	in.	ft.	in.
2"x6"	1-5/8x5-5/8	12	9	8	9	2	8	8
		16	8	8	8	2	7	8
2"x8"	1-5/8x7-1/2	12	13	8	13	2	12	8
		16	12	8	12	2	11	8
2"x10"	1-5/8x9-1/2	12	17	2	16	8	16	2
		16	15	8	15	2	14	8
2"x12"	1-5/8x11-1/2	12	19	8	19	2	18	8
		16	17	8	17	2	16	8

Section 7. **RAFTERS:** Rafters shall be as follows: Where the pitch is less than 4" to the foot, 2"x4" up to 4' horizontal span, 2"x5" up to 6' horizontal span, 2"x6" up to 8' horizontal span, 2"x8" up to 12' horizontal span, shall not be spaced more than 16" on centers. Where the pitch is more than 4" to the foot, 2"x4" up to 6' horizontal span, 2"x5" up to 9' horizontal span, 2"x6" up to 12' horizontal span, shall be placed not more than 24" on centers, 2"x6" up to 15' horizontal span and 2"x8" up to 18' horizontal span shall be spaced not more than 16' on centers.

Section 8. **STUDDING:** Studding of outside walls and bearing partitions shall be not less than 2"x4" set 16" on centers. Balloon frame shall not be used on walls more than 14' high, measured from the sill. Balloon frame shall have ledger boards not less than 1"x6" set into the studs, and shall be thoroughly fire-stopped at each floor level. Studding of non-bearing partitions shall rest on a shoe not less than 2" thick. Corner posts shall be not less than 4"x6" or may be built up. All corners shall be braced with diagonal braces, extending out at least two bays of studding. Bearing partitions 8' or over in height shall have at least one row of horizontal bracing in each story of the same size as the studs. Studding for small storage buildings less than one hundred (100) square feet in area, with walls not over seven feet (7') in height, may be 2"x3" spaced not over 16" on centers.

Section 9. **EXTERIOR WALLS AND ROOFS:** shall be sheathed with wood boarding not less than eleven-sixteenths (11/16") thick, or plywood not less than one-half inch (1/2") thick.

Garages

Section 10. **PRIVATE GARAGES:** Private garages allowed in a Zone A area may use 2"x4" sills where they rest upon continuous foundations, otherwise they must be 4"x6" laid on edge. Studding for outside walls shall be at least 2"x4" and not more than 24" on centers.

Section 11. Garages within a basement, or body of a dwelling, may be of wood frame; ceilings and walls must be covered with expanded metal lath and cement plaster, perforated gypsum lath and cement plaster, or 5/8" fire code sheetrock. Any door leading from garage to cellar, basement or

any part of dwelling must be covered on garage side with metal or transite and have a self-closing device. These rules shall apply to garages that are connected with breezeways of less than five feet (5') to dwellings.

Non-Residential

Section 12. Article XIV shall be deemed to present minimum requirements for residential construction. In the case of apartment buildings, stores and other buildings where wood construction may be permitted, the Building Commissioner may make such requirements in addition to these regulations as may be deemed necessary to the public safety.

ARTICLE XV

CHIMNEYS

Section 1. RESIDENTIAL CHIMNEYS: No tile or metal chimneys shall be allowed. All masonry chimneys shall rest on a concrete footing not less than eight inches (8'') thick and at least eight inches (8'') wider both ways of the chimney and except those with solid brick walls eight inches (8'') or more thick shall be lined throughout with vitreous flue lining, and shall be topped at least two feet six inches (2' 6'') above the highest point of contact with the roof and shall project at least one inch (1'') above any ridge within ten feet (10'). No chimney shall be supported on wood. No wood closer than one inch (1'') to any chimney. Space between chimneys and floor joists to be firestopped. Every smoke pipe hole in a chimney shall be provided with a metal thimble. Masonry walls at the back and sides of every fireplace shall be at least eight inches (8'') thick if of brick and twelve inches (12'') thick if of stone. All fireplaces shall have dampers. Hearths shall extend at least sixteen inches (16'') in front of fireplace openings, and at least eight inches (8'') wider than the fireplace opening. Wood forms under fireplace and hearth arches shall be removed before finishing thereunder. No wood work shall be within five inches (5'') of any smoke pipe. No wooden studding, furring, lathing, or plugging shall be placed against any chimney or in joints thereof. Wooden construction shall either be set away from the chimney or the plastering shall be directly on the masonry or on metal lathing or on incombustible furring material. Wood furring strips placed around chimneys to support base or other trim shall be insulated from the masonry by asbestos paper at

least one-sixteenth (1/16") thick. In no case shall a chimney be built out of plumb unless the same be attached to a brick wall, or approved by Building Commissioner.

Section 2. COMMERCIAL CHIMNEYS: Shall be in accordance with Section 113, Department of Public Safety Building Code, Commonwealth of Massachusetts.

Section 3. Metal smoke stacks and vents shall be constructed in accordance with the requirements of National Fire Protection Association Bulletin No. 211.

ARTICLE XVI

PLUMBING

Health Safeguards

Section 1. All plumbing and disposal systems shall be installed in accordance with rules and regulations as established and on file with the Board of Health, and shall be subject to the approval of the Inspector of Plumbing.

Section 2. Fees for plumbing permits shall be as established by the Board of Health.

ARTICLE XVII

ELECTRICAL

Section 1. All electrical systems shall be installed in accordance with the rules and regulations and requirements of the Town of Scituate, as established and on file with the Wire Inspector.

Section 2. Fees for electrical permits shall be as established by the Selectmen.

ARTICLE XVIII

SAFETY

Section 1. Every excavation shall be properly guarded and protected by the person responsible therefor, in such manner as may be approved by the Building Commissioner, and so as to prevent it from becoming dangerous to life and limb and to the neighboring property. It shall be sheet piled whenever the Building Commissioner shall so direct.

Section 2. The Building Commissioner may prescribe the maximum loads which may be imposed on floors or any other structural element of any existing building.

Section 3. SWIMMING POOLS: A building permit shall be required for construction of a swimming pool, which is an accessory structure subject to the Zoning By-Laws. The applicant must submit a plot plan in duplicate. Portable pools, which are defined as those designed to be removed and stored annually and of a depth twenty-four inches (24") or less shall not require a permit.

Any pool with a depth greater than twenty-four inches (24") must be fenced with a non-climbable fence and self-locking gate both at least forty-two inches (42") in height. The installation of all pools shall be subject to pertinent rules and regulations of the Board of Health, the Water Department, the Inspector of Wires, and the Inspector of Plumbing.

Section 4. If as a result of fire or other casualty, the Building Commissioner determines that it is necessary to board up or demolish a building or take other measures to protect the safety and welfare of the public, then the Building Commissioner shall so notify the owner of said building, as determined on the assessors lists, said notice to be delivered in hand or by certified mail, stating the corrective measures that are to be undertaken.

If said owner fails or neglects to perform in accordance with said notice within seventy-two (72) hours after said notice is mailed or delivered, he shall be subject to a fine of not more than fifty dollars (50.00) for each day or portion thereof that said violation continues.

This section shall not restrict or limit whatever other powers the Building Commissioner may have to safeguard the public after fire or other casualty.

ARTICLE XIV

SEVERABILITY

The invalidity of any section or provisions of this By-Law shall not invalidate any other section or provisions thereof.

Building By-Law Appeal Board

Article 39

Will the Town vote to amend its Zoning By-Law by striking out Section 3-7 Site Plan Approval, and substituting a new Section 3-7 as follows:

"3-7 Site Plan Approval

- a. *Required Approval in All Zones Except Residence "A-1", "A-2" and "A-3" and Saltmarsh and Tidelands Conservation District "D".*

In any zone now existing or hereafter adopted, except Residence zones ("A-1" "A-2" and "A-3") and the Saltmarsh and Tidelands Conservation District ("D"), no site, other than that used for a single or two family dwelling, shall be altered and no building or other structure, other than a single or two family dwelling, shall be constructed, reconstructed, externally altered or externally enlarged, and no business or commercial use shall be expanded in ground area, or established in an existing building or structure not theretofore used for business or commercial purposes, except in conformity with a site plan which has first been administratively reviewed by the Planning Board and bears the endorsement of the approval thereof by said Board.

Any person desiring approval of a site plan under this section shall submit seven (7) copies of said plan to the Town Building Commissioner, who shall transmit all seven (7) copies to the Planning Board within seven (7) days of said submission to him. No building or use and occupancy permit shall be issued until the Planning Board has approved the site plan as submitted, with or without amendments, additions or deletions, or has allowed sixty (60) days to elapse after receipt thereof by the Planning Board from the Building Commissioner at a duly constituted meeting without acting thereon. The Planning Board shall have power to modify or amend its approval of a site plan on application of the person owning or leasing the premises, or upon its own motion, in the event of changes in conditions sufficient to justify such action within the intent of this section. All of the provisions of this section applicable to approval shall, where appropriate, be applicable to such modification or amendment. The approval of a site plan, or a modification or amendment thereof, shall remain effective only for a period of one (1) year from the date of such approval (either directly or by inaction) unless prior to the expiration of such one (1) year period the applicant makes substantial efforts to build in accordance with the approved site plan, or unless the

Planning Board votes to extend the time for a period not to exceed one (1) additional year.

In administratively reviewing a site plan under this section, the Planning Board shall assure, to a degree consistent with a reasonable use of the site for the purpose permitted by the regulations of the district in which located or pursuant to any variance or special permit which may have been granted by the Zoning Board of Appeals, and without in any way directly or indirectly preventing or prohibiting such authorized use, the following:

- (1) So far as may be possible without prohibiting the authorized use of the premises and without imposing restrictions which would be so onerous as to have the same effect, protection of adjoining premises against seriously detrimental or offensive methods of utilizing the site;
- (2) Traffic safety and ease of access at street and highway entrances and exits of driveways, taking account of traffic volume, grades, sight distances and distances between such driveway entrances, exits and the nearest existing street or highway intersections;
- (3) Safety and adequacy of driveway layout, off-street parking and loading sites, and sufficiency of access for service vehicles such as electricity, gas, fuel, telephone, laundry, rubbish removal, water, sewer, fire, police, ambulance or other routine or emergency vehicles;
- (4) Adequacy of the methods of disposal for sewage, refuse and other wastes resulting from the uses permitted on the site, safety and adequacy of water supply and distribution, and of fire fighting facilities on the site, safety and adequacy of heating and ventilating as proposed, also of cooking facilities, if such are to be furnished; and
- (5) Adequacy of surface and storm-water drainage and snow-melt run-off within and from the site, including but not limited to all walkways, driveways, buildings, parking and loading areas.

The site plan shall be prepared by a registered Architect, Professional Engineer or Land Surveyor, unless the Planning Board otherwise permits by vote in advance. The plan shall be at a scale of one (1) inch equals twenty (20) feet or such other

scale as the Planning Board may accept to show details clearly and adequately. Sheet sizes shall be twenty-four (24) inches by thirty-six (36) inches. A margin of two and one-half (2½) inches shall be allowed on the left-hand side and a one (1) inch margin on the remaining three sides. In addition to the information required above, the plan shall show or contain, among other things:

- (1) The ownership, area, dimensions, boundaries, and existing and proposed elevations of land for which the site plan review is sought, with the names of all adjoining owners as found in the most recent tax list and approximate elevations of land and locations of all existing public or private ways and buildings on property adjoining such land;
- (2) All existing buildings to remain after the work is completed, and all proposed buildings, structures, parking spaces, driveway openings, service areas, and other open uses, all facilities for sewage, refuse and other waste disposal; and for surface water drainage, and all landscape features (such as fences, walls, planting areas and walks) on the lot;
- (3) The location, ground coverage outline and dimensions of buildings or structures existing or then proposed to be erected, together with generalized indications of all future additions or expansions then contemplated;
- (4) The proposed circulation and flow of traffic within the proposed development and in all appropriate public and private ways adjacent thereto;
- (5) The location and function of all exterior entrances and exits to all buildings which will be on the site when completed;
- (6) A description and the location of all signs and exterior lighting, except for the seasonal display of lights for the purpose of the celebration of holidays; and
- (7) In the case of an apartment house, garden apartment building or other multiple dwelling for residential use by more than two (2) families, an architectural design and building layout showing the type of structure or structures.

Any person aggrieved by a decision of the Planning Board, or by its failure to act, in connection with its duty to administratively review a site plan under this section shall have an appeal therefrom for a hearing *de novo* before the Zoning Board of Appeals upon the filing of a claim for such appeal with the Zoning Board of Appeals within twenty (20) days of the decision, or failure to act, as the case may be, of the Planning Board. When exercising jurisdiction under this paragraph, the Zoning Board of Appeals shall conform to all the requirements of procedure applicable to a hearing and decision on a request for a special permit under Chapter 40A of the General Laws, including the requirements thereof for public notice and hearing.

b. *Applicability of Approval Requirements*

For the purpose of this section 3-7, the following uses shall be considered as business or commercial uses, and all buildings designed, arranged or constructed for, or occupied by, one or more such uses shall be considered as business or commercial buildings:

- (1) Any of the uses permitted in "B" or "C" zones, but not permitted in "A-1", "A-2", or "A-3" zones (with or without Zoning Board of Appeals authorization);
- (2) Any of the following "A-1", "A-2", or "A-3" zone uses, when located in a "B" or "C" zone:
 - (a) Nursery school or other agency for day care of children, or private organized camp;
 - (b) Rest home, convalescent home or nursing home;
 - (c) Commercial livery or mooring for marine pleasure craft;
 - (d) Commercial golf course or riding academy;
 - (e) Tourist home, boarding or lodging house;
 - (f) Salesroom or stand for the display and sale of agricultural and horticultural products, or commercial greenhouse;
 - (g) Airport, airpark or landing field, unless accessory to a dwelling or operated by a governmental agency.
- (3) An apartment house, garden apartment building or other multiple dwelling for residential use by more than two (2) families."

VOTED: Yes Unanimous

Approved by the Attorney General Robert H. Quinn - Aug. 28, 1970

Article 40

Will the Town vote to amend Section 1 "Establishment of Zones", paragraph 1-1, "Types of Zones", of its Zoning By-Laws and add an Apartment Zone, so that paragraph 1-1 will now read:

"For the purpose of the By-Law, the Town of Scituate is hereby divided into seven types of zones, designated as:

'A-1' (Residence 40,000 sq. ft.)

'A-2' (Residence 20,000 sq. ft.)

'A-3' (Residence 10,000 sq. ft.)

'B' (General Business)

'C' (Commercial)

'D' (Saltmarch and Tideland Conservation District)

'E' (Apartment)

and also paragraph 2-2 "Location of Zones" will be amended so that it now reads:

"Zones 'A-1', 'A-2', 'A-3', and existing 'B', 'C' and 'D' zones are located and bounded as shown on a map entitled 'Supplemental Zoning Map' dated May 18, 1953, as amended and revised, signed by the Planning Board and filed in the office of the Town Clerk, which map together with all explanatory matter thereon are hereby incorporated in and made a part of this By-Law, additional or revised zones will be shown on said map as any such additions or revisions are voted at any annual or special town meeting."

The E Zone is described as follows: All the land within the area beginning at a point, 110.81 ft. north of a County Highway Bound in the easterly side of Kent Street which bound is shown on a plan by Stenbeck & Taylor dated 27 July 1966 recorded with the Plymouth County Registry of Deeds on 22 December 1966 and then running North 84 degrees 32 minutes 50 seconds east 650 ft. by land now or formerly of Thomas P. Mee and Margaret Mee, thence running in a southerly direction parallel to Kent Street and New Driftway to the Northerly side of Old Driftway and then running in a westerly direction to the point of intersection of the northerly side of Old Driftway and the easterly side of New Driftway and then running in a northerly direction on the easterly side of New Driftway and Kent Street to the point of beginning.

And, further to amend Section 3 of its Zoning By-Laws, "Use Regulations", and add Section 3-9, Apartment Zone Uses, as follows:

"A. Permitted Uses:

- (1) All of the uses permissible as of right or permissible on appeal in the A-1, A-2, or A-3 zones including specifically those set forth in Section 6-1 of these By-Laws subject to the same conditions as therein specified.
- (2) Multi-family apartment building subject to the following construction and lot size regulations:
 - (a) Conformity to the Town of Scituate Building By-Laws: Article 1 of the Building By-Laws, and the Commonwealth of Massachusetts building code.
 - (b) Said proposed apartment construction will be subject to the provisions of Section 3-7 amended, "Site Plan Approval."
 - (c) There will be a minimum tract area for each proposed complex of at least 120,000 sq. ft.
 - (d) There will be a frontage requirement of at least 175' on a street or way.
 - (e) Only one and two bedroom units will be permitted. A maximum of 12 units per 40,000 sq. ft. of tract land will be permitted.
 - (f) No more than 30% of the proposed parcel of land may be covered by the multi-family unit proposed.
 - (g) Front, rear and side yard requirements shall be as outlined in Section 5-3 in the A-1 zone. If the land is to be used for multi-unit housing, Section 5-4 of the Scituate Zoning By-Laws will not apply. No parking will be permitted in the front of the complex and the front area (other than access drives) will be appropriately landscaped.
 - (h) Parking of automobiles shall be considered in the "Site Plan Hearing", however, there shall be provision for parking space for two cars per living unit. A parking space shall require 350 sq. ft.
 - (i) Height restrictions shall be as outlined in Section 5, paragraph 5-1 of the Zoning By-Law.
 - (j) The proposed multi-family unit will be directly connected to the sewerage system."

VOTED: Yes 375 No 433

Article 41

Will the Town vote to amend its Zoning By-Laws by adding a new Section 13, Conditions for Approval of Special Permit, as follows:

"13. Conditions for approval of Special Permit

- (a) The Zoning Board of Appeals shall not approve any application for a use permissible on appeal unless it finds that in its judgment all the following conditions are met:
 - (1) The specific site is in an appropriate location for such a use, structure, or condition.
 - (2) The use as developed will not adversely affect the neighborhood.
 - (3) There will be no nuisance or serious hazard to vehicles or pedestrians.
 - (4) Adequate and appropriate facilities will be provided for the proper operation of the proposed use.
- (b) In approving a special permit the Board of Appeals may attach such conditions and safeguards as are deemed necessary to protect the neighborhood, such as but not limited to the following:
 - (1) Requirement of front, side or rear yards greater than the minimum required by this By-Law.
 - (2) Requirement of screening of parking areas or other parts of the premises from adjoining premises or from the street, by walls, fences, planting, or other devices, as specified by the Board of Appeals.
 - (3) Modification of the exterior features or appearances of the structure.
 - (4) Limitation of size, number of occupants, method or time of operation, or extent of facilities.
 - (5) Regulation of number, design, and location of access drives or other traffic features.
 - (6) Requirement of off-street parking or other special features beyond the minimum required by this or other applicable By-Laws."

VOTED: Yes Unanimous

Approved by the Attorney General Robert H. Quinn - Aug. 28, 1970

Article 42

To see if the Town will adopt the following Earth Removal By-Law under the authority contained in Paragraph 17, Section 21, Chapter 40 of the General Laws.

"EARTH REMOVAL

A. *GENERAL*

1. This section is adopted under the Authority contained in Paragraph 17, Section 21, Chapter 40 of the General Laws.
2. For purposes of this By-Law, "earth" shall include soil, loam, sand and gravel, or any combination thereof.
3. The Board of Appeals referred to in this By-Law shall be the same Board of Appeals established under Section 14, Chapter 40A of the General Laws or the predecessor thereto.

B. *EARTH REMOVAL PERMIT PROCEDURE*

1. No earth shall be removed from any parcel of land not in public use, either above or under water, in any district in the town without a written permit from the Building Inspector or from the Board of Appeals as hereinafter provided. There shall be a fee of Fifteen Dollars (\$15.00) for each permit issued.
2. The Building Inspector, without reference to the Board of Appeals, may issue permits for the removal from the site of earth for the following purposes:
 - a. Where necessary in the ordinary course of farm, garden or nursery activities.
 - b. When incidental to landscaping or similar activities for which a building permit is not required.
 - c. When such earth is not necessary in connection with the construction of a building being built in accordance with a permit issued by the Building Inspector, the approximate amount to be removed to be limited to the volume of the foundation and basement of the building.
 - d. When such earth is not needed in connection with the construction of a private road or drive.
3. Earth removal other than that permitted under (2)

above shall not be permitted unless authorized by the Board of Appeals after public hearing and review and report within thirty (30) days of the hearing by the Planning Board, and in compliance with the application and plans as hereinafter provided. When exercising jurisdiction under this paragraph the Board of Appeals shall conform to all the requirements of procedure applicable to a hearing and decision on a request for a special permit under Chapter 40A of the General Laws, including the requirements thereof for public notice and hearing. Formal application shall be filed with the Board of Appeals, including seven (7) copies of each plan involved, which application shall include the following specific information and supporting documentation:

- a. The location of the proposed excavation.
- b. The legal name and address of the owner of the property involved.
- c. The legal name and address of the petitioner, which address shall be used by the Board for all correspondence hereunder.
- d. Name and address of all abutting owners, including those across any streets.
- e. A plan of the land involved, prepared by a registered land surveyor or registered professional engineer, showing topography by five-foot contours of the area to be excavated and up to at least 100 feet beyond the perimeter of the area involved and along all property lines, on Town of Scituate Datum. At least three (3) permanent bench marks with elevations marked thereon must be set so that if one is disturbed, those not disturbed can be recognized.
- f. A plan of the land showing five-foot contours of the site as of the proposed completion of the excavation project.
- g. Plan must show no excavations, fills or side casts to be made any closer than five (5) feet from abutter's property lines.
- h. Plan must show side slopes in pit no steeper than a three (3) (horizontal) to one (1) (vertical) ratio.

- i. Excavation lower than three (3) feet above ground water level shall be prohibited.
 - j. Plan must show no excavation below the natural grade of any tract boundary nearer than fifty (50) feet to such boundary.
 - k. Plan must show final elevation of floor of the pit does not exceed a 3% grade from nearest public way or ways.
 - l. The application shall contain a statement of plans for the disposal of rock, tree stumps and other waste materials and for the drainage of site and excavation during and after the removal operation.
 - m. A proposed form of bond to be used.
4. Any permit issued hereunder shall automatically expire upon the completion of the earth removal project for which it was issued or at such other time as may be specified in said permit, and in any event within one (1) year from the date of issue thereof. A permit may be granted by the Board of Appeals with the provision that it may be renewed for one (1) year, without a hearing if the Building Inspector finds that all conditions then applicable have been complied with and that the work has been carried on continuously and in good faith.

C. *LIMITATIONS*

- 1. No permit for the removal of earth shall be approved by the Board of Appeals or Building Inspector except upon condition that a cover of topsoil of not less than six (6) inches in depth shall be replaced or allowed to remain, except where, due to construction of roads, buildings, or other permanent physical features, such provision is impractical.
- 2. No permit shall be issued for the removal of earth in any location if such removal will:
 - a. Endanger the public health or safety or constitute a nuisance.
 - b. Produce noise, dust or other effects observable at the lot lines in amounts seriously objectionable or detrimental to the normal use of adjacent property.

- c. Result in the transportation over ways which will be unduly injured thereby.
 - d. Result in a change in topography and cover which will be disadvantageous to the most appropriate use of the land.
3. No permit for the removal of earth shall be approved by the Board if the work extends within three hundred (300) feet of a way open to public use, whether public or private, or two hundred fifty (250) feet of a building or structure unless the Board is satisfied that such removal will not undermine the way or structure.
4. In approving the issuance of a permit, the Board of Appeals shall impose reasonable conditions which shall be written upon and shall constitute part of the permit, including but not limited to:
- a. The finished leveling and grading.
 - b. The placing of topsoil and planting necessary to restore area to usable conditions.
 - c. The duration of the removal operation.
 - d. The construction of necessary fencing and other protections against nuisances.
 - e. Method and stages of removal and of restoration to usable condition.
 - f. Temporary structures.
 - g. Hours of operation and trucking.
 - h. Routes of transportation of material and routes of all vehicles involved.
 - i. Control of temporary and permanent drainage.
 - j. Disposition of boulders and tree stumps.
 - k. Requirements that roadways used for transportation of material must be swept clean and cleared of material spilled from trucks, at least once each forty-eight (48) hours and oftener, if occasion requires.
 - l. Requirement that damage to pavement, drainage structures and curbing caused by said trucks or spillage be repaired by the prime contractor.
 - m. Requirement that any repair or cleaning of roadways as out-lined in Items k and l, if performed by the Town shall be paid for by the prime contractor.

- n. The Board of Appeals shall require a bond or other security in amount to be determined by it to be filed with the Town Clerk to enforce performance of conditions imposed by this By-Law or under this section.
- o. A requirement that adequate steps be taken during removal operations to abate excessive dust.

D. *VARIATION*

Strict compliance with the requirements of these rules and regulations may be waived in connection with earth removal operations in existence on the date of adoption of this By-Law or on new operations when, in the judgment of the Board, such action is in the public interest and not inconsistent with the intent of this By-Law.

E. *VALIDITY*

The invalidity of any section or provision of this By-Law shall not invalidate any other section or provision thereof.

F. *ADMINISTRATION AND PENALTY*

1. The Building Inspector shall review the progress of the work from time to time to ensure proper conduct.
2. The Building Inspector, if he concludes that there has been a violation of this section, shall send a notice of violation to the offender, by registered or certified mail, to the address stated on the initial application, and if applicable, a notice ordering a cessation of the improper activities.
3. Any person, firm, or corporation wilfully violating, disobeying, or refusing to comply with any of the provisions of this By-Law shall be prosecuted under the terms of General Laws, Ter. Ed., Chapter 40, Section 17, Paragraph 17, and shall be subject to a fine of \$50 for the first offense, \$100 for the second offense, and \$200 for any subsequent offense. Each day of noncompliance shall constitute a separate offense. The Board may revoke or suspend the permit of any person, firm, or corporation holding a permit under this By-Law if such person, etc., violates, disobeys, or fails to comply with any of the provisions of this By-Law."

VOTED: That the Town adopt the Earth Removal By-Laws as printed in the warrant, under the authority contained in Paragraph 17, Section 21, Chapter 40 of the General Laws, with the following amendment: In Section F, Sub-section 3, amend the words "Section 17" to read "Section 21".

Approved by the Attorney General Robert H. Quinn - Aug. 28, 1970

Article 43

To see if the Town will amend the Zoning By-Laws by striking out Section 12, Removal of Fill and Topsoil.

Voted: Yes Unanimous

Approved by the Attorney General Robert H. Quinn - August 28, 1970

Article 44

Will the Town vote to amend Section 3-4, Commercial Zone Uses, of the Zoning By-Laws as follows:

1. Change Section a(1) to read:
“(1) Any of the uses permitted as of right or permissible on appeal in ‘B’ (General Business) zones except single residences, apartment houses, garden apartments or other multiple dwellings for residence by one or more families, but not subject to any requirement for enclosure or any limitation on floor area therein specified.”
2. Add Section a(14) to read:
“(14) Health club, swimming pool, tennis court, skating rink, bowling alley.”
3. Renumber present Section a(14) to (15).
4. Change Section b(1) to read:
“(1) Any other lawful business, service, distribution, or storage use similar to the uses hereinbefore listed in general character.”

VOTED: Yes Unanimous

Approved by the Attorney General Robert H. Quinn - Aug. 28, 1970

Article 45

Will the Town vote to amend its Zoning By-Laws as follows:

1. Change the table in Section 1-1, Types of Zones, to read:
 - "A-1" (Residence 60,000 sq. ft.)
 - "A-2" (Residence 30,000 sq. ft.)
 - "A-3" (Residence 10,000 sq. ft.)
 - "B" (General Business)
 - "C" (Commercial)
 - "D" (Saltmarsh and Tideland Conservation District)
2. Change the table in Section 5-3, Setback and Yard Requirements, to read:

Zone	Required Side Yard Distance	Required Rear Yard Depth
"A-1"	30 feet	20 feet for one-story detached accessory buildings; 30 feet for all other buildings.
"A-2"	20 Feet	20 feet for one-story detached accessory buildings; 30 feet for all other buildings.
"A-3"	8 feet	8 feet for one-story detached accessory buildings; 20 feet for all other buildings.
"B" and "C"	8 feet for Dwellings; 8 feet for all other buildings unless having a party wall on the same lot line.	20 feet for dwellings; 8 feet for all other buildings.

3. Change the table in Section 6-1, Lot Area and Width Requirements, to read:

Zone	Required Lot Area	Required Lot Width
"A-1"	60,000 sq. ft.	200 feet
"A-2"	30,000 sq. ft.	150 feet
"A-3"	10,000 sq. ft.	100 feet
"B" and "C"	(10,000 sq. ft.) (for each family occupying the dwelling)	100 feet

4. Change the first paragraph of Section 6-2, Lot Frontage Requirements, to read as follows:

"In all zones except as herein provided no dwelling shall hereafter be erected on a lot which does not abut on at least one street or way for a distance of at least one hundred (100) feet, or which has a width of less than one hundred (100) feet (in the "A-3", "B" and "C" zones); at least one hundred

twenty-five (125) feet (in the "A-2" zone); and at least one hundred fifty (150) feet (in the "A-1" zone) at any point between the frontage street or way and the nearest part of the dwelling erected or to be erected on said lot."

VOTED: To indefinitely postpone

Article 46

Will the town vote to amend the Zoning By-Laws of the Town of Scituate as follows:

Change Section 3-6b by striking out the present provisions thereof and inserting therefor the following:

b. *SIGNS IN BUSINESS AND COMMERCIAL ZONES*

In a "B" (General Business) and a "C" (Commercial) Zone, exterior signs pertaining to buildings, structures and uses on the same premises as the location of such sign are permitted subject to the following restrictions:

- (1) No sign shall obstruct visibility in such a way as to constitute a hazard to the safety of persons traveling upon a public way.
- (2) The top edge of such sign, whether free-standing or not, shall be placed not higher than the main roof of the highest building located on the premises, or if no building exists, the average height of the main roofs of the buildings on the next adjacent properties where buildings do exist.
- (3) Such signs may be illuminated only from the exterior of the advertising matter.
- (4) Such signs shall be affixed and maintained in such a way as to be safe and free of hazard to the public, and shall be maintained in good repair.
- (5) No sign or display may be moving, or make use of blinking or intermittent lights or any other animation.
- (6) No sign shall exceed 100 square feet gross display area.
- (7) Each business unit or industrial unit is permitted not more than two (2) signs, but excluded from this sub-section are signs necessary for public safety or convenience.

Change Section 3-6c by striking out the present provisions thereof and inserting therefor the following:

c. *GENERAL PROVISIONS PERTAINING TO SIGNS
IN ALL ZONES*

- (1) No political signs are permitted within the town of Scituate, except upon vehicles or in windows of buildings.
- (2) No commercial advertising shall be affixed upon or painted upon any rock, tree, or pole within the town of Scituate.
- (3) No billboard or sign of a general advertising nature, which does not pertain to a building, structure or use on the same premises as the location of such sign shall be permitted within the town of Scituate except as provided in Section 3-6a(4) and/or Section 3-6c(4) of the Scituate Zoning By-Laws.
- (4) Signs may be placed along traveled ways for the purpose of indicating directions to business or institutional facilities by special permit of the Board of Appeals which shall, in addition to other requirements for the granting of special permits, allow such signs only if they are reasonably needed for directional purposes, and are reasonable in size and location. Such signs shall be subject to the illumination restrictions set forth in 3-6b(3).
- (5) Nothing herein shall be construed to prohibit the placement within the Town of Scituate of street signs, traffic signs, directional signs or other lawful signs by the Town of Scituate or any other governmental authority or agency.
- (6) Any lawful sign existing at the time this amendment to the Town By-Laws is adopted may be continued, although such signs do not conform to the provisions hereof, for a period of five (5) years.
- (7) At the termination of the above stated time, all non-conforming signs shall be made to conform or shall be removed.

VOTED: That the Town amend the Zoning By-Laws of the Town of Scituate as set forth in Article 46 with the following changes:

Section 3-6c (2) Insert the word "utility" before pole.

Section 3-6c (6) Insert a period after "provisions hereof" and strike the remainder.

Section 3-6c (7) Strike the wording as it appears in the warrant and insert the following:

"Any total replacement or substantial change of an existing sign shall be required to conform to the above provisions." Yes 225 No 55

Approved by the Attorney General Robert H. Quinn, August 28, 1970

Article 47

To see if the Town will raise and appropriate a sum of money to purchase or authorize the Selectmen to adopt an order of intention to take by eminent domain for conservation and recreational purposes the property of Edward F. Webb of approximately 7.14 acres, said property being shown on a plan entitled "Proposed Acquisition of Salt Marshes at Scituate Harbor" filed at the Department of Public Works Engineering Office, Plan of January, 1967 and amended January 1968.

VOTED: To indefinitely postpone

Article 48

To see if the town will raise and appropriate, borrow or transfer from available funds a sum of money to be deposited to the Conservation Fund.

VOTED: That the Town raise and appropriate the sum of \$28,000.00 to be deposited to the Conservation Fund and expended to purchase the following described land for conservation purposes:

The property of Edward F. Webb on Kent Street; said property being shown on a plan entitled "Proposed Acquisition of Salt Marshes at Scituate Harbor" filed at the Department of Public Works Engineering Office, Plan of 1967 as amended January 1968.

Article 49

To see whether the Town will approve the construction of a new housing project by the Scituate Housing Authority, namely, a housing project for elderly persons pursuant to the provisions of Chapter 667 of Massachusetts Acts of 1954, and Acts in amendment thereof and in addition thereto, to be known as State-Aided Housing Project 667-3.

VOTED: That the town hereby approves construction of a new housing project, namely, a project for the housing of elderly persons, consisting of not more than 78 dwelling units pursuant to Chapter 667 of Massachusetts Acts

of 1954, and Acts in amendment thereof and in addition thereto, to be known as State-Aided Housing Project 667-3.

Article 50

To see if the Town will accept the layout of the Selectmen in accordance with the plan on file at the Town Clerk's Office making Cairo Circle, part of Woodland Road, and extension of Edith Holmes Drive Town Ways.

VOTED: Yes Unanimous

Article 51

To see if the Town will accept the layout of the Selectmen in accordance with the plan on file at the Town Clerk's Office making Wheeler Avenue a Town Way and raise and appropriate under the Betterment Act a sum of \$7,300.00 for construction of same.

VOTED: That the Town accept the layout of the Selectmen in accordance with with the plan on file at the Town Clerk's office making Wheeler Avenue a Town Way and raise and appropriate under the Betterment Act a sum of \$7,300.00 for construction of same, and that betterments at the rate of 75% be assessed.

Article 52

To see if the Town will vote to amend its By-Laws by changing Section 1 of the By-Law relating to Town Meetings so that the first sentence thereof shall read:

"The annual Meeting shall be held on the third Monday in March and further sessions of said Meeting as required to complete action on the matters covered by the warrant thereof shall be held on the succeeding Wednesdays, Fridays and Mondays, provided, however, that in the event any session of said Meeting would thus fall on Good Friday such session will, by operation of this by-law, be postponed to the succeeding Monday."

VOTED: Yes

Approved by the Attorney General Robert H. Quinn, August 28, 1970

Article 53

On beaches controlled by the Town, Scituate families, including the families of summer residents, may be permitted to have light refreshments such as sandwiches, small fruit, cookies and cakes, and beverages in vacuum bottles. No cans, bottles, or other glass containers are allowed. Any person violating the provisions of this article shall be liable to a fine of not more than \$20.00.

VOTED: To indefinitely postpone

Resolution in Lieu of Article 53:

RESOLVED THAT "On beaches controlled by the Town, Scituate families, including the families of summer residents, may be permitted to have light refreshments such as sandwiches, small fruit, cookies and cakes and beverages in vacuum bottles. No cans, bottles or other glass containers are allowed. Further, cooking in any form shall be disallowed.

Article 54

Will the Town repeal the By-Law voted under Article 30 at the Annual Town Meeting in March, 1962 and enact the following:

SCITUATE WATERWAY BY-LAW

Section I:

In construing this By-Law the following words shall have the meaning herein given unless a contrary intention clearly appears.

"Scituate Harbor" - the waters between the flashing red light on Cedar Point breakwater and the lookout tower on the Scituate Coast Guard building on First Cliff and all the waters inside this line.

"Harbor Master" - shall mean harbor master and assistant harbor masters duly appointed by the Selectmen.

"Boat" - includes every description of watercraft, other than a seaplane on the water, used or capable of being used as a means of transportation on water.

"Persons" - shall include individuals, corporations, societies, associations and partnerships.

"Skin Diver" - shall include swimmers using fins and/or mask and/or snorkel tubes or self-contained underwater breathing devices.

Section II:

- (a) No master or person acting as master, owner, custodian, or other person shall moor any boat within the limits of Scituate Harbor and that portion of the North River and South River lying within the Town of Scituate and all other waterways within the jurisdiction of the Town of Scituate without first obtaining a permit to moor said boat from the Harbor Master. Such permit must be obtained for each calendar year. The application for such permit shall be made to the Harbor Master on a form prescribed by the Selectmen. The application shall set forth the name and address of the owner, the size and type of

boat to be moored, the size and type of the mooring, and if the mooring is already in the water, the location thereof with sufficient details to enable the Harbor Master to locate it.

- (b) The Harbor Master shall prepare regulations governing the size and specifications for moorings, their hardware and pennants, and shall submit the same to Selectmen for approval. Upon approval the regulations shall be published in a newspaper published in the Town, at the Harbor Master's office at the Town Pier, and shall be available upon request. The regulations may be amended from time to time in the same manner.
- (c) If the Harbor Master shall determine that any mooring applied for will conform to the requirements of said regulations, he shall issue the permit and assign a location for the mooring provided such a location is available.
- (d) If the Harbor Master has determined that the mooring will not conform to the requirements of said regulations, or if he shall for other valid reasons deem it improper to issue such mooring permit he shall refuse to issue the permit. The Harbor Master shall issue or deny such permit within two weeks from the date of application.
- (e) Original of said permit shall be given to the applicant and duplicates of said mooring permits and permits for tieup of small boats shall be filed at the office of the Town Comptroller, with the receipts therefor and a copy retained by the Harbor Master for his records for a period of at least fifteen months from date of issue.
- (f) No boat shall be made fast to a Town Landing or Pier for more than thirty minutes, except by permission of the Harbor Master.
- (g) Boats anchored or moored in such a manner as to constitute a hazard to navigation or property may be moved at the expense of the owner. As far as practical, the Harbor Master shall require all commercial boats to be moored in a common area.
- (h) Winter mooring buoys must be removed from Scituate Harbor and from Scituate waterways by July

1st of each year, and such winter mooring buoys not replaced by suitable floating or mooring buoys after that date and constituting a hazard to the use of the Harbor or waterways may be removed from the mooring chain by the Harbor Master.

Section III:

No person carrying passengers for hire shall embark or disembark such passengers from any boat at the Town Landings without permission of the Harbor Master.

Section IV:

No boat shall exceed a speed of six (6) nautical miles per hour or cause a disturbing wake within the confines of Scituate Harbor.

Section V:

Any person skin diving in Scituate Harbor shall:

- (a) display a diver's flag consisting of a red field and a white diagonal stripe of sufficient size not less than twelve (12) inches square;
- (b) display such flag on a float or other similar device holding flag upright at a height sufficient to be visible to passing boats;
- (c) tow the aforesaid float and flag with him while he is submerged in the water and surface thereunder, unless for commercial purposes, permission is granted in writing by the Harbor Master to otherwise display flags for the protection of divers in Scituate Harbor;
- (d) no skin diver shall operate in Scituate Harbor except from a boat and attended by another person.

Section VI:

No person shall operate a boat in Scituate Harbor while towing water skiers, aqua-planes or other similar devices except in connection with water carnivals and exhibitions authorized by the Selectmen, or in an area designated by the Selectmen. No person shall operate such boat or equipment in the vicinity of swimmers at any of the beaches of Scituate.

Section VII:

Lobster pots, crab pots and other obstacles which will cause or create a hazard to navigation will not be placed in areas usually used for navigation.

Section VIII:

Discharging or depositing, or causing to be thrown overboard, oil, refuse, waste, treated or untreated sewerage into the harbor, waterways or marinas is prohibited. All marinas will display this regulation on their wharf or ramp so as to be in the uninterrupted view of persons using this facility and to be of size to be read at a reasonable distance.

Section IX:

Small sailing classes will be allowed to race within the Scituate Harbor area when under the jurisdiction of an authorized race committee recognized by the Harbor Master. Such small boats shall not have courses laid out which use government marks for turning buoys or use fairways as a leg of the race course. Such small boats shall respect the maneuvering problem of larger vessels in the harbor.

Section X:

The proper usage of the Town launching ramps shall be determined by the Selectmen. This shall include the proper parking of trailers and motor vehicles at the approach to the ramp.

Persons using Town ramps for hauling of larger boats requiring cradles shall apply to the Harbor Master for a written permit; such cradles and/or boats shall not remain on the Town ramps for more than one tide.

Section XI:

Nothing contained herein shall be held or construed to supersede or conflict or interfere or limit jurisdiction of the United States Government with respect to the enforcement of the navigation, shipping, anchorage, and associated laws of the United States, or any lawful regulation of the Division of Waterways of the Department of Public Works, or the Division of Motorboats of the Registry of Motor Vehicles or to conflict with any of the laws of the Commonwealth of Massachusetts.

Section XII – Penalties:

Whoever violates any of these regulations and refuses or neglects to obey the lawful and reasonable orders of the Harbor Master, or resists him in the execution of his duties shall be fined not less than ten dollars (\$10.00) nor more than twenty

dollars (\$20.00). These rules and regulations shall be enforced by the Harbor Master.

Section XIII — Severability:

In the event that any provision, section or clause of this By-Law is hereafter judicially found to be invalid, such decision, invalidity or voidance shall not affect the validity of the remaining portions of this By-Law.

VOTED: That the Town repeal the By-Law voted under Article 30 at the Annual Town Meeting in March, 1962, and enact the By-Law as set forth in Article 54, with the following amendment:

Change Section V from

“Any person skin diving in Scituate Harbor Shall:’

To

“Skin diving shall be permitted in Scituate Harbor only for the purpose of repairs and maintenance of boats, moorings, floats, piers, ground tackle and channel markers. Any person skin diving in Scituate Harbor Shall:’

Approved by the Attorney General Robert H. Quinn, August 28, 1970

Article 55

Will the Town raise and appropriate a sum of money for the expenses of the Council on Aging.

VOTED: To raise and appropriate \$1,000.00. Unanimous

Article 56

Will the Town vote to raise and appropriate the sum of \$3,000, said sum to be used to construct a permanent bandstand.

VOTED: That the Town raise and appropriate the sum of \$3,000.00, said sum to be used to construct a permanent bandstand at Cole Parkway.

Unanimous

Article 57

To see if the Town will raise and appropriate the sum of five hundred (\$500.00) for a series of band concerts to be given during the summer season by the Satuit Band, or act thereon.

VOTED: Yes Unanimous

Article 58

Will the Town vote to give the Scituate Historical Society the custody and

administration of the Percy Mann property on Greenfield Lane.

VOTED: That the Town give the Scituate Historical Society the custody and administration of the Percy Mann Property on Greenfield Lane until further notice. Unanimous

Article 59

Will the Town vote to raise and appropriate the sum of \$7,500 for the initial phase of restoring the Mann property located on Greenfield Lane.

VOTED: Yes Unanimous

Article 60

To see if the Town will vote to raise and appropriate a sum of money to be used by the Selectmen in conjunction with the Scituate Chamber of Commerce, Inc. for the purpose of setting aside a period of time in August for the celebration of the anniversary of the founding of the Town, said period of time to be known as Heritage Days, or to take any action thereon.

VOTED: Yes 98 No 118

Article 61

To see if the Town will raise and appropriate the sum of \$100.00 for the County Aid to Agriculture and authorize the Selectmen to appoint a Town Director as provided in Chapter 128 of G.L., as amended by Chapter 319 of the Acts of 1957, or act thereon.

VOTED: Yes

Article 62

Will the Town appropriate the sum of \$400.00 for the purpose of stocking ponds and other inland water located within the Town's limits with fish, and of liberating game, as defined in Chapter 40, Section 5, Subsection 41 within said limits and to meet the necessary expenses incidental thereto, including the feeding of game so liberated as provided in Chapter 142 of the Acts of 1938, or act on anything relating thereto.

VOTED: Yes Unanimous

Article 63

Will the Town vote to transfer to the Excess and Deficiency Account, or to any other appropriation authorized by law, the unexpended balance remaining in the accounts specified below with respect to sums raised and appropriated in prior years under prior articles:

Article 47-1969	Construction of sidewalk, Tilden Road from Christopher Lane to Mann Hill Road	\$21.00
-----------------	--	---------

Article 48-1969	Construction of sidewalk, Tilden Road	
	from Elaine Court to Egypt Beach Road	<u>\$60.00</u>
		\$81.00

VOTED: That the Town transfer the unexpended balances appropriated in 1969 of \$21.00 under Article 47 and \$60.00 under Article 48 to reduce the amount required to be raised by taxation under Article 35 of this 1970 Town Meeting Warrant. Unanimous

Article 64

Will the Town vote to raise and appropriate or transfer from the Excess and Deficiency Account a sum of money to the Stabilization Fund to be held in the manner and for the purposes set forth in Section 5B of Chapter 40 of the General Laws.

VOTED: \$200,000.00 from the Excess and Deficiency Account.

Article 65

To see what sum of money the Town will vote to transfer from the Excess and Deficiency Account to be used by the Assessors in reducing taxes for the current year.

VOTED: \$450,000.00 Unanimous

QUESTION NO. 1

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below, which was approved by the General Court in a joint session of the two branches held July 15, 1968, received 155 votes in the affirmative and 98 in the negative, and in a joint session of the two branches held May 14, 1969, received 147 votes in the affirmative and 119 in the negative?

SUMMARY

The proposed amendment to the Constitution authorizes the Legislature to classify real property according to uses, and authorizes the assessment, rating and taxation of real property at different rates in the different classes so established, but proportionately in the same class. The amendment further authorizes the granting of reasonable exemptions and abatements.

Yes	1647
No	3594
Blanks	759

QUESTION NO. 2

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below, which was approved by the General Court in a joint session of the two branches held October 9, 1967, received 237 votes in the affirmative and 0 in the negative, and in a joint session of the two branches held May 14, 1969, received 262 votes in the affirmative and 4 in the negative?

SUMMARY

The proposed amendment to the Constitution abolishes the requirement that in order to vote in a state election a person must have resided within the Commonwealth one year. If amended, the Constitution would require only that a voter have resided six months in the town or district in which he claims a right to vote.

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below, which was approved by the General Court in a joint session of the two branches held October 9, 1967, received 142 votes in the affirmative and 102 in the negative, and in a joint session of the two branches held May 14, 1969, received 222 votes in the affirmative and 49 in the negative?

SUMMARY

The proposed amendment to the Constitution reduces the minimum age for voting in a state election from twenty-one to nineteen.

Yes	3286
No	2042
Blanks	672

QUESTION NO. 4

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below, which was approved by the General Court in a joint session of the two branches held July 15, 1968, received 181 votes in the affirmative and 66 in the negative, and in a joint session of the two branches held May 15, 1969, received 208 votes in the affirmative and 54 in the negative?

SUMMARY

The proposed amendment to the Constitution amends the existing constitutional provisions which direct the division of the Commonwealth into 240 representative districts and 40 senatorial districts. It provides for a census of the inhabitants of each city and town in the Commonwealth in the year 1971 and in every tenth year thereafter. The census in 1971 is to be the basis for determining the representative and senatorial districts for the ten-year period beginning January 1, 1975. Each subsequent census shall be the basis for determining the districts for each ten-year period beginning the fourth January following each census, so that the census in 1981 will determine the districts as of January, 1985, etc.

The amendment provides that the house of representatives shall consist of two hundred and forty members and the senate of forty members. In its first regular session following each census, the Legislature shall divide the Commonwealth into two hundred and forty representative districts of contiguous territory and forty senatorial districts also of contiguous territory. Each representative district shall contain, as nearly as may be, an equal number of inhabitants according to the census. Each Senatorial district shall also contain as nearly as may be an equal number of inhabitants according to the census. A representative district shall not unite two or more counties, towns, or cities, or parts thereof, or a city and a town, or parts thereof, in one district unless the same is unavoidable. Further, no town of less than six thousand inhabitants shall be divided in forming representative districts. It is also provided that the County of Dukes County and Nantucket County shall each be a representative district, notwithstanding the foregoing. The senatorial districts, each of which shall elect one Senator, shall be formed without uniting two counties or parts of two or more counties, unless the same is unavoidable.

Each representative shall be an inhabitant of the district for which he is chosen at least one year immediately preceding his election, and each senator shall be an inhabitant of the district for which he is chosen at the time of his election and shall have been an inhabitant of the Commonwealth for at least five years immediately preceding his election. Any representative or senator who ceases to be an inhabitant of the Commonwealth shall cease to represent his district.

The amendment also provides that the Legislature (1) may by law limit the time within which judicial proceedings may be instituted calling in question any such division and (2) shall prescribe by law the manner of calling and conducting elections for the choice of representatives and of ascertaining their election.

Finally, the amendment annuls the existing constitutional provisions with respect to apportionment of representative and senatorial districts, although those provisions will remain in effect until January 1, 1975.

REPORT OF THE BOARD OF REGISTRARS

Advertised meetings for Registration of Voters and Certification of Names on Nomination Papers were held before the Annual Town Meeting and Election, the State Primary and the State Election.

Continuous Registration of Voters, Chapter 51, Section 33, General Laws — In towns having six hundred or more registered voters, any person shall be registered during regular business hours on application, except during such time as registration is not permitted by law.

In the year 1970, there were 1,044 names added to the voting list by registrations, while 667 names were dropped because of deaths and change of residence.

Registered Voters in the Town of Scituate on December 31, 1970 were:

Republicans	2073
Democrats	1695
Unenrolled	<u>4314</u>
Total Registered Voters	8082

Respectfully submitted,
Elinor M. McElroy, Chairman
Pauline F. Guivens, Clerk
Louise B. Sullivan
Paul J. Sullivan

Warren, George F., Jr., 52 Irving Rd., Electrical Designer
Weeks, Stevens B., 19 Circuit Ave., Vice President
Wiley, Gilbert C., 119 Gilson Rd., Eng. & Drafting Equipment Sales

SHELLFISH CONSTABLE: Wilbur Hatch

REPORT OF THE SHELLFISH CONSTABLE

Board of Selectmen
Scituate, Mass.

Gentlemen:

I submit this report for 1970. We have made good progress in removing the mussels from our clam beds this year, but there is still a long ways to go to insure a supply of clams in the future. We have maintained our record of issuing permits. We hope to continue same in the coming years.

Respectfully submitted,

Wilbur H. Hatch
Shellfish Constable

BOARD OF SELECTMEN: l. to r. Chairman Murray Snow, Stephen S.J. Hall, John D. O'Brien, Richard Damon, Robert H. Tilden

ANNUAL REPORT OF THE BOARD OF SELECTMEN

A year end report from your Selectmen should contain a discourse on what problems the community faces, how we are attempting to solve these problems, and what our overall goals should be.

Without attempting to categorize with respect to severity, let us simply and realistically consider what Scituate faces as a community.

1. Taxes
2. Fire Station Site and Facility
3. School Housing
4. Elderly and Youth
5. Structure of Town Government
6. Natural Resources

Our tremendous underlying concern of tax relief is foremost in our minds. As your executive authority it is and will be our responsibility to cut all unnecessary embellishments and at the same time give you, the taxpayer, full value for your dollar. Some services may have to be curtailed; however, every attempt has been made to give you the services demanded. Due to inflationary costs the outlook could be bleak, but with true understanding and cooperation, we shall try to maintain stability and yet not shunt our responsibilities.

The question of a new fire station has been before us many times in the past few years. We believe there is no point in belaboring the fact that the need exists since the central fire fighting facility is better than a century old. It is the opinion of this board and others that this is a priority item.

Additional school housing, while not in our province, causes us considerable alarm since there is ample evidence for this need. There has been a lag in the planning of such a facility and it now appears that a special town meeting may be required to present the proposal to you. We are awaiting the school committee's recommendation.

The Council for the Aging appointed by the Selectmen have been meeting at the G. A. R. Hall three times a week. Programs have been implemented and legislation relating to the elderly has been given every consideration and endorsement where feasible.

Every effort is being made to help all of our youth from their recreation to their problems. This year an attempt has been made on a trial basis to help those caught up in the drug scene by endorsing the Call-in Center, "Depot".

An in depth study of our community's governmental structure is being studied and hopefully the result will be a far more efficient way of serving you, the citizen. We have had fine cooperation from the League of Women Voters during 1970.

Natural Resources have been uppermost in our minds. We have initiated legislation to give Board of Selectmen and/or other town officials concurrent authority to police, restrict and enforce any permits or orders for the removal, filling and dredging of any banks, flat, marsh, meadow, or swamp bordering on coast or inland waters within their local boundaries. At this time we would like to thank the dedicated committees, commissions and other volunteer workers that have worked with us in the area of conservation, beautification and ecology.

As we end the year of 1970 and list our problems we cannot help but feel that we as a community have taken a good look at our basic problems and for the most part have been willing to solve them.

We urge you to read all Department and Committee reports this year and look forward to your anticipated participation in the decision making process.

Your interested concern and help is greatly appreciated.

Respectfully submitted,

Murray Snow, Chairman

Richard Damon

ANNUAL REPORT OF THE COMMISSIONERS OF PUBLIC WORKS

Again during 1970 your Commissioners set up regularly scheduled meetings with the Superintendent, Department Supervisors and Foremen. This direct line of communication enabled us to establish procedures and policies which when implemented made for maximum efficiency.

Scituate faces a major situation in the 1970's with the problems of Solid Waste Disposal, Night Soil and continuity of the Sewerage System. The general problem of sanitation in our community is a basic cause for concern. We need a new solid waste disposal area where we can not only take care of our refuse, but also our so called "night soil" in a manner not only acceptable from a health standpoint, but that is also economical for you the taxpayer. Our sub-committee on Refuse Disposal will be making a recommendation for your consideration in the immediate future. We would like to establish a whole new philosophy of refuse disposal. Basically, we feel the need for the operation of a true sanitary land fill with room to experiment with other interesting methods of disposal such as composting and chemical interaction. One of the ways in which we can improve our overall sewage waste disposal

is by expanding our treatment interceptor lines to additional high density population areas. This program should be continued in an efficient business-like manner.

We are pleased to inform you that after seven years, the Flood Control System in the Sand Hills Section has been completed.

The Commonwealth of Massachusetts, Department of Public Works has informed us that our application for School Zones under Chapter 616, Acts of 1967, for five schools has been approved. The new signal lights made available by this grant will allow our children a much greater degree of safety.

A committee was appointed to study the updating of our Traffic Rules and Regulations. Many hours of study and research have been put in by this group. Your particular attention should be given to their report.

Projecting ahead, we can see the need for Centralized D.P.W. facilities.

In October Matthew L. Brown, Supervisor of the Highway Department retired. Many thanks go to him for his years of devotion to duty.

As the community grows, our problems grow, but with the commitment and dedication of your town employees, we feel confident that we can meet these problems.

Respectfully submitted,
Murray Snow, Chairman
Richard Damon
Stephen S. J. Hall
John D. O'Brien
Robert H. Tilden

To the Commissioners of Public Works —

Gentlemen:

It is my pleasure to submit to you my second annual report of the Public Works Department as required under the General Laws, Chapter 41, Section 69 E. During the past year we were fortunate to hire some experienced men in our Divisions to help incorporate a few different economical methods of operation in our Department, namely our vehicle maintenance program for all Department vehicles at the Highway Division garage, a meter maintenance and repair program at the Water Division and a constant training program for back-up men in all Divisions for all equipment and machines.

The untiring effort of all the employees to furnish the vital and necessary services to the town is most rewarding in light of all the many requests that fall outside of the responsibility and realm of our Department.

With the complete cooperation I receive from our Divisional Supervisors and all the employees, the taxpayers of Scituate are fortunate to have such dedicated men and women whose performances on so many occasions goes unnoticed by the citizens because they are aware of public works services only when it does not function.

The following is a list of the equipment we are requesting for the coming year: *Highway* — replace two (2) 1964 - 3/4 ton pickups, replace a 1964 and a 1965 dump truck, a new radio tower for all Departments at the Town Hall and finally, a vacuum type catch basin cleaner to be used also in a planned leaf pick-up program.

Public Grounds — Replace a 1/2 ton 1965 pickup and purchase a rotary mower attachment for roadside mowing.

Water — Purchase a 1971 - 3/4 ton utility truck, new 1971 one (1) Station Wagon, and a new 1971 - one-ton dump truck.

On October 1, 1970, Mr. Matthew L. Brown retired after serving for twenty-six continuous years for the town of Scituate, first in the capacity of the elected Highway Surveyor, from 1944 to 1964, then as Highway Division Supervisor until this year. For his devotion and dedication to the town, I sincerely hope his retiring years are healthy and happy ones.

Also, a great loss was felt on the unexpected death of Mr. William Day after a short illness. Mr. Day had been with the Highway Division since 1962.

It was indeed fortunate for the Highway Division of the Department of Public Works to obtain the services of Mr. John R. Brown as Supervisor to replace Mr. Matthew L. Brown. With eighteen years experience in the

construction field and working closely with the Highway Division for some time he is a great asset especially in his leadership and knowledge of all facets of the highway operation.

It is very gratifying to have such devoted and dedicated true sons of Scituate at the helm of each of our Divisions. On behalf of the entire Department of Public Works may I express my sincere thanks to all Boards, Committees and Departments for their cooperation in our achievements and accomplishments throughout 1970.

Respectfully submitted,

John F. Caulfield
Superintendent

**Department of Public Works
Superintendent's Report**

To the citizens of Scituate:

The Department of Public Works is pleased to submit the seventh annual report of its operation for your review and understanding.

State Aid Projects — Chapter 90 — Kent Street — Due to the many changes and revisions in the planning and design of the proposed construction this past year, the contract for that portion between Greenfield Lane and 200 feet north of Ridge Hill Road was not let out. However, we do have a confirmation from the State that the final contract will be let out some time in February 1971 with a completion date in June 1971.

Chapter 90 — Julian Street Bridge — Working with proportional funds from both Scituate and Marshfield a new deck, railings and surface as well as a few pilings were replaced, rebuilt and completed. Also, Julian Street, from the bridge to River Street was completely rebuilt with storm drains, curbing, sidewalk and resurfacing from the balance of the funds allotted for this project.

Chapter 91 — Foreshore Protection — With the balance of our funds in this account, the State is now ready to advertise the contract for the replacement of a section of seawall from house #121 through #137 on Turner Road, pending the confirmation from the owners of the removal of their porch decks from the wall. This section was Priority #1 of seven priorities which we hope to continue until all priorities have been completed.

Chapter 768 — Acts of 1969 — With the town voting Article 33 of the 1970 March Town meeting on the bond issue money from Chapter 616 and this

Chapter after final approval by the State Department of Public Works, resurfacing in 1970 was completed on the five streets, namely, part of Grove and Maple Streets and part of Booth Hill, Mann Lot and Turner Roads. Unfortunately in 1971 no money is available from State funds for road maintenance and resurfacing under any special Chapters.

The Oceanside gravity drain outflow was finally completed in 1970 by Mulcahy Bros., of East Weymouth, with State funds and our funds appropriated under Article 48 of 1969. In conjunction with this project from our contractual Highway budget a portion of the tie-in drain from Sixth Avenue to Eighth Avenue and out to a catchbasin in the marsh on Eighth Avenue was also completed by the above named contractor. In this year's budget we hope to complete and correct this drainage problem from Sixth Avenue to Fourth Avenue and thus relieving the flooding conditions that have existed for many years.

Special Projects — Article 25 — Plans and specifications were let out to bid on the proposed construction of a sidewalk on Country Way from Curtis Street northerly to the Hatherly playground. Due to the ever increasing cost of construction in the past year, all bids were in excess of the appropriation so that no contract was awarded. However, there is a possibility that we can construct the sidewalk this year in conjunction with the telephone company who have proposed a conduit cable along Country Way in the same location as the proposed sidewalk.

Article 37 — Again, due to construction costs the playground area at Greenbush was not completed as proposed by the article. However, we were able to clear the area of trees, remove most stumps and fill the entire area to our proposed grade with anticipation of finishing the baseball field and installing playground equipment, pending a new appropriation in 1971.

The midge nuisance at Musquashicut Pond this past summer was quite severe. Working closely with the South Shore Mosquito Project and mother nature, the problem was slowly solved. However, we of the Department of Public Works intend to control the pond level in early spring to help alleviate the early breeding, thus relieving the inconvenience to a minimal.

Equipment — Following is a list of replaced and new mobile equipment purchased in 1970:

- | | |
|------------------------------|---------------------------|
| 1 - one-half ton pickup | 1 - Trojan Loader Backhoe |
| 1 - three-quarter ton pickup | 1 - Wayne Sweeper |
| 1 - one ton dump truck | |

Activities of the various Divisions of the Department are herein submitted by the Divisional Supervisors:

ENGINEERING DIVISION – George F. Reekie, Town Surveyor

I herewith submit my first annual report for the year 1970. The year proved to be extremely busy, with a heavy work load for our small Engineering Division. Principal projects, together with the necessary design, plans, specifications and field engineering completed during 1970 include:

1. Drainage easement between Cliff and Michael Avenues at Collier Road.
2. Office study for proposed Harbor dredging and disposal of same.
3. Construction of Reservoir Dike Road off Country Way abutting the Steverman and Spring properties.
4. Peirce Library - construction of additional parking area, adjacent to the library.
5. Turner Road, Booth Hill Road, Mann Lot Road, Maple Street and Grove Street, line and grade for new road surfaces and drainage systems.
6. Town Zoning Map - supplying all existing data for new map being prepared by the Planning Board.
7. Beautification Committee, staking out Band Stand, curbings and planters.
8. Acceptance plans and legal description for Woodland Road, Edith Holmes Drive, Cairo Circle and Wheeler Avenue.
9. Bound Brook - field survey and study plan of flooding conditions in North Scituate Village made for Corps of Engineers.
10. Scituate Waterways Commission - preparing permit plans for Corps of Engineers and Mass. Division of Waterways for construction of new Town Pier at Cole Parkway, also designing of said pier.
11. Oceanside Storm Drain from 8th to 6th Avenue, designing and site engineering during construction.
12. Julian Street Bridge - Field survey of Julian Street and Bridge - site Engineering at Bridge during steel plate laying and spikeing, also installation of street drainage system.
13. Pin Oak Drive - setting of concrete bounds to mark road layout as approved under Article 52 - March 1968 Town Meeting.
14. Wheeler Avenue - field survey plans for road acceptance under the Betterment Act.
15. Assisted Historical Society in lowering of First Herring Brook at the Greenbush Old Grist Mill.
16. Country Way sidewalk from Curtis Street to the Old Hatherly School playground - field survey of road lines and existing sidewalk grades.
17. "Wood" property at Reservoir, taking grades (for filling of flooded property).
18. Greenbush Playground - topographical survey and site engineering for final grades. Design, plan and specifications for project bids.

19. Setting of concrete bounds on Bulrush Farm Road and Pennycress Road to mark road layout as accepted under Article 42, March 1966 Town Meeting.
20. Tilden Road - drainage and road profile study to correct bad icing condition.
21. Old Forge Road - drainage study for connection to State Highway drainage system - also to correct a bad icing condition.
22. Town Dump - topographical survey plan made for Rubbish Disposal Committee.

Engineering services and assistance were rendered to all Town Departments throughout the year. Almost all Planning Board meetings were attended and cost estimates for completion of certain roads and sub-divisions were calculated as requested. Also, made inspection progress reports to this board.

I wish to express my appreciation for the assistance rendered to the Engineering Division by the Public Grounds, Highway and Water Division Supervisors and their personnel.

PUBLIC GROUNDS DIVISION — Carl C. Chessia, Supervisor

All parks, islands and other grass areas were kept mowed, trimmed, fertilized and swept. The areas sponsored and developed by the Beautification Committee were maintained and watered as needed. These plots have been designed by the Committee to keep labor and maintenance at a minimum and are valuable assets to the town.

There were twelve interments at the Cudworth Cemetery, nine of which were Veterans. An asphalt drive was constructed in the Veterans section and sod and grass were planted, thus improving and enlarging that section of this Cemetery.

A new one-ton dump truck was added to the Division this year. This truck is used mainly in the pickup of rubbish barrels of which we have eighty. During the summer months pickup occurs five times each week and twice a week during the remainder of the year. These barrels are for travel trash only NOT home rubbish.

Recreation - registration in the Tennis Program has increased each year. Three additional instructors were added this year and Mr. William Foniri was appointed Director. There was a total enrollment during 1970 as follows:

125 at the Junior High - 150 at the North Scituate - 94 at the High School courts. Trophies were awarded to winners in the following classes - Beginners, Stacy Merritt - Intermediates, Jeff Andrews - Advanced, Gary MacNeil.

A new asphalt surface was installed at the Basketball Courts in the High School parking lot. This program which is headed by Director Philip Pisano is in its second year and is for older boys. An assistant was appointed this year to assist as referee and in keeping records of the program.

The Lifeguards under the direction of Mr. Rick Cugnasca had their usual busy season. We had one bad storm which deposited an excess of rockweed on all five beaches. However, this was buried or pushed back into the water as soon as possible. The five restrooms maintained by the Grounds Division were cleaned daily from June - September but without an attendant on duty, some vandalism does occur.

Public Buildings - During the winter months three of the offices at the Town Hall were painted. New locks were installed. Mr. Ernest A. P. Kelley, custodian for this building has kept it looking very well. He also maintains the GAR Hall.

It is hoped that heat will be installed in the Mt. Hope Building by 1971. This building is used by the boy scouts and Mt. Hope Improvement Society.

The building at the North Scituate Tennis Courts is now being used by citizens interested in arts and crafts and has cut down tremendously on the vandalism to this building.

School Grounds - This part of our work load has been increasing each year with the increase in pupil enrollment and the demand for more play areas. We now maintain and line out two football varsity fields and two Little League football fields, two hockey fields and two baseball and one soccer field. We also line out the running tracks. A new wet line marker was purchased this year which can mark asphalt as well as grassed areas. This has cut down on the labor in marking athletic fields. The Tennis Courts at the Junior High were sealed with Decoralt and a new bubbler was installed which improved the playing conditions at the four courts. The walks and doors at the High School were cleared of snow before 7:30 A.M. on school days.

Trees - One hundred ten trees of a variety of species were planted in different areas in the town. A twelve foot spruce was planted at North Scituate across from the Tennis Courts and lighted this year at Christmas time. One hundred five diseased or dead trees were removed from our roadsides. The insect pest spray program was broadened this year due to the heavy infestation of an oak leaf skeletonizer (a small worm that hangs from a thread after it eats the soft part of an oak leaf). We have contacted the Dept. of Environmental Sciences, College of Agriculture at the University of Massachusetts, but they have been unable to develop a program to dispose of this pest. We do spray with

carbaryl, which retards the pests but does not eliminate them because of its low residual effect.

Around two hundred small seedlings were planted in the nursery. It is hoped that in five to seven years a plantable roadside tree will result in a substantial savings to the town.

Personnel from this Division attended a number of classes and seminars on turf culture, arborculture and a symposium on ecology.

The Public Grounds Division wishes to take the opportunity to thank all other Divisions in the Public Works Department, the Fire and Police Departments and all other boards and committees for their cooperation in our numerous programs.

WATER DIVISION — Frank T. Whittaker, Supervisor

The meter program has progressed to the extent that about 92% of the town is now metered. With over 5,000 meters now in service, a meter department has been established and the proper equipment has been purchased and installed so that the meters can be tested and repaired by personnel trained in this area.

Mr. Richard Kenney attended the meter repairman training program held at the Neptune Meter factory in Long Island, New York during the week of November 9, 1970. With the knowledge gained through this program plus his experience acquired working with the Town of Weymouth meter department we feel we now have a fully qualified meter repairman.

Mr. Walter Allen our chief operator and Mr. Hollis Young, his assistant both attended a Water Treatment Plant Operators School sponsored by the New England Water Works Association held at Tufts University in Medford for a period of ten weeks. They also attended a three day seminar on the membrane filter test of bacteria, sponsored by the U. S. Department of Public Health which was held in Narragansett, R.I.

The booster pumping station located at Mann Lot Road that serves the west end section of town was out of service for a period of two weeks during the month of May, due to a faulty oil pump. The length of the shutdown was due to the delay in locating the part. After fourteen years of continuous service, twenty-four hours a day, some thought should be given to having this pump replaced in the near future.

The two deep well turbine pumps located at the Webster Meadow well field at stations #10 and #11 were rebuilt during the early spring and put back in service in time for the peak loads during the summer months.

After an inspection by a competent engineering firm, it was recommended that the Pincin Hill standpipe be painted in 1972. The Mann Lot standpipe will be inspected during the coming year.

A new 6" connection has been installed in Humarock at Julian Street. The installation will guarantee domestic as well as adequate fire protection in case of any failure in the under river connection at Brunswick Street.

The Water Treatment Plant was in operation for the entire year of 1970 and was used as needed. This additional supply enabled us to meet the peak demands during the summer months without enforcing any restriction on the use of hoses and sprinklers. It also gives us the opportunity to rest our wells periodically and allows the water table to return somewhere near normal.

The Water Division would like to thank all departments for the assistance and cooperation received during the year.

A detailed table of the year's accomplishments follows this report:

WATER MAINS LAID IN SCITUATE - 1970

Sylvester Rd.	8"	1700'	\$ 8,832.00

WATER TREATMENT PLANT OPERATIONS REPORT - 1970

Walter S. Allen, Jr., Chief Operator

Total Water Pumped into Distribution System	508,666,000 gallons
Total K.W.H. used	781,760 K.W.H.
Total cost of Electric Power	\$15,147.15
Total cost of Plant and Well Operations	\$30,988.95
Cost per million gallson	\$ 60.91
Average cost per K.W.H.	.0193 per K.W.H.
Average number of gallons per K.W.H.	655 gallons per K.W.H.
Precipitation in 1970 - Scituate	39.64 inches
Precipitation, Normal - Scituate	40.68 inches
Maximum pumpage in one day - August 9, 1970	2,963,000 gallons
Maximum pumpage in one week - August 4 - 10, 1970	15,053,000 gallons
Water purchased from Marshfield for Humarock section	62,728,477 gallons
Total cost of water purchased from Marshfield	\$9,889.27

HIGHWAY DIVISION — John R. Brown, Supervisor

Drainage — Approximately 3,300 feet of drainage was installed to line and grade, including 31 catch basins and 4 man holes. Due to the ever increasing drainage problems confronting the town, we have requested in our budget additional funds to alleviate as many of these situations as possible.

Street Sweepers — This year the two sweepers were extremely busy with the excessive amount of sand on the streets from the many small snow storms in February and March. Also, 42 streets were oiled and sanded since early summer which keep the sweepers in operation into the month of December. With the capability and experience of the operators in their daily maintenance of these machines, there was a 40% reduction in maintenance costs for the entire year.

Catch Basin Cleaning — The constant need for cleaning basins throughout the year has brought to our attention the necessity for a vacuum type unit to clean these basins at least twice a year. A machine was hired during the past year and it proved to be very worthwhile even though only one-quarter of the town's basins were cleaned due to our limited budget allotment. We, therefore, feel by purchasing our own machine that all basins could be cleaned more economically for the town. Also, this type of machine can be used in a leaf pick-up program if planned.

Street Line Painting — The reflectorized safety paint was applied to 30 miles of streets. We used 700 gallons of white and 400 gallons of yellow traffic paint. The green crosswalks at the Harbor and North Scituate Village were painted using 30 gallons. Approximately 80 gallons of white paint was used on guard rail fences throughout the town.

Traffic Lights and Signs — Through the cooperation of Sgt. Duffy, Traffic Safety Officer of the Police Department, surveys were conducted and approved by the State Traffic Division in legalizing speed signs on twenty main streets in town. These signs were ordered and erected as designated by the state. Wherever you see a speed sign, it is now legal and the law will be enforced.

Traffic control lights are now being remodernized on Beaver Dam Road at Tilden and Jericho Roads. Damages to Light Standards during 1970 was very heavy and it is becoming more costly and time consuming to repair them.

It is planned this year to install school speed regulation lights at all schools except the High School.

Many other signs were made and erected by our sign men during 1970 and it is becoming extremely costly to maintain these signs due to vandalism.

During 1971 we plan to continue to legalize as many signs as our budget will allow and hope that in the near future all signs will be legal.

Street Resurfacing — Approximately 40 streets had liquid asphalt treatment using 70,000 gallons of asphalt. In preparation for this treatment about 650 tons of hot patch was used to seal the holes and cracks that had occurred during last winter's storms. In addition 430 tons of temporary cold patch was used throughout the year. In 1971 we plan on using more bituminous concrete asphalt and less liquid asphalt to retain longer life to our road surfaces.

Bridges — After communication with the Bridge Division of the State Department of Public Works relative to Edward Foster Bridge which has been shelved for many years, they are now working on a plan to widen and rebuild with new designed approaches. This entire planning with proper appropriation will take about two years to complete.

REPORT OF THE PERSONNEL BOARD

Board of Selectmen
Town of Scituate, Mass.

Gentlemen:

Throughout the year, the Personnel Board has worked with the various departments and offices of the Town to administer the Town's Classification and Salary Plan. Twenty-seven meetings were held during the year.

This was the first full year of operation in which the Board has not conducted the wage negotiations with the employee unions, as these have been transferred to the separate Bargaining Committee appointed by the Selectmen. As a result our Board's efforts have been directed toward salary and wage adjustments and other duties assigned under the Classification and Salary Plan.

Prior to the March 1970 Town Meeting, recommended schedules for wage adjustments and for a reclassification of clerical and administrative employees were worked out with the departments and offices involved and coordinated with the wage schedules negotiated by the Bargaining Committee. All of the Board's recommendations were accepted by the Town Meeting with little or no discussion.

With the present inflationary conditions and the continuing increase in the cost of living, the Board is again recommending wage increases and is working up proposed schedules for presentation to the 1971 Town Meeting.

At the close of 1970, there were a total of 169 regular employees in categories covered by the Classification and Salary Plan:

Police Department	36	Fire Department	42
Public Works	44	Library	17
Town Hall	26	Sewer Works	4

We wish to take this opportunity to acknowledge and express our appreciation for the service of Mr. Leonard Murphy on this Board over the past years, most recently as Chairman, and to express our regret for the Boards' and the Towns' loss from his resignation during the year.

Respectfully submitted,

PERSONNEL BOARD

Carleton F. Bryant, Jr., Chairman
Theodore E. Deckel
Chester F. Wolfe, Jr.
William A. Mather
Richard S. Brown

REPORT OF THE SCITUATE WATERWAYS COMMITTEE

Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

This Committee has held regular bi-monthly meetings during the past year and special and sub-committee meetings as necessary. We were sorry to lose the services of Bill Hurley, a most valuable member, but welcome Peter Fallon as his replacement.

We were gratified by the passage of Article #36 at the 1970 annual Town Meeting for the construction of the new pier and additional floats and fingers at the Cole Parkway. We had hoped for maximum support of the applicable Town Officials and Departments to have this work completed in time for the 1970 boating season, but we will have to settle for 1971. We do wish to thank the Building Inspector, Bill Stone, for his willing and able assistance, and also Representative George (Chet) Young for his efforts in helping to expedite our State Permits.

Mr. Young has introduced a bill, on behalf of this Committee, for consideration during the coming year to have the Commonwealth pay the Town's cost of the current dredging project. We would ask the citizenry to support this bill by a letter to the sub-committee when it is scheduled for a hearing.

Certain projects remain of prime concern as of this writing; the lighting on the Scituate side of the South River is not yet in service, the delay reportedly being on the part of the Town of Scituate. A plan for the registering of moorings in the South River has still not been formulated although representatives of the North & South Rivers Boaters Association now support this recommendation. And also, having learned through the press of the decision to leave town floats in the water this year we expressed our great concern to the Selectmen. Our first storm early in December has caused certain damage which will be difficult to repair, we sincerely hope that future severe weather will not cause additional damage and further expense to the Town.

We appreciate the Board of Selectmen's approval of our request for staggered appointments, and for the opportunity to be of service to the Town.

Respectfully submitted,

Timothy J. McGowan, Chairman
John J. Healy Jr., Vice Chairman
Rosemary Robotham, Secretary
Peter Fallon, Member
William A. Mather, Member
Richard Moll, Member
John C. O'Driscoll, Member

REPORT OF THE FIRE DEPARTMENT

Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

I herewith submit the annual report of the Fire Department for the year ending December 31, 1970.

Box Alarms:

Fires	63	
False	41	
Mutual Aid	<u>7</u>	
Total Box Alarms		111

Still Alarms:

Accidents	77	
Automobiles	24	
First Aid & Rescue	206	
Grass & Brush	82	
Heating & Electrical	91	
Rubbish	35	
Miscellaneous	<u>289</u>	
Total Still Alarms		<u>804</u>

Total Alarms for the Year 915

On March 29, 1970, Fire Fighter Edmond V. Raymond resigned from the department for personal reasons after being a member for fifteen years. Kenneth E. Mee was appointed a permanent Fire Fighter on August 3, 1970, to fill the existing vacancy. Fire Fighter Robert S. Dwight resigned for personal reasons on October 5, 1970, after more than thirty years of service. Mark W. Murrill, a former Chief of the Department, passed away on November 18, 1970. He had served on the Board of Fire Engineers for several years and in 1936 was Chief of the Department.

The Humarock Station is in good condition and it is hoped that it will be painted this coming year. The Harbor Station has deteriorated further during the year in spite of efforts to make needed repairs. The heating system is not satisfactory and needs almost constant attention. This system should be replaced now. No further progress was made during the year as to the possibility of replacing this station.

During the Spring, the fire alarm horn atop the Water Division building in Greenbush was transferred to Station #3 at the Municipal Center. The new aerial elbow, which was authorized at the annual Town Meeting, was installed on the Fire Alarm Repair Truck in August and placed in immediate service. The new 1,000 G.P.M. pumping engine, ordered last year from Farrar

Company in Woodville, was delivered in October and that is now in service also.

May I thank all the Officers and other Departments of the Town for their assistance and cooperation during the past year.

Respectfully submitted,

Charles W. Curran

REPORT OF THE FOREST FIRE DEPARTMENT

Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

I herewith submit the annual report of the Forest Fire Department for the year ending December 31, 1970.

There was a sharp decrease in the number of grass and brush fires during the year. A wet Spring and the statewide ban on outside burning were probably the two main reasons for this decrease. The controlled burning of marshes, fields and other potential hazards was done as weather permitted during the months of April and May but this practice had to be stopped in the Fall in accordance with the new law. It is hoped that the residents of the Town will be careful in these locations where previously precautions were taken to minimize the hazards.

The 1959 Forest Fire Truck is in good condition as some minor repairs were made and new tires were mounted on it during the year. The 1950 Forest Fire Truck is requiring more frequent repairs due to its age and should be replaced next year. This would be in keeping with the plan submitted to the Capital Budget Planning Committee. Some hose was replaced and the portable gasoline pumps were overhauled, so no operating problems are anticipated for the coming year.

I wish to extend my sincere thanks to all Officers, Departments and Residents for their cooperation during the year.

Respectfully submitted,

Charles W. Curran
Forest Warden

HARBORMASTER, CUSTODIAN OF PIER AND SPECIAL POLICE OFFICER OF TOWN PIER, WHARFINGER: John E. Fenton

REPORT OF THE HARBORMASTER

To the Board of Selectmen and Taxpayers of Scituate:

Submitted herewith is a report of the work done by the Public Landing Department for 1970.

Sunken boats raised	7
Boats towed	36
Coast Guard calls investigated	34
Skiffs reported missing	18
Skiffs found	15
Motors reported missing	3
Motors found	3
North and South River patrols made (Scituate boat)	13
Boating accidents investigated	3
Break reports investigated	8
Apprehension of above	1
Violations issued	3
Water ski complaints investigated	7
Assistance with Scituate police	1
Warnings issued to speeders	112

Misappropriation of a boat	1
Tie-ups secured for visiting yachtsmen	625
Special trips with Registry officer	7
Rescue of town bench in harbor	1
Mooring requests logged, 1970	43
Mooring permits issued	603
Dingy tie-ups issued	118
Slip tie-ups issued	35

In addition, the floats were prepared and maintained for the summer season, the town pier was recapped and painted, along with the harbormaster's office and ramps. Six piles and four ladders were replaced on the pier. Six new finger piers were constructed and placed on the floats south of the pier. The channel markers were placed in the North and South Rivers.

The radios and motor that were purchased this year under capital expenditures were a great help in the efficiency and smoother operation of this department.

As many of you may have noticed, the Town floats were left in this year in an effort to further cut down on expenses.

Two new sources of revenue were instituted, which brought the year's total revenue to almost double that of 1968. The operating budget is a thousand dollars less this year than last and down \$2,300 from 1969.

I wish to express my thanks for the help given by the Comptroller's office, Selectmen's office, Police Department, Department of Public Works and last but not least, the two assistant harbormasters without whose help the job would be impossible.

In closing, I would like to point out that with the yearly increase in boating the mooring space has been used up and the slip and dingy tie-up space is hard pressed. Without additional dredging the harbor will be at a standstill as far as additional growth is concerned.

Respectfully submitted,

John E. Fenton,
Harbormaster, Scituate

BOARD OF SEWER COMMISSIONERS: l. to r. Robert R. Purcell, Chairman Robert E. Doyle, Everett L. Crowell

REPORT OF THE SEWER COMMISSIONERS

Board of Selectmen

Town Hall

Scituate, Mass.

Gentlemen:

We submit the following report of the Sewer Commissioners for the year ending December 31, 1970.

There were twenty-one (21) scheduled meetings and five (5) meetings with other Boards of the Town during the year.

At the June 2nd meeting, Mr. Robert E. Doyle was elected chairman to replace Mr. Everett L. Crowell who had served in that capacity for fifteen (15) months.

An operator was hired late in September as there had been a vacancy at the plant since the first of July. During this time the Chief Operator and Operator worked long hours as the summer months is the time when most house connections are made and one of the plant personnel has to approve the installations before they can be backfilled.

Under Contract 69-2 the following streets were sewered: Harbor View Road, Porter Road, Part of Marion Road, Eleventh Avenue, Tenth Avenue, and portions of Oceanside Drive and Cole Parkway.

A small section of Turner Road was sewered under Contract 70-1.

At the March 1970 Town Meeting it was voted to appropriate the sum of \$300,000.00. The bids for Contract 70-2 were advertised and the lowest bidder was J. Andreassi. Streets to be sewered under this contract are Eighth Avenue through First Avenue and a portion of Oceanside Drive.

To date, the number of prospective connections to the sewer system is 785. Of this number 455 homes and commercial buildings have been connected to the sewer system.

In October 1970, annual usage charges in the amount of \$14,325.75 were committed for collection.

During the year many people from Scituate and surrounding towns, college students and elementary school children visited the Water Pollution Control Plant and were very impressed with it's cleanliness and the plant procedures, especially the work performed in the laboratory.

Respectfully submitted,

Robert E. Doyle, Chairman

Everett L. Crowell

Robert R. Purcell

REPORT OF THE DIRECTOR OF VETERANS' SERVICES AND VETERANS' AGENT

To the Honorable Board of Selectmen and
the Citizens of Scituate

We are all aware of the present economic conditions of certain areas in this country whereby a tremendous number of workers have been laid off and are unable to secure employment in other fields of endeavor.

A similar situation exists in Scituate and has caused an increase in expenditures of Veterans' Aid to the worthy cases who are unable to secure employment and have exhausted their Unemployment Compensation and other benefits which are available to them.

During this past year it was necessary to secure additional funds from the Advisory Board over and above the amount appropriated for Veterans' Aid at the 1970 Town Meeting. This situation is confined not only to Scituate, but also has occurred in adjacent towns whereby tremendous amounts of funds were necessary to provide for the assistance to veterans under State law.

I have taken advantage of all Federal and State programs such as Social Security, VA Pensions and Compensations, VA Insurance Program, Massachusetts Rehabilitation Benefits and VA Aid and Attendance for veterans who are eligible for such benefits.

It is very uncertain when this condition will improve. Even our National and State leadership are unable to cope with the present economic condition. The increased living costs and also the costs for medical care are a prime factor in providing only bare necessities in each veteran's case.

I am most grateful to the Board of Selectmen and other departments and organizations in the Town of Scituate for their continued help to our needy veterans and their dependents.

Sincerely yours,

Kevin B. Dwyer,
Director and Veterans' Agent
Dept. of Veterans' Services
Town of Scituate

TOWN COUNSEL: William H. Ohrenberger, Jr.

REPORT OF TOWN COUNSEL

To the Board of Selectmen
Town of Scituate

Gentlemen:

I wish to take this opportunity to acknowledge the many kindnesses and courtesies extended to me during my initial period of endeavor, and transition in the office of Town Counsel. The cooperation and enthusiasm of all involved was indeed heartwarming and much appreciated.

My first year as Town Counsel was a very busy one. The volume of legal business was larger and more diversified than I had expected. Limitations of space prevent me from a detailed explanation of the pending and concluded dockets of the legal department, however I set forth a brief summary herewith:

A case before the Massachusetts Supreme Judicial Court was concluded in that the adverse ruling of the Superior Court affected zoning by-laws no longer in force. Two Superior Court cases were concluded, one case against the Zoning Board of Appeals and one case in Equity as regards a Writ of Mandamus. Two cases before the Land Court in Boston affecting Town interests were concluded. One full hearing before the State Civil Service Commission was concluded. Four suits against the Town by hospitals were settled.

On the District Court level there are three cases in behalf of the Town. There are pending in Superior Court, two land damage cases and three cases against the Zoning Board of Appeals in which appearances and/or answers and pleadings have been filed. Before the Appellate Tax Board there is one full formal hearing pending. Several outstanding informal hearings have been settled.

Title was taken on behalf of the Town of three parcels of property and two conveyances are still pending at the time of this report.

This office is in receipt of five claims for personal injuries which will be a matter of litigation in the near future, and two claims in behalf of the Town against contractors which will be settled or put into suit early in 1971.

In addition to the foregoing, I attended all of the meetings of the Board of Selectmen and met with other Boards upon request. A program of preventive law was initiated and many hours were devoted to opinions and advice directed to various Boards and departments of the Town with the intent of preventing legal difficulties. Several Town contracts were drawn and/or reviewed by this office.

Respectfully submitted

William H. Ohrenberger, Jr.
Town Counsel

REPORT OF SEALER OF WEIGHTS AND MEASURES

Board of Selectmen
Scituate, Mass.

Gentlemen:

A summary of work performed by me for the year of 1970 is as follows:

Devices tested and sealed	254
Sealing fees collected	\$265.40

Respectfully submitted,
Osborne A. McMorrow
Sealer of Weights
and Measures

PLYMOUTH COUNTY AID TO AGRICULTURE (Plymouth County Extension Service)

To the Board of Selectmen:

Once more I want to express my pleasure serving our town as your Town Director. I had lots of fun talking with people, learning and exchanging ideas about agriculture. It seems that every year we have some kind of problem.

This year there were less. We had a drought, but not too bad, and some bugs but less than other years. The greenhouse and the house plants has been quite a bother with white flies and some Aphids. As for the farmers this year was a little more profitable than the last two years. I am thanking the entire staff of the town who made the effort to increase the water supply which will improve the farms in the future.

Sincerely yours,

Alfred Gomes, Town Director

SOUTH SHORE MOSQUITO CONTROL PROJECT

To the Citizens within the Project's control:

Submitted herewith is the report of the South Shore Mosquito Control Project's activities for the year December 1, 1969 to November 30, 1970.

The Project is a year round cooperative effort embracing the City of Quincy and Towns of Braintree, Cohasset, Duxbury, Hingham, Hull, Marshfield, Norwell, Scituate and Weymouth, covering a total area of 172.21 square miles, serving a population in excess of 225,000.

The Project is authorized and acts under the provisions of Massachusetts General Laws, Chapter 252, Section 59, mosquito control provisions, and Chapter 112, Acts of 1931, pertaining to maintenance of ditches put on the salt marshes.

The Project continued to base its program on three recommended approaches to a community mosquito control, giving priority in this order:

A. *Mosquito Source Reduction*, by use of two track crawler backhoes and seavels properly placed and maintained ditches on the coastal salt marshes, the cleaning of blocked brooks and streams wherever necessary, the clearing of brush and growth along swamps and stream edges, the filling in of small wet areas and grading of all fill removed from excavated ditches.

B. *Mosquito larval and pupal reduction*, by use of helicopter and fixed wing aircraft, power sprayer mounted on trucks and Jeeps, pack power and pump sprayers, spray all noted breeding sites.

C. *Mosquito adult reduction*, by use of power mist blowers, thermal foggers, treat areas of mosquitoes resting and emerging.

Accomplished in report period:

- 39,955 cu. feet of new ditch
- 435,600 cu. feet of reclaimed ditch
- 2,400 cu. feet ditches, streams, creeks, cleaned
- 40,205 sq. feet brushing
- 13,976 gallons of insecticide at approximate rate of one gallon to the acre for larval control
- 2,340 gallons of insecticide treated 25,614 storm catchbasins
- 1,061 man hours were spent checking for mosquito breeding
- 3,805 gallons of insecticides applied for adult control

Eastern Equine Encephalitis, a serious virus disease affecting both man and horse, transmitted by the mosquito from birds, reached an epidemic rate in horses this past summer. There were 53 horse cases and 1 human case in Massachusetts, 7 of these horse cases were recorded in this Project's area. A step-up spray operation was made to all horse areas of the project.

The insecticides used by the Project, the formulation and the dosage rates are in accord with the recommendation of the University of Massachusetts Extension Service "1970 Review of Insecticides for Mosquito Control," and approved by Massachusetts D.P.H. Pesticide Board. D.D.T. and other related materials are not used.

The Project wishes to acknowledge all assistance it received from the officials and departments of the communities it serves and give notice that it shall always remain ready with its personnel and equipment to continue to serve these wherever and whenever it is called upon.

BUILDING COMMISSIONER, ZONING ENFORCEMENT OFFICER:
William B. Stone

REPORT OF THE BUILDING COMMISSIONER

Honorable Board of Selectmen
Scituate, Massachusetts

Gentlemen:

Two Hundred Sixty One (261) Building Permits were issued during the year of 1970. The building of new homes, remodeling, additions, repairs, decreased over the past years. Swimming pools increased over past years.

Permits Issued		
54 New Homes		
1 Pipe Mfg. Plant		
1 Store	Value	\$1,552,050.00
188 Repairs		
Additions		
Porches		
Garages, etc.		675,895.00
<u>17</u> Swimming Pools		<u>50,700.00</u>
261 Permits Issued	Total Value	\$2,278,645.00

Total Fees turned in to Town of Scituate — \$5,429.00.

All buildings have been inspected as required by the Town of Scituate By-Laws.

Public buildings have been inspected for safety and recommendations have been suggested for improvements.

The Building Commissioner has attended all zoning hearings. Many violations of the Zoning By-Laws were investigated, most of which were disposed of satisfactorily.

I wish to thank the many departments for the cooperation and assistance that has been given me in the performance of my duties.

Respectfully submitted,

William B. Stone
Building Commissioner
Zoning Enforcement Officer

DUXBURY, MARSHFIELD AND SCITUATE GREENHEAD FLY CONTROL

To the Citizens of the Town of Scituate:

Submitted herewith is the report of the Greenhead Fly Control program conducted on the salt marshes in the Town of Scituate for the summer season of 1970 under the direction of the South Shore Mosquito Control Project, authorized under Massachusetts General Law, Chapter 391, Acts of 1948, Greenhead Fly Control.

Aerial application of insecticide was applied to and around the emergent Greenhead Fly sites of the salt marshes by a Piper Apache 18A type aircraft in early morning hours of this past summer season.

In the Town of Scituate between the period of July 1 and August 21, five separate aerial applications were made. A total of 2210 acres was treated at \$.759 per acre for a total cost of \$1677.81.

REPORT OF THE SCITUATE HEALTH SERVICE, INC.

Board of Selectmen
Scituate, Massachusetts

Gentlemen:

During 1970, the Scituate Health Service, Inc. continued in its efforts to assist in matters concerning the health of the townspeople of Scituate.

The Well Baby Clinic, under the direction of Dr. Lillian McMackin, pediatrician, and in cooperation with the Board of Health nurses, was conducted one day each month at the Town Hall. Well Baby physical examinations and immunization inoculations for measles, diphtheria-tetanus, mumps, german measles, trivalent polio and small pox were given if needed.

The Health Service assisted several worthy families during the year.

The Mobile Chest X-ray program sponsored by the Plymouth County T.B. Association was conducted in May in cooperation with the Board of Health.

In June \$300 scholarships were awarded to Diane Martino and Susan Hamacker who enrolled at Northeastern University and University of Massachusetts Schools of Nursing.

In March and April successful Amblyopia Pre-School Vision Programs were conducted under the direction of the Massachusetts Society for Prevention of Blindness, and in cooperation with the Board of Health and the P.M. Club. Of the 357 children screened, 15 were referred for professional examination. Plans are in progress for the Vision Program which will be conducted again this year during March and April.

It is hoped that in 1971 and the years to follow, we will remain in a position to continue this work and, if possible, find additional ways to serve the health needs of the town.

Respectfully submitted,

Eva A. McKeever, R.N.
President

REPORT OF THE COMMUNITY COUNCIL FOR SOCIAL HEALTH

In 1968, the Jaycees, Chamber of Commerce and Lions Club of Scituate pooled their talents under the title of the Scituate Drug Education Committee to start a drug education program in Scituate. At the 1970 Town Meeting, the then Chairman of the Board of Selectmen, John O'Brien, very aptly stated in his opening remarks that Scituate had a drug problem and the Selectmen had a responsibility to get involved in programs designed to resolve this problem. A resultant marriage of the Drug Education Committee and the Selectmen's commitment for involvement in combating the drug problem created the present steering committee of the Scituate Community Council for Social Health. This committee consists of Scituate citizens who are appointed by the Board of Selectmen. In addition, one member from the Board of Selectmen, Board of Health and School Committee serve as ex officio members on the committee. Leadership for the entire Scituate Community Council for Social Health is provided by the Council's steering committee. The scope of the Council's involvement reaches beyond the subject of drugs; therefore, the justification in the change in organization title.

The purpose of the Council for Social Health is to act as a catalyst for other groups and organizations in town to respond and provide positive resolutions to the social problems affecting our community. The Council meets regularly on the fourth Wednesday of the month at cafeteria "B" in the High School. When requested, the Council will give its endorsement and lend its support to any group working on programs designed to improve the social health of the community.

During the past nine months, the Council has been involved in the following projects:

a. *The founding of Depot* - Depot, initially proposed by the Social Health Councils of Scituate and Norwell, is a non profit corporation whose purpose is to conserve and advance the mental health of the South Shore youth through such media as "Hot-Lines", "Drop-In Centers" and any other facilities they feel are necessary to achieve their purpose. Although Depot was something new and different, our Selectmen agreed with its purpose and unanimously voted in favor of permitting the use of the old railway station on First Parish Road for Depot's headquarters.

b. *Scituate's summer "Drop-In Center"* - The Council endorsed and supported the Center run by Mike Burkart, Skip Flynn and Mike Townsend, the Maryknoll seminaries, at the Ellis estate gate house during the summer of 1970. Attempts by various groups to organize a Center to continue where the summer program left off have been unsuccessful to date. However, the interest and *the need for a Center* by the young people is still present. A

place to have the Center and adult supervision of the Center have been the two unresolved items holding up this project. Without a doubt, the reluctance of the adults of the community to become involved in this type of project is by far the more difficult problem to resolve. The Council shall continue to work towards bringing a year round Center into operation.

c. *School Drug Education Program* - From its proposal phase, through its approval phase and into its present working phase, the Scituate pilot Drug Education Program has been supported by the Council. This support has been quite natural since the Council back in 1968, when it was known as the Scituate Drug Education Committee, was solely involved in the subject of drug education. In addition, the original Drug Education Committee was working on a time schedule which included some form of drug program to start within the schools by the fall of 1970. The present pilot program has been almost entirely organized by its director, John Mahoney. As the program is developed through its pilot phases, it is to be refined and improved in order to meet the needs of the community's school children and their parents. The Council shall provide any and all assistance to this program as may be necessary in assisting it to achieve its objective, the exposure of the entire school population and their parents to the subject of drugs, alcohol and tobacco.

d. *School Drug Policy Committee* - Three members of the Council have served on this Committee since October 1970. The efforts of this Committee are to be presented to John Staples on January 5th for his approval prior to submittal to the School Committee for their consideration and approval. If the proposed policy is approved in its present format, the Scituate School System will have a Drug Policy which will uniquely serve the needs of the students. Scituate's policy should be much more beneficial to the students and school administration than present drug policies of comparable school systems in Massachusetts.

e. *Meetings on Subjects of Current Interest* - The Council will continue to sponsor meetings like its October meeting whose subject was "A Look at Our Schools Today". This meeting consisted of a panel discussion of teachers and students on the psychological effects our schools have on our students today. An outgrowth of this meeting will be a more in depth study of some of the specific areas of education which appear to be missing their mark in providing the students with a meaningful and worthwhile education.

f. *Weekly Teen Column* - Through the joint efforts of the Council and Shirley Southworth of the South Shore Mirror, a weekly *Teen Column* has been established in the Mirror. This column is written by teenagers and should be helpful in informing the community on what teenagers are thinking about and what they are doing. It certainly is more refreshing to read about subjects other than drug raids, riots and social unrest.

In the coming year, the Council shall continue to work in the following areas:

- a. Support of Depot in order that it may continue to contribute its services to the youth of our community and neighboring communities.
- b. Concerted effort to establish a year round "Drop-In Center". In conjunction with this effort, the Council will work for the transfer of the Ellis estate gate house from the School Committee to some other town committee or commission so that it will be available for future community activities.
- c. Strengthening of the School Drug Education Program by making the School Administration aware of the areas of the program which should be revised to make the program better suited to meet the needs of the students and the community.
- d. Pursuit of the implementation in our school system of three items, which were identified in a letter of September 24, 1970 from Selectman Stephen Hall to Joan Hefner, Chairman of the School Committee. These items consist of (1) adults in the community involved in certain senior high school classes on a particular vocation and/or the environment in which that vocation takes place, (2) visits by all Scituate police officers to the grade school classes to discuss their job with the young people, and (3) the opening of school facilities such as chemical and photography laboratories, wood working shops, etc. during off hours for student participation.
- e. Supporting any program which will bring the community, both young and old, together in order that we may live in the truer sense of the meaning of the word *Community*. At the end of this past summer, a rather grave division existed between parts of our community. Through the efforts of Selectmen Stephen Hall and John O'Brien, Police Chief O'Connor, and other members of the community, both young and old, a better understanding of the problems causing the division was achieved. Our community should not think that all of our former problems have been resolved since they are not presently making the newspaper headlines. Continued efforts by the community must be expended in this broad area of learning to work and live together. The Council will strive to make the people of Scituate come alive to the fact that they must learn to give more than just taxes to make their community a healthy place to live.

In conclusion, it is worth noting that the past and present efforts of the Council have been at no expense to the community. All expenditures of funds by the Council have been from its treasury which consists of private contributions from the members of the Council.

Respectfully submitted,

Richard A. Moll, Chairman
Scituate Community Council for
Social Health, Steering Committee

This report has received the acknowledgement of the members of the Scituate Community Council for Social Health, Steering Committee and is herein submitted as the official report of this Committee for the year 1970.

REPORT OF THE PLANNING BOARD FOR THE YEAR 1970

Board of Selectmen
Scituate, Massachusetts

Gentlemen:

During 1970 the Board held 45 regular meetings and eight workshop meetings to draft revisions to the subdivision control rules.

Two subdivisions, totaling 44 houselots, were approved. Five site plans were reviewed, and numerous plans not requiring approval under the Subdivisions Control Law were considered.

In May the resignation of Herbert S. Callahan from the Board was accepted with regret, and the Planning Board and Board of Selectmen appointed John O. Chesley, Jr. to fill the vacancy. The Town is truly fortunate to have many interested, talented citizens willing to serve on boards, and after many volunteers had been interviewed, it proved difficult to choose among them. Mr. Chesley, with his background as an architect, and his prior service as an active member of the Beautification Committee and as an alternate on the Zoning Board of Appeals, has increased the Board's expertise in the area of planning as well as in its function with respect to subdivision of land.

The Board, working with the Zoning Board of Appeals and the Beautification Committee, in addition to its own deliberations, presented an ambitious program to the Annual Town Meeting, and gained approval of all its articles except a proposal to increase lot sizes in the two larger residential zones. The Attorney General, on August 28, approved the revised site plan regulation, the new sign by-law, an expanded earth and gravel removal by-law, clarification of permitted uses in the business and commercial zones, new conditions under which special permits may be granted, and other technical language changes to the zoning by-laws.

The Board also continued its program for construction of sidewalks throughout the town. Emphasis now is on general pedestrian safety rather than specifically orienting sidewalk construction to the school bussing program. Our article for a sidewalk on Country Way, from Curtis Street to a point opposite the old Hatherly School playground, was approved by the Town Meeting. This sidewalk will do much to alleviate uncomfortable conditions for youngsters traveling to and from the Cushing School, the Hatherly Playground and the Peirce Library, as well as for persons walking to the bus stop at Captain Pierce Road.

A Planning Board member served on a special committee which inspected and evaluated the town's existing fire and police facilities and future needs. One member of the Board participated in the search for new sites for refuse disposal, and solutions to this pressing problem. Mr. Dana Mauch, for several years the Board's appointee to the School and Public Buildings Committee, was reappointed to another term. In addition, the Board was represented by at least one member on the committee to update the building by-laws, and on the capital outlay budget committee.

A great deal of time was spent in revising the town's subdivision control rules, and this work is expected to be completed shortly. We consulted with other town departments, and from their recommendations and from our own past experience, we have drafted a new set of rules to more effectively deal with present day conditions.

The town voted planning funds in the amount of \$5,000 at the Annual Town Meeting. After taking advantage of all available planning talent of its own and within the town, the Board made contact with the Department of Community Affairs of the Commonwealth. In cooperation with the Department, questionnaires were circulated to all town departments, and these, having been returned, are now being evaluated by the Department planners. A reconnaissance survey will be prepared by the Department, which will pinpoint the problems and needs of the town. Because of the delay in getting the reconnaissance survey underway, and due to the pressure of other work required by the statute, time did not allow us to use the funds provided by the town meeting for planning assistance.

During 1971 the Board plans to complete the revision of the subdivision control rules; proceed with the Department of Community Affairs in its preparation of the reconnaissance survey of the town; review the recommendations contained in the survey, and, with professional planning assistance and to the extent that funds permit, study in detail the high priority needs of the town as determined by the reconnaissance survey.

In view of the increasing workload of the Board, and the desirability of having a "contact" at Town Hall for citizens and others, it is planned to have a secretary working part time at Town Hall on a regular schedule.

Respectfully submitted,

Gerald E. Dwight, Chairman

John O. Chesley, Jr.

James D. Goddard

Allan van Gestel

John A. Zampine, Jr.

REPORT OF THE ZONING BOARD OF APPEALS

To the Honorable Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

During the calendar year 1970 the Zoning Board of Appeals held thirteen (13) Public Hearings and the following decisions were rendered:

- 24 variances or exceptions were granted (most with specific restrictions and limitations)
- 10 variances or exceptions were denied
- 4 petitions were withdrawn
- 1 petition is awaiting Public Hearing

Copies of all decisions with a complete transcript of proceedings at Public Hearings are filed with the Town Clerk, and in all instances before a decision is rendered the Board investigates and views the premises under consideration.

Fees totally \$975.00 were received with applications for Public Hearing. This money was turned over to the Town Treasurer.

Respectfully submitted,

Paul J. Covell, Chairman
Robert M. Alexander
Herbert G. Taylor

John S. Farley)
William J. Brady) Alternates

REPORT OF THE RECREATION COMMISSION

Board of Selectmen

Scituate, Massachusetts

Gentlemen:

The present Recreation Commission was appointed by the Board of Selectmen in the spring of 1970.

We were charged by the selectmen at that time to formulate an overall recreation program for the town of Scituate.

Regular and special meetings have been held since that time to this end.

With the cooperation of the school department, a survey was taken of the desires of the townspeople for additional recreational programs and facilities.

Based on this survey and on communication with other groups and individuals in the town, the beginning of an overall recreational program has been planned.

One program, an open "Gym Night" was started in the fall and was accepted enthusiastically by up to seventy-five boys and girls each Thursday night at the high school gymnasium.

According to our survey, there are many things the people of Scituate desire for additional recreation. Over a period of years a meaningful program could be established. We feel we have made a start to this end.

Respectfully submitted,

William E. Collins, Chairman

George A. Baker

Russell C. Bishop

Richard Casey

Joanne M. Ellis

Jane A. Fallon

Joseph H. Hayes

Phyllis Mettauier

Roland F. Smith

Oliver W. Woodburn

REPORT OF THE CONSERVATION COMMISSION

To the Honorable Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

Additional acreage of the Kent Street marshes was acquired as Conservation land this year when the Town Meeting voted favorably on articles sponsored by the Conservation Commission. Approximately four acres were purchased from Mr. Alfred Blake with Conservation Fund monies, and eight acres from Mr. Edward Webb, under Article 48.

Forty acres of the Ellis Estate Conservation Land was transferred to the control of the School Department, with the recommendation from the Conservation Commission that a deep hedge of the natural growth along Route 3A be preserved as a buffer, and that an outdoor classroom program be studied to take advantage of the outstanding site. The Commission cooperated with the Libraries Committee in planning additional parking space at the Pierce Memorial Library, which can be used also by citizens when trails are developed on the Ellis property.

A generous gift of five acres of North River marshland, located off Salt Meadow Lane, was made by Mr. and Mrs. Richard Cresswell to the town as conservation land.

Three boys again attended the Junior Conservation Camp in Spencer, Mass., through the efforts of the Commission. The Scituate Grange sponsored one boy as they have for several years. The other boys were financed by private contributions to the Commission. A report, with movies, given by the boys at the September meeting was excellent. It proved the value of such an experience. The Commission solicits support by individuals or groups for this program. Camperships in 1970 were awarded to Guy Tasker, John Bates, and Joseph Dee.

Citizen concern has brought many inquiries and complaints of illegal filling, dredging, dumping, etc. to the attention of the Commission which has cooperated with the Board of Selectmen and the Department of Natural Resources to investigate and correct violations. Much effort and time has been spent by individual members and the Commission on such complaints. Investigations of proposals to develop near conservation land and discussions of some offers to sell land for conservation use took much time.

The real concern of the Commission now is the increasingly evident need for the study and development of a comprehensive, long range plan for the acquisition, protection and use of the town's natural resources. A preliminary list of priorities has been established. The Commission has made application to the Plymouth Conservation District for a Natural Resource Inventory to be done in Scituate. The survey would be made by a technical team with no expense to the town. It can provide the background material on which to base a planned program with well established and documented priorities to satisfy the needs of the total community now and in the future.

The Commission appreciates the efforts and interest of individuals and groups who contact it regarding problems or with ideas. The Commission also welcomes citizens who wish to attend its meetings.

Respectfully submitted,

REPORT OF THE TOWN FOREST COMMITTEE

To the Honorable Board of Selectmen

Town Hall

Scituate, Massachusetts

Gentlemen:

In late February and early March our two Town Forests were badly damaged by extra heavy and severe snow storms. Our Town Forest at Pincin Hill was cleared of downed trees and branches by late spring. The Forest at Chief Justice Cushing Highway has been cleared of most of the debris from the storm a year ago.

Each Forest has a stone fireplace. Picnic tables were placed in shaded locations in each forest. Rubbish barrels were put out and emptied three times a week.

We welcome the Girl and Boy Scouts using the town's forest as this helps to keep the areas clean.

We want you to continue to visit your Forests and enjoy the many benefits and pleasures that nature has put there for you.

Please be careful of Fires.

Respectfully submitted,

Ebba H. Damon

Carl C. Chessia

Scituate Town Forest Committee

REPORT OF THE SCITUATE COUNCIL ON AGING

Board of Selectmen
Scituate, Massachusetts

Gentlemen:

As a result of having mailed out over 1200 questionnaires to the senior citizens of Scituate in December of 1969, your Council on Aging embarked upon a year of increasing activity during 1970. The Council's activities and programs were all devised to be of assistance to some or all of the senior citizens of Scituate. While there are many more programs and activities which could and perhaps will be run, we feel we have made a good start this past year in serving the town and its senior citizens as the following run-down will show.

On February 26, 1970 we formally opened a Drop-In Center for senior citizens at the G.A.R. Hall. Senator Weeks, Representative Young, and Walter VanDalinda of the State Bureau of Aging were present and addressed the more than 80 senior citizens who came. Refreshments were served by the Ladies Guild of Christ Lutheran Church.

In April, through the cooperation of the School Committee and Mr. Staples, the School Superintendent, a hot lunch program was begun at the high school. The cost to any senior citizen who desired to get a hot meal in this program was only 50 cents.

In May we arranged a bus trip into Boston to the Saxon Theater to allow people to see the film "Hello, Dolly". The tickets for the show, which ordinarily cost \$3.25 were obtained for \$2.00. The buses were supplied at the cost of the Council.

During the year the Drop-In Center was open at G.A.R. Hall for three days a week from 10 a.m. to 2 p.m. for senior citizens to engage in crafts, play cards or just meet and chat with their friends.

In early October another open house was held at G.A.R. Hall with refreshments and entertainment provided by the Council. The basic purpose of this meeting was to determine what programs and activities might be needed and which programs should be continued as before. Many ideas were suggested, some of which the Council has acted upon already.

During the month of October the Council on Aging co-sponsored a bus trip along with Scituate's Sixty-Plus Club to Salem, New Hampshire. This was done so that more people than those who are members of the Sixty-plus could go along. Two buses were used as a result for this trip to view the fall foliage, the Council having provided funds for one of them.

In late October we ran a shopping trip by bus to the South Shore Plaza in Braintree. Those who went paid 50 cents for the trip, the Council paid for

the balance of the cost. In November a similar trip was made to the Shopping Mall in Burlington, Mass.

At the request of about 12 citizens, the hot lunch program at the high school was begun again in October. It was good to know that this program was appreciated and that some people were able to obtain a good hot meal who might not ordinarily have gotten one by themselves. While the attendance has not been as good in this activity as it was last spring, we feel that some of this may be due to transportation problems, which we are presently addressing ourselves to.

In December there was a Christmas party held at G.A.R. Hall with refreshments again being served by the ladies of Christ Lutheran Church. Millie Whorf and Mrs. Thomas provided entertainment. Three door prizes were donated by the Council consisting of baskets of fruit.

During the later part of this year the Council on Aging was also involved with the formation of a regional Council on Aging including towns from Quincy to Marshfield. This South-East Regional Council on Aging will be available to every town's Council for the passing on of information and for sharing ideas and programs. We feel this will be a good step in the future development of our Council and its activities.

We are looking forward to another year of activity even better than the last with more programs and services offered. We know what some of the needs of our senior citizens are, and step by step we shall endeavor to meet them.

Respectfully submitted

Dish Washers	30
Disposal	1
Motors	16 HP
Gas Burners	23
Air Conditioners	10
Electric Heat	25
Swimming Pools	13
Miscellaneous	7

Respectfully submitted,

Earl W. Merritt
Inspector of Wires

REPORT OF THE BEAUTIFICATION COMMITTEE

Board of Selectmen
Scituate, Mass.

Gentlemen:

Although the road has been rough at times, we have all managed to work together towards a better town, and we wish to thank you for your cooperation.

In 1970 we designed and built four 48 foot gardens and walks on the Cole Parkway waterfront to form a mall. In the center of this mall we provided a brick platform for the bandstand which had been designed by the committee as the focal point. Labor and materials for the mall and brick platform were supplied largely by means of outside contract at a cost of \$4,000 to the town. About two thirds of the shrubs were paid for by private contributions.

At the Selectmen's request, we consented to undertake the building of the bandstand, although it was our original intent merely to design it.

On September 4th, at the final band concert of the season the committee dedicated the bandstand to the Satuit Band in honor of their 33 years of service to the town, and presented the building and the mall to the town.

Again Shipshape Day in May, organized by this committee, brought out about 1100 young people and leaders to clean up the roadsides of Scituate. Truckers volunteered their services, and some neighborhood projects, planned ahead of time at coffee parties, were undertaken.

In cooperation with the sewer commissioners we landscaped the Sand Hills pumping station. The plantings were supplemented and cared for by Mrs. Sandra Cook and her family.

We assisted the young people of "Depot" in a simple landscaping of the circle in front of the old railroad station.

The revision of the zoning by-law in regard to signs was undertaken by the committee and passed at town meeting.

The committee planted and cared for the flowers at the Jericho Road parking lot, and worked with the Department of Public Grounds on maintenance of previous projects.

Mrs. Stanley Curtis has devoted some part of almost every day to looking after the small park built by this committee at North Scituate. She has cared for all the plantings and picked up refuse, as well as planting the petunias.

We worked with a trustee of the Massachusetts Association for the Blind and with Mrs. Carl Chessia to repair the Lawson gateposts at Sunlight House, which were badly decayed and damaged. Townspeople contributed the money, and Bertram Collins of Wellesley volunteered to do the work, which is nearing completion.

Plans for 1971 include a restoration of the fountain in Lawson Park, and the landscaping of a proposed bus shelter in Cole Parkway.

We are indebted to the personnel of the Highway Department, the Department of Public Grounds, the Water Department, the Anti-pollution Plant, the Police Department, and many of the people at Town Hall for their cheerful cooperation. Again we are grateful to Paul Young for picking up and re-processing junk cars, not only on Shipshape Day, but throughout the year, and turning the proceeds over to us. We thank the volunteers who worked on the bandstand. And we continue to be indebted to the contractors who make their prices low and take pride in doing a job for the town. We welcome the interest of the Rotary Club, who will supply a weathervane for the bandstand. The Garden Club, the P. M. Club, and several individuals have continued their financial support.

Committee members attended many Planning Board meetings, and encouraged the upgrading of several buildings in the North Scituate shopping area. Jack Conway's building at the Harbor underwent a facelifting according to a design done for us by artist Jack Frost. The recent investment of private capital in improving buildings is one of the most hopeful developments in the town.

REPORT OF THE LIBRARY DIRECTOR

Board of Library Trustees
Scituate Public Library

1970 has been a year of growth for the Scituate Public Library. Circulation has increased 6 percent over 1969 with a total of 187,179 books, magazines, phonorecords and art reproductions borrowed by the public. The Peirce Library circulated 7,768 more items in 1970 than in the previous year.

4045 books were purchased in 1970 - reference books, encyclopedias, paperback books for young adults, adult and juvenile fiction and non-fiction. 93 phonorecords were added to the collection as well as 26 cassettes and 34 art reproductions, prints and placques.

Because of the growing interest among children and adults, a large number of books and pamphlets about drugs and ecology have been purchased this year. The art and handicraft collections housed at the Peirce Library continue to

expand to meet heavy demands for this type of material. A great interest in tennis and ice hockey has prompted us to buy additional materials in these areas. The boating book collection has been up-dated to include information for fiberglass boat owners, sailboat racing with the new regulations and guides for overnight cruising.

The spring and fall series of pre-school story hours are the most sought after library service. We extend our appreciation and thanks to Mrs. Evelyn Finnegan and Mrs. Mary Finegan for volunteering their services and providing outstanding programs for pre-school children.

Other activities for children included the Summer Reading Program conducted by Mrs. Dorothy Vergobbe, Children's Librarian, for which 479 children enrolled; a five week series of programs for elementary school age children held during the winter, on Saturday morning, at the Peirce Library, and the Foul Weather program offered on rainy days during the summer, also at Peirce.

The Library has cooperated with various Town organizations by preparing exhibits and book lists for special events and through staff participation in programs. The Library featured the work of Andrew Wyeth at its exhibit for the annual Scituate Arts Festival. The Scituate Environmental Association has placed several attractive and informative exhibits at the Allen Library.

Two study carrels have been placed at the Allen Library for the convenience of adults doing serious study and those using the business books collection. The carrels provide a much needed quiet area for adults in this extremely busy library. The mezzanine will provide a quiet area for adults at Peirce.

An expanding collection of materials and greater use of all library services has increased the work load and diminished the work area. I should like at this time to express my thanks to the staff at Peirce and Allen for their continued good work under these increasingly difficult working conditions.

REPORT OF THE BOARD OF LIBRARY TRUSTEES

Board of Selectmen

Scituate, Massachusetts

Gentlemen:

We herewith submit the Annual Report of the Scituate Board of Library Trustees for the year ending December 31, 1970. The members of the Board of Library Trustees wish to affirm the fact that they have been guided in their decisions by recognition of their responsibility to see that the public libraries effectively serve the community that supports them.

During 1970, the Annual Town Meeting, upon the recommendation of the Board of Library Trustees, took two important steps to improve and expand the facilities at the Peirce Memorial Library. The first was the construction of a mezzanine, designed to preserve the character of this unique building. We are deeply indebted to Mr. Duke Rowat, architect and citizen, who drew the plans and supervised the construction as a service to the Town.

The second step was the creation of a parking area on Town land adjoining the Peirce Library. Shrubs and trees were left between the parking area and the street to keep in harmony with the atmosphere of the neighborhood. Our thanks go to the Scituate Department of Public Works, and Mr. George F. Reekie, Town Surveyor, for the assistance with this project.

We are pleased to report that the Massachusetts General Laws have been amended by Chapter 636, Acts of 1970, which provides for an increase in direct state aid to free public libraries from 25 cents per capita to 37.5 cents per capita. The state grants for public libraries are paid to cities and towns as money available for local appropriation for public library purposes. Although this additional support will not be distributed until a deficiency budget appropriation is made available, it recognizes the increased need of funds for public library services.

We wish to commend Miss Virginia Heffernan, the Director of Libraries, and the staff of both the Allen Memorial Library and the Peirce Memorial Library for their dedication to the service of the citizens of Scituate.

Respectfully submitted,

REPORT OF THE SCITUATE HOUSING AUTHORITY

Board of Selectmen
Town Hall
Scituate, Massachusetts

Gentlemen:

Because of the long Application List for admission to Lincoln and Wheeler Park, the Scituate Housing Authority applied to the State for permission to add to our Housing for the Elderly projects. The application was approved and hopefully money will be allotted in 1971 for this increase in our capacity to serve our elderly citizens.

The members of the Scituate Housing Authority wish to thank the many people who give of their time and talents to make these homes a pleasant and friendly place to live for our retired citizens.

REPORT OF BOARD OF HEALTH

Appointments made by the Board of Health for 1970:

Inspector of Plumbing	Edward B. McCarthy
	Merrill A. Merritt
Inspector of Animals	Richard E. Cugasca, DVM
Inspector of Slaughter	Algart P. Jacobson

Licenses Issued	Number Issued	Revenue Received
Sewage Permit	129	\$319.00
Sewage Truck Permits	1	100.00
Pump & Haul Permits	7	35.00
Rubbish Removal	6	300.00
Installer's Permit	18	90.00
Methyl Alcohol Permits	2	2.00
Funeral Directors Permits	7	7.00
Day Care Agencies	10	150.00
Swimming Pool Permits	2	50.00
Milk and Oleo Permits	100	50.00
Food Service Establishment Permits	29	145.00
Retail Food Server Permits	4	20.00
Dump Stickers	652	No Fee

Activities of Health Agent

Camps Inspected	1
Sewage Disposal Facilities Inspected	129
School Inspections	14
Food Establishment Inspections	106
Nuisance Complaints Investigated	201
Day Care Center Inspections	8
Rodent Control Investigations	3
Bakery Inspections	5

Bacteriological Examinations

Bathing Water	8
Water Samples (Brooks, drinking water, etc.)	9
Milk Products	4
Swab Tests	18
Dye Tests for Drainage	10

Mobil Chest X-Ray Unit

The Mobil Chest X-Ray Unit visited the town on April 27, 1970 and took 507 X-rays at a cost to the town of \$405.60.

Reported Communicable Diseases

Dog Bites	103	Strep Throat	77	Chicken Pox	12
Other Animal Bites	3	Veneral Disease	7	Tuberculosis	2
Measles	1	Mumps	2	Salmonella Carrier	11
German Measles	14	Meningitis	3	Hepatitis-Infectious	11
Scarlet Fever	21				

Activities of Plumbing Inspectors

The Plumbing Inspectors inspected all plumbing installed in accordance with permits on file and for which returns have been made to the Town Treasurer.

Total Permits Issued	— 360	Amount Collected	— \$1,955.00
----------------------	-------	------------------	--------------

Activities of Animal Inspector

During the first two Saturdays in June of 1970 an Anti-rabies Clinic was held.

Number of dogs innoculated	— 856
----------------------------	-------

During 1970, all dogs involved in biting were quarantined, stray animals were boarded and disposed of properly, and inspections were made of cattle, horses, goats and swine as required by the Statutes.

Activities of Inspector of Slaughter

Inspections have been made of meat sold and all animals slaughtered in Scituate during 1970, in accordance with the laws of this Commonwealth.

Activities of Health Nurses

The Scituate Board of Health employs two full-time and one part-time nurse. The Home Health Agency has contracted for part-time nursing supervision since June 1970. The number of nursing visits for both Home Health Agency and Public Health programs was 3634.

Home Health Agency Visits		2,483
Medicare Visits	739	
Private Visits	793	
Welfare Visits	652	
Ancillary Visits	299	
Public Health Visits		1,151
Antepartum	6	
Premature	11	
Postpartum	133	
New Baby	130	
Tuberculosis Program		
Patient follow-up	136	
Skin Tests and follow-up	64	
Diabetic follow-up	26	
Mental Retardation	28	
Hepatitis follow-up	17	
Health Supervision	105	
Mental Health	13	
Salmonella follow-up	28	
Alcoholism	15	
Other	27	

There were ten Well-Baby Clinics with 193 babies treated.

The number of food handlers time tested was 219.

A certified Home Health Agency is required to provide skilled nursing care and at least one ancillary service. During all of 1970 the Home Health Agency has continued to contract with Easter Seal Society providing physiotherapy, occupational therapy, speech therapy, and rehabilitative counselling. The number of visits include:

Physiotherapy	226
Occupational Therapy	28
Speech Therapy	41
Medical Social Service	4

The speech therapist has made use of volunteers who have been specifically trained and supervised by her.

The 1969 Annual Report listed an imbalance of nursing time available for the Public Health Nursing activities and the Board's plan for correcting this problem in order to carry out a soundly-based Public Health nursing program. Implementation of this program started September 1, 1970. This had been delayed by the additional nurse not being employed until after mid-June. This nurse provided vacation coverage in July and August eliminating the previous need of employing temporary full-time nursing coverage for this period.

The Public Health visits January 6 to September 1, 1970 totalled 311. September 1, 1970 to December 31, 1970 these visits were 428 with a grand total of 739. The public health program will continue to be implemented and improved as conditions are anticipated.

Nursing Supervision has been available to the Home Health Agency only since June 1970. This Agency has since received full two-year medicare accreditation. The Board of Health anticipates expanding Nursing Supervision to include Public Health Nursing programs.

During 1970 the nurses have participated in various in-service programs in accordance with the Board of Health policy to provide the Town of Scituate with a complete and effective nursing service.

Maternal and Child Health with the Quincy V.N.A.

Mental Health with Miss Gabriel Bernard, South Shore Mental Health
Brockton Respiratory Disease Seminars

Drug Program at Archbishop Williams High School, Braintree.

Services given at Well-Baby Clinics were as follows: Physical examinations; D.P.T.; Smallpox, measles, German measles, mumps, polio vaccine, and Tine testing.

Assistance and clinical supplies were furnished for Tine Tests in the Public Schools, D.T. immunization, mumps immunization and German measles immunization.

Amount of money collected and returned to the Treasurer for nursing services rendered — \$16,589.77.

We would like to give a special thanks to all the members of the Scituate Health Service, Inc., and all the doctors and nurses who assisted in clinics held during 1970.

In 1970 the Scituate Board of Health has shown overwhelming support to the Board of Health nursing programs. We would like to take this opportunity to thank the following:

Campfire Girls; P.M. Club; High School volunteer students for the Swim Program; FISH; Etrusco Associates; Speech Volunteers (Mrs. Theodora Schwarz; Mrs. Sandra Gillies; Mrs. Priscilla Sykes; Mrs. Marion Kehoe; Mrs. Julie Devlin; Mrs. Nancy Thurson and Mrs. John K. O'Brien); Samuel Tilden, Head of Scituate School Guidance Department; Paul Laughlin (for allowing the use of the Clipper Ship Motor Lodge pool for the Handicapped Swim Program); Representative George Young (for the use of his pool for handicapped adults this summer); Leslie Lee and Betty Welch as volunteer directors of the swim program assisted by Elaine Coughlan, Alice Widmann, Frances Jacobs, and Kevin Sennett.

We would like to thank the members of the Scituate Home Health Agency Advisory Group of Professional Personnel:

Mrs. Joan Harrison, Mrs. Anna Kendrigan, Mr. John Campbell, Mrs. Dorothy Jeffery (representative of Easter Seal Society), Bartley Cilento, M.D., Ralph Froio, M.D., Robert Seidel, M.D., Clifford Ward, Jr., D.O., Carl Pipes, D.M.D., John P. Sullivan, M.S.W., Mr. Edward Dahlquist, Mr. Edward Hickey, Mr. Gerald Leonard, Mrs. Elizabeth Welch, Mrs. Elaine Coughlan, Mrs. Alice Widmann, Mrs. Carmen Bonney, Mrs. Mary C. Murphy, Mrs. Laura Cushing, Nursing Supervisor, Mr. Roland Paulson, Mr. John F. McCarty, Jr., Mr. John F. Ridge, and the Board of Health members.

The Board of Health would like to give special thanks to Mr. Gerald Leonard for his excellent cooperation and assistance in all fiscal matters related to the Scituate Board of Health Home Health Agency.

It is anticipated that the same type of cooperation may be obtained in the future with other town departments thereby providing total benefits to all residents of the Town of Scituate.

Respectfully submitted,

Lewis F. Wells, Jr., Chairman

RETIREMENT

On October 22, 1970 Sgt. Ernest M. Damon retired after 40 years of service to the Town of Scituate as a Police Officer.

On August 17, 1970 Patrolman Joseph F. Devine retired after fourteen years of services to the Town of Scituate as a Police Officer.

IN APPRECIATION

Your Police Department sincerely appreciates the cooperation and assistance given to it by the Board of Selectmen, other Town Officials and the Citizens and ask their continued support in the coming year.

Respectfully submitted,
James E. O'Connor
Chief of Police

INDUSTRIAL DEVELOPMENT COMMISSION: Seated, William P. Hefner, Jr., Chairman; standing, Stuart D. Walker, Roland Paulson, Edward J. Hanafin, David J. Gaffey. Members now shown: John E. Conway, David Nellis, Kenneth Burgess, John Ridge.

REPORT OF THE INDUSTRIAL DEVELOPMENT COMMISSION

The Scituate Industrial Development Commission is charged with the development and promotion of the economic and industrial resources of the town through research of assets and development of programs for the purpose of expanding and strengthening the local economy.

During the past year this commission endeavored to broaden the scope of activity to include the further development of existing business and commercial operations in the community. As noted in our 1969 report, the attitude of the major owners of property in the Commercial Zone continues to be quite reserved towards development of the Driftway area.

In the past year the SIDC held regularly scheduled meetings each month. Discussions with local businessmen and representatives of the State Department of Commerce and Development. Members of the committee have also toured the various business and commercial zones.

There were several interesting and positive developments in the Scituate business communities during the past year. The SIDC was able to provide effective liason in certain areas of these ventures. Among these were the Bound Brook Court Development in North Scituate, the Clipper Ship Motel opening, the groundbreaking for the Conway Office Building, renovation of the Scituate Playhouse in the Harbor Business Area, and also the reconstruction of the Thornton Store with the apartments on Turner Road.

The SIDC is currently in the process of compiling the results of a questionnaire submitted to local businessmen. The results of this questionnaire will aid the commission in the development of the most effective program to assist existing and proposed new ventures in the community. Hopefully, the results of this survey will be available prior to Town Meeting.

In the past year the SIDC has met with two local businessmen who presented different proposals for apartment units along the Driftway and Kent Street. All of the data and information indicate these particular units should provide a positive gain for the Town of Scituate. It is expected articles for these ventures will be presented at the March Town Meeting.

This year the SIDC is sponsoring an article for consideration at the Town Meeting. This article proposes the creation of an Industrial Development Financing Authority for the town under Chapter 40D as amended by Chapter 772. The general purpose of the authority is to provide the financing of industrial development projects that would alleviate the lack of business opportunity to attract industry or expand existing industry in the town. This procedure has been implemented with success in a number of other towns in the Commonwealth.

SIDC future objectives include the following:

- 1—Propose article for Town Meeting Warrant to create an Industrial Development Financing Authority.
- 2—Complete survey of local business community to assess the areas where the SIDC can be of assistance.
- 3—Development of brochure highlighting the economic potential, recreational features, and historical sites of the community.

REPORT OF TRAFFIC RULES AND REGULATIONS COMMITTEE

The procedures which allow a municipality to regulate traffic on its streets require a formal submission of requirements to be presented to the State Department of Public Works under Chapter 85, Section 2 of the General Laws, tercentenary edition. The last time this was performed for the town of Scituate was May 24, 1945. In order to update the town's 25 year old traffic regulation permit, a Traffic Rules and Regulations Committee was formed by vote of the Board of Selectmen and held its first meeting on September 28, 1970. Members were selected to give the committee effective balance and include Sgt. John Duffey, Police Traffic Officer, Deputy Fire Chief Walter Stewart, D.P.W. Superintendent John Caulfield, John Brown, Highway Department Head, George Reekie, Town Engineer, and Selectmen Richard Damon and Stephen Hall.

The committee agreed that proper communication with the townspeople was of paramount importance to its efforts and established the first public hearing on November 2, 1970. Despite very inclement weather, a large turnout of involved citizens voiced their opinions on Scituate's traffic problems. A second public meeting was conducted on November 23, with the first hour devoted to general problems and the second hour devoted specifically to Front Street. On November 30, the committee met with representatives of the State D.P.W. to further gather information on the traffic permit update.

The committee has established two objectives for 1971. The first is a street by street update of the permit conducted in full communication with all involved residents, and the second is the adoption of Section 20C of the General Laws, Chapter 90, in lieu of the current governing section which is 20A. The existing features of Section 20A call for warning tickets unless court appearances are required at which time a maximum fine of one dollar is levied up to the 5th offense after which the fine is increased to two dollars. Section 20C which is the subject of an article in the town meeting warrant, if adopted by the town, will allow the Selectmen to establish the fines up to a maximum of \$15.00, said fines to be published and applied objectively in all instances. The committee believes that the penalties provided in Section 20A are insufficient to control traffic, particularly with the influx of one day summer bathers who often tend to view the one dollar fine as a form of "parking fee", thus illegally obstructing the right of way to fire, police and normal traffic. The Committee wishes to express gratitude to its secretary, Ann Riccelli, and to Mary Lyons, secretary to the Planning Board, for her help during the hearings. Finally, those citizens who became involved by the expression of their views deserve special appreciation because we believe the committee's effectiveness is enhanced considerably more in the role of

coordinator and catalyst in reflecting the public will than in any form of unilateral decision making.

Respectfully submitted,

Stephen S. J. Hall, Chairman

REPORT OF CHARTER COMMISSION STUDY COMMITTEE

Board of Selectmen
Scituate, Massachusetts

Gentlemen:

We submit herewith a brief report of activities of the Charter Commission Study Committee.

We were appointed by the Moderator immediately following the Annual Town Meeting of March, 1970, to succeed the Committee to Study the Structure of Town Government which had been active during 1969.

Convinced by our meetings and discussions with others that a meaningful review should be made of our Town Government, and that the Charter Commission approach offered a satisfactory means by which such a study could be made, we obtained signatures from a sufficient number of registered voters during March and April, 1970 to call for the question of electing a Charter Commission to be represented on the Town's March, 1971 referendum. By ballot the voters will be able to vote (1) whether they want to have such a Commission elected to conduct a one-year review and (2) for the people whom they would like to see serve on that Commission.

If elected, the Charter Commission, acting under the provisions of the Home Rule Amendment to the State Constitution, will conduct a study of our present form of Town Government and its procedures, consider whether any changes should be made, and draft a Charter for submission to the voters of the Town at the March, 1972 annual election. At that time, the voters will have the opportunity to vote for or against the new Charter.

We strongly recommend that a study of our Town Government be made and that a Town Charter be prepared and submitted to the Town because: (1) no study as thorough as that called for by the Charter Commission statutes has been conducted in Scituate for a great many years and (2) the Home Rule Amendment requires that every community publish its Charter at least once each 10 years. On this basis, Scituate would have to compile a "charter" at least by 1976. We feel that it should be done now. Nothing can be gained by waiting.

It is important to recognize that the immediate question proposed for the March, 1971 ballot does nothing more than seek approval for a study to be

made and for the election of nine people to conduct the study. This approach is being followed by a rapidly increasing number of communities in Massachusetts. More than 52 towns and cities have already studied the pros and cons of creating Charter Commissions and have appointed committees similar to our present Committee. Twenty-four communities have already formed Charter Commissions.

We wish to thank the Board of Selectmen and other Town officers for their cooperation and help over the past months.

Respectfully Submitted,

Phillips N. Weeks, Chairman

Walter Driscoll, Jr.

CHARTER COMMISSION

STUDY COMMITTEE

REPORT OF THE REFUSE DISPOSAL COMMITTEE

Board of Selectmen

Scituate, Massachusetts

Gentlemen:

The Refuse Disposal Committee was appointed by the Selectmen early in 1970. A number of attempts have been made by town officials over the years to bring about a solution to our solid waste disposal area.

The problem of solid waste disposal is not unique to our area. Nationally we see that the per capita amount of daily refuse produced is about 5 to 7 lbs. per day per person.

We have listened to and talked to a number of well-intentioned persons who feel that various solutions and methods of waste disposal will best serve our needs.

However, in our considered opinion we feel that the most economical interim solution is a proposal to establish a new refuse disposal area.

This new area would allow us to operate a clean efficient economical method of solid waste disposal that would be well within the standards of the State Department of Public Health.

We propose to operate a true sanitary landfill whereby the refuse would be covered and compacted on a daily basis. The area would be large enough to take care of our needs for the foreseeable future or at least until the State

and Federal government propose a regional solution. If and when this happens the land will still be useable to the Town.

We feel that this solution is best for the Town and we ask your approval on this urgent problem.

REPORT OF THE TOWN COLLECTOR

The employees of your Collector's Office have attained the following goals by giving 100% of their effort and time during the past year.

1. Reduced the outstanding Real Estate, Personal Property and Excise taxes by \$53,260.00
2. Brought our taxes within a two year cycle.
3. Helped to attain the Town's second largest Free Cash of \$530,277.00.

My sincere thanks to all who assisted in these efforts.

Respectfully submitted,

John W. Carroll

Town Collector

REPORT OF THE TOWN TREASURER

This year has been a very satisfactory one in your Treasurer's Office. Our goals have been attained, and the Town has reaped the rewards of the following:

1. Increased Earned Interest on invested cash from \$8,164.00 in 1969 to \$17,829.00 in 1970.
2. Reduced interest spent on Temporary Loans by \$30,973.00 compared to the previous year. Prepayment of notes added another \$1,931.00 to the Town Treasury.
3. Our Stabilization Fund has increased to a year-end balance of \$212,332.45, and our Conservation Fund increased by \$1,224.95 through earned interest.

Cash on Hand January 1, 1970	\$ 1,436,893.82
Receipts for 1970	14,029,768.46
	\$15,466,662.28
Payments for 1970	\$14,053,653.08
Cash Balance December 31, 1970	1,413,009.20
	\$15,466,662.28

My sincere thanks to all who assisted in these efforts.

Respectfully submitted,
John W. Carroll, Treasurer

REPORT OF THE SOUTH SHORE REGIONAL SCHOOL DISTRICT COMMITTEE

This year we expanded our offerings to eleven trades by the addition of a course in Automotive Light Repair. This will provide instruction for students who will be placed in smaller garages and service stations.

The additional course in Combination Welding we established two years ago has received a Federal Aid commitment of \$11,468 for equipment and salaries. From this course were sent out our first cooperative plan students. They will alternate, one week in industry, with one week in school.

Our outside carpentry project this year is a large building to house the South Shore Natural Science Center in Norwell. This is a fine example of youth serving youth since our young men will erect a project dedicated to the education of South Shore youth in the natural sciences. Our electrical department will provide the wiring and electric heating for this project. The mill carpentry department will eventually furnish the display cases, built-in case work, etc.

In our drafting department, we are providing instruction for several students with physical handicaps. This is in addition to our regular drafting program.

We have continued to upgrade shop equipment with the addition of a drum sander and straight line rip saw in the mill carpentry department. A larger spot welder and several wire feeders were added to the metal department. In the machine shop, a larger surface grinder and two metal-working lathes were replacements for obsolete government surplus property.

There were 55 graduates in the class of 1970. The high quality of the graduates is reflected by the fact that 100% of the students desiring to be placed were placed at a time when the employment rate in the area had risen sharply. The median hourly rate for the class of 1970 was \$2.52 per hour. Most of the young men have received increases since being placed because they have been able to prove their worth.

Of these graduates, 2% have entered the armed forces and 9% have continued their education on a full time level. Colleges selected were Northeastern University, Massachussetts Maritime Academy and Wentworth Institute.

There were 7 graduates from Scituate.

Abington	13	Norwell	4
Cohasset	2	Rockland	11
Hanover	9		

The October 1, 1970 enrollment was 324. With the opening of the new Auto Light Repair program, enrollment increased to 340.

As of this year, facilities are being provided by the South Shore Regional School District for Vocational Teacher Training classes conducted by the

Division of Occupational Education on Monday through Thursdays. This is a service extended to the Division in order to provide a source of trained vocational instructors. There are approximately 50 people involved.

Respectfully submitted,

Frederick E. Ahearn

ANNUAL REPORT
OF THE
School Committee
OF THE
TOWN OF SCITUATE

For the Year Ending December 31

1970

SCHOOL COMMITTEE MEMBERS: l. to r. Harold E. Gerbis, Andrew J. Berlo, Peter J. Murphy, John Y. Brady. Mrs. William Hefner, Jr. was not present when photo was taken.

A MESSAGE FROM THE SCHOOL COMMITTEE

Dear Fellow Citizens:

This year of 1970 has been a challenging year in an era of changing times throughout the country which sees its reflection in education in almost every community. Increased problems of Housing, Drug Education, Collective Bargaining, Special Education Programs, Expanded Curriculum, and the ever rising cost factor for goods and services rendered are but a few of the major problems which have faced your School Committee these past twelve months.

It has been necessary for the Administration and School Committee to meet a significant number of times over and above the regular bi-monthly meetings. Our interest and concern is to continue to maintain the high quality standard of education for the Town of Scituate. A few of the many areas of interest by the School Committee are:

1. Educational specifications for the new middle school
2. Current and future school housing needs
3. Expansion and addition of certain federal and state aid programs
4. Coordination with local boards to evaluate the schools as a local educational resource
5. Collective Bargaining negotiations with many different groups within the school facilities
6. Curriculum revision, evaluation, and future projection
7. Budgetary evaluations in comparison with current economy situation

With the help and support of Administration, Staff, and Community, the School Committee feels it has met many of these challenges. The School Committee also feels that the children of Scituate, who are our main concern, and the citizens of Scituate, to whom we are responsible, have benefited and will benefit from the decisions made.

Some of the areas in which our decisions have met the challenge are:

1. Formulation of Middle School educational specifications
2. Establishment of a Drug Education Program with In-Service Training for both Staff and Parents
3. Establishment of a program for Learning Disabilities
4. Adoption of a Bilingual Program for the School System
5. Establishment of Hot Lunch Program for Senior Citizens and implementation of two special Adult Education courses for late afternoon
6. Expansion of the Adult Evening School
7. Expansion of Summer School Program
8. Expansion of curriculum and innovation of mini courses at the High School.
9. Greater communication with high school students by means of informal meetings with the Committee

10. Expansion and extension of pupil personnel services

Much time and effort was spent with the educational specifications for the 1200 pupil Middle School. Many hours and days of research and consideration — educational research into what type of education would best serve the youth of Scituate — and economic consideration as to what the community of Scituate can afford. We believe we have the best of the two worlds.

The School Committee has specified a flexibility in structure to meet the on-going needs of the total educational program; and we have provided innovative facilities for the many areas of curriculum designated by the State Department of Education and leading educational authorities as being a relevant, applicable, and complete curriculum for the future. At the same time, we have tried to keep the size of the building to a minimum, since we believe this is the one positive way to keep down soaring construction costs.

In developing these plans and specifications, the School Committee believes that it has taken every opportunity to cooperate with other town committees and it is through this mutual cooperative spirit that our 1200 pupil Middle School will be built.

We would like to thank the Scituate Conservation Committee for its cooperation in making the Ellis property site available to the Scituate School System for building purposes, and to concur wholeheartedly our approval for their suggestion of development of the natural resource for nature trails and expansion of other aspects of conservation as part of our educational program — in the form of an "outdoor science classroom" which has been most encouraged by the State Department of Education, and has been termed an "asset" by members of the Scituate Community.

We would also like to thank the Scituate School and Public Building Committee which has been actively involved in each step in the development of these educational plans and specifications. We shall continue to work closely with this Committee as they hire an architect and interpret these specifications into working drawings. To them, and all the citizens of Scituate, we pledge a sound education structure at a minimum cost.

The Committee wishes to commend the School Administration for its creative and professional response to the problems posed. We wish to commend the staff in all departments of the educational system for its dedication to service. We wish to recognize other town governing boards and town employees for their cooperation in providing services and cooperation to the schools.

To the citizens of Scituate we commit ourselves to continued dedication to the task assigned us and ask your help, cooperation and support in meeting the educational needs of our children.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Scituate:

As we look back on the year 1970, we are pleased with the educational accomplishments that have been made by our entire staff. Although it would be hard to pinpoint the most important achievement, the progress towards construction of a new middle school comes immediately to mind. This is only one pursuit, however, of the varied areas of the educational system. The tasks evolving from a commitment to provide each child with quality educational opportunities can only be surveyed in this report.

It is with pride and regret that we in the Scituate schools note that this past year marked the final year of service to the town of Scituate of Mr. Edward L. Stewart who retired last October.

During his thirty-seven years of service as a teacher, coach and principal, Mr. Stewart has left an indelible mark on those who have known him. He will be missed by the Town, students, and his colleagues, not only as an administrator, but, more important, as a friend. We sincerely wish him well in his retirement years.

CURRICULUM DEVELOPMENT

During the past year, committees of teachers and administrators have developed programs in the many subject areas that chart the changes in the content and processes of the educational program.

The connecting class has been one of the most effective prevention programs directly aimed at the individual needs of the post kindergarten child. Through the efforts of Mrs. Helen O'Connor, Chairman of the Reading Department, and Mrs. Jacqueline White, Assistant Principal for kindergarten classes, a very effective screening process has been designed. Through this process each child begins a program of diagnostic learning that is geared to his specific and immediate needs. The concept of detection and prescription of diagnosed learning needs is recommended for adoption at all levels. The administration has directed all curriculum study groups to use this approach in developing specific programs.

The School Committee has approved the implementation of a program in Social Education. Under the direction of Mr. John Mahoney, an in-service program for teachers was held. This program had as its objective, the

dissemination of information regarding smoking, alcohol and drugs and the impact these narcotics are having on our society. A second objective was to prepare lesson plans for appropriate grade-level instruction and evaluate these lesson plans for an eventual course of study.

In addition, an adult education course acquainted parents with the social education program as it developed. At the same time a policy committee of teachers and parents met regularly to develop recommendations regarding the handling of problems of drug abuse.

The use of para-professionals throughout the schools has offered the teachers greater opportunities to utilize their talents for more direct benefit to students. The aides are to be commended for their dedication and the highly successful way in which they have enriched the educational opportunities for all students.

The school librarians have undertaken a two-fold task: to provide instruction in library techniques and to provide necessary resources for pursuit of learning in the various academic areas. As our librarians assume more and more responsibility for all instructional media, the need for more professional help becomes greater. The development of instructional media centers that enable teachers to utilize all of the audio-visual materials available through current technology should be a primary goal of each school building. The librarians are to be commended for their efforts in developing this new role.

FEDERALLY FUNDED PROGRAMS – Fiscal Year 1970

During this past fiscal year, the Scituate Public Schools received Federal grants in several curriculum areas.

Under the provisions of Title I of Public Law 89-10 (the Elementary and Secondary Education Act), four separate projects were written, approved and implemented. These programs focused on early childhood education (Pre-Kindergarten) and Bilingual Education.

The two approved Pre-Kindergarten projects provided a twelve-month school environment for deprived children prior to their entrance into the Scituate Public Schools' formal kindergarten program.

A federally funded Pre-Kindergarten program under Title I of the Elementary and Secondary Education Act has been in operation in the Scituate Public Schools since September of 1964. Each school year that this program has been offered to pre-school children, changes have been made to better adapt its operation as part of the total school educational program.

This past school year the program guidelines as developed by the Office of Health, Education and Welfare and the Commonwealth of Massachusetts, Department of Education, set priorities on early childhood programs for children from poverty and educationally deprived environments.

A professional staff and interested group of lay people organized and developed a system of identifying and screening out those children who could best benefit from this early childhood educational experience.

This year a unique opportunity has been given to the interested citizens of Scituate to participate in the continual evaluation and development of early childhood programs. As a result of this opportunity, a Parents Advisory Committee (PAC) was officially organized in late 1970 to assist and advise the overall program operation.

The apparent success of this Pre-Kindergarten program through the opportunities derived by all concerned indicates that this level of educational program can be successful and worthwhile.

The Bilingual program focused its attention on the educationally deprived immigrant child. It provided only a primary step toward the development of a realistic approach to the solution of teaching basic speaking, reading and writing skills for these children. The two approved bilingual projects extended the program through a twelve-month school period.

Under the provisions of Title II of Public Law 89-10 Elementary and Secondary Education Act, seven separate projects were written, approved and implemented for programs specifically earmarked toward library resource improvements. Because of the effort and priorities established by the Scituate Public Schools in their annual budget for the school libraries, the Scituate Public Schools received several thousands of dollars under this grant to supplement and expand the educational resources needed for curriculum support. Since the law was enacted in 1965, the school libraries have been able to expand their resource offerings specifically in the direction of multi-media educational materials.

Under the provisions of Title VI of Public Law 89-10, Elementary and Secondary Education Act, two projects were written, approved and implemented for programs which specifically assist the development of curriculum for educationally handicapped children.

The first project provided funds for curriculum materials to be used for children with learning disabilities. These materials were distributed to each school where children had been identified with perceptual learning problems.

The second project provided funds for curriculum materials to be used with children who were identified as emotionally disturbed.

Both projects concerned themselves with educational materials of a specific nature and required as a prerequisite the establishment of such programs by the Scituate Public Schools.

Under provisions of Title III of Public Law 864, National Defense Education

Act, funds were received for strengthening educational curriculum areas. This past year three separate projects were submitted for Science Education. Materials were received for our school system which assisted the development of science programs emphasizing the "inquiry-discovery" approach to learning. Programs such as *Harvard Project Physics* and *Intermediate Science Curriculum Study* were equipped to provide the necessary student participation experiences basic to this concept teaching.

Under provisions of Title V.a. of Public Law 864, National Defense Education Act, funds were received for Guidance Services. This title provided an amount of \$.50 per child when the ratio of guidance personnel services met the required Massachusetts Department of Education standards.

In conclusion, the programs in our schools which received federal funding had a significant impact on the improvement of educational opportunities for all of our students. In most cases, this assistance directly reduced the amounts of money that would have been raised through regular budgetary procedures. It is a recommendation that we continue to examine and pursue all avenues of Federal assistance that are available to our Scituate Public Schools.

SPECIAL PROGRAMS

Special Education

Massachusetts has been a leader in the field of Special Education for more than a decade now with Scituate doing its part to develop the program to the fullest. In the past few years, we have introduced a basic occupational training course in the Primary and Intermediate levels enabling the student in the educable class to learn more meaningfully in the academic areas.

Large new classrooms, equipped with kitchens and woodshops have been an asset to these special programs in learning. As a result of these strides made by our school system, our program ideas in Special Education Curriculum have been adopted in towns throughout our state, making Scituate's Special Education Program one of the exemplary programs in the State of Massachusetts.

Bilingual

The arrival of many non-English speaking children to the Scituate Public Schools has been a challenge to our faculty. This challenge to our faculty has been relieved by the addition of teacher aides to help the classroom teachers. This help has proved invaluable not only to the teacher, but most importantly to the children involved. These children come to our schools with varied backgrounds of education, some have no formal education, and yet the child may be 9, 10 or even older.

ELEMENTARY SCHOOLS

At the elementary level, responsibility for continuous curriculum improvement has been given to the elementary principals. Each principal has undertaken the task of developing objectives and systems for achieving excellence in our schools in one of the academic areas. Because reading is so basic to all academic areas, we have utilized the talent within our schools and developed a separate reading department for this same purpose.

Respectfully submitted,

John J. Staples
Superintendent of Schools

KINDERGARTEN

Over the course of the past decade there has been a thrust among educators across the nation to provide more than the social learning situation in kindergarten as had formerly been the case.

The Scituate Public Schools Kindergarten for years has always been in the forefront in this area.

For the first time in the history of the Scituate Public Schools almost 400 children were coordinated into one unified kindergarten unit. This provided opportunity for greater observation, discussion and planning among teachers to implement a program interpreted to provide the continual upgrading of educational experiences and methodology. Constant evaluation was effected to provide the creativity and continuity essential to the vitality of such a program.

It has been our stress and continuing effort at the kindergarten level to provide all the social learning essential, and also to provide greater opportunity for the child who is ready for more. To this end our approach has been geared through grouping and individualization to reach not only the child with special abilities, but also the child with special disabilities.

This has been made possible not only by teacher judgment which is most valuable, but also by earlier screening techniques now employed with the children at this level. Reading readiness and reading activities and enriched mathematics are provided for the child who is competent to accept these tasks.

Numerous innovations were introduced. A coordinated penmanship plan was initiated. Art, music, physical education specialists, and librarians came to the kindergarten on a weekly basis to enrich the ongoing curriculum. Guidance counselors were enabled to more readily reach and serve children of the same approximate age level and interest. Since field trips were not feasible, programs of puppetry, music, animal lore, safety education and many others were brought to the children.

Parents were included in this ongoing program. They assisted with the planning of many of the extracurricular interests. Parents were brought together with teachers in discussion of testing, teaching and follow-through techniques for first grade.

It was felt that educators, parents and children coordinated their efforts in a unified, cooperative atmosphere of learning which provided the goal we wish to serve.

Respectfully submitted,

Mrs. Jacqueline White

Assistant Principal

Kindergarten

READING

In conjunction with early identification of potential learning difficulties, kindergarten testing will be administered in December 1970. This will be of great value in prescribing educational objectives for individual children and groups at the kindergarten level and to proceed immediately with a visual perception program where necessary and/or an auditory program which we will use on a trial basis in 1971.

The Reading Curriculum Committee is currently investigating the revision of the existing curriculum guides in terms of specific educational objectives; attempting to determine if organizational plan has a direct effect on reading progress; an evaluation of existing reading materials in helping teachers to fulfill these objectives.

The Croft Inservice Reading Program has been introduced to the faculty of each elementary school. This is a systems approach to word attack skills. Each teacher, kindergarten through sixth grade, will participate in a series of workshops to be held January 12, 1971 through April 23, 1971. This program offers a sound viable solution to the upgrading of teachers' skill in this important area of the reading program.

Following a recommendation made at this time last year, we have instituted a developmental in addition to a remedial program at the junior high school. This program will be continually evaluated to insure the acquisition and maintenance of skills basic to success in reading for those students who need it.

It is recommended that the high school reading program be expanded to meet the needs of remedial students in addition to offering developmental reading for ninth grade students. In terms of personnel, an additional full-time teacher would be required to create an effective program.

Respectfully submitted,

Mrs. Helen O'Connor

Chairman, Reading Dept.

SCIENCE

Early in the school year of 1963 the elementary schools began their first major effort toward the revision and reemphasis of the elementary science curriculum. A committee of staff personnel representing kindergarten through grade 12 was organized, held meetings and developed a five-year sequential plan which was adopted by the School Committee in 1964.

A major consideration in this sequential plan called for an introduction of programs that were child-centered, child-operative and used a discovery approach.

During the following school years the curriculum committee recommended various federally funded programs, tested their programs in the summer school session and recommended adoptions. The final phase of adoptions was completed during the summer of 1969, with a complete schedule of science activities.

Early in the school year of 1970 the Science Curriculum Committee reorganized to evaluate the present status of the elementary science programs with the purpose of:

1. Testing the effectiveness of the overall program
2. To rewrite a new five-year program sequential plan

The committee feels that this step must be taken before new programs can be considered for adoption. The committee also recommends that an in-service training program be instituted for all elementary personnel teaching this science program.

Respectfully submitted,

Mr. Guido Risi

Principal, Hatherly School

SOCIAL STUDIES

The elementary Social Studies program is being studied this year for revision and updating. A committee has been appointed by the Superintendent to investigate the present curriculum, and to give serious consideration to the implementation of a continuous K-12 interdisciplinary approach to social studies. The committee is made up of teachers, administration, and interested representatives of the community. It is hoped that the committee will be able to make its recommendations in the early part of April, 1971, for consideration by the School Committee and implementation by the fall of 1971.

Respectfully submitted,

Mr. William Keane

Principal, Central School

LANGUAGE ARTS

“Phonemes”, “graphemes” or “morphemes” to many of us sound like a foreign language, but to many of our elementary school children they are familiar terms with a meaning. We are using a linguistic approach in the area of Language Arts and these terms are part of a new vocabulary that the children have acquired. It is important to the children that this approach be utilized because the changing world in which our children live demands that we prepare them better for the future in both their oral language and their written language.

Teachers expressing the attitudes of their schools have highly endorsed this linguistic text used for language. A committee has been established to evaluate the program to see how we can improve and provide ambitious, yet attainable, goals.

Respectfully submitted,
Mr. George Duggan
Principal, Wampatuck School

MATHEMATICS

The first phase of a new Mathematics text adoption in Grades K-6 has re-emphasized the diagnosis of weaknesses in the area of basic skills. Recognizing the necessity of mastering these skills, our Math Curriculum Committee has selected a new text with a carefully controlled vocabulary so that reading problems do not hinder success in Mathematics. Our new text was selected also on the basis that it offered a variety of approaches to a mathematical operation. Its unique five-step method of problem solving is begun in the first grade. Concrete manipulative materials are also available to facilitate the mastery of abstract concepts.

Present on the Math Committee and providing assistance in the textbook selection were the Department Chairmen from the Junior and Senior High Schools. These gentlemen carefully studied this selection with an eye to the continuous development of concepts from Kindergarten to Grade 12.

A workshop was conducted in the fall for all teachers in the use of the new Math material which includes diagnostic tests and manipulative aids. Use of the diagnostic tests and diagnostic teaching was emphasized by a Math text consultant who was called in to conduct the workshop.

Recommendations on other manipulative materials to accompany the text are high on the list of priorities of the Math Committee.

With an eye to the future the committee has recently been working on such projects as evaluating computerized instruction, and developing a curriculum guide which will keep our curriculum content current, and meaningful to today's student.

May I take this opportunity to publicly commend those teachers in our system who have worked on the Math Curriculum Committee for their conscientious efforts in making our Math program what it is today; and what it will be tomorrow.

Respectfully submitted,

Mr. Joseph Nicholson

Principal, Jenkins School

ART, MUSIC, PHYSICAL EDUCATION

The teaching of Art, Music and Physical Education in the elementary schools today is light-years removed from the formal training of previous generations. These Special Subject areas have become the province of all children, not just those with special abilities. Today's children are encouraged to explore freely these special subject areas, using a variety of media for expression. Through this approach the student can approximate the process, discipline and meaning of the special subject areas.

This year the Scituate Public Schools has taken a step forward in its attempts to upgrade its special subject areas. We now have a full-time Art and Music Specialist housed in each of our elementary schools, a team of Physical Education Specialists and a team of Librarians covering all elementary buildings.

In the area of Art, consideration is given to these objectives: Perceptual Awareness, Aesthetic Experience, Creativity, Art skills and knowledge of material and Art heritage. These objectives are met through a wide variety of activities selected to encourage exploration and discovery.

The objectives of the Music program in the elementary schools include three types of learning products: Appreciation, Musical competencies and Musical concepts. Through such techniques as the Zoltan Kodaly method and other activities and media these objectives are being accomplished.

The physical education program is carefully planned to develop the social, emotional and physical growth of each child. Preparation for continuing pursuits of physical activities on an individual basis, as well as with a group or team, is encouraged. The physical education department has also recognized the unique and constructive part they play in meeting the needs of handicapped children.

Library services have become the heart of the teaching program today. No longer are libraries a storehouse of books, but media-centers — a laboratory of discovery. The wide use of multi-media audio-visual equipment has established our libraries as resource centers for our schools. Through instruction and demonstration the librarians have led our children through the doors of knowledge.

Respectfully submitted,

Mr. Louis VonKahle

Principal, Cushing School

CONCLUSIONS AND RECOMMENDATIONS

In conclusion, the elementary principals feel there are definite areas within the elementary level that are of great value and lend themselves most successfully to the individualization of the learning process. However, various areas need strengthening and further study in order that they may be more fully utilized with our present instructional patterns.

The elementary administrators recommend:

1. A continuation of the connecting class program as it is presently set up in the Scituate Public Schools.
2. That phase two of the Math Curriculum be implemented immediately.
3. That the present in-service workshop in word attack skills be followed by a workshop in comprehension skills.
4. That the recommendations of the Social Studies Curriculum Committee be implemented in grades K through 6 in the 1971-72 school year.
5. That the present teacher aide program be continued and expanded if the needs of the students warrant it.
6. That serious consideration be given to a revision in the area of spelling for the 1971-72 school year.
7. That greater financial support be given to the elementary science program.
8. That a full-time librarian or instructional media specialist be assigned to each school.
9. That adequate funding be given to our present library program to enable the institution of true media centers in each elementary school.
10. That an in-service workshop be given in the formulation of behavioral objectives for all personnel.
11. That a local in-service workshop for instructional aides be instituted in conjunction with the night school program.
12. That very serious reconsideration should be given to an allotted percentage of the school budget for research and development purposes.
13. That the School Committee reaffirm its position on the individualization of the learning process.

SCITUATE JUNIOR HIGH SCHOOL

At the Junior High School level many significant curriculum developments are taking place within a relatively short period of time. For example, new curriculum changes in the English department place emphasis on developing a workshop approach to the teaching of composition; also much attention is being placed on developing the fundamentals of English — reading, writing, speaking, listening, spelling and vocabulary. In developmental reading the stress is placed on the further application, refinement and the extension of the reading and communication skills developed in the middle grades.

In social studies the program is to replace a strictly chronological perspective with a thematic or topical approach to the study of the "human condition." The two grades are seen as part of a whole cumulative sequence using relevant historical and contemporary materials. Interdepartmental coordination with the art and music departments is being piloted in the 7th grade. Future plans beginning in April, 1971, feature a complete rotation of all students through the various members of the social studies department.

Currently, the mathematics department is reinforcing the 8th grade curriculum which now includes algebra I, pre-algebra, and general mathematics. In the 7th grade a mathematics laboratory, including visual aids, multi-texts, and team learning, has been established. A second laboratory is in the process of being established. The final phases of revived curriculum are now being tested through actual use in the classroom.

New courses in Science are now formulated for the Junior High that provide more exploratory experiences centered about a laboratory program in the areas of earth and life sciences and the physical sciences. Also, experimental work is being conducted with E R C (Educational Research Council) Life Science areas for student involvement programs.

In French, special emphasis is placed upon the audio-oral approach by means of dialogue and class discussion.

Presently the Scituate Junior High School has an enrollment figure of approximately 900 students. For the academic year 1971-1972, the anticipated enrollment is 950 students. This increase in enrollment will necessitate larger classes unless some temporary measures are taken to alleviate the overcrowded condition. At present, plans to remedy the situation are being discussed, but are still incomplete. At this point it should be noted that every effort is being made to avoid double sessions at the Junior High School. Although some curtailment in programs may result in some areas, we wish to assure all parents that the students' educational progress will not be adversely affected.

Finally, the staff at the Junior High School is to be commended for their interest and perseverance in curriculum improvement despite overcrowded conditions.

Respectfully submitted,

Mr. J. Joseph Gibbons
Principal

SCITUATE SENIOR HIGH SCHOOL

Scituate has grown tremendously in the past decade. This growth is reflected at all levels within the school community, but particularly at the high school level. In 1960, when the High School was first occupied, 700 students were

enrolled. Ten years later the figure is 1,403. With greater numbers of students and a large physical plant come some disadvantages: loss of identity within the group, difficulty of communication among administration, faculty and students, and the trend towards an impersonal approach to education.

Hopefully, the House Plan will counteract the impersonal approach to education and provide a personalized educational program for each student. Through the House Plan we hope to utilize assets common to small high schools while maintaining assets common to large schools: more course offerings, diversity of scheduling, and comprehensive co-curricular programs. The House Plan should provide a more personalized educational program and provide an emotional home base for each student where he may be recognized as an individual.

Business Department

The Department aims to give each pupil an employable skill, background knowledge and the understanding, occupational intelligence, and the development of personal qualities and attitudes that will make him a well-adjusted, employable person.

This is accomplished through a balanced program of skill subjects, social business subjects, and general educational subjects. The flexibility of the program allows pupils to move from one curriculum to another as abilities or weaknesses are discovered.

New programs introduced this year include retail merchandising and data processing. As these courses are developed more fully, increased visits to businesses are anticipated to provide the students with firsthand knowledge of actual business practices.

Plans are now under way to evaluate the non-skill areas in this department and much effort will be made in the next few years to improve courses such as General Business, Economics and Business Math.

English Department

In September, four new half-year English courses (drama, journalism, speech, composition) were initiated for upper classmen and the humanities program was expanded to include not only seniors, but also juniors. Quarterly elective writing, literary, reading and speech units were introduced to sophomores, and freshmen commenced a new curriculum with relevant literary works and additional subjective writing experiences.

The various pilot programs are an attempt to bring the student's living situation closer to his learning situation by considering who he is, where he is and where he is going.

The humanities program attempts to bring together the art, music and English of the particular era of literature being studied. This program is in its infancy and is undergoing continuing refinement.

Foreign Language Department

The sequential program in the Foreign Language Department is offering the student the opportunity to develop language skills and to gain an understanding of the foreign cultures studied.

A series of films from the French American Cultural Services and Education Aid has been incorporated in our program for enrichment.

Efforts are presently underway to offer a program to those beginning language students who find languages difficult during the first year. Consideration is also being given to the possibility of tracking in language courses.

Social Studies Department

The Social Studies Department feels that it is strategically equipped to make a strong contribution to the stated philosophy of Scituate High School. The specific philosophic objectives that the Social Studies Department tries to implement are stimulation of intellectual growth, formation of moral responsibility, emotional stability, and effective citizenship.

There are several innovations in the Social Studies Department this year. Black History and Cultures now represent 1/3 of the Problems of Democracy Course. This program tries to correct the omissions and distortions of previous courses in American History and make a beginning at correcting racial myths and attitudes. The program has been well received by the students.

The Problems of Democracy Course will also feature a new expanded unit on the American Economic System. This unit will be problem oriented and includes readings from many eminent economists.

A half-year offering in Social Anthropology will be offered both halves of the year. The course is concerned with an analysis and comparison of forms of organization in society. There will be much discussion centered on the concepts of race, culture, cultural change, cultural conflict, and cultural evolution. Cross cultural data will be used from several sources.

Science Department

A desired goal of all our science courses is the development of the students' ability to investigate problems objectively through laboratory experiments.

The goals, approach, activities and subject matter of the Introductory Physical Science courses are still evolving. The basic goal is to develop a course which appeals to student interest, and will develop an interest in science which the student will continue to pursue in daily life during the years ahead. This is achieved by developing a basic knowledge of our planet's ecology, our local ecology, and important scientific applications.

Next year the Science Department will be adding a senior course for those students who complete physics in the junior year.

Specialist Areas

Because of the tendency in today's student toward a more diversified and broadening program, we feel that the school can best fulfill this need by expanding the Reading, Art, Home Economics, Music and Industrial Arts programs.

In the past year we have added personnel in all but the music area as well as instituting new courses such as: Electronics, Technical Drawing III, Home Economics for boys and Advanced Foods.

From all indications continued efforts must be made to develop meaningful courses in these areas.

Mathematics Department

The Mathematics Department has moved to Phase 2 of the implementation of its pilot program in Probability and Statistics and Computer Mathematics by purchasing time on the IBM-1130 at Hull High School, while continuing to offer sequential programs that provide for individual difference, so that students of all levels of ability can achieve maximum growth. Also, a one-semester course to help prepare students for college boards has been instituted this year.

Respectfully submitted,

Mr. John Drinkwater
Acting Principal

SCITUATE SUMMER INSTITUTE

This year 431 students participated in the Summer Institute Program. This was a decrease in enrollment over last year. However, Driver Education, which is now offered during the school year at no charge, accounted for the greatest loss of students in any one course. Typing and Sewing both experienced a marked increase in enrollment and it was necessary to add an additional class for each course.

The Summer Camping Program for Exceptional Children was held again under the direction of Mark Swift. There were 17 students, two aides, and a host of teenage volunteers. Special commendation is given to the student volunteers for their dedication and effort in making this program so successful.

A class for those children with Specific Learning Disabilities was held at the Wampatuck School. A staff of five afforded those children an excellent corrective program. It was proven by this class that children with similar disabilities could be taught together in small groups. It is hoped that a program such as this can be offered again next summer.

Two Title I programs were offered as a part of the Summer Institute. The Bilingual Program which has been held for the previous two summers was continued. A new Title I program, the Pre-Kindergarten Primary Day Camp, was offered for the first time. The main goal of the program was to extend to pre-school children of low income and minority backgrounds additional educational and social experiences.

The Summer Institute employed 23 teachers, two practice teachers, two college students under work-study grants and a full time nurse. This staff is to be commended for their professional dedication and zeal which made the summer program a success.

Respectfully submitted,
Mr. George Galvin
Principal

ADULT EVENING SCHOOL

During the past year the Adult Evening School enrollment reached a milestone, enrolling over 1,000 persons for the first time in its history. Nearly 7% of the population of the town was involved in one or more of the 33 separate offerings given at both Junior and Senior High School locations. A report prepared by the Adult Education Association in Massachusetts in November 1968 showed that at that time Scituate was ninth in the state in percentage of citizenry enrolled in the Adult Evening School program and there is every indication that this position has been maintained.

Judging from our enrollment figures, which have increased markedly from year to year, and from pronouncements by educators across the country, adult evening school programs will play an increasingly important role in the vocational, recreational and educational goals of citizens in Scituate and elsewhere. To this end all those involved in the administration of the Adult Evening School program in Scituate continually attempt to insure that the needs of adult citizens in the town are reflected as much as possible in the courses offered. For a new course to be offered under the Adult Evening School a minimum of ten persons is required to enroll provided a qualified instructor can be found. Any citizens who are interested in having a particular course offered and feel this minimum can be maintained in attendance are urged to contact the Principal of the Adult Evening School.

Many new courses have been given during the past year and deserve mention. A very successful pilot project in Drug Education was begun this fall and will be continued in successive semesters for interested citizens in the town, enabling participants to hear guest speakers and providing an atmosphere in which this social problem may be discussed. Also, the Adult Civic Education course has been expanded to two nights a week in an effort to better serve

those in the town utilizing this program. The success of this program has been aided in large part by volunteers from the town who have devoted their time, without pay, to helping those enrolled in the course. In addition, the Adult Evening School, in conjunction with the Scituate Council on Aging, is conducting an afternoon Bridge class for those interested. In our search for diversity, courses such as Woodcarving, Advertising Art, Crocheting, and Investments have been added to the program.

In conclusion it must be noted that the staff of the Adult Evening School has been most professional in its dedication to the citizens of Scituate and deserves the utmost praise for its service to the community.

Respectfully submitted,

Mr. Jared FitzGerald
Principal

PUPIL PERSONNEL SERVICES

Pupil Personnel Services assist the classroom teacher and help children develop positive mental health. These services require counselors, nurses, the school doctor, visiting psychologists, speech and hearing specialists, and special teachers.

Although the high school counselors are concerned with the educational progress of the students assigned to them, the social and emotional well-being of the students is also of major importance. Many hours are devoted to counseling and guiding individual students. During the school year students and counselors have the opportunity to meet over one hundred and twenty-five representatives from colleges and business firms to discuss future plans and possibilities. Vocational counseling for those students wishing careers in trades and business immediately after graduation is receiving increased attention. The Work-Study program is continuing to aid students by exposing them to the business and economic environment.

The ever increasing numbers of seventh and eighth graders has placed an increasing strain on the guidance department in its attempt to be of service to all pupils. Additional counselors are needed at the Junior High Level.

Scituate now has a guidance counselor in each elementary school. They work with principals, students, teachers and parents to help students make normal progress in school. Counselors are familiar with the many community and regional resources to help those with special problems.

At the present time there are two speech therapists employed in the Scituate Public Schools. Up to the present time the speech program has been entirely remedial. Consideration should be given to the establishment of speech improvement classes apart from remedial speech therapy. The number of

children receiving speech therapy has increased substantially, due partly to population growth and partly to greater awareness of existing need. It is evident that additional personnel will be required to meet the growing demands in this area.

Scituate has an excellent health program with five full time nurses and a part time physician.

In cooperation with the State Department of Public Health, the Massachusetts Division of Maternal and Child Health, and the Scituate Board of Health, immunization programs have been held for German Measles, K - 6; Diphtheria and Tetanus, Grades 8 and 12; Mumps, Grades K - 6; Tuberculin Test, Grades 1, 9 and 12; and Small Pox, Grade 12. The school doctor and nurses not only work with the daily physical needs of students but work closely with the principals for a preventative health program.

An excellent and dedicated group of teachers continue to provide Scituate with an excellent program for exceptional children. Scituate is most fortunate in having many auxiliary agencies to provide help beyond the regular school personnel. The South Shore Mental Health Association, the Massachusetts Rehabilitation Commission, and the Scituate Board of Health have given us outstanding cooperation and service.

The guidance staff and the professional specialists in speech, health and special education are commended for their fine contributions to the Scituate educational program.

Respectfully submitted,

Mr. Samuel J. Tilden
Director

PERSONNEL

The Scituate Public Schools are dependent upon competent personnel. Public education requires a variety of personnel, services, skills, knowledge and level of preparation. Attainment of staff quality is a fundamental task of the school administration. The quality of the staff of the Scituate Public Schools is very good and efforts are continually being made by staff members to up-grade their existing skills. This has been marked by efforts such as the In-Service Reading Program for all elementary teachers.

The efforts being made by staff members is indicated by the fact that 47% of our teachers have credits beyond the Bachelors degree; 44% of the high school teachers have Masters degrees; 47% of the junior high school teachers and 27% of the elementary teachers have Masters degrees. This academic achievement of our staff members, compared to the New England average of 38% of the secondary school teachers and 19% of the elementary school teachers,

points out the efforts of our staff members to keep themselves well skilled in their areas of competence.

Our teaching staff of almost 300 personnel represents 103 different Baccalaureate degrees and is an excellent distribution of colleges and types of preparation.

Our school system constantly attempts to diagnose the educational needs of individual children. Our entire school staff is engaged in trying to meet the needs of children as exemplified by the support of our School Committee in providing teachers in the areas of guidance, reading, special subjects, and learning disabilities while maintaining a reasonable teacher-pupil ratio.

Respectfully submitted,
Mr. Joseph C. Driscoll
Assistant Superintendent

SCHOOL BUSINESS

Business

The business operation of the school system is continuing to be more diversified due to additional requirements of the Department of Education reporting system.

All procurement orders are controlled at the central administration after being initiated at each school. Complete records are kept to control the allocations of funds.

The bookkeeping department, the school secretaries and the school lunch managers are performing a most outstanding service in keeping up with a most difficult and complex volume of work.

School Lunch Program

The Scituate School Lunch Program served just under 650,000 lunches during the 1969-1970 school year. This averages out to approximately 3,600 lunches per day.

The School Lunch Program has a heavy baking program to make use of available government commodities. Yeast bread and rolls are baked in the school lunch bakery for all cafeterias. Cakes, pies, cookies and brownies are baked in the individual kitchens.

All cafeteria personnel are required to have an annual physical and x-ray. Kitchens are inspected regularly by the Board of Health. Cafeteria personnel have done an outstanding job to provide well balanced hot lunches to our school children.

The Director of the School Food Service, Mrs. Louise Snell, is commended for her outstanding lunch program that has been complimented for its well organized and effective operation in accordance with the state guidelines at each yearly audit.

Transportation

The transportation of school children in Scituate requires 12 large and 2 small school owned buses plus 9 contractor owned buses. Over 4,200 students are transported daily. In addition, small bus contractors are involved in transporting handicapped students to state approved schools.

The Supervisor of Transportation, Mr. Herbert E. Bearce, and the school bus drivers, both school employees and contractor employees, are commended for their outstanding devotion to the children and their duties in having an accident-free year as well as meeting the rigid schedule in all types of weather.

Maintenance

The school buildings have received excellent custodial care due to a most competent and resourceful maintenance force.

Respectfully submitted,

Mr. W. W. Childress

Business Manager

SUMMARY

In this report we have described the manifold ways in which the educational staff is working to strengthen our community. Such an undertaking is too important to be run ineffectively and inefficiently. Schools, like any activity conducted by man, can be made better than they are; and as they are improved, we will reap even greater benefits. Improvements will occur as taxpayers respond favorably to well-documented presentations of financial need and - most important - as the best minds of our rising generations are attracted to academic excellence.

In terms of quantity and quality, education is moving ahead. Our teachers are making more effective use of their skills through technology, research and new administrative procedures. Great opportunities lie ahead. There is a need to acquire greater and more constant strength of leadership to meet these opportunities. This need is matched by a feeling of confidence in the ability of our schools to serve our community and our society in even more challenging ways.

Respectfully submitted,

John J. Staples

Superintendent of Schools

SCHOOL COMMITTEE MEETINGS ARE OPEN

The Scituate School Committee meets regularly at 7:30 P. M. each month, September through June, on the first and third Mondays unless announced in the press. Meetings are held at each school building and are open to the public. The schedule of meetings for the school year is available at the office of the Superintendent of Schools.

ADMISSION TO THE SCHOOLS

To be admitted to kindergarten, a child must have reached the age of four years, eight months, on September 1 of the year he is to enter school.

To be admitted to grade 1, a child must have reached the age of five years, eight months, on September 1 of the year he is to enter school.

Children whose birth certificates are dated later than January 1 will not be enrolled for the current school year.

A vaccination certificate must be presented to the school when a pupil enters for the first time.

NOTE: Effective December 4, 1967, all school children must be immunized against smallpox, diphtheria, tetanus, pertussis, measles and polio, unless exempted for medical or religious reasons.

A birth certificate must be presented for those pupils whose births were recorded outside of Scituate.

Magill, Raymond

Malley, Robert

Mattern, Grace

Miles, Deborah

Parent, Marie

Samuelson, Karen

Seacord, Lynn

Struzziero, Edith

Wallen, Martha

Ward, Susan

Grade 10

Amendola, Joan

Ferreira, Milton

Mills, Carl

Babin, Peter	Fitzgerald, Robert	Nelson, Jeffrey
Brennan, Gail	Griffiths, James	O'Brien, Timothy
Buckman, Jeff	Harkin, Kathleen	Pipes, Barbara
Clark, John	Henry, Robin	Robotham, John
Clark, Kathryn	Honkanen, Kimberly	Sullivan, Mary
Clifford, Patricia	Judge, Ron	Traina, Valerie
Crowley, Nina	Krobock, Joseph	Travers, Michael
Cemello, Linde	Larson, Karen	Trifone, Mary
Dolan, Jean	Lassiter, Debbie	Weedon, Robert
Farrel, Nancy	Litchfield, Carolyn	Young, Donna
Faulkner, Scott	Logue, Maureen	

Grade 9

Adams, David	Gieser, John	McPherson, Helen
Allen, Jeffrey	Gorman, Susan	Montgomery, John
Bartlett, Jane	Hailer, Marion	Moynihan, Margaret
Burns, Brenda	Harris, Megan	Noonan, Anne
Callanan, Cynthia	Hook, Martha	O'Neill, Janice
Crawford, Cheryl	Hurtig, Carol	Parent, Claudette
Doolittle, Mark	Kafka, Jan	Reid, Norma
Drew, Carolyn	Kastner, Theodore	Sparrell, Duncan
Driscoll, Walter	Lassiter, Audrey	Sullivan, Mary C.
Gately, Kathleen	MacDonald, Thomas	Sweeney, Robert
Gerow, Carmen	Malley, Stephen	Terzis, Lee

SCITUATE HIGH SCHOOL

Class of 1970

GRADUATION PROGRAM

Processional: "Pomp and Circumstance"	Elgar
Invocation:	Reverend Charles D. MacLagan
Address of Welcome:	David E. Bates
Presentation of Scholarships:	Mr. Edward L. Stewart, Principal
Selection: "Somewhere"	High School Chorus
Graduation Addresses	Ann Kennedy, Carole Landers
Presentation of Class for Graduation	Mr. Edward L. Stewart, Principal
Acceptance of Class for Graduation	Mr. John J. Staples, Superintendent of Schools
Conferring of Diplomas	Mrs. Joan Hefner, Chairman, School Committee
Benediction	Reverend Charles D. MacLagan
Recessional: March from "Aida"	Verdi

CLASS OFFICERS

President	David E. Bates
Vice President	Raymond B. Brown
Secretary	Ellen M. McManus
Treasurer	Eileen A. Hanlon

GRADUATING CLASS OF 1970

Susan Anne Abrahamson	Janet Allen	Robert L. Appel
Robert S. Allan, Jr.	Linda Ceceil Anderson	*Annette Atkinson

Janet Elizabeth Auld	W. Gray Curtis	Catherine H. Hooker
Robert John Ayer	Craig Norman Dalton	Kathleen M. Hunt
Heather Ann Baird	Nancy Anne Damon	Michael Robert Hutchins
Monica G. Baker	Alice Elizabeth Dayton	Christine Ann Jacobson
Paul R. Barrington	Paula Marie Deckel	Laura Louise Jaeger
Robert G. Barron	Karen Ann Desler	Marc S. James
Donna Lee Bartlett	Bruce A. Dillon	* Charles Walter Jenks III
Richard Alden Bartlett	* Kristen A. Dorr	Leslie Ann Johndrow
David Emery Bates	Jean E. Dresser	Candace Adams Jones
Donna Lynn Bearce	David W. Drew	Deborah Jones
Robert Joseph Bearce	Richard L. Drum	Charles Guy Kafka
Gail Beirne	Denise M. Duarte	Deborah Ann Keefe
Karen Therese Black	Candace Dwight	Alan N. Keirnan
Kevin Patrick Black	Constance Dwight	* Ann Elizabeth Kennedy
Mark Edward Bordne	Peter S. Ellis	Mark Kibbe
Valerie Ruth Boynton	Sarah Lloyd	Susanne Kiniry
Jane Elizabeth Brady	Patricia A. Fallon	Stafford A. Lackey
Karen May Brasier	John F. Field	Catherine A. Lahage
JoAnne Brennan	Leslie W. Fields	* Carole P. Landers
Steven Edward Brennan	Jane E. Fieser	Joan Elizabeth Landry
Thomas Michael Bresnahan	Deborah Ann Fishwick	Robert F. Lavoine, Jr.
David Allen Brisson	* Kevin J. Fitzgerald	Stephen A. Lavoine
Laurel Jean Brown	Leo Thomas Flanagan	Denise M. Lazarovich
Raymond Bernard Brown	Karen Marie Fleming	John Craig Leach
Wilson Hollis Brown	Kathleen Mary Fleming	David A. Lehane
John Jay Burkhardt	William James Fleming III	Joseph P. Leighton
Barbara Gay Busser	Marie Deborah Flynn	Mary Elizabeth Linnehan
Richard Joseph Butterworth	Thomas Francis Galligan	John J. Lopes
Robert John Butterworth	Lester Gammon	Dorothy E. Lydon
Cynthia Jaye Callahan	Daniel L. Garte	Mona Therese Lydon
Catherine F. Callanan	Michael S. Gaudreau	J. Michael Lynch
Elizabeth Joanna Carr	Peter J. Gieser	Cecily Helen MacArthur
John R. Carroll	Janice Faith Gladu	Bryan S. Mackey
Jill Chandler	Philip R. Greim	Lindsay Alexandra Madden
Janecke' Louise Clark	Stephen M. Grief	Gail Carol Margeson
James Thomas Clifford	Bruce E. Griswold	John Jeffrey Marini
Susan G. Coates	Sandra M. Gushee	Katherine A. Marshall
* Bernard Harry Cohen	Susan M. Hamacher	Mary Louise Martin
Maryalice Collins	Susan Jo Hanley	Diane Mary Martino
Michael F. Collins	* Eileen Anne Hanlon	Elizabeth Carol Mattern
Stephen Allen Collins	Stephen J. Hanlon	Donald A. Mauch
S. Linda Connolly	Robert R. Hansell	Susan Elise Mayer
Ann Elizabeth Connors	Mark Harrington	* Joseph Cornelius McAdams
Peter F. Crowell	Susan L. Hayward	William McCarthy, Jr.
Christine C. Crowley	Robert L. Healy	Cecelia Marie McCulloch
Francis Joseph Crowley	Donna M. Heman	Jean McFarlane
Sheila Ann Crowley	John Michael Henry	William Edward McGrath
James F. Cullion	Donna Sue Herold	Jeanne Marie McKeown
Cnythia Anne Curney	Mark Francis Hickey	Lynda S. McLean
Karen Frances Curtis	Anne Marie C. Hoey	Kevin J. McLevedge
	Nancy Elizabeth Hook	

Ellen Marie McManus	Gilbert J. Patterson	Margaret Ellen Sprague
Elizabeth Ann McMath	Debra Jean Pease	Leo Stack
Linda McPherson	Donna Marie Penny	William Stack
Deborah Anne Mee	John Winslow Peters	Donald Arthur Stone, Jr.
Ronald A. Merritt	Robert Porter	Peter Michele Stravinski
Thomas H. Merz	Susan Anne Powers	Kevin Byrne Sullivan
Janice Reed Messier	*Carole Helen Reid	*Richard Lewis Switzer
Katherine Ann Miller	Joseph J. Reynolds	John Bernard Tansey
Judith Hildebrand Mills	Cheryl Lee Rhodes	John James Taylor
Deborah Ann Minahan	Ellen Louise Rice	Jonathan D. Tooher
Paul Arthur Miner	Paul Rizzotto, Jr.	Jeffrey W. Townes
Kathleen Joy Mirarchi	Louise Teresa Roche	*Pamela Ann Traina
Eleanor Sarah Mitchell	John F. Rogers	James Kevin Travers
Anna Marie Monteiro	Frank Edward Ronzio	Betty Jo Vigil
Frances Helen Montt	Alan S. Ross	James Philip Wall
Denis H. Moore	Carolyn Russ	Kevin Shea Wall
Kim B. Moore	William E. Russell	Christopher Walsh
David Alan Morrill	Janet Marie Russo	Laurie Lynn Walsh
John A. Mullaney, Jr.	William H. Rylander	Martin Jerome Waters
*Kathleen Marie Murphy	Cindia Sanford	Mary Ellen Weeks
David Jonathan Murray	Paula Louise Scott	Susan Alison Wells
Janice L. Neville	James R. Sexton	Lorraine Melanie Wessman
Charles W. O'Connor	Marianne Shakespeare	John Stephan Wheeler
Margaret Ann O'Donnell	Catherine M. Shedd	Sharon Lee Whitney
Jonathan G. Palmer	Andrea Shields	Robert Bradley Woodgate, Jr.
Terry Don Parker	Jeffrey Vincent Smith	Deborah Joy Yeaton
Ann Patricia Pasiuk	Patrick W. Smith	Ellen Marie Young

*Members of the Anne Cuneen Chapter of the National Honor Society. Each has a four year average of eighty-seven per cent or higher. Members wear blue and white stoles and gold tassels.

SCHOLARSHIPS

Scituate Scholarship Fund Scholarship
 Scituate Teachers' Ass'n. Scholarship
 Satuit V.F.W. Post 3169 and Its Ladies
 Auxiliary Scholarship

Scituate Health Service Scholarship

P.M. Club of Scituate Scholarship

Scituate Grange Scholarship
 Scituate Police Relief Ass'n. Scholarship

Scituate Music Department Scholarship
 Satuit Band Scholarship

Ann Kennedy

For countless centuries man has walked by the ebb of the tide seeking what the sea has tossed up from the fathoms of the deep. Scituate shores have been most bountiful over the years. Since the town was settled many wrecks have come ashore, and, until the steel tanker "Etrusco" landed on Lighthouse point, it was assumed that all the vessels had been constructed of wood.

Early of Sunday, November 16, 1970 a mysterious object was sighted off the beach near Fourth Avenue. As the day wore on the object was carried north until, as the height of the tide was reached, it floated onto Mann Hill beach, half-way between Egypt and North Scituate beaches. After the tide receded a long body lay in full view. As news of a "sea serpent" spread, great numbers of people rushed to the beach, and by the next day thousands had seen the awesome sight.

Many were the conjectures made as to the identity of the species — possibly a shark, perhaps a serpent, or some other denizen of the deep. Experts disagreed, and a future determination was made possible only by the removal of the carcass from the sand where it had been buried to the New England Aquarium in Boston. There, in about a year, it will be mounted and a decision made as to its identity. We are pleased to present a picture taken twenty minutes after the creature landed on the shore.

What is your conclusion? People living in Japan, Australia, South America, and on the east and west coasts of the United States will be glad to know. May Scituate shores continue to stimulate our interest in the mysteries of the sea.

M/H

by Robert H. Tilden
